Agricultural Marketing Service

CASPER SALES PAVILION

DEPOSTING OF STOCKYARD

It has been ascertained that the Casper Sales Pavilion, Casper, Wyoming, originally posted on June 26, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under that act for the reason that it no longer meets the area requirements. Accordingly, notice is given to the owner thereof and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a livestock market which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in the act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after its publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 20th day of September 1956.

[SEAL] H. E. REED,
Director, Livestock Division, Agricultural Marketing Service.

Office of the Secretary

SOIL BANK PROGRAM; COMMODITY STABILIZATION SERVICE

RESERVATION OF FUNCTIONS

Pursuant to authority contained in R. S. 161 (5 U. S. C. 22) and Reorganization Plan No. 2 of 1953, the Acting Secretary's order dated December 24, 1953 (19 F. R. 74), as amended by the Acting Secretary's order of June 13, 1956 (21 F. R. 4260) to include the assignment of functions to the Commodity Stabilization Service with respect to the Soil Bank Program, is further amended to reserve to the Secretary the function of designating grazing areas, and to read as follows:

SEC. 1101. *Reservations—a. Reservations to the Secretary.* • • •

(5) Designation of areas in which grazing is permitted under Soil Bank Program (70 Stat. 189, 192).

Done at Washington, D. C., this 21st day of September 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FARMERS HOME ADMINISTRATION AND COMMODITY STABILIZATION SERVICE

TRANSFER AND RESERVATION OF CERTAIN FUNCTIONS WITH EMERGENCY LIVESTOCK FEED PROGRAMS

Pursuant to the authority contained in section 42 (d) of the Bankhead-Jones Farm Tenant Act, as amended (7 U. S. C. 1016 (d)), Reorganization Plan No. 2 of 1953, and the delegation from the Administrator, Federal Civil Defense Administration, as amended (18 F. R. 4609; 19 F. R. 2148, 5364); sections 1100 and 1400 of the Acting Secretary's Order of December 24, 1953 (19 F. R. 74) are further amended to transfer from the Commodity Stabilization Service to the Farmers Home Administration certain additional functions and responsibilities with respect to the Emergency Livestock Hay and Roughage Feed Programs. Sections 1101 and 1401 of that Acting Secretary's Order are also amended to reserve to the Secretary certain functions with respect to such programs. The amendments read as follows:

SEC. 1100. *Assignment of functions.* • • •

d. Emergency Livestock Feed Programs administered in accordance with cooperative agreements with the several States and pursuant to Public Law 875, 81st Congress, Public Law 38, 81st Congress, as amended, and section 301 of Public Law 480, 83d Congress; except (1) the Emergency Livestock Hay and Roughage Feed Programs, and (2) the establishment of rules and regulations for determining eligibility, and certification of eligibility, of farmers, ranchers, and stockmen for assistance under Emergency Livestock Feed Programs.

SEC. 1101. *Reservations—a. Reservations to the Secretary.* • • •

(4) Designation of areas in which Emergency Livestock Feed Programs may be carried on, and entering into cooperative agreements with the several States with respect to such programs.

SEC. 1400. *Assignment of functions.* • • •

o. Emergency Livestock Hay and Roughage Feed Programs administered in accordance with cooperative agreements with the several States and pursuant to Public Law 875, 81st Congress, Public Law 38, 81st Congress, as amended; and the establishment of rules and regulations for determining the eligibility of farmers, ranchers, and stockmen for assistance under other Emergency Livestock Feed Programs administered in accordance with cooperative agreements with the several States and pursuant to Public Law 875, 81st Congress, Public Law 38, 81st Congress, as amended, and section 301 of Public Law 480, 83d Congress, and the certification of eligible applicants pursuant to such rules and regulations by county committees established under the Bankhead-Jones Farm Tenant Act, as amended.

SEC. 1401. *Reservations—a. Reservations to the Secretary.* • • •

(9) Designation of areas in which Emergency Livestock Hay and Roughage Feed Programs may be carried on, and entering into cooperative agreements with the several States with respect to such programs.

Done at Washington, D. C., effective August 24, 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FEDERAL FACILITIES CORPORATION

ALCOHOL BUTADIENE PLANT, LOUISVILLE, KENTUCKY

INVITATION FOR PROPOSALS FOR LEASE

The existence of the Rubber Producing Facilities Disposal Commission terminated on September 23, 1956. By Executive Order 10678, effective September 24, 1956, the President has designated Federal Facilities Corporation to administer all matters involving the Commission, including the powers and authority conferred by Public Law 433, 84th Congress, 2nd Session (70 Stat. 51) relative to the leasing of the alcohol butadiene plant at Louisville, Kentucky.

Pursuant to the Rubber Producing Facilities Disposal Act of 1953 (67 Stat. 408) (Act), and Public Law 433, 84th Congress, 2nd Session (70 Stat. 51), Federal Facilities Corporation invites written proposals for the lease of the Government-owned alcohol butadiene plant, Louisville, Kentucky.

This facility, designated Plancor 1207, produces butadiene from ethyl alcohol. It has an annual capacity of 87,000 short tons, and is presently leased from the Government by Publicker Industries Inc. This lease will expire April 4, 1958. Copies of the lease are available upon application to Federal Facilities Corporation. Proposals shall be made subject to the existing lease.

Proposals shall be in writing and may be submitted at any time through October 31, 1956, at the office of Federal Facilities Corporation, 811 Vermont Avenue NW., Washington 25, D. C.

Proposals shall be accompanied by a deposit of $2,500. Deposits shall be made by certified check payable to the order of Federal Facilities Corporation and will be refunded without interest at the conclusion of negotiations.

Any lease shall contain a "National Security Clause" and shall also contain provisions for the recapture of the facility and the termination of the lease if the President determines that the national interest so requires. Any lease shall be for a term of not less than 5 years nor more than 15 years from the date of termination of the existing lease; the precise term desired should be specified in the proposal.

Upon receipt of proposals, Federal Facilities Corporation will enter into lease negotiations for a period of not less than 30 days from October 31, 1956, with those submitting proposals. The date of termination of negotiations will be determined by Federal Facilities Corporation and announced to all eligible bidders.

A detailed descriptive brochure relating to the Louisville facility may be obtained upon application to Federal Facilities Corporation.

The act and Public Law 433 prescribe in detail, as well as generally, procedural and substantive standards pursuant to which lease of the Louisville facility is to be effected. To facilitate compliance with these standards, Federal Facilities Corporation has prepared Instructions for the Submission of Proposals which set forth the requirements for such proposals. Copies of the Instructions will be available upon application to Federal Facilities Corporation.

Dated: September 25, 1956.

FEDERAL FACILITIES CORPORATION,
[SEAL] LAURENCE B. ROBBINS,
Administrator.

FEDERAL POWER COMMISSION

[Docket No. G-3250]

THEO. HAMM BREWING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 18, 1956.

Take notice that Theo. Hamm Brewing Co. (Applicant), a Minnesota corporation with principal place of business at 217 Hamm Building, St. Paul 2, Minnesota, filed, on September 27, 1954 as amended October 3, 1955 and December 19, 1955, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas in interstate commerce from production of 381.5 acres, North Louise Field, Wharton County, Texas, to Tennessee Gas Transmission Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on Tuesday, October 23, 1956, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of §§ 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 8, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 56-7727; Filed, Sept. 25, 1956; 8:46 a. m.]

[Project No. 2217]

PACIFIC POWER & LIGHT CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

SEPTEMBER 18, 1956.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by Pacific Power & Light Company, of Portland, Oregon, for preliminary permit for proposed water power Project No. 2217 to be located on the South Fork of Coquille River in the region of Coos Bay, Myrtle Point, and Powers in Coos County, Oregon, affecting lands of the United States within the Siskiyou National Forest. The proposed project would consist of an earth and rock fill dam about 170 feet high with crest at elevation 2200 feet at the Eden Ridge dam site (approximately river mile 23) creating a reservoir with usable storage of about 23,000 acre-feet; a tunnel about 11,000 feet long; a steel penstock about 4,100 feet long; a powerhouse located at about river mile 11.5 having an installation of about 67,500 kilowatts; and appurtenant facilities. The energy generated would be distributed through the applicant's transmission system to its customers and to the Northwest Power Pool. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is November 5, 1956. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3506]

CENTRAL PUBLIC UTILITY CORP.

ORDER AUTHORIZING LIMITED RENEWALS OF GUARANTY BY PARENT OF SHORT-TERM NOTE OF SUBSIDIARY

SEPTEMBER 20, 1956.

Central Public Utility Corporation ("Cenpuc"), a registered holding company, has filed a declaration and an amendment thereto pursuant to sections 7 and 12 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-45 thereunder regarding the following proposed transactions:

Cenpuc proposes to guarantee, for an additional period from September 24, 1956 to January 4, 1957, and thereafter for additional periods not exceeding nine months from September 24, 1956, payment of the renewal promissory note or notes of its wholly-owned subsidiary The Islands Gas and Electric Company ("Islands") to the order of The Hanover Bank, New York, New York, in the principal amount of $2,000,000, with interest at the rate of 3½ percent per annum. Cenpuc will pledge to said bank, as security for the due payment of Islands' note or notes, a Time Deposit Open Account in the amount of $2,000,000 bearing interest at the rate of 2 percent per annum.

The proposed renewal or renewals represent a further extension of Cenpuc's guaranties of the aforesaid obligation of Islands to said bank, originally authorized by the Commission on December 16, 1955, and renewed at 90-day intervals thereafter. Although anticipating that Islands will receive sufficient moneys to pay its note to the bank before January 4, 1957, Cenpuc seeks authority to extend its guaranty to a date not later than June 24, 1957 in the event of further delay.

Due notice having been given of the filing of said declaration as amended, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the act are satisfied:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 131]

MOTOR CARRIER APPLICATIONS

SEPTEMBER 21, 1956.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 217 Sub 1, filed September 10, 1956, POINT TRANSFER, INC., 1927 Sherrick Road SE, Canton, Ohio. Applicant's representative: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Chevrolet Division of General Motors Corporation in Lordstown Township, Trumbull County, Ohio as an off-route point in connection with applicant's authorized regular route operations between Pittsburgh, Pa., and Akron, Ohio, over Pennsylvania Highways 88 and 51, Ohio Highways 7 and 14, and U. S. Highway 224. Applicant is authorized to conduct operations in Pennsylvania, Ohio, and West Virginia.

No. MC 217 Sub 2, filed September 10, 1956, POINT TRANSFER, INC., 1927 Sherrick Road SE, Canton, Ohio. Applicant's representative: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the Chrysler Corporation Plant located on or near Ohio Highway 82 in Twinsburg Township, Summit County, Ohio as an off-route point in connection with applicant's authorized regular route operations between Pittsburgh, Pa., and Akron, Ohio, over Pennsylvania Highways 88 and 51, Ohio Highways 14 and 7, and U. S. Highway 224. Applicant is authorized to conduct operations in Pennsylvania, Ohio, and West Virginia.

No. MC 7663 Sub 2, filed September 12, 1956, LAPP EXPRESS CO., INC., 410 East Center Street, Medina, N. Y. Applicant's representative: Samuel V. Gianniny, 25 Exchange Street, Rochester 14, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Navy Night Drift Signals, Class B Explosives;* (2) *Navy Depth Charge Markers (Calcium Phosphide), Class C Explosives;* (3) *Army Ordnance Time Fuse, Class C Explosives*, from the town of Murray, Orleans County, N. Y., to railhead in Village of Holley, Town of Murray, Orleans County, N. Y., and to motor carriers' freight terminals in Rochester and Buffalo, N. Y.

No. MC 8948 Sub 36, filed August 30, 1956, WESTERN TRUCK LINES, LTD., 2835 Santa Fe Avenue, Los Angeles 58, Calif. For authority to operate as a *common carrier*, over regular and irregular routes, transporting: *Class A, B and C explosives*, as defined by the Commission, *ammunition and component parts* not included in Class A, B and C explosives, and *component parts of Class A, B and C explosives*, between El Paso, Tex., and points in Arizona authorized to be served in the transportation of General Commodities, with the usual exceptions, as described in Certificate No. MC 8948 and subs thereunder, serving the territory in Arizona authorized under irregular-route operations and all intermediate points located on the regular routes authorized therein and all off-route points authorized therefrom, including Fort Huachuca, Ariz. Applicant is authorized to conduct operations in Texas, California, Nevada, and Arizona.

No. MC 10928 Sub 30, filed August 29, 1956, SOUTHERN-PLAZA EXPRESS, INC., 2001 Irving Boulevard, Dallas, Tex. Applicant's representative: Charles W. Singer, 1825 Jefferson Place NW., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Chicago, Ill., and Houston, Tex., as follows: from Chicago, over Illinois Highway 50 to junction U. S. Highway 54, thence over U. S. Highway 54 to junction U. S. Highway 45, thence over U. S. Highway 45 to junction Illinois Highway 37, thence over Illinois Highway 37 to junction U. S. Highway 51, thence over U. S. Highway 51 to Cairo, Ill., thence over U. S. Highway 60 to Poplar Bluff, Mo., thence over U. S. Highway 67 to Texarkana, Tex.-Ark., thence over U. S. Highway 59 to Houston, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Illinois, Kansas, Missouri, Oklahoma, Tennessee, and Texas.

No. MC 17091 Sub 4, filed August 20, 1956, ISAAC JONES, JR., 321 Lexington Avenue, Pitman, N. J., Applicant's representative: G. A. Bruestle, President, Motor Carriers Service Bureau, Inc., southeast corner Broad and Spring Garden Streets, Philadelphia 23, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Coke*, in dump vehicles, from Philadelphia, Pa., to points in Delaware, Maryland, and New Jersey, and (2) *Sulphate of Ammonia*, in bulk, in dump vehicles, from Philadelphia, Pa., to points in Delaware, Maryland, New Jersey, and New York. Applicant is authorized to conduct operations in New Jersey, New York, and Pennsylvania.

No. MC 23976 Sub 7, filed August 21, 1956, BEND-PORTLAND TRUCK SERVICE, INC., 1321 Southeast Water Avenue, Portland, Oreg. Applicant's representative: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving to and from the Pelton Damsite, near Warm Springs, Oreg., and points within seven (7) miles thereof, as intermediate and off-route points in connection with applicant's authorized regular route operations between Portland, Oreg., and Burns, Oreg. Applicant is authorized to conduct operations in Oregon.

NOTE: Applicant has regular route authority in Certificate No. MC 23976, dated October 12, 1956, which describes the highway from Portland to junction U. S. Highway 97 as being Oregon Highway 50. The destination of this highway was changed by the Oregon Highway Commission from Oregon Highway 50 to U. S. Highway 26.

No. MC 28813 Sub 18, filed September 4, 1956, MOTOR EXPRESS, INC., OF INDIANA, 701 Illinois Building, Indianapolis, Ind. Applicant's representative: Ferdinand Born, 708 Chamber of Commerce Building, Indianapolis 4, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Iron and steel articles*, from Aurora, Ind., to points in Indiana. Applicant is authorized to conduct operations in Indiana, Illinois, Ohio, and Wisconsin.

No. MC 29886 Sub 90, filed September 10, 1956, DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Self-propelled construction, moving and road building equipment, cranes, straddle trucks, fork lift trucks, tractors, tow-motors, trucks* (with or without bodies or machinery attached thereto), *trailers* (except those designed to be drawn by passenger automobiles) and *parts thereof*, when such parts move with the unit being transported, and *such commodities in need of repair or rebuilding*, on return, from Portland, Oreg., to points in the United States.

No. MC 30387 Sub 208, filed September 6, 1956, KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. Applicant's representative: Lyle DeVuyst, Traffic Manager, Kenosha Auto Transport Corporation (same address as applicant). For authority to operate as a *common carrier*, over irregular routes, transporting: *Trailers*, other than those designed to be drawn by passenger automobiles, in initial movements, by the truckaway method, from Los Angeles, Calif., to points in the United States. Applicant is authorized to conduct operations throughout the United States.

No. MC 31600 Sub. 413, filed September 13, 1956, P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham 24, Mass. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid chocolate, liquid chocolate products*, and *cocoa butter*, in bulk, in tank vehicles, from New York, N. Y., to Bryan, Ohio. Applicant is authorized to conduct operations in Massachusetts, Connecticut, New Hampshire, Rhode Island, Vermont, Maine, New York, New Jersey, and Pennsylvania.

No. MC 36144 Sub 3, filed September 4, 1956, LAW & INGHAM TRANSPORTATION COMPANY, INC., 118½ Amherst Street, Nashua, N. H. Applicant's representative: Thomas J. O'Loughlin, Jr., 18 Baker Street, Hudson, N. H. For authority to operate as a *common carrier*, over regular and irregular routes, transporting: *General commodities*, except those of unusual value, Livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over a REGULAR ROUTE, between Nashua, N. H., and Lowell, Mass., over U. S. Highway 3, serving all intermediate points; and over IRREGULAR ROUTES, between points in Hillsboro County, N. H., on the one hand, and, on the other, points in that part of Franklin County, Mass., on and east of Massachusetts Highway 63 and points in Worcester, Middlesex, Essex, Suffolk, and Norfolk Counties, Mass. Applicant is authorized to conduct regular and irregular operations in Massachusetts and New Hampshire.

No. MC 37830 Sub 6, filed August 6, 1956, COHENNO INC., 57 Lambert Avenue, Stoughton, Mass. For authority to operate as a *common carrier*, over irregular routes, transporting: *Lumber*, from New Bedford, Mass., to points in Massachusetts and Rhode Island, and from Providence, R. I. to Boston, Mass. and points in Massachusetts within a 50-mile radius of Boston. Applicant is authorized to conduct operations in Rhode Island, New Hampshire, and Massachusetts.

No. MC 40663 Sub 5, filed August 27, 1956, M & H TRANSPORT SERVICE COMPANY, a corporation, 3403 Detroit Avenue, Toledo, Ohio. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Toledo, Ohio, and Detroit, Mich., over the Detroit-Toledo Expressway, serving the intermediate point of Monroe, Mich., (2) *empty containers or other such incidental facilities* (not specified) from Detroit, Mich., to Toledo, Ohio, over the Detroit-Toledo Expressway, serving the intermediate point of Monroe, Mich. (3) Serving the site of the Ford Motor Company plant located at the northeast intersection of Mound Road and 17-Mile Road in Sterling Township, Macomb County, Mich., as an off-route point in connection with carrier's authorized regular route operations to and from Detroit, Mich., and the Commercial Zone thereof.

No. MC 42329 Sub 126, filed September 10, 1956, HAYES FREIGHT LINES, INC., 628 East Adams Street, Springfield, Ill. Applicant's representative: Carl L. Steiner, 39 South LaSalle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Clayton and Lambert Manufacturing Company plant near Buckner, Ky., as an off-route point in connection with applicant's authorized regular route operations (a) between Louisville, Ky., and Cincinnati, Ohio, over U. S. Highway 42, and (b) between Cincinnati, Ohio, and Fulton, Ky., over U. S. Highways 25, 60, and 51.

No. MC 42487 Sub 319, filed August 27, 1956, CONSOLIDATED FREIGHTWAYS, INC., 2029 Northwest Quimby Street, Portland, Oreg. Applicant's representative: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Los Angeles, Calif., on the one hand, and, on the other, San Bernardino, Redlands, Riverside, and Santa Ana, Calif., as follows: (a) From Los Angeles over U. S. Highway 66 to San Bernardino; (b) from Los Angeles over U. S. Highways 70 and 99 to Redlands; (c) from Los Angeles, over U. S. Highway 60 to Riverside; and (4) from Los Angeles over U. S. Highways 101 and By-Pass 101 to Santa Ana; (2) between West Covina, Calif., and junction California Highway 39 and U. S. Highway 101, over California Highway 39; and (3) between Colton, Calif., and junction U. S. Highways 91 and 101, over U. S. Highway 91, and return over the above routes, serving all intermediate points, and off-route points within five (5) miles of the above-specified routes. Applicant is authorized to conduct operations in California, Idaho, Illinois, Iowa, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming.

NOTE: Applicant states that the above transportation is to be in connection with applicant's authorized regular route operations to and from Los Angeles, Calif.

No. MC 42487 Sub 320, filed September 4, 1956, CONSOLIDATED FREIGHTWAYS, INC., 2029 Northwest Quimby Street, Portland, Oreg. Applicant's representative: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sulphuric acid*, in tank vehicles, from Kellogg, Idaho and points within five miles thereof, to points in that part of Washington on and east of U. S. Highway 97 and on and north of U. S. Highway 2.

No. MC 45893 Sub 9, filed September 7, 1956, FINIS ROSS, doing business as ROSS TRUCK LINES, 204 South Diamond, P. O. Box 249, Paola, Kans. For authority to operate as a *common carrier*, over regular routes, transporting: *Household goods, emigrant movables*, and *general commodities*, except those of unusual value, Class A and B explosives, commodities in bulk, and those requiring special equipment, from Parker, Kans., to Osawatomie, Kans., from Parker over unnumbered highway to junction of Kansas Highway 7, thence over Kansas Highway 7 to junction U. S. Highway 169, thence over U. S. Highway 169 to Osawatomie, Kans., and return over the same route, serving intermediate and off-route points within 25 miles of Parker, Kans., not including Ottawa, Paola and Hillsdale, Kans.

NOTE: This application to obtain same authority northbound between Parker and Osawatomie, Kans., as now exists southbound between the same points, under authority Docket No. MC 45893 Sub 6.

No. MC 48880 Sub 6, filed August 28, 1956, HARRY C. GOODWIN AND GENIO D. ARCIPRETE, doing business as GOODWIN & COMPANY, 675 Concord Avenue, Cambridge, Mass. Applicant's representative: George C. O'Brien, Ten State Street, Boston 9, Mass. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Aluminum products*, generally handled in warehouse stock, as more fully described in the application, from Boston and Cambridge, Mass., and points within ten (10) miles of Boston and Cambridge, to points in Massachusetts, Rhode Island, Connecticut, New Hampshire, and points in Vermont on and south of a line beginning at the New York-Vermont State line and extending through Orwell, Brandon, Bethel, and Thetford, Vt., to the Vermont-New Hampshire State line.

No. MC 52657 Sub 496, filed August 27, 1956, ARCO AUTO CARRIERS, INC., 91st Street and Perry Avenue, Chicago 20, Ill. Applicant's representative: Glenn W. Stephens, 121 West Doty, Madison, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Motor vehicles including trailers, and parts thereof*, when moving with such vehicles, in initial movements, in truckaway and driveaway service, from Cortland, N. Y., and points within five miles of Cortland, to points in the United States, and (2) *Tractors*, in secondary movements, in driveaway service, only when drawing trailers moving in initial driveaway service, as described above, from Cortland, N. Y., and points within five miles of Cortland, to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Kansas, Louisiana, Maine, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Vermont, Washington, Wyoming, and the District of Columbia.

No. MC 52869 Sub 47, filed August 27, 1956, NORTHERN TANK LINE, 8 South Seventh Street, Miles City, Mont. Applicant's representative: Robert N. Burchmore, 2106 Field Building, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, (1) from points in Wibaux County, Mont. to points in Wyoming, South Dakota, and North Dakota; (2) from Billings, Mont., and Laurel, Mont. to points in North Dakota and South Dakota; (3) from Miles City, Mont., and Glendive, Mont. and points within five (5) miles of each to points in South Dakota; (4) from Tioga, N. Dak. and Mandan, N. Dak. and points within five (5) miles of each to points in Minnesota; *damaged and returned shipments of petroleum and petroleum products* on return. Applicant is authorized to conduct operations in Montana, Wyoming, South Dakota, North Dakota, and Minnesota.

No. MC 52947 Sub 24, filed August 9, 1956, PINSON TRANSFER COMPANY, INC., 119 20th Street, Huntington, W. Va. Applicant's representative: Robert H. Kinker, 711 McClure Building, Frankfort, Ky. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Huntington, W. Va., and Aberdeen, Ohio, over U. S. Highway 52, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Kentucky, Ohio, Virginia, and West Virginia.

No. MC 61438 Sub 12, filed August 20, 1956, KANSAS CITY SOUTHERN TRANSPORT COMPANY, INC., 114 West 11th Street, Kansas City 5, Mo. Applicant's representative: Wm. E. Davis, 114 West 11th Street, Kansas City 5, Mo. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *articles of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk*, and *those requiring special equipment*, between Sallisaw, Okla., and Spiro, Okla., over U. S. Highway 59, serving no intermediate points, as an alternate route for operating convenience only in connection with carrier's authorized regular route operations (1) between Siloam Springs, Ark., and Fort Smith, Ark., and (2) between Fort Smith, Ark., and Mena, Ark.; provided that this route shall not be used in connection with the transportation of traffic entirely by motor vehicle in either direction between Shreveport, La., or points south thereof and Joplin, Mo., or points north thereof. RESTRICTIONS: (a) The service to be performed by said carrier is limited to service which is auxiliary to, or supplemental of, rail service of The Kansas City Southern Railway Company or The Arkansas Western Railway, hereinafter called the Railways; (b) Said carrier shall not service any point not a station on a rail line of the Railways; (c) No shipments shall be transported by said carrier as a common carrier by motor vehicle between any of the following points, or through or to, or from, more than one of said points: Kansas City, Mo.-Kans., Pittsburg, Kans., Joplin, Mo. (except in respect of shipments between Pittsburg and Joplin), Fort Smith, Ark., Shreveport and Lake Charles, La. (except in respect of shipments between Lake Charles, on the one hand, and, on the other, points south of Fort Smith, including Shreveport but not including Fort Smith), and Beaumont, Tex. Nor shall they be transported from Kansas City, Mo.-Kans., to Neosho, Mo.; (d) All contractual arrangements between applicant and the Railways shall be reported to this Commission and shall be subject to revision, if and as it is found necessary in order that such arrangements shall be fair and equitable to the parties; and (e) Such further specific conditions as the Commission, in the future may find it necessary to impose in order to restrict applicant's operation to service which is auxiliary to, or supplemental of, rail service. Applicant is authorized to conduct regular route operation under Certificate Nos. MC 61438 and Subs 2 and 10, in the transportation of *General commodities* in Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas, and under Certificate Nos. MC 52666 and Subs 3 and 5 of *Passengers and their baggage*, and of *light express, mail*, and *newspapers*, in the same vehicle with passengers, in Arkansas, Louisiana, Missouri, and Oklahoma.

No. MC 62537 Sub 57, filed August 30, 1956, GREAT LAKES FORWARDING CORPORATION, 1292 Fuhrmann Boulevard, Buffalo, N. Y. Applicant's representative: S. S. Eisen, 140 Cedar Street, New York 6, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automobiles* and *trucks*, in secondary movements, in truckaway service, from Baltimore, Md., to points in Alabama, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin.

No. MC 69224 Sub 24, filed September 11, 1956, URBAN J. HAAS AND CYRIL H. WISSEL, doing business as H & W MOTOR EXPRESS COMPANY, 3000 Jackson Street, Dubuque, Iowa. For authority to operate as a *common carrier*, over regular routes, transporting: (1) *General commodities, including Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment*, but excluding commodities of unusual value, over the following alternate routes for operating convenience only with no service at intermediate points, and serving the termini for purpose of joinder only, (1) between junction U. S. Highway 52 and Iowa 64 and junction of Iowa Highway 64 and U. S. Highway 61 over Iowa Highway 64; (2) between Marshalltown, Iowa, and Cedar Falls, Iowa, over Iowa Highways 14 and 57; (2) *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Iowa City, Iowa, and Mount Vernon, Iowa, from Iowa City over Iowa Highway 261 to Mount Vernon, and return over the same route, serving no intermediate points, and serving the termini for purpose of joinder only, and as an alternate route for operating convenience only; (3) *General commodities, including Class A and B explosives*, but excluding commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over the following service route, between site of Savanna Proving Grounds (also known as Savanna Ordnance), located near Savanna, Ill. (also known as Proving Grounds, Ill.), and site of Camp McCoy, near Sparta, Wis., from Savanna Proving Grounds over Illinois Highway 80 to the Illinois-Wisconsin boundary line, thence over Wisconsin Highway 80 to junction Wisconsin Highway 81, thence over Wisconsin Highway 81 to junction U. S. Highway 61, thence over U. S. Highway 61 to junction Wisconsin Highway 27, thence over Wisconsin Highway 27, to junction of Wisconsin Highway 21, thence over Wisconsin Highway 21 to Camp McCoy, and return over the same route, serving no intermediate points. RESTRICTION: To truckload or volume traffic moving on Government Bills of Lading. Applicant is authorized to conduct operations in Iowa, Illinois, Indiana, and Minnesota.

No. MC 76032 Sub 105, filed September 14, 1956, NAVAJO FREIGHT LINES, INC., 381 South Broadway, Denver 9, Colo. Applicant's representative: O. Russell Jones, 54½ East San Francisco Street, Southwest Corner Plaza, Santa Fe, N. Mex. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Gallup, N. Mex., and Window Rock, Ariz., from Gallup over U. S. Highway 666 to junction of New Mexico Highway 68, approximately five miles north of Gallup, thence over New Mexico Highway 68 to the Arizona-New Mexico State line, thence over unnumbered highways to Window Rock, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in California, New Mexico, Arizona, Texas, Colorado, Illinois, Nebraska, Missouri, and Iowa.

No. MC 86687 Sub 43, filed August 23, 1956, SEABOARD AIR LINE RAILROAD COMPANY, A Corporation, Seaboard Air Line Railroad Building, Norfolk 10, Va. Applicant's representative: James S. Cremins, Commerce Attorney, Law Department, Seaboard Air Line Railroad Company, Norfolk 10, Va. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities, including commodities of unusual value*, and *Class A and B explosives*, but excluding household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Andrews, S. C., and Charleston, S. C., from Andrews over South Carolina Highway 41 to junction U. S. Highway 17, thence over U. S. Highway 17 to Charleston, and return over the same route, serving the intermediate point of Jamestown, S. C. RESTRICTION: The service by motor vehicle proposed above shall be limited to service which is auxiliary to, or supplemental of, applicant's rail service. Applicant shall not serve any point not a station on its rail line. Shipments to be transported shall be limited to those moving under a through bill of lading or Railway Express receipt. Applicant is authorized to conduct motor carrier operations in Florida, Georgia, North Carolina, South Carolina, and Virginia.

No. MC 87206 Sub 2, filed August 16, 1956 (correction), PERKINS TRUCKING CO., INC., 46–25 54th Avenue, Maspeth 78, N. Y., published on page 7039, issue of September 19, 1956. The docket number shown was incorrect. The correct number is MC 87205 Sub 2.

No. MC 92983 Sub 174, filed August 27, 1956, ELDON MILLER, INC., 330 East Washington Street, Iowa City, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Fats* and *oils*, including *blends and products thereof* (except those derived from petroleum), in bulk, in tank vehicles, between Memphis, Tenn., on the one hand, and, on the other, points in Arkansas, Colorado, Delaware, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Minnesota, Missouri, Nebraska, New Jersey, North Carolina, Ohio, Oklahoma, South Carolina, Texas, Virginia, West Virginia, and Wisconsin. Applicant is authorized to conduct operations in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Tennessee, Texas, and Wisconsin.

No. MC 92983 Sub 177, filed September 13, 1956, ELDON MILLER, INC., 330 East Washington Street, P. O. Box 232, Iowa City, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles equipped for protection against heat and cold, between Memphis, Tenn., on the one hand, and, on the other, points in Alabama, Arkansas, Georgia, Mississippi, Louisiana, Missouri, and Kentucky. Applicant is authorized to conduct operations in Illinois, Nebraska, Iowa, Wisconsin, Missouri, Minnesota, Arkansas, Nebraska, and Kansas.

No. MC 95540 Sub 276, filed September 17, 1956, WATKINS MOTOR LINES, INC., Cassidy Road (P. O. Box 785), Thomasville, Ga. Applicant's representative: Joseph H. Blackshear, Gainsville, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Canned goods*, from points in Florida, to points in Nebraska on and east of U. S. Highway 281.

No. MC 97264 Sub 15, filed August 31, 1956, M AND M OIL TRANSPORTATION, INC., 2000 East Yellowstone, P. O. Box 2050, Casper, Wyo. Applicant's representative: Robert S. Stauffer, 1510 East 20th Street, Cheyenne, Wyo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, (1) from producing, refining and distributing points in Wyoming to points in Jackson County, Colo., and (2) from producing, refining and distributing points in Colorado located on and north of U. S. Highway 40 to points in Wyoming. Applicant is authorized to conduct operations in Colorado, Kansas, Nebraska, North Dakota, South Dakota and Wyoming.

NOTE: Duplicating authority to be eliminated.

No. MC 98404 Sub 2, filed August 27, 1956, JAMES C. COPE, doing business as COPE TRUCKING COMPANY, Bryson City, N. C. Applicant's representative: T. D. Bryson, Jr., Bryson City, N. C. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities, including those of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities in bulk*, but excepting commodities requiring special equipment, between points in North Carolina: (1) from Murphy, N. C. over U. S. Highway 19 to Asheville, N. C., serving Murphy, Andrews, Topton, Bryson City, Cherokee, Maggie, Waynesville, Lake Junaluska, Clyde, Canton, Enka, and Asheville, N. C.; (2) from Cherokee, N. C. to the North Carolina-Tennessee State line over N. C. Highway 107; (3) from Lauada, N. C. to Franklin, N. C. over North Carolina Highway 28; (4) from Lake Junaluska, N. C. over U. S. Highway 23–19A to Waynesville, Hazelwood, Sylva, Dillsboro, and Franklin, N. C. (5) from Sylva, N. C. to Whittier, N. C. over U. S. Highway 19–A, serving Dillsboro and Ela; (6) from Franklin, N. C. over U. S. Highway 64 to Hayesville and Murphy, N. C.; (7) from Topton, N. C. over U. S. Highway 129 to Robbinsville and Tapoco, N. C. and the North Carolina-Tennessee State line, and over an unnumbered highway to Fontana Village; (8) from Bryson City, N. C. over U. S. Highway 19 to Lauada, N. C., thence over U. S. Highway 19 to junction North Carolina Highway 28, thence over North Carolina Highway 28 to Stecoah, N. C., thence over unnumbered highway to Fontana Village; and return over the aforesaid routes, serving all intermediate points; IRREGULAR ROUTES: between points within a 50-mile radius of Asheville, N. C., and points in North Carolina west of U. S. Highway 1; *caustic soda* from points within a 50-mile radius

of Asheville, N. C. to Plymouth, New Bern, and Fayetteville, N. C.

NOTE: This application is filed to obtain a Certificate of Public Convenience and Necessity authorizing continuance of interstate operations conducted under the second proviso of section 206 (a) (1) of the Interstate Commerce Act, supported by intrastate certificate on file with this Commission.

No. MC 103378 Sub 75, filed August 30, 1956, PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's representative: Martin Sack, Atlantic National Bank Building, Jacksonville 2, Fla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Tall oil*, in bulk, in tank vehicles, from Foley, Fla., to Savannah, Ga. Applicant is authorized to conduct operations in Florida, Georgia, and South Carolina.

No. MC 103435 Sub 70, filed September 12, 1956, BUCKINGHAM TRANSPORTATION, INC., Omaha and West Boulevard, Rapid City, S. Dak. Applicant's representative: Marion F. Jones, 526 Denham Building, Denver 2, Colo. For authority to operate as a *common carrier*, transporting: *General commodities, including Class A and B explosives*, (a) between Minneapolis, Minn., and Miles City, Mont.; from Minneapolis over U. S. Highway 12 to Miles City, and return over the same route, serving no intermediate points and (b) between Mobridge, S. Dak., and Buffalo, S. Dak.: From Mobridge over South Dakota Highway 8 to Buffalo, and return over the same route, serving no intermediate points, as alternate routes in connection with applicant's authorized regular route operations. Applicant requests that service at Mobridge be restricted to point of joinder with its authorized routes (c) *General commodities*, except Class A and B explosives, household goods as defined by the Commission, commodities requiring the use of tank vehicles, and currency, over a regular route, between Lusk, Wyo., and Hill Field (near Ogden), Utah: from Lusk over U. S. Highway 20 to Casper, Wyo., thence over Wyoming Highway 220 to junction U. S. Highway 287, thence over U. S. Highway 287 to Rawlins, Wyo., thence over U. S. Highway 30 to junction U. S. Highway 30–S, thence over U. S. Highway 30–S to junction U. S. Highway 89, and thence over U. S. Highway 89 to Hill Field, and return over the same route, serving no intermediate points.

NOTE: The purpose of route (c) is to remove the restriction in Certificate No. MC 103435 Sub No. 23 confining shipments originating at Rapid City, S. Dak., Air Force Base. Applicant is authorized to conduct operations in Minnesota, South Dakota, Nebraska, Iowa, Wyoming, Colorado, Utah, Montana, and North Dakota.

No. MC 103435 Sub 71, filed September 13, 1956, BUCKINGHAM TRANSPORTATION, INC., Omaha and West Boulevard, Rapid City, S. Dak. Applicant's representatives: Alan Foss, 506 First National Bank Building, Fargo, N. Dak., and Marion F. Jones, 526 Denham Building, Denver 2, Colo. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between points in the Minneapolis-St. Paul, Minn. Commercial Zone, as defined by the Commission, and points in the Moorhead, Minn.-Fargo, N. Dak. Commercial Zone: from points in the Minneapolis-St. Paul Commercial Zone over U. S. Highway 10 to points in the Moorhead-Fargo Commercial Zone, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Minnesota, South Dakota, Nebraska, Iowa, Wyoming, Colorado, Utah, Montana, and North Dakota.

NOTE: This application is directly related to MMC 44 involving Twin City-Fargo Freight, Inc. (purchase), portion of Buckingham Transportation, Inc., MC-F-6392.

No. MC 104654 Sub 105, filed September 7, 1956, COMMERCIAL TRANSPORT, INC., South 20th Street, P. O. Box 297, Belleville, Ill. Applicant's representative: James W. Wrape, Sterick Building, Memphis, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum*, and *petroleum products*, in bulk, in tank vehicles, from Evansville, Ind. and points within 10 miles thereof, to points in Illinois on and south of U. S. Highway No. 36. Applicant is authorized to conduct operations in Illinois, Indiana, Missouri, Arkansas, Kentucky, and Tennessee.

No. MC 105632 Sub 18, filed August 16, 1956, CENTRAL OF GEORGIA MOTOR TRANSPORT COMPANY, A Corporation, 227 West Broad Street, Savannah, Ga. Applicant's representative: Walter C. Scott, Jr., Commerce Counsel, Law Department, Central of Georgia Railway Company, P. O. Box 642, Savannah, Ga. For authority to operate as a *common carrier* over regular routes, transporting: *General commodities, including Class A and B explosives* (moving in both freight and express service), in service auxiliary to, or supplemental of, the rail service of the Central of Georgia Railway Company, (1) between Irwinton, Ga., and Tennille, Ga., from Irwinton over Georgia Highway 57 to junction Georgia Highway 68, thence over Georgia Highway 68 to Tennille, and return over the same route, serving Irwinton for joinder only, and serving the intermediate point of Toomsboro, Ga., and the off-route points of McIntyre and Oconee, Ga., and (2) between Bartow, Ga., and junction Georgia Highway 24 and U. S. Highway 221 west of Louisville, Ga., over U. S. Highway 221, serving said junction for joinder only and serving no intermediate or off-route points. RESTRICTION: The service proposed in (1) above is subject to the conditions provided in the last RESTRICTION on pages 5 and 6 of Certificate No. MC 105632, dated March 31, 1956 as follows: (a) The service by motor carrier vehicle to be performed by carrier shall be limited to service which is auxiliary to, or supplemental of, the rail service of the Central of Georgia Railway Company, hereinafter called the railway. (b) Said carrier shall not serve any point not a station on the lines of the railway. (c) Shipments transported by said carrier shall be limited to those moving under a through bill of lading or express receipt, covering, in addition to movement by said carrier, a prior or subsequent movement by rail to or from either Macon or Tennille. (d) All contractual arrangements between said carrier and the railway shall be reported to the Commission and shall be subject to revision if and as the Commission may find it necessary in order that such arrangements shall be fair and equitable to the parties. (e) Such further conditions as the Commission in the future may find it necessary to impose in order to restrict said carrier's operations to service which is auxiliary to, or supplemental of, the rail service of the railway. The service proposed in (2) above is subject to the same restrictions as now apply on applicant's Millen-Tennille, route as authorized on Sheets 1 and 2 of Certificate No. MC 105632 issued May 31, 1956. (If the authority herein sought is granted, applicant requests that its operations over U. S. Highway 441 between Irwinton and Milledgeville, Ga., via McIntyre, Ga., be revoked, which operations are a portion of its authorized regular route between Macon and Milledgeville, Ga., and that its operations between Wadley, Ga., and junction Georgia Highway 24 and U. S. Highway 221, over U. S. Highway 1 and Georgia Highway 24 via Louisville, Ga., be revoked, which operations are a portion of its authorized regular route between Millen and Tennille, Ga.)

No. MC 107002 Sub 104, filed September 12, 1956, WALTER M. CHAMBERS, doing business as W. M. CHAMBERS TRUCK LINE, 105 Giuffrias Avenue, P. O. Box 687, New Orleans, La. For authority to operate as a *common carrier*, over irregular routes, transporting: *Asphalt* and *asphalt compounds*, in bulk, in tank vehicles, from Memphis, Tenn., to (a) points in Alabama on and north of U. S. Highway 11; (b) points in that part of Missouri on and east of a line extending along U. S. Highway 65 from the Missouri-Arkansas State line to Springfield, Mo., thence along U. S. Highway 66 to St. James, Mo., thence along Missouri Highway 8 to junction U. S. Highway 67, thence along U. S. Highway 67 to Farmington, Mo., and thence along Missouri Highway 32 to St. Genevieve, Mo.; (c) points in that part of Illinois on and south of a line extending along Illinois Highway 150 from Chester, Ill., to junction Illinois Highway 154, thence along Illinois Highway 154 to junction U. S. Highway 51, thence along U. S. Highway 51 to Ashley, Ill., and thence along U. S. Highway 460 to the Illinois-Indiana State line; and (d) points in Kentucky on and west of U. S. Highway 231; except, no authority is sought to that part of Alabama on, west and north of a line extending from the Tennessee-Alabama State line over U. S. Highway 31 to Cullman, Ala., thence over Alabama Highway 69 to Jasper, Ala., thence over Alabama Highway 18 to the Alabama-Mississippi State line, and to that part of Missouri bounded by a line beginning at the Missouri-Arkansas State line and extending along U. S. Highway 63 to junction U. S. Highway 60, thence along U. S. Highway 60 to the Mississippi River, and thence along the Mississippi River to the Missouri-Arkansas State line. Applicant is authorized to conduct operations in Louisiana, Mississippi, Tennessee, Arkansas, Missouri, Alabama, Florida, Georgia, Kentucky, North Carolina, Texas, Illinois, Kansas, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, West Virginia, and the District of Columbia.

No. MC 107107 Sub 80, filed September 11, 1956, ALTERMAN TRANSPORT LINES, INC., Office: 2424 NW. 46th Street., Mailing: P. O. Box 65, Allapattah Station, Miami 42, Fla. Applicant's representative: Frank B. Hand, Jr., Transportation Bldg., Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Canned goods*, from points in Florida to points in Iowa, Wisconsin, Missouri, Minnesota, Nebraska, Illinois, Indiana, Kansas, and South Dakota.

No. MC 107515 Sub 234, filed September 7, 1956, REFRIGERATED TRANSPORT CO., INC., 290 University Avenue SW., Atlanta 10, Ga. Applicant's representative: Allan Watkins, Grant Building, Atlanta 3, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, meat products* and *meat by-products, dairy products, articles distributed by meat packing-houses*, and *such commodities* as are used by meat packers in the conduct of their business when destined to and for use by meat packers, from Montgomery and Birmingham, Ala., to points in Illinois, Ohio, Indiana, Missouri, Michigan, and Wisconsin.

No. MC 107515 Sub 235, filed September 10 1956, REFRIGERATED TRANSPORT CO., INC., 290 University Avenue SW., Atlanta 10, Ga. Applicant's representative: Allan Watkins, Grant Building, Atlanta 3, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Candy* and *frozen foods*, from Loring, Kans., to points in Mississippi, Alabama, Tennessee, North Carolina, South Carolina, Georgia, and Florida.

No. MC 108736 Sub 6, filed September 10, 1956, A. H. VIETOR, doing business as ALBERT LEA TRANSFER CO., 423 Adams Avenue, Albert Lea, Minn. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul 14, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Eggs*, shelled (egg albumen, whites or yolks), *poultry*, (dessiccated (dry) or frozen and dressed), from points in Faribault and Freeborn Counties, Minn., to points in Illinois, Indiana, Kentucky, Michigan (Lower peninsula), Missouri, New York, New Jersey, Ohio, Pennsylvania, and Tennessee, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application.

No. MC 109141 Sub 20, filed September 7, 1956, WYOMING BUTANE GAS COMPANY, a corporation, 3739 Montana Avenue, Billings, Mont. Applicant's representative: Jerome Anderson, 415 Electric Building, Billings, Mont. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquefied petroleum gas*, in bulk, in pressurized tank vehicles, from points in Township 11 North, Range 57 East, in Wibaux County, Mont., to points in North Dakota, South Dakota, and Wyoming, and *contaminated shipments* of liquefied petroleum gas on return. Applicant is authorized to conduct operations in Colorado, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.

No. MC 110252 Sub 42, filed August 27, 1956, JAMES J. WILLIAMS, INC., North 1106 Pearl Street, Spokane, Wash. Applicant's representative: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Fertilizers* and *fertilizer solutions*, in bulk, in tank vehicles, between points in Washington on and east of U. S. Highway 97, on the one hand, and, on the other, points in Oregon on and west of U. S. Highway 97 and those in Idaho south of the southern boundary of Idaho County, Idaho.

No. MC 110841 Sub 6, filed August 29, 1956, PORT NORRIS EXPRESS CO., INC., Main Street, Port Norris, N. J. Applicant's representative: Frank B. Hand, Jr., Transportation Building, Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sand, gravel, clay*, and *pitch*, in bulk and in bags, from points in Cumberland, Salem, Gloucester, Atlantic, Camden, Burlington, and Cape May Counties, N. J., to points in Massachusetts, Rhode Island and Virginia. Applicant is authorized to conduct operations in Connecticut, Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, and the District of Columbia.

No. MC 111320 Sub 27, filed September 4, 1956, CURTIS KEAL TRANSPORT COMPANY, INC., East 54th Street and Cleveland Shoreway, Cleveland, Ohio. Applicant's representative: G. H. Dilla, 3350 Superior Avenue, Cleveland 14, Ohio. For authority to operate as a *common carrier*, over irregular routes, transporting: *Road building and earth moving equipment*, and *parts thereof*, by driveaway and truckaway method, between Hudson, Ohio and points within five (5) miles thereof, and points in the United States. Applicant is authorized to conduct operations throughout the United States.

No. MC 111320 Sub 28, filed September 14, 1956, CURTIS KEAL TRANSPORT COMPANY, INC., East 54th Street and Cleveland Shoreway, Cleveland, Ohio. Applicant's representative: G. H. Dilla, 3350 Superior Avenue, Cleveland 14, Ohio. For authority to operate as a *common carrier*, over irregular routes, transporting: *Mobile unit consisting of tractor and semi trailer*, containing training school equipment and facilities to operate and maintain road building and earth moving equipment, in driveaway, truckaway and towaway service, between points in the United States. Applicant is authorized to conduct operations throughout the United States.

For authority to operate as a *common carrier*, over irregular routes, transporting: *Frozen foods*, from Fairmont, Minn., to points in California, Oregon, and Washington, and to Denver, Colo., and Salt Lake City, Utah. Applicant is authorized to conduct operations in California, Iowa, Minnesota, Nebraska, Nevada, Oregon, South Dakota, Utah, and Washington.

No. MC 112020 Sub 22, filed September 4, 1956, COMMERCIAL OIL TRANSPORT, A Corporation, 1030 Stayton Street, Fort Worth, Tex. Applicant's representative: Ralph W. Pulley, Jr., First National Bank Building, Dallas 2, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Fish oils, fish solubles, fish sediments*, and *liquid fish products*, in bulk, in tank vehicles, from points in Mississippi, Louisiana and Texas, to points in Illinois, Indiana, and Wisconsin.

No. MC 112223 Sub 32, filed August 30, 1956, QUICKIE TRANSPORT COMPANY, A Corporation, 1121 South Seventh Street, Minneapolis 4, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, and *all derivatives* thereof, in bulk, in tank vehicles, between points in Minnesota, Wisconsin and Upper Michigan. Applicant is authorized to conduct operations in Iowa, Minnesota, Michigan and Wisconsin.

NOTE: Applicant states no authority is sought between points in any one state and all duplicating authority is to be eliminated.

No. MC 113440 Sub 2, filed August 22, 1956, GUY E. BARTHOLOMEW, doing business as BARCO TRANSPORTATION COMPANY, Perry, Ohio. Applicant's representative: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. For authority to operate as a *common carrier*, over irregular routes, transporting: *New furniture, uncrated*, and *new furniture in fiberboard cartons*, in mixed shipments with uncrated new furniture, between points in Mahoning County, Ohio, on the one hand, and, on the other, points in Iowa, Rhode Island, North Carolina, and South Carolina; *damaged and returned shipments* of the above indicated on return. Applicant is authorized to conduct operations from Mahoning County, Ohio to points in Indiana, Illinois, New York, Maryland, Pennsylvania, Kentucky, Virginia, West Virginia, Tennessee, New Jersey, and the District of Columbia.

No. MC 114364 Sub 20, filed September 10, 1956, WRIGHT MOTOR LINES, INC., 16th and Elm Streets, Rocky Ford, Colo. Applicant's representative: Marion F. Jones, 526 Denham Building, Denver 2, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Lumber*, from points in Arkansas, those in Missouri on and south of U. S. Highway 66 (except St. Louis, Mo.), Memphis, Tenn., and Texarkana, Tex., to points in Colorado, Wyoming,

those in Kansas and Nebraska on and west of U. S. Highway 183, those in New Mexico on and north of U. S. Highway 66, and those in San Juan County, Utah, excluding duplications. Applicant is authorized to conduct operations in Arkansas, Colorado, and Texas.

No. MC 114364 Sub 21, filed September 10, 1956, WRIGHT MOTOR LINES, INC., 16th and Elm Streets, Rocky Ford, Colo. Applicant's representative: Marion F. Jones, 526 Denham Building, Denver 2, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Returned and used empty containers for petroleum products*, (1) from points in Wyoming, and those in Nebraska on and west of U. S. Highway 281, to Ponca City, Okla.; (2) from points in Texas east of U. S. Highway 281 to Kansas City and Eldorado, Kans.; (3) from points in New Mexico on and north of U. S. Highway 66, to Kansas City, Kans.; and (4) from points in Idaho and Utah, and those in Nebraska on and west of U. S. Highway 281, to Houston, Tex. Applicant is authorized to conduct operations in Colorado, Idaho, Kansas, Nebraska, New Mexico, Oklahoma, South Dakota, Texas, Utah, and Wyoming.

No. MC 114803 Sub 1, filed September 14, 1956, JOSEPH E. GLACKEN AND CHARLES E. GLACKEN, doing business as GLACKEN BROS., 2505 North Water Street, Decatur, Ill. Applicant's representative: W. L. Jordan, 201 National Building, Terre Haute, Ind. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Compressed gases* (other than poison), such as acetylene, air, argon, helium and oxygen, in shipper owned tank vehicles, from Tuscola (Ficklin) Ill., to points in Indiana, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified on return.

NOTE: Applicant states that Tuscola is the mailing address while the loading plant of National Petro Chemical Company is located at Ficklin, 4 miles west of Tuscola.

No. MC 115437 Sub 1, filed August 27, 1956, and amended September 10, 1956, MONTERREY FREIGHT FORWARDING CORPORATION, P. O. Box 1170, Brownsville, Tex. Applicant's representative: Maynard F. Robinson, Frost Nation Bank Building, San Antonio, Tex. For authority to operate as a *contract carrier*, over irregular routes, transporting: (1) *Glass*, and *glassware* as defined by the Commission, for the Mex-Cal Glass Corporation, from points in Cameron and Hidalgo Counties, Tex., to points in Michigan, Illinois, Indiana, Missouri, Arkansas, California, Wisconsin, Georgia, Alabama, Mississippi, Louisiana, Arizona, New Mexico, Colorado, Tennessee, and Ohio, (2) *Mirror chemical solutions* (silver solution and copper sulphate) for the Monterrey Sales Corporation, from points in California to points in Cameron and Hildalgo Counties, Tex., (3) *Cotton gin machinery*, new and used; *waste paper* and *waste burlap* for export only, for the Monterrey Sales Corporation, from points in Georgia, Alabama, Mississippi, and Louisiana, to points in Cameron and Hildalgo Counties, Tex., (4) *Waste paper; waste burlap; citrus pulp; citrus concentrates*, frozen and canned; *citrus juices*, frozen and canned; *machinery* and *motors*, new and used; when moving other than oil field equipment, for export only, for the Monterrey Sales Corporation, from points in Florida to points in Cameron and Hildalgo Counties, Tex., and (5) *Aluminum and steel windows and door frames, aluminum building surfaces* (shins), *aluminum furniture and aluminum bathroom fixtures*, new, for the Monterrey Sales Corporation, from points in Florida, to points in Cameron and Hildalgo Counties, Tex.

NOTE: Dual operations may be involved as applicant has a pending application for *common carrier* authority in MC 115436.

No. MC 115841 Sub 9, filed September 10, 1956, COLONIAL REFRIGERATED TRANSPORTATION, INC., 1201 First Avenue North, P. O. Box 2169, Birmingham, Ala. Applicant's representative: Bennett T. Waites, Jr., 531-34 Frank Nelson Building, Birmingham 3, Ala. For authority to operate as a *common carrier*, over irregular routes, transporting: *Food* and *food products*, requiring refrigeration in transit, from points in Arkansas, to points in Wisconsin, Minnesota, Indiana, Kentucky, and Tennessee. Applicant is authorized to conduct operations in Maine, Massachusetts, Rhode Island, Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Connecticut, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, Wisconsin, District of Columbia, Delaware, and Arkansas.

No. MC 115873 Sub 2, filed August 24, 1956, HAROLD WAGGONER, doing business as HAROLD WAGGONER & CO., 1208 Niedringhaus, Granite City, Ill. Applicant's representative: Delmar O. Koebel, 406 Missouri Avenue, East St. Louis, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Acids* and *chemicals*, in bulk, in tank vehicles, from points in the St. Louis, Mo.-East St. Louis, Ill. Commercial Zone, as defined by the Commission, to points in Maryland.

No. MC 115964 Sub 1, filed August 24, 1956, M. C. BRYAN, doing business as BRYAN TRANSFER & STORAGE CO., 770 Fifth Street, Macon, Ga. Applicant's representative: T. Baldwin Martin, 503 First National Bank Building, Macon, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meat products, meat byproducts* and *articles distributed by meat-packing houses*, in refrigerated equipment, from Macon, Ga., to points in that part of Georgia bounded by a line beginning at Macon and extending north along U. S. Highway 129 to Gray, thence along Georgia Highway 22 to Milledgeville, thence along U. S. Highway 441 to junction Georgia Highway 117, thence along Georgia Highway 117 to Eastman, thence along U. S. Highway 341 to Fort Valley, thence along Georgia Highway 49 to junction with U. S. Highway 41, and thence along U. S. Highway 41 to point of beginning, serving all points on the portions of the highways specified.

No. MC 115999 Sub 1, (Amended), filed July 25, 1956, published in the August 8, 1956 issue, on page 5956, DAVIS BROS. MOTOR TRANSPORT, INC., 656 Hamphill Avenue NW., Atlanta, Ga. Applicant's representative: Dan R. Schwartz, Suite 713 Professional Building, Jacksonville 2, Fla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Lumber* and *forest products*, between points in Florida and Georgia, on the one hand, and, on the other, points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee.

No. MC 116053 Sub 1, filed September 14, 1956, W. B. NEW, 48 53d Street, Gulfport, Miss. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Treated* and *untreated poles, piling* and *lumber*, from Gulfport and Gautier, Miss., to points in Louisiana and Alabama.

No. MC 116094, filed July 11, 1956, ELMER JACOBSON, Dell Rapids, S. Dak. For authority to operate as a *common carrier*, over irregular routes, transporting: *Poultry feeds*, and *livestock*, when transported on the same vehicle with non-exempt commodities, from Council Bluffs, Iowa and Sioux City, Iowa to points, except municipalities, within 35 miles of Dell Rapids, S. Dak.

No. MC 116158 (amended) filed August 10, 1956, published in the August 29, 1956 issue, page 6531, ROBERT H. BURNHAM AND LAURENCE M. BURNHAM, doing business as BURNHAM BROS. TRUCKING, 52 Fletcher Street, Ayer, Mass. Applicant's representative: Joseph Levco, 209 Washington Street, Boston, Mass. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Automatic mechanical pin setting machines* and *parts thereof* when moving with shipments of the described machines, from Boston, Mass. to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, and Florida, and the District of Columbia; *damaged and returned shipments of automatic mechanical pin setting machines and parts* on return. Applicant is authorized to conduct operations under the second proviso of section 206 (a) (1), Interstate Commerce Act, in Massachusetts.

No. MC 116173, filed August 21, 1956, LAKELAND BUS LINES, INC., Route 46, Dover, N. J. Applicant's representative: Bernard F. Flynn, Jr., 1060 Broad Street, Newark 2, N. J. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, moving in express service, except articles of a corrosive, poisonous, inflammable or explosive nature, in packages, not exceeding 80 pounds in weight and not exceeding 12 cubic feet in dimension, between the Borough of Manhattan, New York, N. Y., on the one hand, and, on the other, applicant's authorized regular route operations contained in Certificate Nos. MC 109802 and Sub 5, with the restriction that all traffic be delivered or picked up at the carriers' terminals or delivered to or received from applicant's motor busses.

No. MC 116187, filed September 4, 1956, ILLINOIS TERMINAL RAILROAD COMPANY, 710 North 12th Boulevard, St. Louis, Mo. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, fodder, hay, straw and green hides, between Alton, East Alton, Federal, Wood River, Hartford, Roxana, Edwardsville, and East St. Louis, Ill., and St. Louis, Mo. Applicant states that no less than truck load traffic will be handled.

No. MC 116192, filed September 6, 1956, JAMES F. McBALL, 123 Garfield Avenue, West Chester, Pa. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Innerspring units and accessories for mattresses and furniture*, and *materials, equipment* and *supplies* used or useful in the manufacture and sale of such commodities, between West Chester, Pa., on the one hand, and, on the other, points in New York, New Jersey, Connecticut, Rhode Island, Massachusetts, Delaware, Maryland, District of Columbia, Virginia, and West Virginia.

No. MC 116193, filed September 6, 1956, LEE L. MONROE, 850 North Clark, Los Angeles 46, Calif. For authority to operate as a *common carrier*, over a regular route, transporting: *Wearing apparel*, on hangers, between Los Angeles, Calif., and Tucson, Ariz., from Los Angeles over U. S. Highway 70 to Phoenix, Ariz., thence over U. S. Highway 80 to Tucson, and return over the same route, serving no intermediate points, but serving Corona, Calif., as an off-route point.

No. MC 116195, filed September 10, 1956, NALON COMPANY, a corporation, Thomas Avenue and Lafferty Street, Jeannette, Pa. Applicant's representative: Charles F. McKenna, 508 Grant Street, Pittsburgh 19, Pa. For authority to operate as a *contract carrier*, over irregular routes, transporting: (1) *Corrugated paper containers*, from Pittsburgh, Pa., to Whippany, Salem, Rutherford and Clifton, N. J., Glendale and Newell, W. Va., Elyria, East Palestine, Youngstown, Martins Ferry, Steubenville and East Liverpool, Ohio, and La Pelle and Terre Haute, Ind., (2) *Scrap*, from Pittsburgh, Pa., to Whippany, Salem, Rutherford, and Clifton, N. J. and La Pelle and Terre Haute, Ind. (3) *Sheets, Roll stock paper*, and *Chipboard paper*, from Whippany, Salem, Rutherford, and Clifton, N. J. and La Pelle and Terre Haute, Ind., to Pittsburgh and Jeannette, Pa.

No. MC 116198, filed September 12, 1956, DON'S TRUCKING, INC., Georgetown, Ill. Applicant's representative: Alfred H. Reichman, 318 North Hickory Street, Champaign, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Lumber*, from points in Alabama, Arkansas, Louisiana and Mississippi to points in Benton, Boone, Clay, Clinton, Daviess, Dubois, Fountain, Gibson, Greene, Hendricks, Jasper, Knox, Lawrence, Martin, Monroe, Montgomery, Morgan, Newton, Owen, Parke, Pike, Pulaski, Putnam, Sullivan, Tippecanoe, Vigo, Warren and White Counties, Ind., and Champaign, Christian, Clark, Clay, Coles, Crawford, Cumberland, DeWitt, Douglas, Edgar, Edwards, Effingham, Fayette, Franklin, Ford, Gallatin, Grundy, Hamilton, Iroquois, Jasper, Jefferson, Kankakee, La Salle, Lawrence, Livingston, Macon, Marion, McLean, Montgomery, Piatt, Richland, Saline, Shelby, Vermilion, Wabash, Wayne, White, and Williamson Counties, Ill. Applicant, as a contract carrier under Permit No. MC 114668, is authorized to perform operations between certain territory in Illinois, Indiana, Kentucky, and Ohio, transporting fertilizer and fertilizer materials. Dual operations under section 210 may be involved.

No. MC 116204, filed September 14, 1956, VAN E. HAMLETT, 1224 Greenfield Avenue, Nashville 6, Tenn. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Fertilizer*, and *hardened materials, bursted bags and over stocked materials of fertilizer*, between points in Tennessee, and points in that part of Kentucky west of U. S. Highway 25–E, starting at Middlesboro, to U. S. Highway 25 at Corbin, then to U. S. Highway 150 at Mt. Vernon to Danville and Constitution Square to U. S. Highway 68, then points southwest of U. S. Highway 68 to Lebanon, then over Kentucky Highway 84 to Hodgenville, then over Kentucky Highway 61 to Elizabethtown, then over U. S. Highway 62 to Leitchfield, then over Kentucky Highway 65 to Harned, thence over U. S. Highway 60 to Cloverport at Indiana State line westward.

No. MC 116211, filed September 18, 1956, JESSE D. LENHART, doing business as LENHART TRAILER SERVICE, 304 East Nelson Avenue, Alexandria, Va. For authority to operate as a *common carrier*, over irregular routes, transporting: *House trailers* and *boat trailers*, in initial and secondary movements, between points in Maryland, Virginia and the District of Columbia, on the one hand, and, on the other, points in Maryland, Pennsylvania, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Ohio, Michigan, Indiana, Illinois, and the District of Columbia.

APPLICATIONS OF MOTOR CARRIERS OF PASSENGERS

No. MC 1504 Sub 129, filed August 21, 1956, ATLANTIC GREYHOUND CORPORATION, 1100 Kanawha Valley Building, Charleston, W. Va. Applicant's representative: L. C. Major, Jr., 2001 Massachusetts Avenue NW., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express, mail* and *newspapers* in the same vehicle with passengers, between junction Old and Relocated U. S. Highways 421 near Guthrie, N. C., and junction Old and Relocated U. S. Highways 421 near Kernersville, N. C., over Relocated U. S. Highway 421, serving all intermediate points. Carrier presently operates between Guthrie and Kernersville, N. C., over old U. S. Highway 421 in connection with its regular route between Abington, Va., and Greensboro, N. C.

No. MC 1504 Sub 130, filed August 21, 1956, ATLANTIC GREYHOUND CORPORATION, 1100 Kanawha Valley Building, Charleston, W. Va. Applicant's representative: L. C. Major, Jr., 2001 Massachusetts Avenue NW, Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express, mail* and *newspapers*, in the same vehicle with passengers, between junction Old and Relocated U. S. Highways 52 southeast of Mt. Airy, N. C., and junction Old and Relocated U. S. Highways 52 southeast of Pilot Mountain, N. C., over Relocated U. S. Highway 52, serving all intermediate points. Carrier presently operates between Mt. Airy and Pilot Mountain, N. C., over Old U. S. Highway 52 in connection with its regular route between Fort Chiswell, Va., and Atlanta, Ga.

No. MC 2353 Sub 7, filed September 7, 1956, MONUMENTAL MOTOR TOURS, INC., 3319 Pulaski Highway, Baltimore 24, Md. Applicant's representative: S. Harrison Kahn, 726–734 Investment Building, Washington, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Passengers and their baggage*, in special operations, during the racing seasons, between points on U. S. Highway 40 in New Jersey, except Atlantic City, N. J. on the one hand, and, on the other, the sites of the Bowie, Laurel, and Pimlico racetracks in Maryland, and the Delaware Park racetrack in Delaware. Applicant is authorized to operate in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maryland, Maine Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

No. MC 3647 Sub 205, filed September 10, 1956, PUBLIC SERVICE COORDINATED TRANSPORT, a corporation, 80 Park Place, Newark, N. J. Applicant's representative: Frederick M. Broadfoot, Assistant General Solicitor, Public Service Terminal, Newark 1, N. J. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express and newspapers*, in the same vehicle with passengers, between Moorestown, N. J. and Gloucester, N. J., from junction West Main Street, Camden Avenue and Kings Highway, Moorestown, N. J., over Kings Highway to junction Market Street, Mt. Ephraim, N. J., thence over Market Street to junction New Jersey Highway 42, North-South Freeway, Gloucester, N. J., and return over same route, serving all intermediate points.

No. MC 5038 Sub 3, filed September 17, 1956, J. T. FUQUA, doing business as FUQUA'S BUS LINES, 651½ East Twelfth Street, Bowling Green, Ky. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers* and *their baggage*, and *express*, in the same vehicle with passengers, between Bowling Green, Ky., and Scotts-

ville, Ky., from Bowling Green over U. S. Highway 231 to Scottsville and return over the same route, serving all intermediate points.

No. MC 102299 Sub 6, filed September 19, 1956, THE BALTIMORE AND ANNAPOLIS RAILROAD COMPANY, a corporation, 100 South Howard Street, Baltimore, Md. Applicant's representative: Frank B. Hand, Jr., Transportation Building, Washington 6, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage, express, mail, and newspapers*, in the same vehicle with passengers, between Friendship International Airport, Md., and Washington, D. C., from Friendship International Airport over Maryland Highway 170 to junction Maryland Highway 176, thence over Maryland Highway 176 to junction Maryland Highway 713, thence over Maryland Highway 713 to junction Maryland Highway 175, thence over Maryland Highway 175 to Fort George G. Mead, Md., thence over unnumbered highways within Fort George G. Mead to Maryland Highway 602, thence over Maryland Highway 602 to Maryland Highway 32, thence over Maryland Highway 32 to the Baltimore-Washington Parkway to Maryland Highway 602, thence over Maryland Highway 602 to U. S. Highway 1, thence over U. S. Highway 1 to Washington, D. C., and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Maryland.

No. MC 113418 Sub 1, filed August 23, 1956, DEWEES BUS LINES, a corporation, 28 First Avenue SE., Oelwein, Iowa. Applicant's representative: Erwin Larson, Ellis Block, Charles City, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in round-trip charter operations, beginning and ending at Oelwein, Iowa, and points within sixty (60) miles thereof, and extending to points in the United States, including the District of Columbia. Applicant is authorized to conduct operations in Colorado, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Pennsylvania, South Dakota, and Wisconsin.

NOTE: Applicant states that transportation will be limited to charter groups only, but not limited to Schools and Colleges. Applicant further states that the purpose of this application is to extend its present operations to all of the other states in the United States and to remove the restrictions imposed in Certificate No. MC 113418 as to starting points.

No. MC 115420 Sub 5, filed August 29, 1956, MERLE E. MARTIN, doing business as SUPERIOR BUS SERVICE, P. O. Box 169, Harrisburg, Va. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express*, and *newspapers*, in the same vehicle with passengers, between Strasburg, Va., and Mathias, W. Va., from Strasburg over Virginia Highway 55 to the Virginia-West Virginia State line, thence over West Virginia Highway 55 to Wardensville, W. Va., thence continue on West Virginia Highway 55 to junction West Virginia Highway 259 at Baker, W. Va., thence over West Virginia Highway 259 to Mathias, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Virginia and West Virginia.

No. MC 116140, filed July 30, 1956, CAPITAL TRANSIT, INC., South Main Street, Concord, N. H. Applicant's representative: Joseph Kovner, 88 North Main Street, Concord, N. H. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers* and *their baggage*, and *mail, express*, and *newspapers* in the same vehicle with passengers, between Manchester, N. H. and Plymouth, N. H., from Manchester over U. S. Highway 3 to Plymouth, and return over the same route, serving all intermediate points (also, from Manchester over U. S. Highway 3 to junction unnumbered highway, thence over unnumbered highway via Hooksett and Suncook to junction U. S. Highway 3 and thence over U. S. Highway 3 to Concord, and return over the same route, serving all intermediate points); (also between Manchester, N. H. and Concord, N. H., from Manchester over U. S. Highway 3A to Concord, and return over the same route, serving all intermediate points); (also from Manchester over U. S. Highway 3A to Hooksett, N. H. and thence over unnumbered highway to Hooksett Village, and return over the same route, serving all intermediate points).

NOTE: The authority sought is subject to restrictions that no passengers shall be picked up for transportation in either direction wholly within the following areas: (1) On that portion of the routes authorized in the City of Manchester south of the intersection of Beech and Webster Streets, and between points in Manchester south of the intersection of Front Street and Dunbarton Road; (2) between the underpass formerly on U. S. Highway 3, south of Franklin, and a point one-half mile north of Tilton on U. S. Highway 3; (3) between a point on U. S. Highway 3 one mile south of Pearl Street and Court Street in the City of Laconia and The Weirs, except that passengers may be picked up and discharged at Laconia, Lakeport, and The Weirs on vehicles operating schedules to connect with trains leaving Concord for Boston in the afternoon or evening, and with trains leaving Concord for points in the north in the afternoon or evening.

No. MC 116140 Sub 1, filed July 30, 1956, CAPITAL TRANSIT, INC., South Main Street, Concord, N. H. Applicant's representative: Joseph Kovner, 88 North Main Street, Concord, N. H. For authority to operate as a *common carrier*, over irregular routes, transporting: *Passengers* and *their baggage* in the same vehicle with passengers, in round-trip charter operations beginning and ending at Allenstown, Andover, Ashland, Belmont, Boscawen, Bow, Bradford, Bristol, Canterbury, Chichester, Concord, Contoocook, Danbury, Dunbarton, Epsom, Franklin, Gilmanton, Gilmanton Iron Works, Henniker, Hooksett, Hopkinton, Laconia, Loudon, Meredith, New Hampton, New London, North Sanbornton, Pembroke, Penacook, Pittsfield, Plymouth, Potter Place, Salisbury, Sanbornton, Suncook, Sutton, The Weirs, Tilton, Warner, Webster, West Andover, Wilmot Flat, and Winnisquam, N. H., and extending to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and the District of Columbia.

APPLICATION FOR BROKERAGE LICENSE

No. MC 12650, filed September 11, 1956, OLYMPIC TRAVEL SERVICE, INC., 1118 Cortelyou Road, Brooklyn 18, N. Y. Applicant's representative: Charles H. Trayford, 155 East 40th Street, New York 16, N. Y. For a license as a *broker* (BMC 5) at Brooklyn, N. Y., in arranging for transportation in interstate or foreign commerce, by motor vehicle, of groups of *passengers and their baggage* in the same vehicle with passengers, in special or charter service, in round-trip all-expense tours between New York City, N. Y., points in Westchester, Nassau and Suffolk Counties, N. Y., Bergen, Passaic, Essex, Hudson and Union Counties, N. J., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, and the District of Columbia.

NOTE: Application indicates that applicant proposes to act as ticket and sales agent for motor carriers and other carriers in arranging packaged tours for groups of people, either church or other religious organizations, or recreational organizations to places of interest, amusement, or recreation.

APPLICATIONS UNDER SECTION 5 AND 210a (b)

No. MC–F 6370, published in the August 29, 1956, issue of the FEDERAL REGISTER on page 6532. Application filed September 17, 1956, for temporary authority under section 210a (b).

No. MC–F 6392. Authority sought for purchase by TWIN CITY-FARGO FREIGHT, INC., 122 Eighth Street SE., Minneapolis, Minn., of a portion of the operating rights of BUCKINGHAM TRANSPORTATION, INC., Omaha and West Boulevard, Rapid City, S. Dak., and for acquisition by W. E. ELSHOLTZ, also of Minneapolis, of control of such rights through the purchase. Applicants' representatives: Van Osdel & Foss, 506 First National Bank Building, Fargo, N. Dak., and Marion F. Jones, 526 Denham Building, Denver 2, Colo. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes between Fargo, N. Dak., and junction U. S. Highway 10 and Minnesota Highway 32, between Fargo, N. Dak., and Little Falls, Minn., and between St. Paul, Minn., and Little Falls, Minn., serving certain intermediate points. Vendee is authorized to operate as a *common carrier* in Minnesota and North Dakota. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6393. Authority sought for purchase by CROSS TRANSPORTATION, INC., Carll's Corner, Bridgeton, N. J., of a portion of the operating rights and certain property of NATIONAL FREIGHT, INC., 122 Wood Street, Vineland, N. J., and for acquisition by JOHN J. CROSS, also of Bridgeton, of control of such rights and property through the purchase. Applicants' representatives: Brodsky and Lieberman, 1776 Broadway, New York, N. Y. and Bert Collins, 140 Cedar Street, New York 6, N. Y. Operating rights sought to be transferred: *Building materials* other than those ordinarily transported in dump trucks, as a *common carrier*, over irregular routes, between points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden and Burlington Counties, N. J., on the one hand, and, on the other, points in New York, Pennsylvania, Delaware, Maryland, Connecticut, Rhode Island, Massachusetts, Virginia, North Carolina, South Carolina, and the District of Columbia. Vendee is authorized to operate as a *common carrier* in Pennsylvania, New Jersey, New York, Connecticut, Massachusetts, Maryland, Delaware, Virginia, Rhode Island, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6395. Authority sought for control and merger by CONSOLIDATED FREIGHTWAYS, INC., 2029 Northwest Quimby Street, Portland, Oreg., of the operating rights and property of KENNETH POORMAN COMPANY, 1835 Southeast Grand Avenue, Portland 14, Oreg. Applicants' representative: Donald A. Schafer, 803 Public Service Building, Portland 4, Oreg. Operating rights sought to be controlled and merged: *Plywood, forest products, lumber mill products*, and *building materials*, in quantities of not less than 10,000 pounds, and *construction materials*, and *construction and contractor's equipment*, the transportation of which, because of their size or weight, requires the use of special equipment, and *related parts, materials, equipment, and supplies* when their transportation is incidental to the transportation by applicant of the aforementioned articles, as a *common carrier*, over irregular routes, between certain points in Washington on the one hand, and, on the other, points in Oregon; *steel and cast iron pipe*, and *fittings* therefor when transported incidentally to the movement of such commodities, *wooden tanks, pumice blocks, brick, structural and reinforcing steel, steel tanks*, and *contractors' machinery and related machinery parts* when transported incidentally to the shipments of contractors' machinery, between Portland, Oreg., and Vancouver and Longview, Wash., on the one hand, and, on the other, points in that part of Idaho south of and including Idaho County; *lumber*, between points in Oregon, on the one hand, and, on the other, points in that portion of Idaho south of and including Idaho County, and between points in Oregon on and west of U. S. Highway 97 on the one hand, and, on the other, certain points in Oregon and Vancouver and Longview, Wash.; *machinery and equipment*, incidental to, or used in general construction work, between points in Oregon and Washington; *materials and supplies*, incidental to or used in general construction work, from Portland, Oreg., and points within 25 miles of Portland, to certain points in Washington; *cement* and *lime*, from Lime, Oreg., to points in Idaho; *perlite ore (rock)*, between points in Idaho, Oregon, and Washington; *processed perlite and perlite products*, between certain points in Oregon, Washington, and Idaho on the one hand, and, on the other points in California on and north of U. S. Highway 50 and points in Idaho, Oregon and Washington. CONSOLIDATED FREIGHTWAYS, INC., is authorized to operate as a *common carrier* in Oregon, Washington, Idaho, California, Nevada, Minnesota, North Dakota, Montana, Utah, Wisconsin, Illinois, Wyoming, and Iowa. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6396. Authority sought for purchase by POINT EXPRESS, INC., 3535 Seventh Avenue, Charleston, W. Va., of the operating rights and property of COOPER TRANSFER COMPANY, 401 Second Avenue, Beckley, W. Va., and for acquisition by HARLEY H. HARTLEY, VITUS HARTLEY, SR., WILLIAM P. FINNERAN, ART E. HARTLEY, VITUS HARTLEY, JR., AND PAUL YOUNGBLOOD, all of Charleston, of control of such rights and property through the purchase. Applicants' representative: John C. White, 400 Union Bldg., Charleston 1, W. Va. Operating rights sought to be transferred: *General commodities*, with no exceptions, as a *common carrier* over regular routes, between Beckley, W. Va., and Mabscott, Raleigh, and Cranberry, W. Va., between Raleigh, W. Va., and Cranberry and Mabscott, W. Va., and between Mabscott, W. Va., and Cranberry, W. Va., serving certain intermediate points; *packing-house products*, between Charleston, W. Va., and Beckley, W. Va., serving certain intermediate and off-route points; *general commodities*, with certain exceptions, including household goods and commodities in bulk, over irregular routes, between Beckley, W. Va., on the one hand, and, on the other, points in West Virginia within 35 miles of Beckley, and between Beckley, W. Va., on the one hand, and, on the other, Bluefield, Va., and points in Virginia within five miles of Bluefield; *household goods*, as defined by the Commission, between Beckley, W. Va., and points within 25 miles thereof, on the one hand, and, on the other, points in West Virginia, Kentucky, Ohio, Virginia, North Carolina, Maryland, Pennsylvania, the Lower Peninsula of Michigan, and the District of Columbia. Vendee is authorized to operate as a *common carrier* in West Virginia, Ohio, Kentucky, and Pennsylvania. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6397. Authority sought for purchase by J. T. FUQUA, doing business as FUQUA'S BUS LINE, 651½ East 12th Street, Bowling Green, Ky., of a portion of the operating rights of BOWLING GREEN - HOPKINSVILLE BUS CO., INC., Russellville, Ky. Applicants' representative: J. T. Fuqua, Owner, Fuqua's Bus Line, 651½ East 12th Street, Bowling Green, Ky. Operating rights sought to be transferred: *Passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, as a *common carrier* over regular routes between Bowling Green, Ky., and Glasgow, Ky., and between Glasgow, Ky., and Somerset, Ky., serving all intermediate points. Vendee is authorized to operate as a *common carrier* in Kentucky. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6399. Authority sought for control by DENNIS TRUCKING COMPANY, INC., 2519 Morris Street, Philadelphia, Pa., of JOHNSONS TRANSFER, INC., 1251 South 28th Street, Philadelphia, Pa., and for acquisition by DENNIS J. McNICHOL, JR., also of Philadelphia, of control of JOHNSONS TRANSFER, INC., through the acquisition by DENNIS TRUCKING COMPANY. Applicant's representative: Beverley S. Simms, 1624 Eye Street NW., Washington, D. C. Operating rights sought to be controlled: *Lumber, lath* and *shingles*, as a *common carrier* over regular routes from Baltimore, Md., to Washington, D. C., serving certain intermediate and off-route points; *scrap metal* and *rags*, from Washington, D. C., to Baltimore, Md., serving no intermediate points; *building materials, cranberries, fruit, vegetables, canned goods, sugar*, and *such camp equipment* as is used or useful in boy scout jamborees, over irregular routes, from, to and between points and areas, varying with the commodity transported, in Maryland, Virginia, Pennsylvania, West Virginia, New Jersey, New York, and the District of Columbia. Applicant is authorized to operate as a *common carrier* in New Jersey, New York, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6401. Authority sought by WILSON FREIGHT FORWARDING COMPANY, 3636 Follett Avenue, Cincinnati 23, Ohio, to merge the operating rights and property of MEEKS MOTOR FREIGHT, 3636 Follett Avenue, Cincinnati 23, Ohio, and for acquisition by LEONARD S. SHORE, DAVID M. GANTZ and S. DAVID SHOR, all of Cincinnati, of control of such rights and property through the transaction. Applicant's representative: Harry C. Ames, Jr., 216 Transportation Building, Washington 6, D. C. Operating rights sought to be merged: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes between Louisville, Ky., and Evansville, Ind., Cincinnati, Ohio, and Harlan, Ky., and Nashville, Tenn., between Lexington, Ky., and Manchester, Ky., between Bowling Green, Ky., and Hopkinsville, Ky., between New Albany, Ind., and Dale, Ind., between Jeffersonville, Ind., and Versailles, Ind., and between junction Indiana Highway 62 and Indiana Highway 56 and Paoli, Ind., serving certain intermediate and off-route points. WILSON FREIGHT FORWARDING COMPANY is authorized to operate as a *common carrier* in Indiana; Ohio, Penn-

sylvania, New York, Maryland, Kentucky, New Jersey, Massachusetts, Virginia, North Carolina, Tennessee, West Virginia, Delaware, Connecticut, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

THE NATIONAL ARCHIVES — LITTERA SCRIPTA MANET — 1934 — OF THE UNITED STATES

VOLUME 21 NUMBER 188

Washington, Thursday, September 27, 1956

UNIVERSITY OF MICHIGAN
OCT 2 1956
MAIN READING ROOM

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 29—RETIREMENT

EXCLUSIONS FROM RETIREMENT COVERAGE

Effective October 1, 1956, § 29.17 is added.

§ 29.17 *Exclusions from retirement coverage.* (a) The following groups of employees in the executive branch of the Government are excluded from the Civil Service Retirement Act:

(1) Employees serving under appointments limited to one year or less.

(2) Part-time, when actually employed, or intermittent employees having no regular tour of duty.

(3) Employees whose salary, pay or compensation on an annual basis is $12 a year or less.

(4) Member or patient employees in Government hospitals or homes.

(5) Employees paid on a contract or fee basis.

(6) Employees paid on a piecework basis, except those whose work schedule provides for regular or full-time service.

(7) Intermittent alien employees engaged on work outside the continental limits of the United States.

(8) Employees serving under temporary appointments pending establishment of registers, or pending final determination of eligibility for permanent appointment.

(9) Acting postmasters, clerks in fourth-class post offices, substitute rural carriers, and special-delivery messengers at second-, third-, and fourth-class post offices.

(10) Consular agents appointed under authority of section 551 of the Foreign Service Act of 1946, approved August 13, 1946 (Public Law 724, 79th Congress).

(11) Employees serving under emergency-indefinite appointments not exceeding 5 years.

(12) United States citizens given "overseas limited appointments."

(13) Employees serving under nonpermanent appointments made pursuant to section 1 of Executive Order 10180 of November 13, 1950.

(14) Employees serving under nonpermanent appointments, designated as indefinite, made after January 23, 1955, the effective date of the repeal of Executive Order 10180.

(b) The exclusions in paragraph (a) of this section do not operate to deny retirement coverage in any case in which (1) employment in an excluded category follows employment subject to the act without a break in service or after a separation from service of three days or less, (2) the employee is granted competitive civil service status under legislation, Executive order, or the Civil Service Rules and Regulations, while he is serving in a position in the competitive service, or (3) the employee previously had a competitive civil service status and such status is restored to him by action of reinstatement.

(Sec. 17, 46 Stat. 478, as amended; 5 U. S. C. 709. Interprets or applies sec. 2, 70 Stat. 745)

marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Appalachian marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity price of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than October 1, 1956. Any delay beyond that date in the effective date of this order would tend to disrupt the orderly marketing of milk in the aforesaid marketing area and would defeat the purpose of the amendment. The amendment action of this order

amending the order, as amended, is known to handlers. The public hearing was held February 6–10, 1956, and the recommended decision was issued August 1, 1956 (21 F. R. 5824). The final decision was issued by the Assistant Secretary on August 31, 1956 (21 F. R. 6767). Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for not delaying the effective date of this order for 30 days after its publication in the FEDERAL REGISTER (section 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Appalachian marketing area) of more than 50 percent of the milk which is marketed within said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, as amended, is the only practical means pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum thereon, and who, during the determined representative period (June 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Appalachian marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Delete § 923.6 and substitute therefor the following:

§ 923.6 *Appalachian marketing area.* "Appalachian marketing area", hereinafter called the "marketing area", means all the territory geographically located within the perimeters of the counties of Sullivan, Washington and Greene in Tennessee; Washington and Wise in Virginia; and Harlan in Kentucky.

2. Delete § 923.7 (b) and substitute therefor the following:

(b) Any plant which ships (1) any milk or skim milk during the months of February through July, or (2) an amount of milk, skim milk, or cream in fluid form in excess of 70,000 pounds for the month during the months of August through January, to a plant qualified pursuant to paragraph (a) of this section, and

3. At the end of § 923.7 substitute a colon for the period and add the following proviso: "*And provided further,* That this definition shall not be deemed to include any building, premises or facilities the primary function of which is to hold or store bottled milk or milk products in finished form in transit for wholesale or retail route distribution."

4. In § 923.17, delete the word "August" and substitute therefor the word "July."

5. In § 923.18, delete the word "August" and substitute therefor the word "July."

6. In § 923.31 (b) (1) delete the word "August" and substitute therefor the word "July."

7. Delete § 923.41 (b) and substitute therefor the following:

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section; (2) contained in (skim milk only) any product disposed of for livestock feed; (3) dumped (skim milk only) during the months of April, May, June or July: *Provided,* That the market administrator is given not less than 6 hours' notice of the handler's intention to make such disposition; (4) contained in inventory of products designated as Class I milk pursuant to paragraph (a) of this section on hand at the end of the month; and (5) in shrinkage assigned to Class II pursuant to § 923.42.

8. In § 923.44 (c), delete the figure "50" and substitute therefor the figure "150". In the same paragraph delete the phrase "nearest point in the marketing area" and substitute therefor "city limits of Kingsport, Tennessee."

9. Delete § 923.46 (a) (3) and substitute therefor the following:

(3) Subtract from the remaining pounds of skim milk in Class II milk, the pounds of skim milk in other source milk (that derived from milk priced under another Federal order to be subtracted last): *Provided,* That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

10. Delete from § 923.50 (b) the phrase "during the delivery period" and substitute therefor the phrase "for the period from the 26th day of the immediately preceding month to the 25th day of the current month."

11. Delete § 923.51 (b) (2) (i) and substitute therefor the following:

(i) Multiply the Chicago butter price by 4.8.

12. Delete § 923.52 (b) and substitute therefor the following:

(b) *Class II price.* Multiply the Chicago butter price by 0.11, and round to the nearest one-tenth cent.

13. In § 923.71, delete the word "September" and substitute therefor the word "August."

14. In § 923.72, delete the word "August" and substitute therefor the word "July."

15. Delete the proviso in § 923.72 (e) and substitute therefor the following: "*Provided,* That if such resulting value is greater than an amount computed by mutiplying the pounds of such base milk by the Class I price, such value in excess thereof shall be added to the value computed pursuant to paragraph (d) of this section to the extent that the excess price shall not exceed the base price as calculated herein. Any additional value remaining shall be prorated to the respective volumes of base milk and excess milk."

16. Add to § 923.72 (g) after the word "section," the following phrase "and in the proviso of paragraph (e) of this section."

17. In § 923.81, delete the word "August" and substitute therefor the word "July."

18. In § 923.90 (a), delete the words "September through March" and substitute therefor the words "August through March" and in the same paragraph delete the words "April through August" and substitute therefor the words "April through July."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of September 1956 to be effective on and after October 1, 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 56–7797; Filed, Sept. 26, 1956; 8:50 a. m.]

PART 939—BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

DETERMINATION RELATIVE TO EXPENSES AND RATE OF ASSESSMENT FOR 1956–57 FISCAL PERIOD

Notice was published in the August 29, 1956, daily issue of the FEDERAL REGISTER (21 F. R. 6517) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the 1956–57 season under the marketing agreement, as amended and Order No. 39, as amended (7 CFR Part 939), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau pears grown in Oregon, Washington, and California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 939.209 *Expenses and rate of assessment for the 1956–57 fiscal period*—(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Control Committee, established pursuant to the

provisions of the aforesaid amended marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning July 1, 1956, and ending June 30, 1957, both dates inclusive, will amount to $28,657.50.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles pears shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order, is hereby fixed at 6 mills ($0.006) per standard western pear box of pears, or its equivalent of pears in other containers or in bulk, shipped by such handler during said fiscal period.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) in accordance with the provisions of said amended marketing agreement and order, the rate of assessment is applicable to all pears shipped during the 1956–57 fiscal period; (2) shipments of such pears are now being made; and (3) it is essential that the specification of the assessment rate be issued immediately so that the aforesaid assessments may be collected and thereby enable said Control Committee to perform its duties and functions in accordance with said amended marketing agreement and order.

As used herein, terms shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 24th day of September 1956, to become effective on the date of publication hereof in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 56–7795; Filed, Sept. 26, 1956; 8:49 a. m.]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

MISCELLANEOUS AMENDMENTS

Notice was published in the FEDERAL REGISTER issue of September 8, 1956 (21 F. R. 6831), that the Department was giving consideration to the proposed amendment of the supplementing rules and regulations (7 CFR 969.110 et seq.; Subpart—Rules and Regulations; 21 F. R. 78; 2409; 6695) currently in effect pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Avocado Administrative Committee (established pursuant to said amended marketing agreement and order as the agency to administer the provisions thereof), it is hereby found that the amendment, as hereinafter set forth, of the said rules and regulations is in accordance with the provisions of the said amended marketing agreement and order and will tend to effectuate the declared purposes of the Agricultural Marketing Agreement Act of 1937, as amended. Such amendment is hereby approved; and the said rules and regulations are amended as follows:

1. Revise paragraph (a) § 969.140 *Avocados not subject to regulation* to read as follows:

(a) Any handler may handle avocados totaling not more than one bushel to any one person during any one day exempt from the provisions of §§ 969.41, 969.51, and 969.54: *Provided*, That the total quantity of avocados so handled by a handler shall not exceed 10 bushels during any week.

2. Amend § 969.150 *Reports* as follows: Immediately following the period after the title (§ 969.150 *Reports.*) insert the paragraph designation "(a)"; and add therein, after said paragraph (a), two new paragraphs reading as follows:

(b) Each handler registered with the Avocado Administrative Committee shall render a report to the committee of the disposition of each lot of noncertified avocados removed from the premises of his handling facilities during each week in which any avocados are handled subject to the provisions of §§ 969.41, 969.51, and 969.54, or exemptions therefrom pursuant to § 969.53. Such report shall be on forms prescribed by the committee and shall include (1) the quantity; (2) purpose for which removed; (3) date of removal; and (4) the name of the person or firm to which the avocados were delivered or consigned. Each such report shall be signed by the handler or his authorized representative, shall cover the period Sunday through Saturday, and shall be placed in the mail not later than one week after the close of business of the Saturday ending the period covered by the report.

(c) Each handler shall render a report to the Avocado Administrative Committee of each lot of noncertified avocados received from a district other than that in which his handling facilities are located. Such report shall be on forms prescribed by the committee and shall include: (1) The name of the handler; (2) the quantity of avocados received; (3) date received; (4) name and address of the person from whom the avocados were purchased; (5) the district from which the avocados were transferred; and (6) the district to which the avocados were transferred. Each such report shall cover the period Sunday through Saturday and shall be placed in the mail not later than one week after the close of business of the Saturday ending the period covered by the report.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective date and good cause exists for making the provisions hereof effective not later than the date of publication of this document in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) shipment of the current crop of avocados is now in progress, and varieties of avocados are currently subject to maturity regulation under Avocado Order 12, as amended (21 F. R. 3307; 5469; 6329); (2) this amendment revises the provisions of the section which permits the handling of avocados not subject to regulation, and should be made effective as soon as possible to enable the Avocado Administrative Committee to effectively carry out its regulatory functions; (3) producers and handlers have been notified of the proposed adoption, and recommendation to the Secretary, by the committee of the said amendment to the rules and regulations; (4) notice that the department was considering such amendment was published in the FEDERAL REGISTER and interested parties afforded opportunity to file written data, views, or arguments in connection therewith; and (5) the new procedure established by such amendment of the rules and regulations will not require any preparation which cannot be completed by the effective time hereof.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c. Interpret or apply 68 Stat. 906, 1047)

Issued this 24th day of September to be effective upon publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 56–7794; Filed, Sept. 26, 1956; 8:49 a. m.]

[Docket No. AO–184–A15]

PART 978—MILK IN NASHVILLE, TENN., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 978.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and certain proposed amendments to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area. Upon the basis of the evidence introduced

at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which hearings have been held;

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective October 1, 1956. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the production of an adequate supply of milk for the Nashville marketing area. Any delay beyond October 1 in the effective date of this order will tend to affect adversely the production of an adequate supply of milk for the Nashville marketing area.

The changes effected by this order amending the order, as amended, no not require of persons affected substantial or extensive changes prior to the effective date. The provisions of the said order are well known to handlers, the public hearing having been held on July 24, 1956, the recommended decision having been issued on August 23, 1956 (21 F. R. 6489) and the final decision having been isued on September 17, 1956. Therefore, reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date and it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER.

In view of the foregoing, it is hereby found that good cause exists for making this order amending the order, as amended, effective October 1, 1956 (sec. 4(c), Administrative Procedure Act, 5 U. S. C. 1003(c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the volume of milk covered by this order, amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

1. The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

2. This issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

3. The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the representative period (July 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Nashville, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order as amended, and as hereby further amended, and the aforesaid order as amended, is hereby further amended, as follows:

1. In § 978.51 (a) (1) (ii), add the following words: "except that such amount shall not be added or subtracted in computing prices for the months of October 1956 through January 1957, inclusive, and".

2. § 978.51 (a), delete subparagraph (2) and substitute the following:

(2) For each percentage by which the utilization ratio calculated for the month pursuant to subparagraph (1) of this paragraph exceeds 130, subtract from, or for each percentage by which it is less than 125, add to, the Class I price, two cents.

3. In § 978.51 (a), delete subparagraph (3).

4. In § 978.51 (a), delete the language before the proviso, and substitute the following:

(a) *Class I milk price.* The Class I milk price shall be basic formula price for the preceding month, plus $1.40 during the months of August through January, except that for the year 1957, the month of February shall be included; and plus $1.10 during all other months, plus or minus a supply-demand adjustment calculated for each month as follows:

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of September, 1956, to be effective on and after the 1st day of October 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 56–7799; Filed, Sept. 26, 1956; 8:51 a. m.]

PART 987—MILK IN CENTRAL MISSISSIPPI MARKETING AREA

TERMINATION ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 987), regulating the handling of milk in the Central Mississippi marketing area, hereinafter referred to as the "Order", it is hereby found and determined that:

(a) The provision, "Brookhaven Creamery, Brookhaven, Mississippi", contained in § 987.50 (c) does not tend to effectuate the declared policy of the act.

Section 987.50 (c) of the Federal Order No. 87, as amended, regulating the handling of milk in the Central Mississippi marketing area contains a list of five milk plants located in the State of Mississippi. Each month, the market administrator of Federal Order No. 87, computes a Class II milk price, pursuant to § 987.51 (b) of the order, on the basis of reports received from the operators of milk plants listed under § 987.50 (c) of the order. From the inception of the order the prices reported pursuant to § 987.50 (c) have exclusively reflected the value of "manufacturing grade" milk used in the production of dairy products. By including these milk plants in the list contained in § 987.50 (c) of the order, the Department intended that such value be used as the basis for computing the Class II milk price pursuant to § 987.51 (b) of the order.

The Department has been advised that effective September 1, 1956, the Brookhaven Creamery, Brookhaven, Mississippi, discontinued receiving "manufacturing grade" milk. Only "Grade A" milk is being received. It is understood that this "Grade A" milk must be paid for under the classification system provided by the Mississippi State Milk Audit Law. Therefore, effective September 1, 1956, the only price quoted by said Creamery will be a "blend" price reflecting the value of milk utilized for fluid purposes, and milk utilized for manufacturing purposes.

A "blend" price of this type does not reflect the value of milk for manufacturing purposes only; consequently it is deemed necessary that the Brookhaven Creamery, Brookhaven, Mississippi, be deleted from the list contained in § 987.50 (c) of the Federal order, as amended, regulating the handling of milk in the Central Mississippi marketing area.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest for reason stated under (a) above and in that:

1. The information upon which this action is based did not become available in time for such compliance.

2. This termination order does not require persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective immediately.

It is therefore ordered, That the provision, "Brookhaven Creamery, Brookhaven, Mississippi", contained in § 987.50 (c) of the order, as amended, regulating the handling of milk in the Central Mississippi marketing area is hereby terminated effective immediately.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608 c)

Done at Washington, D. C., this 24th day of September 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 56-7798; Filed, Sept. 26, 1956; 8:50 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 2]

PART 21—AIRLINE TRANSPORT PILOT RATING

RULES, POLICIES, AND INTERPRETATIONS

This supplement provides an applicant for an airline transport pilot rating with the following rules, policies, and interpretations of the Administrator pertaining to the application for, and issuance of, an airline transport pilot rating:

1. The method of substantiating aeronautical experience (§ 21.16–2); and the crediting of copilot time (§ 21.16–3);

2. The contents of the written examination (§ 21.15–1), and the maneuvers required for the demonstration of aeronautical skill for various type and class ratings (§§ 21.17–1, 21.20–1);

3. The form and procedure for an application, or an amendment to the application (§§ 21.21–1 and 21.21–2);

4. The manner in which temporary or permanent certificates are issued (§ 21.22–1);

5. Procedure for reexamination after failure of an examination, and the persons qualified to give additional instructions (§§ 21.28–1 and 21.28–2);

6. The aircraft to be used in the flight test (§ 21.33–1); and

7. The retention of existing pilot ratings (§ 21.40–1).

The rule prescribed in § 21.16–1 specifies those persons having aeronautical experience equivalent to a commercial pilot certificate for the purpose of issuing an airline transport pilot rating. This rule was published as a notice of proposed rule making on June 16, 1956, in 21 F. R. 4259. Interested persons have been afforded an opportunity to submit written views, data, or comments. Consideration has been given to all relevant data presented concerning this rule.

1. The following new section is added to read:

§ 21.15–1 *Written examination (CAA policies which apply to § 21.15)*—(a) *Eligibility.* The airline transport pilot rating written examination will be given to any person who meets the eligibility requirements of §§ 21.9 through 21.14 and 21.16.

(b) *Contents.* The examination consists of four sections: (1) Civil Air Regulations, (2) meteorology, (3) radio navigation, and (4) radio operations and procedures; each of which is graded separately. A minimum grade of 70 percent is required to pass each section.

(c) *Substitution of credit.* An applicant may be credited with the successful completion of the meteorology section of the airline transport pilot rating written examination if he possesses a currently valid flight navigator's certificate or an instrument rating or if, within the last 2 years he has successfully completed the meteorology section of either the flight navigator or instrument rating examination. An applicant may be credited with successful completion of the radio navigation section of the airline transport pilot examination if he possesses a currently valid flight navigator's certificate or if, within the last 2 years, he has successfully completed the air navigation section of the flight navigator examination. If, however, the applicant has previously taken the airline transport pilot examination and failed to pass these sections, he may not substitute such credit for the written examination.

(d) *Examination procedures.* The examination consisting of the four sections mentioned in paragraph (b) of this section should be completed within one 6-hour session, except that the supervising agent may, at his discretion, allow extra time in special circumstances. No examination may be started unless sufficient time remains to complete the examination before the end of regular office hours.

(e) *Report of grades.* A report of grades received, Form ACA–578A, will be mailed direct to the applicant. Form ACA–578A will be accepted within a period of 24 months from the date of the examination as evidence of the applicant's having successfully completed the knowledge requirements for an airline transport pilot rating. A Form ACA–578A, acceptable on September 1, 1956, will be accepted by the Administrator until September 1, 1958.

EXCEPTION: Form ACA–578A will be accepted by the Administrator from an applicant during the applicant's period of employment with an air carrier or operator, provided the applicant has been continuously employed since taking the examination, as a pilot with an air carrier or operator, and during this period of employment actively participates in a pilot training program conducted by the air carrier or operator.

2. The following sections are revised to read:

§ 21.16–1 *Aeronautical experience (CAA rules which apply to § 21.16).* (a) The following shall be considered to hold the equivalent of a United States Commercial Pilot Rating Certificate:

(1) Pilots of the U. S. armed services whose military experience qualifies them for commercial certificates under § 20.55 (b) of this subchapter.

(2) Holders of foreign airline transport pilot or commercial pilot licenses without limitations issued by member states of ICAO.

(b) The holding of the equivalent of a commercial pilot rating shall permit the holder thereof to meet the requirements of § § 21.17 (a) (1) through (7) and 21.18 (b)

§ 21.16–2 *Evidence of flight experience (CAA policies which apply to § 21.16).* (a) Flight experience required by § 21.16 should be substantiated by a logbook maintained in accordance with the requirements of § 43.43 of this subchapter.

3. The following new sections are added to read:

§ 21.16–3 *Copilot experience (CAA policies which apply to § 21.16 (a)).* A copilot employed by a certificated air carrier may credit "as copilot actually performing the duties and functions of a pilot-in-command under the surveillance of the pilot-in-command" that time during which he perfoms all the functions of the pilot-in-command [1] including landings and takeoffs, en route flying, low approaches, and ground functions.

(a) Flight time credited in this manner is subject to the provisions of § 43.44 (b) (2) of this subchapter.

(b) The actual flight time should be recorded and certified by the pilot-in-command under whose supervision the functions were accomplished.

§ 21.17–1 *Aeronautical skill (CAA policies which apply to § 21.17).* (a) An applicant will satisfactorily demonstrate the following maneuvers to an Aviation Safety Agent or a designated airline transport pilot examiner by means of a flight check.[2] This flight check may not be taken until the written examination has been satisfactorily completed and the applicant has complied with the requirements of § 21.31.

(b) The following list of maneuvers will be specifically required for airline transport rating in multiengine aircraft:

Equipment examination (oral).
Preflight check.
Taxiing, or sailing and docking.
Runups.
Takeoffs.
Climbs and climbing turns.[3]
Maneuvering at slow speed.
Approaches to stalls.
Airport traffic pattern.
Landing technique.
Cross-wind takeoff and landing.
Traffic control procedure.
Steep turns (instruments only).
Timed turns.[3]
Recovery from unusual attitudes.
Use of radio equipment.
Orientation.
Beam bracketing.
Cone (station) identification.
Instrument approach procedures.
Missed approach procedures.
Use of directional radio.
Rapid descent and pull-up.
Engine(s) out procedure.
Maneuvering with engine(s) out.
Maneuvering for landing at weather minimums.
Takeoff and landing with engine(s) failure.
Emergencies.
Smoothness and coordination.
Judgment.

(c) The following list of maneuvers will be specifically required for airline transport pilot rating in single-engine aircraft:

Equipment examination (oral).
Preflight check.
Taxiing, or sailing and docking.
Runup.
Takeoffs.
Climbs and climbing turns.[3]
Maneuvering at slow speed.
Stalls.
Airport traffic pattern.
Accuracy approaches and spot landings.
Landing technique.
Cross-wind takeoff and landing.
Traffic control procedures.
Steep turns (instrument only).
Timed turns.[3]
Recovery from unusual attitudes.
Use of radio equipment.
Orientation.
Beam bracketing.
Cone (station) identification.
Instrument approach procedures.
Missed approach procedures.
Use of directional radio.
Rapid descent and pull-up.
Maneuvering for landing at weather minimums.
Emergencies.
Smoothness and coordination.
Judgment.

(d) The following list of maneuvers will be specifically required of ATR multiengine pilots who apply for additional type ratings:

Equipment examination (oral).
Preflight check.
Taxiing, or sailing and docking.
Runups.
Takeoffs.
Maneuvering at slow speed.
Approaches to stalls.
Airport traffic pattern.
Landing technique.
Cross-wind takeoff and landing.
Traffic control procedures.
Steep turns (instrument only).
Recovery from unusual attitudes.
Use of radio equipment.
Instrument approach procedures.
Missed approach procedures.
Rapid descent and pull-up.
Engine(s) out procedure.[3]
Maneuvering with engine(s) out.[3]
Maneuvering for landing at weather minimums.
Takeoff and landing with engine(s) failure.
Emergencies.
Smoothness and coordination.
Judgment.

[1] An air carrier should determine that a copilot has had sufficient time and experience and has demonstrated his ability to perform efficiently the duties of a copilot before permitting him to perform the functions of a pilot-in-command for the purpose of logging "pilot-in-command time".

[2] The examiner or agent will determine the order in which the maneuvers are to be accomplished. See Appendix A for detailed information relating to the required maneuvers. Appendix A not filed with Federal Register Division.

[3] Not required if applicant holds instrument rating.

Application for an amendment to the Airline Transport Pilot Rating Certificate will be made in accordance with procedures set forth in § 21.21–1.

§ 21.22–1 *Issuance (CAA policies which apply to § 21.22 (a)).* After the applicant has satisfactorily completed both the written examination and flight test, he will be issued a temporary certificate, Form ACA–1710T. This certificate may be issued by an Aviation Safety Agent only. Hence, if the flight test has been given by a designated examiner, the applicant must obtain a properly endorsed Form ACA–342A from him for presentation to an Aviation Safety Agent who will issue the Form ACA–1710T. Permanent certificates will be issued from Washington, D. C.

§ 21.28–1 *Reexamination (CAA policies which apply to § 21.28 (b)).* (a) An applicant who has failed any maneuver (or maneuvers) will be issued a Form ACA–666 which will list specifically the maneuvers which he failed. In a reexamination only the maneuvers failed [5] need be repeated.

(b) Form ACA–666 must be submitted to the agent or examiner prior to reexamination, together with satisfactory evidence that the additional flight time requirements required in § 21.28 (b) have been met.

§ 21.28–2 *Instrument flight instruction (CAA policies which apply to § 21.28 (a) (3)).* An instructor employed by an air carrier or by a certificated flying school to instruct in courses pertinent to the theory of instrument flight will be considered to qualify under this section.

§ 21.33–1 *Aircraft used in tests (CAA interpretations which apply to § 21.33).* (a) Aircraft used to accomplish flight tests for airline transport pilot ratings may be (1) properly certificated aircraft of U. S. registry; or (2) at the discretion of the agent or examiner, aircraft of foreign registry properly certificated by the authorities of the country in which it is registered; or (3) at the discretion of the agent or examiner, military aircraft on operational status if permission of the appropriate military authority is obtained.

(b) A suitable hood must be provided by the applicant for the aircraft used. The hood must completely exclude from the applicant all outside forward visual reference and yet not unduly restrict the vision of the agent or examiner.

§ 21.40–1 *Retention of existing ratings upon issuance of a pilot certificate of a higher rating (CAA policies which apply to § 21.40).* (a) The holder of a commercial pilot certificate who qualifies for an airline transport pilot certificate may retain all of his commercial pilot certificate ratings. However, when such ratings are endorsed on his airline transport pilot certificate, he may exercise only the privileges of a commercial pilot in respect to such ratings. In order to exercise such privileges, he must hold a first class medical certificate issued within the past 12 calendar months.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

This supplement shall become effective October 15, 1956.

[SEAL] JAMES T. PYLE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 56-7772; Filed, Sept. 26, 1956; 8:45 a. m.]

[4] Not required if applicant holds instrument rating.

[5] See Appendix B for various type ratings. Appendix B not filed with Federal Register Division.

[6] The number and relative importance of the maneuvers specified in § 21.17–1 which have been failed will be used as a guide in determining how many hours of flight time are required prior to reexamination.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6271]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

AMERICAN BROADLOOM CARPET CO., ET AL.

Subpart—*Advertising falsely or misleadingly:*

§ 13.15 *Business status, advantages, or connections:* Producer status of dealer or seller; retailer as wholesaler, jobber or factory distributor; § 13.155 *Prices:* Exaggerated as regular and customary. Subpart—*Using misleading name*—Vendor; § 13.2460 *Retailer as wholesaler, jobber or distributor.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Jacob Hauptman t. a. American Broadloom Carpet Company, etc., Philadelphia, Pa., Docket 6271, September 10, 1956]

In the Matter of Jacob Hauptman, an Individual Trading as American Broadloom Carpet Company, American Floor Covering Company, and American Mills Outlet Co.

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging an individual, engaged under several trade names in the retail sale of rugs and carpets in Philadelphia, with representing falsely in advertisements in newspapers, periodicals, and other advertising media that certain carpetings had been "Woven to sell for $19.95" or were "Orig. $12.95" or other prices which were greatly in excess of the usual price he charged for the merchandise offered; that such advertised prices provided a substantial saving to purchasers; and through use of the words "Mills Outlet" in one of his trade names and otherwise in his said advertisements, that he had been especially selected by manufacturers to dispose of their rugs and carpets at greatly reduced prices—and hearings in due course.

On this basis, the hearing examiner made his initial decision and order to cease and desist, from which respondent appealed. The Commission, having heard the matter upon briefs of counsel, on September 10 issued its opinion denying the appeal and modifying the order, and adopting the initial decision as modified as the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent Jacob Hauptman, an individual, trading as American Broadloom Carpet Company, American Floor Covering Company, or American Mills Outlet Co., or trading under any other name, and his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of carpets, rugs, or other merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing as the customary and usual prices of said products any price which is in fact in excess of the price at which such products are customarily offered for sale and sold by respondent in the usual course of business.

2. Misrepresenting in any manner the amount of savings available to purchasers of respondent's products.

3. Using the words "mills outlet," or any other word or words of similar import or meaning, as a part of a trade name, or in any other manner; or otherwise representing that respondent has been especially designated or selected by any manufacturer of rugs and carpets to dispose, sell or distribute in any manner the products of said manufacturer.

By "Final Order", report of compliance was required as follows:

It is further ordered, That respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the initial decision as modified.

Issued: September 10, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 56-7780; Filed, Sept. 26, 1956; 8:47 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 577—MEDICAL AND DENTAL ATTENDANCE

DENTAL ATTENDANCE

Sections 577.40 to 577.46 are revoked and the following substituted therefor:

Sec.
577.40 General.
577.41 For whom authorized.
577.42 Dental care by civilian dentists.

AUTHORITY: §§ 577.40 to 577.42 issued under R. S. 161; 5 U. S. C. 22.

SOURCE: AR 40-180, Aug. 8, 1956.

§ 577.40 *General*—(a) *Definition.* The term "dental care" as used in §§ 577.40 to 577.42 embraces the science of dentistry as commonly practiced by the dental profession.

(b) *Precedence in treatment.* Persons requiring emergency treatment will receive first consideration. Persons on active military duty will have precedence over others authorized treatment under § 577.2.

(c) *Maintenance of professional standards.* Dental treatment rendered in Army facilities will conform to the highest professional and ethical standards. All practical means for maintaining such standards will be encouraged, including the following:

(1) Membership of dental officers in appropriate professional societies and the fostering of contracts with the civilian profession where such is practical.

(2) Regular professional staff meetings, the organization of study groups, or other means for the mutual stimulation of professional improvement when the size of the dental facility warrants such action.

(3) Maintenance of adequate reference libraries.

(4) Utilization of training aids available from the Department of the Army or other sources.

(5) Rotation of general duty dental officers among different sections of dental services, or other means for increasing their experience and knowledge in all aspects of dentistry.

(6) Improvement in the qualifications of auxiliary personnel through planned and supervised on-the-job training and attendance at appropriate school courses.

§ 577.41 *For whom authorized.* Dental care is authorized for the same persons and under the same conditions as medical care (§§ 577.1, 577.2, 577.5 and 577.15), except as provided in § 577.40 to 577.42.

§ 577.42 *Dental care by civilian dentists*—(a) *For whom authorized.* Subject to the conditions and limitations specified herein, dental care by civilian dentists at the expense of Army Medical Service funds is authorized for the following personnel and none other when the required care cannot be procured from available dental facilities of the Department of Defense or other Federal agencies outside the Department of Defense: *Provided*, That this authorization will not apply to personnel who obtain elective dentistry from civilian dentists:

(1) Officers, warrant officers, and enlisted personnel of the Regular Army and cadets of the United States Military Academy when on a duty status or when absent on any authorized leave or pass. Charges incurred for civilian dental care when absent without leave are the sole responsibility of the individual concerned.

(2) Officers, warrant officers, and enlisted personnel of the Army Reserve; the federally recognized National Guard of the several States, Territories, and the District of Columbia; the National Guard of the United States; and the Army without specification as to component when ordered or called into active Federal service, when ordered to active duty for training, or while performing reserve duty training.

(3) Members of the Reserve Officers' Training Corps en route to, or from, or during their attendance at camps of instruction under section 47a, National Defense Act.

(4) Applicants for enlistment or reenlistment and registrants under the Universal Military Training and Service Act (62 Stat. 604) as amended (50 U. S. C. App. 451 et seq.) (limited to necessary dental examination except as provided in subparagraphs (5) and (6) of this paragraph).

(5) Applicants for enlistment or registrants whose physical fitness for military service cannot be determined without hospital study.

(6) Applicants for enlistment who suffer acute illnesses and injuries while awaiting or undergoing enlistment processing at recruiting main stations or at Armed Forces Examining Stations (limited to emergency dental care, including hospitalization).

(7) Prisoners.

(8) Prisoners of war, persons interned by the Army, and other persons in military custody or confinement.

(9) Civilian seamen in the service of vessels operated by the Department of the Army.

(b) *Emergency dental care.* Prior approval of higher authority is not required for the employment of a civilian dentist for emergency dental treatment, which is defined as dental treatment for the relief of pain, or acute conditions, or of dental injuries caused by direct violence. Such care will be confined to the relief of the immediate emergency.

(c) *Routine dental care.* Routine dental care will include all preventive, therapeutic, restorative and oral surgical measures, other than those of an emergency nature which are necessary to maintain dental health and function, but will not include those measures required primarily for cosmetic reasons or for correction of minor nonprogressive defects. Civilian dentists may not be employed at public expense for the treatment of chronic lesions, filling operations, prosthetic replacements, and other prolonged or extensive procedures, such as those required following the relief of an immediate emergency, until specific approval for such employment has been received from the approving authority: *Provided*, That in the case of military personnel on detail without troops in foreign countries, dental service of this character which is urgently necessary may be procured at reasonable rates without prior approval of higher authority.

[SEAL] JOHN A. KLEIN, *Major General, U. S. Army, The Adjutant General.*

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

CHRISTINA RIVER, DELAWARE

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.235 governing the operation of drawbridges across Christina River is hereby amended to prescribe closed periods for the Delaware State Highway Department bridges at Third Street and Market Street, Wilmington, Delaware, and other minor changes, as follows:

§ 203.235 *Christina River, Del.; bridges.* • • •

(b) Except as otherwise provided in paragraphs (g) and (h) of this section, the bridge tender upon hearing or perceiving the prescribed call signal shall immediately clear the drawspan and open the draw to its full extent for the passage of the vessel or other craft: *Provided*, That the draw of a railroad bridge need not be opened when there is a train in the bridge block approaching the bridge with the intention of crossing, nor within 5 minutes of the known time of passage of a scheduled passenger, mail, or express train; but in no event, except in case of breakdown of the operating machinery, shall the opening of the draw be delayed more than 5 minutes in the case of a highway bridge, nor more than 10 minutes in the case of a railroad bridge.

• • • • • •

(f) The foregoing general regulations contained in paragraphs (a) to (e), inclusive, of this section shall apply to all bridges except as modified by the special regulations contained in paragraphs (g) and (h), of this section, prescribed to provide for closed or open periods when land or water traffic predominates and for the operation of a particular bridge on advance notice.

• • • • • •

(h) *Closed periods.* The Third Street and Market Street bridges shall not be required to open for the passage of vessels between 7 a. m. and 8 a. m. and between 4:30 p. m. and 5:30 p. m., except on Sundays and legal holidays: *Provided*, That any vessel which has passed through either bridge immediately prior to a closed period and will require passage through the other bridge in order to continue to its destination shall be passed through the draw without delay. *Provided further*, That in time of flood or other emergency the closed periods may be suspended or modified by the District Engineer, Corps of Engineers.

[Regs., September 13, 1956, 823.01 (Christina River, Del.)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] JOHN A. KLEIN, *Major General, U. S. Army, The Adjutant General.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 941]

[Docket No. AO-101-22]

MILK IN CHICAGO, ILL., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendment to the tentative marketing agreement and to the order, as amended, was formulated, was conducted at Chicago, Illinois, on June 4, 6, and 7, 1956, pursuant to notice thereof which was issued on May 16, 1956 (21 F. R. 3327).

The material issues on the record of the hearing related to:

1. The price level for Class I milk, including the supply-demand adjustment.

2. Revision of the definition of "pool plant" with respect to performance of plants and other qualifications; and accounting and payments for nonpool milk received at a pool plant.

3. Elimination of the special price applied in September, October and November to Class I and Class II milk moved in bulk to points outside the surplus milk manufacturing area.

4. Revision of price differentials to producers in nearby zones.

5. Changes in the method of accounting for milk, including use of a skim milk and butterfat system of accounting, and a special classification and accounting plan for skim milk and butterfat used in ice cream.

6. Expansion of the surplus milk manufacturing area.

7. Classification of malted milk.

8. "Reload point" as a type of pool plant.

In addition to the issues here listed, certain other matters were referred to in proposals included in the hearing notice, but were either abandoned or not specifically mentioned at the hearing. These matters included the price level for Class II milk, expansion of the marketing area to include all of Lake County, Illinois, advance payments to producers, new producer bases, and accounting for own-farm production. It is concluded that no action with respect to these matters should be taken on this record.

This decision deals only with issues Nos. 1, 4, 5, 6, 7 and 8. The other issues, No. 2 and No. 3, have been dealt with in a previous decision.

Findings and conclusions. The following findings and conclusions on the material issues covered in this decision are based upon evidence contained in the record of the hearing:

1. *Class I price.* No change should be made in the Class I price differential or supply-demand adjustor.

Several producer organizations requested that the Class I price differential, which is added to the basic formula price, be changed to $1.10 per hundredweight for each month of the year. One producer group requested that the supply-demand adjustment be deleted from the order.

The Class I price differentials now provided in the order are $1.10 for the months of August through November, 90 cents for December, January, February and July, and 70 cents in other months. The annual average of these differentials is 90 cents.

The testimony in favor of making the Class I differential $1.10 for every month was based on the following reasons: (1) Increased costs of milk production; (2) loss of producers from the market; (3) low level of price compared with prices in other markets; and (4) a long-term upward trend in sales in the past ten years.

A representative of the largest producer organization in the market explained that his request for a price increase was not based on a need for more milk in the market, or to effect less seasonal variation in pricing, but rather to increase returns to producers on the present volume of milk.

A witness for handlers opposed the price increase and the elimination of seasonal pricing, as proposed by producers, on the basis that these would be harmful to the competitive position of handlers, particularly with respect to out-of-market sales, which are a substantial part of the Chicago handlers' business.

Record data do not show there is as yet any substantial reduction in seasonal variation in total producer deliveries from the range of variation for years prior to operation of the base plan. When the base plan was made effective in September 1954, seasonal price changes were retained in the order as an additional incentive to producers to even out production. Moreover, substantial amounts of milk approved for Chicago distribution are sold in packaged form as Class I milk in a number of markets outside the defined marketing area. Some of this milk is sold at resale prices which vary from those which prevail in the marketing area and in markets where seasonal adjustments of producer prices take place in the flush production season. To eliminate seasonal pricing under present conditions could result in competitive disadvantage to handlers which, if it proved substantial, would mitigate the presumed gain to producers from elimination of seasonal pricing.

In view of the lack of substantial evidence of a basis for eliminating seasonal pricing, it is concluded that no change should be made in the order in this respect.

The proposal to increase the annual average of the Class I price should be examined in the light of price levels in recent years, and of changing supply and demand conditions. The proposed price increase of 20 cents per hundredweight is substantial in relation to the present level of the differentials, and is greater than the total increase in the differentials since 1951. At the time when the Chicago and suburban orders were combined on July 1, 1951, the annual average of the Class I differentials was 75 cents per hundredweight. Effective July 1, 1952, an amendment to the order increased the average of the differentials to 89.2 cents. The average of the differentials included in the December 1, 1954, amendment was 90 cents.

Since July 1, 1952, the Class I price has also been subject to a supply-demand adjustment based on the relationship of the volume of producer milk to utilization in Class I and Class II in the most recent 12-month period. This automatic price adjustment has served to keep the level of order prices in line with changing market conditions.

Data in the record for the years 1951 to date show a fairly steady increase in Class I sales, with the largest increases occurring after mid-1953. Sales of Class II milk in 1955 were slightly less than in 1951. The combined increase in both classes of milk was about 9 percent. Milk supplies from producers, on the other hand, increased about 20 percent in this period. Although producer numbers declined from an average of 23,005 in 1951 to 22,050 in 1955, this was compensated by a 25 percent increase in production per dairy.

For the first four months of 1956, production was about 5.1 percent higher than a year previous. Increased sales of Class I and Class II milk resulted in about the same level of utilization as in the same months of 1955.

The fall months are normally the critical period as to whether the market is adequately supplied. The percentage of producer milk used in Class I and Class II in the shortest production month of 1955, which was September, was 86.8 percent. In August, the percentage was 82.2 percent; in October, 80.2 percent; in November, 78.3 percent; and in December, 72.0 percent. Some testimony given in support of a proposal to change the requirements for pool plant status stressed the need to make milk available to the market in the fall months of short production. An amendment to the order on the basis of this record and effective September 1, 1956, makes modifications in pool plant requirements similar to those proposed.

It is concluded, on the basis of the preceding considerations, that the market supply in recent periods has been adequate, but not excessive, and that the price levels in the order since 1951 have resulted in an adequate response of supply to meet the needs of the market.

The testimony with respect to the proposal to eliminate the supply-demand adjustment contended that this factor has reduced prices in periods when surplus utilization in the market is not excessive. The testimony cited the situations in the fall months of 1954 and 1955, when the supply-demand formula reduced the price for milk in these classes although utilization in Class I and Class II ranged from 79 to 84 percent in the former, and from 78 to 87 percent in the latter instance. The witness pointed out that when utilization in fall months of 1952 was at a similar level, the supply-demand adjustment was adding 12 to 15 cents per hundredweight to the Class I price.

Official notice is taken here of the decision of the Secretary dated June 16, 1952 (17 F. R. 5526), in which it was decided that the supply-demand adjustment should be based on a twelve-month moving average of utilization. This type of adjustor was made effective July 1, 1952. Prior to that time the adjustment had been based on a six-month moving average of utilization. The latter type of adjustor had proved unsatisfactory in that it had resulted in some price variation contrary to the current supply-demand situation. At the hearing on which the June 16, 1952, decision was based, testimony generally indicated a preference for a type of adjustment which would reflect secular trend rather than a forecast of conditions immediately ahead.

Inasmuch as a twelve-month moving average is generally indicative of the secular trend of market utilization, and obscures variations of utilization in individual months, it is possible for negative price adjustments to continue through periods of a few months when the market is no more than adequately supplied. Furthermore, in periods covering several months when there is a general change in the level of utilization, it must be expected that the 12-month average will move more slowly than changes in recent months. However, effective August 1, 1955, the supply-demand adjustment was modified to reflect any change of the most recent twelve-month utilization figure from the similar utilization figure calculated three months previously. This change made the supply-demand adjustment more responsive to the situation in recent months. No proposal was made on the record as to how the supply-demand adjustor could be further revised to forecast with greater precision the prospective supply-demand situation. There is no basis in this record for the conclusion that deletion of an automatic price adjustor would result in a pricing system more adequately reflective of changing supply and demand conditions.

4. *Revision of price differentials to producers in nearby zones.* Location adjustments to producers with farms located near the marketing area should be revised so that location payments from the pool are made according to the location of the producer's farm rather than on the basis of the location of the plant where his milk is received. The rate of payment should be adjusted.

The order provides that uniform prices to producers are subject to location adjustments. The monthly announced uniform price per hundredweight applies to milk of 3.5 percent butterfat content received at pool plants located in the 55–70 mileage zone from the City Hall in Chicago. The price to producers for milk delivered at plants beyond this zone is reduced by 2 cents per hundredweight for each 15 miles, or fraction thereof that the plant location exceeds 70 miles. Milk delivered to plants located between the outer perimeter of the marketing area and a distance of 55 miles from Chicago City Hall, and milk delivered to plants located within the marketing area, is priced at the announced 55–70 mile zone uniform price plus 2 cents and 10 cents, respectively. The handler who receives the milk from producers pays the 2 cents additional for milk received at plants located between the marketing area and 55 miles, and 4 cents of the payment applicable at plants located in the marketing area, with the remaining 6 cents being paid out of the pool as a handler credit.

A major producer group proposed that the payment out of the pool be made on the basis of the location of the farm, rather than the present basis, which is the location of the plant where milk is received. According to this proposal, producers whose farms are in the townships within a radius of approximately 70 miles of the Chicago City Hall would be eligible for the nearby differentials. The townships would be grouped into two zones, which for convenience in this connection are designated as "Zone A" and "Zone B." Zone A would include all townships located within a radius of approximately 55 miles from the Chicago City Hall, and the Zone B would include all remaining townships located within the area encompassed by the approximate 70-mile radius. As a corollary to the zoning of nearby producer farms, it was proposed to change the rate of credit out of the pool from 6 cents per hundredweight on all milk received at a marketing area pool plant, to 4 cents per hundredweight on all milk received from producers with farms located in Zone A, and 2 cents per hundredweight on milk received from producers with farms located in Zone B. A handler would be given the pool credit on all milk received from these two groups of producers regardless of the receiving plant's location.

The 6-cent pool payment for milk received at plants located in the marketing area was incorporated in Order 41, July 1, 1951, when Orders 41 and 69 were combined. In this connection official notice is taken of the decision of the Secretary issued June 12, 1951 (16 F. R. 5777). Under Order 69, which regulated the handling of milk in suburban Chicago, uniform prices were computed on an individual-handler basis, and a wide variation in uniform prices existed between different handlers. In addition, the Order 69 uniform prices were generally higher than the Order 41 uniform prices for the same month. For all milk received by Order 69 handlers, the uniform prices had averaged about 17 cents per hundredweight higher than the Order 41 uniform prices. Since many Order 41 and Order 69 producers were interspersed, differences in prices tended to disrupt the orderly marketing of milk. Although most Order 41 producers with farms located near the marketing area had been receiving premiums above the announced uniform price, these were not uniform and were disturbing to the orderly marketing of milk produced on farms in or near the marketing area. It was proposed by the sponsors of the consolidation of Orders 41 and 69 that all those producers shipping milk to marketing area plants should share in the high utilization value contributed to the combined pool by the suburban handlers in the consolidation. In the decision of June 12, 1951, it was concluded that this amounted to about 6 cents per hundredweight on all milk shipped directly to plants located in the enlarged marketing area, and handlers who have received such milk have been given a pool credit at this rate from July 1, 1951, to date.

It was contended at this hearing, and at hearings on proposed amendments to Order 41 in April 1952, June 1954 and July 1955, that this pool credit has resulted in problems to certain handlers in the procurement of milk, and that handlers with plants located in the marketing area had a 6-cent per hundredweight price advantage over those with plants located outside the marketing area. This allegedly resulted in the unnecessary shifting of producers among plants, additional costs to some handlers in purchasing milk, and instability in the procurement of milk.

As the handling of milk in farm tanks became more prevalent the effect of the 6-cent pool credit extended further into the milkshed. Milk which had formerly been received at country plants was hauled directly from farms to the marketing area in tank trucks. In many instances milk was transferred from a bulk tank pickup truck to a larger truck, and then hauled to a city plant. As a result, the amount of money taken out of the pool to pay farmers shipping to marketing area plants increased.

Proposals to amend Order 41 to wholly or partially eliminate some of the effects of the 6-cent pool payment were considered at the previously mentioned hearings held in 1952, 1954 and 1955. Included in these proposals were extensions of the marketing area to include adjacent townships so that additional handlers would receive the 6-cent credit, elimination of the credit entirely, and proposed changes in the pricing points for some bulk tank milk. The last mentioned of these proposed amendments was adopted. Effective March 1, 1956, bulk tank milk transferred from one truck to another was priced at the point of transfer, with a consequent reduction of credit payments out of the pool. However, many people in the industry consider that the 6-cent pool credit results in substantial inequities between producers and handlers.

The major producer and handler groups contended at the hearing that changing the basis of the pool credit to handlers from the location of the plant to the location of the farms where milk was produced, would eliminate the procurement advantages of handlers with plants located in the marketing area. Under the proposal, each plant, regardless of location, would be given the same pool credit for milk received from farms located in Zone A, and similarly for farms located in Zone B. To illustrate, a plant located in the 55–70 mile zone would be given the same pool credit of 2 cents per hundredweight of milk received from a farm located in Zone B as would be given to a plant located in the marketing area and receiving milk from a farm in the same zone. At the present time, no credit would be given the plant in the 55–70 mile zone whereas a plant in the marketing area would receive a 6-cent credit. Under the proposal, the uniform prices to producers would continue to reflect the location of the plant to the extent of 2 cents per hundredweight per zone, and these amounts would be paid by the handlers operating the plants. These differences in prices would be paid to any producer regardless of farm location. The differences approximate the cost of hauling milk from different locations.

There was no testimony in opposition to the proposal.

The proposed revision of the basis of payment for nearby differentials may be expected to result in about the same total amount of money to producers for such differentials as has been paid in recent years. The proposed zoning and change in rates would result in approximately the same area distribution of the money as was the case when the orders for Chicago and the suburban area were combined. The zoning of farms in two groups also has the advantage of providing a gradation in prices according to distance from a central location. Further, the payments out of the pool to producers would be limited to those whose milk supplies have historically commanded premiums over more distant milk by more than the actual difference in transportation cost on the principal grounds that such supplies are better adjusted to the requirements of the fluid milk market, are more readily accessible, and are less subject to weather and transportation hazards.

The proposed zone arrangement of the nearby area and the rates of payment are reasonable in view of the past market practices and should be adopted.

5. *Changes in accounting for milk.* No change should be made in the method of accounting for milk utilization, except as provided under Issue No. 7.

Two proposals were made to change the method of accounting for utilization of milk by handlers. One proposal was to adopt a method of accounting for utilization of all skim milk and butterfat. This is the same proposal as was made at hearings held in June 1954, and July 1955. The other proposal at this hearing with respect to accounting for utilization would call for separate accounting for skim milk and butterfat used for ice cream, ice cream mix and frozen desserts. Substantially the same proposal was considered at the July 1955 hearing. In this connection official notice is taken of decisions of the Secretary issued November 26, 1954 (19 F. R. 7693), and February 13, 1956 (21 F. R. 1070).

The testimony at this hearing on these proposals did not present any substantial new evidence which would require a different conclusion than on the basis of the previous hearings. In fact, much of the evidence with respect to one of the proposals was given principally by reference to testimony at the pervious hearings.

It is concluded that this record does not provide a basis for conclusions different from conclusions made on these issues on records of the previous hearings, and that the proposals should be denied.

6. *Expansion of surplus milk manufacturing area.* No change should be made in the surplus milk manufacturing area.

A handler proposed that Dubuque County, Iowa, be included in the surplus milk manufacturing area. The reason given for this request was to change the classification of milk moving from a plant regulated under this order to a plant in Dubuque, Iowa, which is outside the surplus milk manufacturing area.

Under the Federal order regulating the handling of milk in the Dubuque marketing area, such movements of milk are treated as other source milk and allocated to the lowest class. Under this order, such shipments of milk to plants regulated under another order are classified as Class I milk pursuant to § 941.40 (a) to the extent of Class I utilization in the plant to which transferred.

It was the contention of the proponent that extension of the surplus milk manufacturing area would allow classification of such milk under this order in the same class to which it is assigned under the Dubuque order. This is not in conformance with order provisions, since §941.40 (a) states the basis for classification of milk moving to plants regulated under other orders, wherever located, and takes precedence over paragraphs (c) and (d) of such section which deal with classification of milk moved to

plants within the surplus milk manufacturing area.

The surplus milk manufacturing area has been established under the order as an area in which handlers may economically dispose of surplus milk for manufacturing uses. The reasons given for this proposal to enlarge the area are not consistent with this purpose. It is concluded the proposal should be denied.

7. *Classification of malted milk.* Malted milk should be classified as a Class III (a) milk product.

Under the present provisions of Order 41, any milk the butterfat from which is used in the production of a product not specifically named in the Class I, Class II or Class IV milk definitions, is classified as Class III milk. The Class III milk definition, in turn, specifies that the butterfat in milk used in condensed milk disposed of to commercial food processors located within the surplus milk manufacturing area, and sweetened condensed milk in hermetically sealed cans, evaporated milk, whole milk powder, nonfat dry milk solids and condensed skim milk, shall be referred to as Class III (a) milk. The price for Class III (a) milk is at all times the condensery pay-price, whereas the price for the balance of the Class III milk is the condensery pay-price or the Class IV price, whichever is the higher.

It was proposed that malted milk be included as a Class III (a) product. Malted milk production, nationally, represents a large proportion of the dry whole milk solids production. Malted milk is processed in essentially the same manner as other Class III (a) milk products, and its composition is similar except for added ingredients. Competing unregulated plants base their prices to farmers on the midwest condensery price. In view of the close similarity in form and use between malted milk and other Class III (a) products, it should be included in that classification.

8. *Reload points.* The order should be amended to clarify the definition of "reload point."

In the recommended decision on this record issued by the Deputy Administrator July 20, 1956 (21 F. R. 5590), and the decision of the Secretary issued August 13, 1956 (21 F. R. 6136), the matter of "reload points" as a type of pool plant was inadvertently listed as part of Issue No. 2. No findings or conclusions were made with respect to reload points in those decisions. This matter should be considered as a separate issue as provided in this decision.

Effective March 1, 1956, Order 41 was amended to include as a "pool plant" any location at which milk moved from the farm in a tank truck is reloaded into another truck before entering a plant. Such a location is designated as a "reload point." This amendment was made in an effort to deal with certain problems that arise in the pooling and pricing of milk because of the increasing use of bulk tank milk assembly. These problems center around the question as to the point at which such milk should become subject to regulation and where it should be priced. Prior to this March 1, 1956 amendment, all milk was regulated and priced under Order 41 upon receipt at a plant.

Three proposals were made at this hearing to eliminate the reload point concept from the order. In support of two of these proposals, it was pointed out that the milk of some can shippers is reloaded from one truck to another in the country and shipped to the plant in the marketing area, so that the shipper receives the marketing area price. It was contended that the bulk shippers should be treated in the same manner, and that prices received by some bulk tank producers had been adversely affected by the March 1, 1956 amendment. The third proposal to eliminate reload points was offered as a corollary to the proposed change in the method of applying location differentials to producers located near or in the marketing area. This proposal was based on the assumption that the designation of reload points as pool plants served only to prevent handlers from receiving substantial amounts of money as pool credits to pay to some producers located considerable distances from the market whose milk was being picked up in tank trucks for movement directly to marketing area plants. It was contended that the proposed change in the basis of payments to nearby producers would accomplish such a purpose equally well, and that therefore the concept of reload points could be eliminated from the order.

The complaint against establishing prices at reload points is that farmers in zones well beyond the 70-mile zone do not receive prices established for delivery to the marketing area. Reload points were made the point of pricing under the order, by amendment March 1, 1956, for milk handled at such facilities, so that the price would be established for reloaded milk at country points in a manner similar to the pricing of other milk received at plants in the same locality. This record does not show that such a system of pricing at reload points is unsound or inequitable, and it is unnecessary here to repeat in detail the basis for establishing reload points. In this connection the order should be clarified, however, with respect to reloading performed at plant locations. By administrative practice such operations have been treated as part of the plant's operations, and this should continue to be so. No purpose is served with respect to pricing or administration by separation of these operations, and it would be impractical to consider the operations as separate. In the attached amending language the definition of reload point is modified to indicate that reloading on plant premises is considered part of the plant's operations.

General findings. (a) The tentative marketing agreement and the order, as amended and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings. Briefs were filed on behalf of interested persons. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreement and amendment to the order, as amended. The following amendments to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

1. Delete § 941.6 and substitute therefor the following:

§ 941.6 *Reload point.* "Reload point" means any location at which milk moved from the farm in a tank truck is commingled with other milk before entering a plant, except that reloading operations on the premises of a plant shall be considered a part of the plant's operations.

2. Delete § 941.41 (c) (1) and substitute therefor the following:

(1) Condensed milk (sweetened or unsweetened) disposed of to commercial food processors located within the surplus milk manufacturing area, sweetened condensed milk in hermetically sealed cans, evaporated milk, whole milk powder, nonfat dry milk, malted milk, and condensed skim milk (the products specified in this subparagraph are referred to hereinafter as Class III (a) milk);

3. Delete § 941.70 (d) and substitute therefor the following:

(d) Subtract the amount of any location adjustment to producers allowable pursuant to paragraphs (d) and (e) of § 941.81.

4. Delete § 941.71 (b) and substitute therefor the following:

(b) Add the aggregate of location adjustments to producers allowable pursuant to § 941.81 (a).

5. Delete § 941.80 and substitute therefor the following:

§ 941.80 *Time and method of payment for producer milk.* (a) On or before the 15th day after the end of each delivery period each handler shall pay to each cooperative association which is also a handler for milk received from it during the delivery period not less than the total value of such milk computed by multiplying the pounds of such milk in each class by the applicable class price subject to the location adjustment credit pursuant to § 941.53, or to the location adjustments to producers allowable pursuant to paragraphs (b) and (c) of § 941.81, whichever is applicable at the plant where the milk is received by the cooperative association and to a butterfat differential computed pursuant to § 941.82.

(b) On or before the 18th day after the end of each of the delivery periods of July through February each handler shall pay to each producer per hundredweight of milk received from him during such delivery period, respectively, not less than the uniform price, for such delivery period, subject to the location adjustments and butterfat differential provided by §§ 941.81 and 941.82.

(c) On or before the 18th day after the end of each of the delivery periods March through June each handler shall pay to each producer per hundredweight of base milk received from him during such delivery period, respectively, not less than the uniform price for base milk, and for excess milk received from such producer the handler shall pay not less than the uniform price for excess milk, subject in the case of both base milk and excess milk to the location adjustments and butterfat differential provided by §§ 941.81 and 941.82.

6. Delete § 941.81 and substitute therefor the following:

§ 941.81 *Location adjustments to producers.* In making payments to producers pursuant to § 941.80 (b) and (c), each handler shall:

(a) Deduct per hundredweight of milk received from producers at a pool plant located more than 70 miles from the City Hall in Chicago, 2 cents for each 15 miles, or fraction thereof, greater than 70 miles;

(b) Add 2 cents per hundredweight of milk received from producers at a pool plant located outside the marketing area but not more than 55 miles from the City Hall in Chicago;

(c) Add 4 cents per hundredweight of milk received from producers at a pool plant located within the marketing area;

(d) Add 4 cents per hundredweight of milk received from producers whose farms are located in the territory lying within the City of Kenosha, the townships of Pleasant Prairie, Bristol and Salem in Kenosha County, all in the State of Wisconsin; the townships of Richmond, Burton, Greenwood, McHenry, Seneca, Dorr, Nunda, Coral, Grafton and Algonquin in McHenry County, Lake County, Kane County, Cook County, Du Page County, Kendall County, Will County; the townships of Saratoga, Aux Sable, Goose Lake and Felix in Grundy County; and the townships of Rockville, Manteno, Sumner, Yellowhead, Bourbonnais, Ganeer and Momence in Kankakee County, all in the State of Illinois; and Lake County, and Porter County, except Pleasant Township all in the State of Indiana, which territory shall be known as Zone A; and

(e) Add 2 cents per hundredweight of milk received from producers whose farms are located in the territory lying within the City of Racine, the townships of Raymond, Caledonia, Burlington, Dover, Yorkville and Mount Pleasant in Racine County; the townships of Brighton, Paris, Somers, Wheatland and Randell in Kenosha County; the townships of Lyons, Linn and Bloomfield, of Walworth County, all in the State of Wisconsin; the townships of Chemung, Alden, Hebron, Dunham, Hartland, Marengo and Riley in McHenry County; the townships of Boone, Bonus and Spring in Boone County, DeKalb County, the townships of Earl, Adams, Northville, Serena, Mission, Dayton, Rutland, Miller and Manlius, in LaSalle County; the townships of Nettle Creek, Erienna, Norman, Morris, Wauponsee, Vienna, Mazon, Maine, Braceville, Good Farm, Garfield and Greenfield in Grundy County; the townships of Essex, Salina, Limestone, Kankakee, Norton, Pilot, Otto, Aroma, St. Anne, and Pembroke, in Kankakee County; the townships of Chebanse, Papineau and Beaverville in Iroquois County, all in the State of Illinois; the townships of Lake, Lincoln, McClellan, Colfax, Beaver and Jackson in Newton County; the townships of Keener, Union, Wheatfield, Walker and Kankakee in Jasper County; Pleasant township in Porter County; the townships of Dewey, Prairie, Cass, Hanna, Clinton, Noble, New Durham, Scipio, Coolspring, Center, Kankakee, Michigan, Springfield and Galena in LaPorte County, all in the State of Indiana; and the townships of New Buffalo, Three Oaks and Chikaming in Berrien County in the State of Michigan, which territory shall be known as Zone B.

Filed at Washington, D. C., this 24th day of September 1956.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R Doc. 56-7800; Filed, Sept. 26, 1956; 8:51 a. m.]

[7 CFR Part 946]

[Docket No. AO-123-A18]

MILK IN LOUISVILLE, KY., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Louisville, Kentucky, on February 27-28, 1956, pursuant to notice thereof which was published in the FEDERAL REGISTER (21 F. R. 955), upon proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Louisville, Kentucky, marketing area.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on August 3, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Said decision containing notice of opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on August 8, 1956 (21 F. R. 5932).

Within the period reserved therefor, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Acting Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaning thereto. To the extent that findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions are overruled.

To the extent that suggested findings and conclusions proposed by interested persons are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

The material issues relate to:

1. A change in the classification and pricing of skim milk and butterfat used for cottage cheese, aerated cream, ice cream, ice cream mix, frozen desserts, in fluid milk products disposed of to soda fountains, restaurants and food manufacturing establishments and in inventory of fluid milk products at the end of the month.

2. A change in the time of announcement of basic and Class I milk prices, and the Class I butterfat differential and in the list of condenseries used in computing the basic formula price.

3. Revision of the dates for filing reports by handlers, payments, and for announcement of the uniform price by the market administrator.

4. A provision for partial payments to producers for milk delivered during the first 15 days of the month.

5. Provision for written authorization by producer relative to hauling deductions.

6. Revision and clarification of certain definitions and of other provisions relating to the classification, reporting and accounting for milk.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence in the record:

1. The provisions of the order relative to the classification and pricing of milk should be revised.

Producers proposed to change the classification from Class II milk to Class I milk all skim milk and butterfat used to produce cottage cheese, aerated cream and cream mixtures and fluid milk products disposed of to soda fountains, restaurants, bakeries, candy and soup manufacturers. They also proposed that skim milk and butterfat used to produce ice cream and ice cream mix be priced on a year-round basis by the butter-nonfat solids pricing formula which now determines prices for Class II milk during the months of September through December. Handlers on the other hand, argued that no change should be made in the present classification scheme and proposed that the Class II price be lowered by determining such price on the basis of the average paying price of seven local manufacturing plants each month of the year.

It is concluded that the pricing of skim milk and butterfat used to produce products presently included in the Class II milk classification should be refined. This should be accomplished by providing for Class II and Class III milk. Class II milk should include skim milk and butterfat (1) used to produce cottage cheese, aerated cream, ice cream, ice cream mix, frozen desserts, and eggnog; and (2) contained in inventory of fluid milk products on hand at the end of the month. Class III milk should include all skim milk and butterfat (1) used to produce any dairy product not specified in Class I or Class II milk; (2) disposed of in bulk to food manufacturing establishments which do not dispose of fluid milk products; (3) disposed of for livestock feed and (4) plant shrinkage. No change should be made in the present Class I definition, however; the proposed change in the other classes will result in classifying as Class I milk all fluid milk products disposed of by handlers to soda fountains, restaurants and other food establishments which use or dispose of fluid milk products for fluid consumption.

The method of pricing skim milk and butterfat in the new Class II milk (cottage cheese, aerated cream, ice cream, eggnog and frozen desserts) should be based on butter-spray process nonfat dry milk for human consumption on a year-round basis with butterfat differentials equal to the Chicago butter price times .118 for the months of January through August and .120 for the months of September through December. The present method of pricing skim milk and butterfat in other manufacturing uses, for livestock feed and shrinkage should continue to apply to such uses (redefined as Class III milk).

All fluid milk products disposed of by handlers to soda fountains, restaurants and other food establishments which dispose of fluid milk products to consumers should be priced at the Class I price the same as other fluid products disposed of on retail or wholesale routes. Such milk for fluid consumption must meet the "Grade A" health requirements. It is not administratively feasible to verify classification of milk in accordance with the use of particular lots of milk at such establishments which may be permitted by health regulations to use both Grade A and ungraded milk. Milk disposed of to food processing establishments which are permitted to use ungraded milk in their operations and from which no milk is disposed of for fluid consumption, should be classified as Class III milk.

Class II milk as herein proposed is comprised of milk and milk products which have common characteristics from the standpoint of perishability and competitive factors, which are somewhat different from the products included in either Class I milk or Class III milk. Most of the Class II milk products may be stored somewhat longer than the items which constitute Class I milk but are more perishable than the products included in Class III milk. The products included in this class provide a preferred, or higher-valued outlet for milk as compared with products included in Class III milk. A high quality raw milk or milk product is necessary for all Class II uses.

The Jefferson County, Kentucky Health Department requires (beginning with July 1956) cottage cheese and aerated cream mixtures to be made from inspected milk. Effective January 1957, this will also be true for cottage cheese for sale in the New Albany and Jeffersonville, Indiana, communities of the marketing area. Therefore, those Class II milk products should contribute with other fluid milk products, to the extent that competitive conditions will permit, to the increased coast of getting the year-round supply of inspected milk produced for the market.

A Class I classification and pricing, as proposed by producers, for milk used for cottage cheese, however, is not justified on the basis of the record evidence. Although inspected milk generally is being used for this product and will be required to be used, it has to compete with nonfat dry milk or cheese curd from more distant Grade A sources. Because of the concentrated nature of cottage cheese as compared with milk supplied for fluid use, outlying plants that are qualified from a health standpoint to supply inspected milk to the marketing area can ship cottage cheese into the market at a considerable saving under the cost of shipping whole milk which would be required for the processing of such product. The classification and pricing of milk used in cottage cheese as Class I milk would increase the price appreciably above the level at which it can be, and sometimes is, obtained elsewhere in processed form. To do so would place an undue burden upon the marketing of producer milk at this time with possible disruptive effects upon the market.

Handlers need a reserve supply of Grade A milk to meet day to day fluctuations in receipts of milk and sales of fluid milk products. This necessary reserve supply which normally must be transported to the market is used by handlers in their city plants in products requiring high quality milk, primarily cottage cheese and ice cream.

Except for the inspected milk requirement applying to skim milk and butterfat used for cottage cheese and aerated cream for disposition within certain parts of the marketing area, similar factors relating to competitive conditions, requirement of high quality milk, and a preferred, or high-valued outlet, for milk on a year-round basis, also applies to skim milk and butterfat used for ice cream, eggnog and frozen desserts.

For the foregoing reasons, it is concluded that producer milk used in these products should be priced somewhat higher than the seasonal reserve and distress milk disposed of to outlets for other manufacturing uses (Class III). Review of exceptions filed, in conjunction with the record evidence, shows, however, that considerable weight should be given to the fact that substantial sales of items previously recommended to be included in Class II milk and Class III–A milk are made by handlers in areas outside of the Louisville marketing area. Sales of such products in a number of these areas must compete with products made from ungraded milk. Such minute differentiation in the prices for skim milk and butterfat for these various uses, as might be made, would have little significance insofar as the cost of milk to handlers and returns to producers are concerned. Also, in the interest of keeping the number of classes of milk to a minimum, it is concluded that all products previously recommended to comprise Class II and Class III–A milk should be combined in a single class as Class II milk. It is further concluded that Class II milk should be priced at the order basic formula price modified by the application of price quotations for spray process dry milk in the alternate "butter-powder" formula. Butterfat differentials of .120 during the months of September through December and .118 during the months of January through August should be applied. The application of prices for spray process dry milk rather than the average of prices for spray and roller process will be more nearly representative of the competitive prices for the nonfat solids used in cottage cheese, ice cream and other Class II items. The seasonal butterfat differential decided upon conforms with the present seasonal aspects of the differential provided for Class III milk and will provide reasonable prices to handlers for skim milk and butterfat in Class II uses in view of competitive sales conditions and cost of products or ingredients delivered to Louisville plants from alternative sources. The proposed pricing for Class II milk will reflect to producers the competitive value for their milk in such uses. Producers will receive slightly higher returns for their reserve supplies of milk than at present and such milk will contribute somewhat to the additional cost of getting inspected milk produced and delivered to the market.

Based upon prices in the record for the year 1955, the change in pricing of producer milk used in Class II milk products will result in an increase of about 34 cents per hundredweight for milk of 3.8 percent butterfat during the period January through August. Since the butterfat differential is increased from 1.15 to 1.18 during this period, the proposed change will result in increasing the price for skim milk in such uses approximately 27 cents per hundredweight and butterfat .18 cents per point as the average test of Class II milk varies from 3.8 percent. During the period September through December, there will be an increase of between 7 and 8 cents per hundredweight in the price of 3.8 percent milk and skim milk and no change in the price of butterfat.

2. The time for announcement of the Class I milk price and butterfat differential should be advanced one month and the list of condenseries used in computing the basic formula price should be revised.

Handlers proposed that Class I milk prices should be based on the basic formula price for the preceding month. This would permit the announcement of the minimum Class I milk price early in the month and handlers would know what their Class I milk would cost a month earlier than under the current order provision. Producers, likewise, would have advance information on Class I milk prices. This procedure of announcing Class I prices is followed in a large number of the markets under Federal orders. It is concluded, therefore, that the price for Class I milk per hundredweight should be the basic formula price for the preceding month plus the present differential of $1.25.

The list of condenseries used in determining the basic formula price should be revised to include prices reported for those plants currently operating. Since the order was last amended, operations at two of the plants previously listed have been terminated. The following plants, therefore, should be eliminated from the list in § 946.50 (c): Carnation Company, Berlin, Wisconsin and Carnation Company, Chilton, Wisconsin.

3. The date for filing reports by handlers and the dates for announcement of the uniform price and for notifying handlers of their pool obligations should be delayed two days.

Handlers proposed changing the dates for the filing of reports from the "5th" to the "7th" of the month. Corresponding changes were also proposed in the dates for announcement of the uniform price by the market administrator, for notification to handlers of their pool obligations and for the payment of handler obligations under the order. Handlers now have difficulty in completing and filing their reports with the market administrator by the 5th of the month, particularly for those months when the last day falls on a week-end. The market administrator likewise has difficulty in computing the pool and announcing the uniform price and in notifying handlers of their pool obligations by the 10th and 11th of the month, respectively. It is concluded that handlers' suggestions with respect to reports, announcement of the uniform price, and notification of pool obligations be adopted. These changes are necessary to accommodate the problems which now are being encountered. The other changes proposed and adopted herein are primarily conforming changes, and are necessary to provide a workable schedule for price announcements, reports and payments under the order.

4. Provision should be made for partial payment to producers for their deliveries of milk during the first 15 days of the month. Producers proposed that handlers be required to make partial payments by the end of the month for milk received from producers during the first 15 days of the month. At present, many producers do not get paid for their deliveries of milk until as much as six weeks later. One handler opposed the proposal for partial payments on the basis that more capital would be required to conduct his business. His testimony showed that other suppliers of goods and services such as his labor force are paid weekly. A number of his producers are presently advanced money prior to the final payment for their milk. Producers of ungraded milk in the Louisville area generally are paid for their milk twice a month. It is not unreasonable to expect handlers to pay producers of Grade A milk twice a month. Dairying is becoming more specialized in the Louisville area. The average production per farm has continued upward for a number of years. This trend calls for the use of additional capital in financing production and marketing operations. A provision for partial payments would provide uniform payment methods for all producers and would assist producers in meeting their current obligations.

It is concluded, therefore, that handlers should make partial payments by the end of the month for receipts of producer milk during the first 15 days of the month. To provide a relatively simple and efficient method of payment, such partial payments should be made at the Class III price for the preceding month with no adjustment for butterfat differentials or for the cost of hauling the milk. Partial payments should not be required on milk received from producers who discontinue shipments during the month. Such accounts should be determined at the time of final payment.

5. Specific provision should be made for written authorization in the case of deductions for hauling.

Hauling costs properly chargeable to a producer include only the cost of transporting the producer's milk from his farm to the pool plant of the handler at which the minimum class prices apply. It has been a common practice for handlers to deduct such charges from amounts otherwise payable to the producer and to remit amounts so deducted to the hauler for the account of the producer. This is a voluntary service done by the handler irrespective of whether it is done because the producer so requests or whether he acquiesces in the practice. Since the obligation is that of the individual producer and the payment when made to the hauler is for the account of the producer and not of the handler, this practice, to the extent that it continues, should be strictly in accord with authorization of the person having the obligation, i. e., the producer. And if there should be a disagreement as to the amount to be paid for hauling or whether the hauler will continue to haul the milk, it is a matter to be worked out between the producer or his agent, and the hauler.

A necessary corollary to the sanction of such a practice under a milk order is that the obligation of the handler to the producer in the amount of any and all deductions made from payments at the uniform price pursuant to a producer's authorization is that the sums so deducted are actually paid over to the person in whose favor the authorization is made. A deduction made without proper remittance to the assignee would constitute an underpayment by the handler.

Producers proposed that the rate per hundredweight, or other method of computing hauling charges, should be authorized in writing by each producer, and all other charges should be supported by records in such form as to permit proper verification thereof. Producers testified that changes in hauling rates of deduction had been made to which producers had never agreed. They stated that provision for a signed authorization by each producer would eliminate changes in the hauling rate without prior approval of the producer. It also would assist the market administrator in verifying authorized hauling deductions in connection with payments to producers under the terms of the order.

It is concluded that to facilitate verification of authorized hauling deductions and assure proper payments to producers, provision should be made to require each handler to have, and make available to the market administrator for audit purposes, written authorizations from his producers regarding the rate per hundredweight or other method for computing hauling charges on such producer milk.

6. In view of the proposed changes heretofore discussed and the need for a number of additional definitions and other changes in order language to set forth more explicitly the reporting and accounting techniques of the order, it is concluded that the entire order should be redrafted and reissued. This will involve the inclusion of a new definition of "fluid milk product", and "route", and changes in the definitions of "producer", "producer milk" and "other source milk".

"Fluid milk product" should be defined to mean milk, skim milk, buttermilk, milk drinks (plain or flavored), cream, or any mixture in fluid form of skim milk and cream (except eggnog, storage cream, aerated cream products, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers). Such definition is useful in defining other categories of milk and is a short, convenient term for referring to a category of milk in drafting other definitions and the classification, allocation, and transfer provisions of the order.

The definition of "producer" and "producer milk" should be clarified to set forth explicitly the intent of these definitions to exclude the milk of a producer-handler and to limit the term "producer milk", only to milk received directly from a producer at a pool plant or diverted by the operator of a pool plant or a cooperative association for their own accounts.

A "route" definition should be included in the order to facilitate the drafting of other definitions and to make it clear that the term refers not only to disposition of milk from fluid milk plants,

directly through retail and wholesale outlets, but also includes sales by milk distributors through vendors.

"Other source milk" should be defined as all skim milk and butterfat contained in fluid milk products utilized by the handler in his pool plant operation, except producer milk and fluid milk products and Class II milk products received from other pool plants. Thus, other source milk as such would represent skim milk and butterfat which is not subject to the pricing provisions of the order. It will include all fluid milk products and all manufactured dairy products from plants other than pool plants which are repackaged, reprocessed or converted into another product during the month. It will include also those Class III manufactured products from another pool plant or from the pool plant's own production which are made and are reprocessed or converted into another product in the plant during the same or a later month. It will not include transfers of fluid milk products or Class II milk and milk products between pool plants. The proposed change in the definition of other source milk is necessary to set forth more specifically in the order the milk products which handlers are required to report each month and enters into the accounting and classification of current receipts of producer milk. This method of defining other source milk will clarify the application of the transfer and allocation provisions of the order so as to insure the intent of the order to allocate current receipts of producer milk to the highest valued class usage available at the pool plant(s) of the handler during the month.

By incorporating the above definitions and some minor changes in the reporting sections of the order; the order will be clear in providing categories of milk which are required to be reported and handled separately to arrive at the classification and pricing of current receipts of producer milk. Thus, milk will be dealt with in the following four categories: producer milk, other source milk, milk from other handlers, and inventories of fluid milk products.

Inventories of fluid milk products must be taken into account in establishing the classification of producer milk. The present order makes no reference to inventories in the classification provisions. Inventories on hand at the end of the month should be classified in Class II milk as heretofore stated. It would make no difference in costs to handlers or returns to producers under the provisions of the proposed order if inventory were handled in some other class; however, the accounting and reclassification procedure will be simplified by accounting for inventory in Class II milk. Inventory should be limited to stocks on hand of fluid milk products such as bulk milk, skim milk and cream, and bottled milk and other fluid milk products which are finally disposed of as Class I milk. Processed products in Class II and Class III milk should not be included in inventory since the milk used to produce such products will have been accounted for in the proper class when such products were made. Handlers, however, will need to maintain adequate records on the stocks of such products and make such reports as are required by the market administrator to verify their use by the handler and to facilitate the market administrator's auditing program.

Because inventories of fluid items are to be accounted for in Class II, as a temporary classification, it is necessary to provide a method for handling milk from inventory which is utilized in the current month for Class I purposes, but which the handler accounted for in Class II at the end of the preceding month. Handlers frequently use other source milk in their operations. The procedure for accounting for inventories should provide that producer milk from inventory should have prior claim on Class I milk over receipts of other source milk in the same manner as current receipts of producer milk. This should be accomplished through the accounting procedure by considering the opening inventory of a month as a receipt in the same month and subtracting such receipt (under allocation procedure), in series, starting with Class II milk, following the subtraction of other source milk. To the extent that the opening inventory is allocated to Class I and there was an equivalent amount of skim milk and butterfat in producer milk classified in Class II milk in the previous month (after allocating other source milk) a reclassification charge should be made at the difference between the Class II price in the previous month and the Class I price in the current month. Handled in this manner, milk from inventory will be priced to handlers identically with milk derived from current receipts of producer milk during the month. Other source milk from inventory allocated to Class I milk should be subject to the reclassification charge at the same rate as the compensatory payment on current receipts of other source milk allocated to Class I milk. These inventory provisions will result in equality of cost of milk among handlers and returns to producers irrespective of whether or not such milk is from opening inventory or is a current receipt.

Producers proposed that classification of shrinkage on other source milk in the lowest priced class be limited to two percent. They contended that the present provisions of the order result in an unjustified amount of shrinkage in the lowest priced class and is inconsistent with the method of determining allowable shrinkage on producer milk. To allow unlimited shrinkage on other source milk and limit shrinkage on producer milk, provides a basis for inequality in the cost of milk among handlers who use other source milk and those who do not. Under the present accounting procedure, the use of other source milk may result in a lower classification of some producer milk under circumstances where substantial amounts of milk are unaccounted for and the handler has received other source milk. For these reasons, the provisions for shrinkage and unaccounted for skim milk and butterfat should be revised to limit shrinkage on other source milk that may be classified as Class III milk to two percent of receipts of other source fluid milk products consistent with that pertaining to producer milk. The entire unaccounted for milk provision also should be rewritten to clarify and simplify the order language.

The present order, under § 946.22 (j), provides authorization for the market administrator to report to each cooperative association the percentage in each class of the producer milk caused to be delivered by the cooperative association or by its members to each handler during the month. To accomplish such reports, provision is made for assigning such milk in each class in the same ratio as milk received from all producers by such handler during the month. The producers proposed that the present report provisions be expanded to include the relationship of total producer receipts in each handler's plant(s) to his total Class I sales, excluding transfers or diversions of milk to other pool plants and to nonpool plants.

Handlers stated on the record that they had no objections to the inclusion of such additional information.

It is concluded that § 946.22 (j) should be revised to provide for the additional information requested by the producers' association. Such a provision is needed to provide the producers' association more information on the utilization of producer milk in particular plants and will assist the association in supplying producer milk to the plants which are in need of additional milk to supply the Class I needs of the market. This will promote the orderly marketing of producer milk.

General findings. (a) The proposed marketing agreement and the order, amending the order, as amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices for milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order amending the order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order amending the order, as amended, will regulate the handling of milk in the same manner as and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of August 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, as amended, regulating the handling of milk in the Louisville, Kentucky, marketing area, in the manner set forth in the attached amending order, is approved or favored by producers, as defined in the order, as amended, and as proposed hereby to be further amended, who during such representative period were engaged in the production of milk for sale in the marketing area as defined in the order, as amended, and as proposed hereby to be further amended.

Marketing agreement and order, as amended. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreements regulating the handling of milk in the Louisville, Kentucky, marketing area," and "Order amending the Order, as amended, regulating the handling of milk in the Louisville, Kentucky, marketing area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended and proposed to be hereby further amended.

This decision filed at Washington, D. C., this 24th day of September 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Louisville, Kentucky, Marketing Area

§ 946.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Louisville, Kentucky, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Louisville, Kentucky, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

DEFINITIONS

§ 946.1. *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 946.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any other officer or employee of the United States authorized to exercise the powers or to perform the duties pursuant to the act of the said Secretary of Agriculture.

§ 946.3 *Department.* "Department" means the United States Department of Agriculture or other Federal agency authorized to perform the price reporting functions specified in this part.

§ 946.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 946.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 946.6 *Louisville, Kentucky, marketing area.* "Louisville, Kentucky marketing area," hereinafter called the "marketing area," means the territory within Jefferson County, Kentucky, including but not being limited to the City of Louisville, the Fort Knox Military Reservation; the territory within Floyd County, Indiana, including but not being limited to all municipal corporations in said county; and the territory within the townships of Jeffersonville, Utica, Silver Creek, Union, and Charlestown, in Clark County, Indiana.

§ 946.7 *City plant.* "City plant" means the building and facilities, except those of a producer-handler, which are used during the month in the processing and packaging of producer milk and from which not less than 10 percent of such milk is distributed in the container in which packaged from delivery routes or plant stores as Class I milk in the marketing area: *Provided*, That such building and facilities shall include any portion thereof which is used during the month in the processing of producer milk for any use.

§ 946.8 *Country plant.* "Country plant" means the building and facilities, except those of a city plant, which are used during the month in the receipt of milk from dairy farmers who held dairy farm inspection permits issued by the appropriate health authority having jurisdiction in the marketing area and which are approved by such health authority to furnish milk to a city plant for use as Class I milk: *Provided*, That such building and facilities shall include any portion thereof which is used during the month in the processing of producer milk for any use.

§ 946.9 *Pool plant.* "Pool plant" means:

(a) A city plant;

(b) A country plant during the period of October through March for each month in which not less than 10 percent of its receipts from dairy farmers who hold dairy farm inspection permits issued by the appropriate health authority having jurisdiction in the marketing area is delivered to a city plant in the form of milk, skim milk, or cream; or

(c) A country plant during the months of April through September from which more than 50 percent of its combined receipts from dairy farmers, who held dairy farm inspection permits issued by the appropriate health authority having jurisdiction in the marketing area, during the preceding period of October through February were delivered to one or more city plants in the form of milk, skim milk or cream, unless the operator of such plant notifies the market administrator in writing on or before March 15th of withdrawal of the plan from the pool for the months of April through September next following.

§ 946.10 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 946.11 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) A producer-handler;

(c) Any cooperative association with respect to milk of producers which it causes to be diverted to a nonpool plant for the account of such cooperative association; or

(d) Any person, other than a producer-handler, in his capacity as operator of a nonpool plant used during the month for the processing and packaging of milk any portion of which is disposed of in the marketing area as Class I milk from delivery routes or plant stores.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

§ 946.12 *Producer.* "Producer" means any person, except a producer-handler, who produces, under a dairy farm inspection permit issued to such person by the appropriate health authority having jurisdiction in the marketing area (as used in this subpart, "dairy farm inspection permit" shall include approval of milk by the authority to administer regulations governing the quality of milk acceptable to agencies of the United States Government for fluid consumption in its institutions or bases located in the marketing area, which is received at a plant from which any portion of such milk is disposed of to such institutions or bases in the container in which packaged as Class I milk), milk which is:

(a) Delivered from his farm to a pool plant;

(b) Diverted from a pool plant to another pool plant or a nonpool plant: *Provided,* That such milk so diverted shall be deemed to have been received at the pool plant from which it was diverted: *And provided further,* That this definition shall not include during any of the months of October through February, any person whose milk was diverted to a nonpool plant for more than one-half of the days of such month; or

(c) Diverted by a cooperative association to a nonpool plant for the account of the cooperative association: *Provided,* That any such milk so diverted shall be deemed to have been received by the cooperative association.

§ 946.13 *Producer milk.* "Producer milk" means all skim milk and butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from a pool plant in accordance with the conditions set forth in § 946.12.

§ 946.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products other than fluid milk products from any source (including those produced at the plant) except Class II products from pool plants, which are repackaged, reprocessed or converted to another product in the plant during the month.

§ 946.15 *Producer-handler.* "Producer-handler" means any person who processes and packages milk from his own farm production, distributing any portion of such milk within the marketing area as Class I milk and who receives no milk from producers.

§ 946.16 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamy butter at Chicago as reported by the Department of Agriculture during the month.

§ 946.17 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers).

§ 946.18 *Route.* "Route" means the operation of a plant store or a vehicle (including that operated by a vendor) through the means of which fluid milk products are disposed of to retail or wholesale stops in the marketing area other than to a milk plant.

MARKET ADMINISTRATOR

§ 946.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 946.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 946.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 946.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 946.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(h) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(i) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 5 days after the date upon which he is required to perform such acts has not made reports pursuant to §§ 946.30 through 946.32, or payments pursuant to §§ 946.80 through 946.86;

(j) On or before the 15th day after the end of each month, report to each cooperative association, which so requests, with respect to producer milk caused to be delivered by such association or by its members to each handler during the month: (1) the percentage of such receipts classified in each class; and (2) the percentage relationship of such receipts to the total pounds of Class I milk available to assign to such receipts exclusive of the Class I milk disposed of by such handler to the pool plant(s) of other handlers and to nonpool plants. For the purpose of these reports, the milk received from such association shall be treated on a pro rata basis of the total producer milk received by such handler during the month;

(k) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing the prices and butterfat differentials determined for each month as follows:

(1) On or before the 12th day after the end of each month, the minimum prices for each class of milk computed pursuant to § 946.51, and the butterfat differentials for each class computed pursuant to § 946.52; and

(2) On or before the 12th day after the end of each month, the uniform price computed pursuant to § 946.71, and the butterfat differential computed pursuant to § 946.81;

(l) On or before the 13th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(1) The net obligation computed for such handler pursuant to § 946.70; and

(2) The amounts to be paid by such handler pursuant to §§ 946.61, 946.84, 946.87, and 946.88.

REPORTS, RECORDS, AND FACILITIES

§ 946.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer handler, shall report for such month to the market administrator for each of his pool plants in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk (including such handler's own farm production);

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of fluid milk products on hand at the beginning and end of the month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk other than on routes operated wholly or partially within the marketing area; and

(f) Such other information with respect to his receipts and utilization of butterfat and skim milk as the market administrator may prescribe.

§ 946.31 *Payroll reports.* On or before the 20th day after the end of each month, each handler shall submit to the market administrator his producer payroll for deliveries during the month which shall show (a) the total pounds of milk received from each producer and the average butterfat content of such milk, (b) the prices paid and the amount of payment to each producer, and (c) the nature and amount of any credits, deductions, or charges involved in such payments.

§ 946.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator, as soon as possible after first receiving milk from any producer, the name and address of such producer, the date upon which such milk was first received, and the plant at which such milk was received: *Provided,* That milk diverted to a pool plant as described in § 946.12 (b) need not be reported pursuant to this paragraph.

(c) On or before the 10th day after the request of the market administrator, such handler shall submit a schedule of rates which are charged and paid for the transportation of milk from the farm of each producer to such handler's plant. Changes in such schedule of rates and the effective dates thereof shall be reported to the market administrator within 10 days.

§ 946.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts, records, and reports of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers, including supporting records of all deductions and written authorization from each producer of the rate per hundredweight or other method for computing hauling charges on such producer milk; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and other milk products on hand at the beginning and end of each month.

§ 946.34 *Retention of records.* All books and records required under this part to be available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified records and books until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 946.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat which is required to be reported pursuant to §§ 946.30 and 946.61 shall be classified by the market administrator pursuant to the provisions of §§ 946.41 through 946.46.

§ 946.41 *Classes of utilization.* Subject to the conditions set forth in §§ 946.42 through 946.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated or reconstituted skim milk solids) and butterfat (1) disposed of in fluid form as milk, skim milk, cream (including sour cream), buttermilk, milk drinks (plain or flavored), except skim milk and butterfat disposed of in fluid form for livestock feed; (2) disposed of as any fluid milk product which is required by the appropriate health authority in the marketing area to be made from milk, skim milk, or cream from sources approved by such authority; and (3) not accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat the utilization of which is established as used to produce (1) cottage cheese, ice cream, ice cream mix, eggnog, frozen desserts, and milk (or skim milk) and cream mixtures containing 8.0 percent or more butterfat disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product, and (2) in inventories of fluid milk products.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat, the utilization of which is established: (1) As used to produce any product other than those specified in paragraphs (a) or (b) of this section, (2) as disposed of for livestock feed, (3) as disposed of in bulk to bakeries, candy or soup manufacturers, and other commercial food manufacturing establishments which do not dispose of fluid milk products, and (4) in plant shrinkage of skim milk and butterfat in receipts of producer milk and in other source milk computed pursuant to § 946.42.

§ 946.42 *Unaccounted for skim milk and butterfat and plant shrinkage.* Skim milk and butterfat received at a handler's pool plant(s) in excess of such handler's established utilization of skim milk and butterfat pursuant to § 946.41, except paragraphs (a) (3) and (c) (4) shall be known as unaccounted for skim milk and butterfat and classified as follows:

(a) Adjust such handler's receipts of producer milk by (1) deducting the pounds of skim milk and butterfat in producer milk diverted by such handler to a nonpool plant or to the pool plant of another handler without having been received for purposes of weighing and testing in the diverting handler's plant, (2) adding the skim milk and butterfat in producer milk received at the pool plant of such handler which was diverted from the pool plant of another handler;

(b) Prorate the quantities of unaccounted for skim milk and butterfat, respectively, between such handler's receipts of skim milk and butterfat, respectively, in producer milk as computed pursuant to paragraph (a) of this section and in other source milk received in the form of fluid milk products in bulk;

(c) That portion of the quantities of unaccounted skim milk not to exceed five percent during the months of April through July and two percent during other months, and the quantities of butterfat not to exceed two percent in each month, of the skim milk and butterfat, respectively, in receipts of producer milk and other source milk applied pursuant to paragraph (b) of this section shall be known as "shrinkage" and classified as Class III milk: *Provided,* That if the quantities of skim milk and butterfat utilized and disposed of in milk and all milk products are not established by such handler all unaccounted for skim milk and butterfat prorated to receipts of producer milk pursuant to paragraph (b) of this section shall be classified as Class I milk;

(d) That portion of the quantities of unaccounted for skim milk and butterfat which is in excess of the quantities of skim milk and butterfat, respectively, classified pursuant to paragraph (c) of this section shall be classified as Class I milk.

§ 946.43 *Responsibility for classification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 946.44 *Transfers.* Skim milk or butterfat disposed of by a handler from a pool plant either by transfer or diversion shall be classified as follows:

(a) As Class I milk if transferred or diverted in the form of a fluid milk product to a pool plant of another handler, unless utilization in another class is mutually indicated in the reports submitted

to the market administrator by both handlers pursuant to § 946.30 on or before the 7th day after the end of the month: *Provided*, That if upon inspection of the records of the transferee-handler it is found that an equivalent amount of skim milk or butterfat, respectively, was not actually used in such indicated use the remaining quantity shall be classified as Class I milk: *And provided further*, That if either or both handlers received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the highest-priced possible class utilization to the producer milk of both handlers;

(b) As Class I milk if transferred or diverted to a producer-handler in the form of a fluid milk product;

(c) As Class I milk if transferred or diverted in the form of milk or skim milk in bulk to a nonpool plant located less than 185 miles from the City Hall at Louisville, Kentucky, by the shortest hard surface highway distance as determined by the market administrator, and as Class I milk if transferred in the form of fluid cream to such a plant, wherever located, unless the following conditions are met:

(1) The handler claims classification in another class on the basis of a utilization indicated in his report submitted to the market administrator pursuant to § 946.30 on or before the 7th day after the end of the month;

(2) The market administrator is permitted to audit the books and records showing the utilization of all skim milk and butterfat received at such nonpool plant; and

(3) An amount of skim milk or butterfat, respectively, not less than that so transferred or diverted was used in the indicated use: *Provided*, That if upon inspection of the records of the nonpool plant it is found that an equivalent amount of skim milk or butterfat, respectively, was not actually used in such indicated use the remainder shall be classified in the highest valued use classification (as described in § 946.41) in the nonpool plant; and

(d) As Class I milk if transferred or diverted in the form of milk or skim milk in bulk to a nonpool plant located 185 miles or more from the City Hall at Louisville, Kentucky, by shortest hard surface highway distance as determined by the market administrator.

§ 946.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the pounds of skim milk and butterfat in each class for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before such product is disposed of by a handler, the hundredweight of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat solids contained in such product, plus all of the water originally associated with such solids.

§ 946.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 946.45 the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III milk the pounds of skim milk assigned to producer milk shrinkage pursuant to § 946.42 (c);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class III milk, the pounds of skim milk in other source milk which are not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in Class III milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less;

(4) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class III milk, the pounds of skim milk in other source milk which are subject to the Class I pricing provisions of another order issued pursuant to the act;

(5) Add to the pounds of skim milk remaining in Class III milk the pounds of skim milk subtracted pursuant to subparagraphs (1) and (3) of this paragraph;

(6) Subtract from the remaining pounds of skim milk in Class II and Class I milk, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 946.44 (a);

(8) If the remaining pounds of skim milk in all classes exceed the pounds of skim milk received in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class III. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 946.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a), (b), and (c) of this section and subparagraph (1) of § 946.51 (c).

(a) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Add 20 percent to the Chicago butter price for the month and multiply by 3.8.

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 8.2.

(b) The price per hundredweight resulting from the following formula:

(1) Multiply by 8.53 the average of the daily prices per pound of cheese at Wisconsin Primary Markets ("cheddars," f. o. b. Wisconsin assembling points, cars or truckloads) as reported by the Department during the month;

(2) Add 0.902 times the Chicago butter price for the month;

(3) Subtract 34.3 cents; and

(4) Add an amount computed by multiplying the Chicago butter price for the month by 0.12 and then by 3.

(c) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Companies and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

Add an amount computed by multiplying the Chicago butter price for the month by 0.12 and then by 3.

§ 946.51 *Class prices.* Subject to the provisions of §§ 946.52 and 946.53, the minimum prices per hundredweight to be paid by each handler for milk of 3.8 percent butterfat content received at his pool plant(s) from producers during the month shall be as follows:

(a) *Class I milk.* The price of Class I milk per hundredweight shall be the basic formula price for the preceding month rounded to the nearest tenth of a cent plus $1.25.

(b) *Class II milk.* The price for Class II milk shall be the higher of the basic formula price pursuant to § 946.50 or that computed pursuant to subparagraphs (1) and (2) of this paragraph, rounded to the nearest tenth of a cent:

(1) Multiply the Chicago butter price by 4.56;

(2) Add an amount computed as follows: from the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray process for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 8.2.

(c) *Class III milk.* The price of Class III milk for the months of September through December shall be the price per hundredweight computed pursuant to § 946.50 (a), or that pursuant to subparagraph (1) of this paragraph, whichever is higher; and for the months of January through August the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph, rounded to the nearest tenth of a cent.

(1) From the average of the basic or field prices per hundredweight reported to the market administrator to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at plants at the following locations:

Operator and Location

Armour Creameries, Elizabethtown, Ky.
Armour Creameries, Springfield, Ky.
Kraft Foods Co., Lawrenceburg, Ky.
Kraft Foods Co., Paoli, Ind.
Salem Cheese and Milk Co., Salem, Ind.
Red 73 Creameries, Madison, Ind.
Producers Dairy Marketing Association, Orleans, Ind.

Subtract the amount computed by multiplying the Chicago butter price for the month by 0.12 and then by 2.

(2) The price per hundredweight computed by adding together the plus values pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) Add 15 percent to the Chicago butter price for the month and multiply by 3.8.

(ii) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, roller process, for human consumption, f. o. b. manufacturing plants in Chicago area as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department deduct 6.5 cents and multiply by 8.2.

§ 946.52 *Price adjustments to handlers*—(a) *Butter differentials.* If the weighted average butterfat content of milk received from producers allocated to Class I, Class II, or Class III, respectively, pursuant to § 946.46, for a handler is more or less than 3.8 percent, there shall be added to or subtracted from, as the case may be, the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.8 percent, a butterfat differential (computed to the nearest tenth of a cent), calculated for each class as follows:

(1) *Class I milk.* Multiply by 0.125 the Chicago butter price for the preceding month.

(2) *Class II milk.* For the months of September through December, multiply the Chicago butter price by 0.120, and for the months of January through August, multiply by 0.118.

(3) *Class III milk.* For the months of September through December, multiply the Chicago butter price for the month by 0.12, and for the months of January through August, multiply the Chicago butter price for the month by 0.115.

§ 946.53 *Transportation differential.* With respect to milk received from producers at a country plant, which is moved as milk from such plant directly to a plant in the marketing area or which is disposed of as milk for Class I use outside the marketing area, the class prices per hundredweight shall be reduced at the rates set forth in the following schedule based on the shortest distance via hard surfaced highway, as determined by the market administrator, from the plant where the milk is first received from producers to City Hall in Louisville.

Mileage zone:	Rate (cents per cwt.)
Not more than 25 miles	0
More than 25 but not more than 35 miles	13
More than 35 but not more than 45 miles	15
More than 45 but not more than 55 miles	17
For each additional 10 miles or fraction thereof an additional	1

APPLICATION OF PROVISIONS

§ 946.60 *Producer-handlers.* Sections 946.40 through 946.46, 946.50 through 946.53, 946.61, 946.70, 946.71, and 946.80 through 946.89 shall not apply to a producer-handler.

§ 946.61 *Handlers operating nonpool plants.* Sections 946.30 through 946.32, 946.50 through 946.53, 946.70, 946.71, 946.80 through 946.85, 946.87, and 946.88 shall not apply to a handler in his capacity as the operator of a nonpool plant described in § 946.11 (d), except that such handler shall:

(a) On or before the 7th day after the end of the month, make reports to the market administrator in such manner as he may request with respect to such handler's total receipts and utilization of skim milk and butterfat;

(b) On or before the 15th day after the end of each month, pay to the market administrator for deposit in the producer-settlement fund an amount of money computed by multiplying the quantity of Class I milk disposed of in the manner described in § 946.11 (d) by the price arrived at by subtracting from the Class I price adjusted by the Class I butterfat and transportation differentials:

(1) For the months of January through September, the Class III price adjusted by the Class III butterfat differentials; or

(2) For the months of October through December, the uniform price computed pursuant to § 946.71 adjusted by the Class I transportation differential and by a butterfat differential calculated by multiplying the total volume of producer butterfat in each class during the month by the butterfat differential for each class, dividing the resulting figure by the total butterfat in producer milk and rounding the resultant figure to the nearest one-tenth cent.

(c) On or before the 15th day after the end of the month, pay to the market administrator, as such handler's pro rata share of the expense of administration of this part, 3.0 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all Class I milk and all milk, skim milk, and cream used to produce Class II and Class III products disposed of during the month in the marketing area in the manner described in § 946.11 (d).

§ 946.62 *Plants subject to other orders.* In the case of any plant from which a greater volume of Class I milk is disposed of in another marketing area regulated by another order or a marketing agreement issued pursuant to the act, than in the Louisville marketing area, the provisions of this part shall not apply except the handler operating such plant shall, with respect to his total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICE

§ 946.70 *Net obligation of each handler.* The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 946.46 by the applicable class price;

(b) Add together the resulting amounts;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 946.46 by the applicable class prices;

(d) Add the amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified as Class II milk during the preceding month or the hundredweight of milk subtracted from Class I milk pursuant to § 946.46 (a) (6) and the corresponding step of § 946.46 (b), whichever is less; and

(e) Add the amount computed by multiplying the pounds of skim milk and butterfat subtracted from Class I milk pursuant to § 946.46 (a) (2) and the corresponding step of § 946.46 (b) and pursuant to § 946.46 (a) (6) and the corresponding step of § 946.46 (b) which is in excess of the skim milk and butterfat applied pursuant to paragraph (d) of this section by the price arrived at by subtracting from the Class I price adjusted by the Class I butterfat and transportation differentials;

(1) For the months of January through September, the Class III price adjusted by the Class III butterfat differential; and

(2) For the months of October through December the uniform price computed pursuant to § 946.71 adjusted by the Class I transportation differential and by a butterfat differential calculated by multiplying the total volume of producer butterfat in each class during the month by the butterfat differential for each class, dividing the resultant figure by the total butterfat in producer milk and

rounding the resultant figure to the nearest one-tenth cent.

§ 946.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.8 percent butterfat content received from producers as follows:

(a) Combine into one total the net obligations computed for all handlers who made the reports prescribed in § 946.30 for the month and who are not in default of payments pursuant to § 946.84 for the preceding month;

(b) Subtract, if the average butterfat content of the producer milk included in these computations is greater than 3.8 percent, or add, if such average butterfat content is less than 3.8 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.8 percent by the butterfat differential computed pursuant to § 946.81 and multiply the resulting figure by the total hundredweight of such milk;

(c) Add an amount computed by multiplying the hundredweight of milk received from producers at each country plant by the appropriate zone differential provided in § 946.53.

(d) Subtract for each of the months of April, May, June, and July an amount computed by multiplying the total hundredweight of producer milk included in these computations by 12 percent of the simple average of the basic formula prices, computed to the nearest cent, for the 12 months of the preceding calendar year;

(e) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 946.85 (a), and less the aggregate of the amounts held pursuant to paragraph (d) of this section for payment pursuant to § 946.85 (b);

(f) Divide the resulting total by the total hundredweight of producer milk included in these computations; and

(g) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (f) of this section. The resulting figure shall be the uniform price for milk of 3.8 percent butterfat content received from producers at a handler's pool plant.

PAYMENTS

§ 946.80 *Time and method of payment for producer milk.* Each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the last day of each month, for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler at not less than the Class III price for 3.8 percent milk for the preceding month without deduction for hauling;

(b) On or before the 17th day after the end of each month for milk received during such month, an amount computed at not less than the uniform price per hundredweight pursuant to § 946.71 subject to the butterfat differential computed pursuant to § 946.81 plus or minus adjustments for errors made in previous payments to such producer; and less (1) payment made pursuant to paragraph (a) of this section, (2) location differential deductions pursuant to § 946.82, (3) marketing service deductions pursuant to § 946.87 and (4) proper deductions authorized by such producer which, in the case of a deduction for hauling, shall be in writing and signed either by such producer or by the cooperative association marketing the producer's milk: *Provided,* That if such handler has not received full payment for such month pursuant to § 946.85 he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator. The handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator;

(c) In making the payments to producers pursuant to paragraph (b) of this section, each handler shall furnish each producer from whom he has received milk with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The month and identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount of the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

§ 946.81 *Producer butterfat differential.* In making payment to producers pursuant to § 946.80 (b) each handler shall add to the uniform price not less than, or subtract from the uniform price not more than, as the case may be, for each one-tenth of one percent that the average butterfat content of the milk received from the producer is above or below 3.8 percent, the amount set forth in the following schedule for the price range in which falls the Chicago butter price for the month during which such milk was received.

Butter price range (cents):	*Butterfat differential (cents)*
17.499 or less	2
17.50 to 22.499	2½
22.50 to 27.499	3
27.50 to 32.499	3½
32.50 to 37.499	4
37.50 to 42.499	4½
42.50 to 47.499	5
47.50 to 52.499	5½
52.50 to 57.499	6
57.50 to 62.499	6½
62.50 to 67.499	7
67.50 to 72.499	7½
72.50 to 77.499	8
77.50 to 82.499	8½
82.50 to 87.499	9
87.50 to 92.499	9½
92.50 and over	10

§ 946.82 *Location differential.* In making payments to producers pursuant to § 946.80 (b) a handler shall deduct from the uniform price, with respect to all milk received from producers at a country plant, not more than the appropriate zone differential provided in § 946.53.

§ 946.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to § 946.61, 946.84, and 946.86 and out of which he shall make all payments pursuant to §§ 946.85 and 946.86: *Provided,* That payments due any handler shall be offset by payments due from such handler.

§ 946.84 *Payments to the producer-settlement fund.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator any amount by which the net obligation of such handler for the month is greater than an amount computed by multiplying the hundredweight of milk received by him from producers during the month by the uniform price adjusted for the producer butterfat and location differentials.

§ 946.85 *Payments out of the producer-settlement fund.* (a) On or before the 16th day after the end of each month, the market administrator shall pay to each handler for payment to producers any amount by which the net obligation of such handler for the month is less than an amount computed by multiplying the hundredweight of milk received by him from producers during the month by the uniform price adjusted for the producer butterfat differential: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

(b) On or before the 16th day after the end of each of the months of September, October, November, and December, the market administrator shall pay out of the producer-settlement fund to each producer from whom milk was received by all handlers during the month an amount computed as follows: Divide one-fourth of the aggregate amount held pursuant to § 946.71 (d) by the hundredweight of milk received from producers by all handlers during the month and multiply the resulting amount (computed to the nearest cent per hundredweight) by the milk received from such producers during the month: *Provided,* That payment under this paragraph to any producer who has given authority to a cooperative association to receive payment for his milk shall be distributed to such cooperative association if the cooperative association requests receipt of such payments.

§ 946.86 *Adjustment of accounts.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever such verification discloses that payment is due from the market administrator to any handler, pursuant to § 946.85, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by § 946.80, the handler shall pay any amount so due not later than the time of making payment to producers next following such disclosure.

§ 946.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 946.80, shall deduct 5 cents per hundredweight, or such amount not in excess thereof as the Secretary may prescribe with respect to all milk received by such handler from producers (other than such handler's own farm production) during the month and shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from such producers and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom the Secretary determines a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made directly to such producers pursuant to § 946.80 as are authorized by such producers and on or before the 15th day after the end of each month, pay such deductions to the cooperative association rendering such services.

§ 946.88 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of the month, 3.0 cents per hundredweight, or such amount to be not in excess thereof as the Secretary may prescribe with respect to all receipts by such handler during the month of (a) milk from producers (including such handler's own farm production), and (b) other source milk classified as Class I milk pursuant to § 946.46. Each cooperative association which is a handler shall pay such pro rata share of expense on only that milk of producers caused to be diverted by such cooperative association to a nonpool plant and milk received from producers at a pool plant of such cooperative association.

§ 946.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calender month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deductions or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 946.90 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 946.91.

§ 946.91 *Suspension or termination.* Any or all provisions of this part, or any amendment to this part, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give and shall in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 946.92 *Continuing power and duty.* (a) If upon the suspension of termination of any or all provisions of this part, there are any obligations arising under this part the final accrual or ascertainment of which requires further acts by any handler, by the market administrator or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged, (2) from time to time account for all receipts and disbursements and, if so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant to this part.

§ 946.93 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, except §§ 946.34, 946.89, 946.91 through 946.93, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 946.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 946.101 *Separability of provisions.* If any provision of this part, or its application to any person, or circumstances, is held invalid, the application

of such provision and of the remaining provisions of this part to other persons or circumstances shall not be affected thereby.

[F. R. Doc. 56-7796; Filed, Sept. 26, 1956; 8:50 a. m.]

[7 CFR Part 971]

[Docket No. AO-175-A14]

MILK IN DAYTON-SPRINGFIELD, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order amending the order, as amended, regulating the handling of milk in the Dayton-Springfield, Ohio, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the findings and conclusions and the proposed marketing agreement and order hereinafter set forth were formulated, was conducted at Dayton, Ohio, on June 19-20, 1956, pursuant to notice thereof issued on June 4, 1956 and published in the FEDERAL REGISTER on June 7, 1956 (21 F. R. 3902).

The material issues relate to:

(1) A change in the classification of skim milk and butterfat disposed of in fluid cream;

(2) A change in the Class I price differential, revision of the supply-demand adjustment provision and advancing the date for announcing Class I prices;

(3) A change in the computation of class prices to provide prices on a hundredweight basis for milk of 3.5 percent butterfat content with appropriate butterfat differentials;

(4) A change in the provisions for the classification of milk transferred or diverted to nonpool plants;

(5) Revision in the months and amount of payments under the fall incentive payment plan; and

(6) A revision and reissuance of the entire order to add a number of new definitions, provide more specific provisions with respect to the accounting for milk and to incorporate a number of conforming and clarifying changes in the order language.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence in the record of hearing:

(1) The provisions relating to classification of milk should be revised.

Producers proposed inclusion of skim milk and butterfat disposed of in sweet or sour cream in Class I milk and the redesignation of the present Class III milk classification as Class II milk. No testimony was presented in opposition to this proposal.

Fluid cream, sweet or sour, which is disposed of for fluid consumption in the marketing area must be made from milk which must meet the same inspection requirements as milk for fluid disposition. Fluid cream and cream mixtures provide a regular year-round market outlet for inspected milk similar to other Class I products. It is important and economically sound that they should contribute equally with other fluid milk products to the increased cost of obtaining the year-round supply of inspected milk for the market. In most neighboring markets under Federal orders, skim milk and butterfat disposed of as fluid cream is priced the same as other fluid milk products which must be made from inspected milk. Skim milk and butterfat used in mixtures which are not required to be made from inspected milk, such as, eggnog and aerated cream should be included in Class II milk.

It is concluded that skim milk and butterfat disposed of in products included in the present Class II classification should be included in Class I milk and the present Class III classification should be redesignated as Class II milk. Other changes should be made in the language in the class definitions so as to incorporate the terms provided by new definitions hereinafter discussed.

The references in the class definitions with respect to milk dumped or disposed of for livestock feeding should be clarified. Handlers, at times, have small quantities of milk, such as unusable returns from routes, which may be disposed of for livestock feed. Also, handlers at times, find is uneconomical to process or transport to processing plants small quantities of reserve supplies of skim milk and this milk may be disposed of by dumping down the sewer. Butterfat in such milk may be separated from the skim milk prior to dumping. The present dumpage provisions should specifically apply to skim milk only.

2. The supply-demand provisions of the order should be revised to reflect changes in the seasonal relationship of producer milk receipts to Class I sales. The Class I price in each month should be based on the basic formula price for the preceding month. No change should be made in the Class I price differential added to the basic formula price.

Producers proposed that the Class I price differential which is added to the basic formula price be increased from $1.20 to $1.30 per hundredweight. They also proposed changing the base period ratios applied in the supply-demand adjuster to reflect 1955 seasonality relationships and levels and the elimination of supply-demand adjustments of less than 20 cents per hundredweight.

In support of the 10-cent increase in the Class I differential, producers argued that Dayton-Springfield blend prices were lower than those in surrounding Federal order markets and that producers were shifting to other markets, particularly to the Cincinnati, Ohio, market. The regulated Columbus, Ohio and Fort Wayne, Indiana markets also draw milk from the Dayton-Springfield milkshed.

The additional value above basic or manufacturing milk prices which must be paid to producers in the form of a blend or uniform price to get inspected milk produced and delivered to the market must be contributed primarily by that portion of the producer milk which is sold as fluid milk products for fluid consumption (Class I milk). Reserve supplies of milk over and above the fluid milk requirements must be priced at levels which reflect competitive prices for manufacturing milk or costs of alternative milk products for manufactured milk products such as ice cream, cottage cheese, condensed, evaporated milk and the like. Prices for milk in such usage as does not require inspected milk are at manufacturing levels in all the markets. Consequently, increases in blend or uniform prices to producers in a particular market with a given pattern of utilization must be derived from an increase in the Class I price. Because of the competitive relationship of the Dayton-Springfield market with these other regulated markets both in the procurement of milk and in the sales of fluid milk products, there must be a reasonable and "normal" alignment of Class I prices over a period of time among these markets which are affected by common or similar economic influences. It is not economically sound or appropriate under the standards of the act to approach the problem of price alignment from the viewpoint of blend prices paid to producers. To do so would mean that as more milk is attracted to a particular market and the proportion of producer milk used for fluid disposition decreases, further increases in Class I prices would be necessary to maintain the same blend price. It is apparent therefore, that proper price alignment between neighboring markets must be achieved by establishing the proper Class I differentials over the basic formula prices in each market. The resulting sales and production responses afford the tools for appraising the appropriateness of such alignment.

Given the goal of attracting an adequate supply of inspected milk to meet market sales including the necessary reserve, changes in sales-supply relationships in an individual market require adjustments in the basic or longer term alignment of prices to reflect these changed local conditions. It is only through such adjustments of Class I prices in the individual markets that available supplies of milk will be attracted through the orders to the various markets in accordance with their needs.

The basic formula price in the Dayton-Springfield order and those in orders in neighboring markets are very similar. The Class I differential which is added to basic formula prices is $1.20 per hundredweight as compared with $1.30 for the Cincinnati market and $1.10 for the Columbus market. This or similar differences in the annual level of the Class I price differentials have been maintained for several years and upon the basis of the evidence contained in this record, there is no reason to change this establishment relationship.

In each of these markets, a supply-demand adjustment factor has been incorporated in the orders to immediately and automatically reflect in Class I prices, changes in the supply-demand relationships in the local market. During 1955, the supply-demand adjuster reduced Class I prices under the Dayton-Springfield order an average of 5 cents per hundredweight while the adjuster in the Cincinnati order increased Class I prices about 10 cents per hundredweight. In Columbus, Class I prices were increased slightly more than 5 cents per hundredweight. For the first five months of 1956, Class I prices in Dayton-Springfield were reduced by approximately 12 cents per hundredweight as compared with an addition of about 23 cents in Cincinnati and a reduction of 4 cents for Columbus. The differences in adjustments between the Cincinnati and Dayton-Springfield order prices has encouraged no doubt the shifting of some producers from supplying the Dayton-Springfield market to supplying the Cincinnati market. The resulting distribution of available supplies of milk among the markets, through the operation of the supply-demand adjusters, operates to improve supply-demand relationships in each market. The issue at this hearing is whether or not the Dayton-Springfield adjuster is operating effectively in forecasting the longer run conditions in the Dayton-Springfield marketing area.

Over the past several years, receipts of producer milk in the Dayton-Springfield marketing area have kept pace with increases in sales of fluid milk products. From 1952 to 1955 average monthly producer receipts increased 33 percent as compared with an increase of 28 percent in fluid milk sales. From 1953 to 1955 both receipts and sales increased 17.7 percent and from 1954 to 1955 both increased 10.6 percent. Average monthly producer receipts in 1955 were about 34 percent in excess of the milk disposed of in fluid milk products compared with about 27 percent in 1952 when receipts of producer milk were hardly adequate to fulfill such sales during the short production season. During the short production months of September through November in both 1954 and 1955 producer receipts were approximately 21 percent above Class I sales. During September of 1955, receipts were only 18 percent in excess of Class I sales (as redefined). These quantities of reserve supplies of milk are necessary in the market to equalize day to day and month to month variations between producer receipts and handlers' needs of milk for fluid milk products and the current annual level of producer receipts to sales should be maintained.

There has been a shift seasonally in deliveries of the annual supply of milk for this market. A relatively greater increase in production has occurred in the fall months than in the spring months which, in turn, has improved the month to month relationship of receipts to sales. The present base ratios contained in the supply-demand adjuster were incorporated in the order on the basis of a hearing held in January 1954 and necessarily were developed on the basis of marketwide data prior to that time. With the decided trend toward more even production and the tendency for the peak and low production periods to occur earlier in the year, the base ratios in the supply-demand adjuster have become obsolete.

During the first five months of 1956 Class I sales increased 10 percent above the corresponding period a year ago while receipts of milk from producers increased only 7 percent. Some part of the relatively smaller increase in producer receipts can be attributed to the trend toward more even production. However, the action of the present supply-demand adjustment which resulted in decreasing Class I prices an average of 10 cents per hundredweight during the first six months of this year, at the same time that fluid milk sales increased relatively faster than producer milk receipts, raises a further question as to the reliability of the base period ratios to reflect supply-demand conditions in the market.

The present base ratios in the supply-demand adjuster resulted in minus Class I adjustment in six spring and summer months and plus adjustments in three fall months of 1955 and minus adjustments in the first six months of 1956. The effect of a minus 10-cent adjustment in January and February of 1956 based on receipts-sales ratios during October through December conflicts with the fall incentive program of the order to encourage increased production during this latter period.

Based upon the above stated considerations, the base period ratios contained in a revised supply-demand adjuster should be established at the same average level as the ratios contained in the present order (between 75 and 76 percent). The seasonal pattern of base period ratios should be changed to reflect the more recent improved seasonal supply-demand relationships as set forth in the schedule below:

Month for which price is being computed	Months used to compute ratio	Base period ratio (percent)
January	October and November	81
February	November and December	81
March	December and January	79
April	January and February	77
May	February and March	76
June	March and April	74
July	April and May	69
August	May and June	64
September	June and July	69
October	July and August	74
November	August and September	86
December	September and October	81

Producers also proposed that the supply-demand adjustment provisions be modified to eliminate price adjustments of less than 20 cents per hundredweight. This would be accomplished by providing no adjustment until the current supply-demand ratio varied from the base ratio by at least 6 percentage points. This would have the effect of doubling the present tolerance which is provided before prices are adjusted. The purpose of the supply-demand adjuster is to provide automatically, timely changes in Class I prices in accordance with indications of a change in the trend in the relationship of sales of fluid milk products to producer receipts without entailing the delay and expense associated with the public hearing procedure. It is essential that price changes be reflected as quickly as possible to bring about appropriate sales and production responses in accordance with changes in the market situation. The widening of the brackets to provide no price adjustment until the current ratio varies by 6 points from the base ratio would slow down and partly nullify the effectiveness of the supply-demand adjustment factor and therefore is denied.

Handlers proposed advancing the date for announcing the Class I price and butterfat differential by basing them on the previous month's basic formula price information. Similar changes have been made in recent revisions of several Federal orders. Class I prices would be known by both producers and handlers in advance of the delivery and sale of their milk. The total amount of money charged handlers and paid producers for milk over a period of a year would not be changed. Producers opposed a change on the basis that seasonal variations in basic formula prices would tend to cause discrepancies between the Dayton-Springfield uniform prices and the uniform prices for competing markets.

During the past two years, as the result of the price support program for dairy products, little change occurred from month to month in basic formula prices. Changes in uniform prices resulting from other factors, such as differences in the fall production incentive payment plans and supply-demand adjusters have been more important in causing such differences. For example, in 1955 between March and April the basic formula price varied 1 cent per hundredweight as compared with a variation of 10 cents in the "set aside" under the fall incentive program between the Dayton-Springfield and Cincinnati market. Likewise, from August to November 1955, the basic formula price changed about 1 cent while the supply-demand adjuster under the two orders accounted for a change of approximately 15 cents. Handlers' proposal should be adopted.

The list of condenseries used in determining the basic formula price should be revised to include only those plants currently operating. Since the order was last drafted, operations have been terminated at five of the plants previously listed. The names of the plants listed for the following locations should be eliminated: Black Creek, Wisconsin;

Berlin, Wisconsin; Jefferson, Wisconsin; Clifton, Wisconsin, and Greenville, Wisconsin.

3. Class prices for milk should be determined and announced by the market administrator on the basis of a hundredweight of milk containing 3.5 percent butterfat.

Changes were proposed in the order to provide for the application and announcement of class prices on a per hundredweight basis for milk of 3.5 percent butterfat content with appropriate adjustments of prices for milk of other tests by a butterfat differential. Under the present order, separate hundredweight prices are established for skim milk and butterfat in each class. In most markets, milk is priced on a hundredweight basis of a specified butterfat content. The proposed method of establishing prices would simplify the determination of prices for milk of a specified butterfat test and would facilitate comparisons of prices over a period of time and with other markets. The intent of the proposed change was not to alter the cost of milk to handlers as compared with the present method of computing prices.

In order to adopt this pricing method, prices should be announced for milk containing 3.5 percent butterfat with appropriate butterfat differentials. The average test of milk utilized in Class I, representing approximately three-fourths of the total market utilization, is only slightly above 3.5 percent. The present method of pricing Class I milk has the effect of applying a butterfat differential to Class I milk for each tenth of a percentage variation in the test of such milk equivalent to the Class I price per hundredweight for butterfat less the Class I price per hundredweight for skim milk, divided by 1000. During 1955, this was equal to .127 times the price of 92-score butter on the Chicago market. Handlers did not oppose producers' proposal for this change in the method of computing and announcing Class I prices for 3.5 percent milk; however, they proposed a butterfat differential of 0.130 times the price of butter. It is concluded that the ratio of 0.127 should be used.

There are wide differences in the butterfat and nonfat solids content among the various products included in Class II milk. Also, there is a more direct relationship between the open market prices of most of such manufactured products to prices either for butter or for nonfat dry milk, as the case may be, than is the case of most Class I milk products. It is concluded therefore, that the butterfat differential for Class II milk should result in maintining the same relative prices between butterfat and skim milk regardless of the butterfat test of the finished product. This can be accomplished through a butterfat differential determined by subtracting the value of a pound of skim milk from the value of a pound of butterfat computed under the butter-nonfat dry milk formula used in determining Class II prices for 3.5 percent milk, and dividing the remainder by 10.

The present order provides a lower price for butterfat used in the production of butter than for other proposed Class II uses. In order to elimnate mechanical difficulties in the application of the allocation provisions of the order, the lower price to handlers on such butterfat may be accomplished in the computation of value of milk for each handler as a credit entry. The rate of the credit per hundredweight of butterfat should be the same as the difference in prices provided by the present order.

The lower price for butterfat should be limited to butterfat used to produce butter in the pool plant of the handler and to butterfat transferred in the form of bulk fluid cream to other pool plants and nonpool plants and used in the production of butter. This latter provision is necessary to safeguard the classified-pricing plant of the order. Butterfat moved in the form of whole milk can readily be used in the manufacture of the higher-valued regular Class II uses and producers should receive a return for such butterfat accordingly.

4. The provisions with respect to the transfer and diversions of milk from pool plants should be modified.

Transfer provisions are provided in the order to supplement the class definitions in the classification of milk disposed of from pool plants. The primary function of the provisions relating to the transfer of fluid milk products between pool plants is to remove any impediments to the movement of milk between such plants and at the same time assure that the producer milk in such plants is assigned to the available Class I utilization to the fullest extent possible. It is customary to transfer or divert bulk and packaged products between regulated plants in the Dayton-Springfield market. It is possible to carry out the intent of the classification procedure by providing for the transfer of such fluid milk products on an agreed-upon basis so long as producer milk is not displaced by other source milk in Class I in either handler's plant(s). It is concluded that the provisions for the classification of milk transferred or diverted between pool plants should be continued in the present form and in addition provision should be made that, if either or both handlers receive other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the highest priced utilization possible to producer milk in both plants.

The primary function of transfer and diversion provisions applying to milk transferred from pool plants to nonpool plants is to facilitate the disposal of reserve supplies of milk and at the same time return to producers a value for the milk in accordance with its usage. If transfer provisions are properly drawn, they will also serve to afford a degree of protection to the market against shortages caused by withdrawals of milk by other fluid milk markets and at the same time remove any price incentive for the handler to dump reserve supplies of milk on other markets for fluid disposition at surplus milk prices. The classification of milk transferred or diverted between fluid milk markets also affects the amount of necessary reserve supplies of milk associated with each market and, consequently, the method used for such classification affects relative returns among producers serving the markets.

Several proposals were made at the hearing to modify the transfer provision applying to milk moved to nonpool plants. One proposal would prohibit the diversion of milk directly from the producer's farm by the handler to a nonpool plant. Another proposal would change the method of classifying milk which is transferred or diverted to a nonpool plant. The question of diversion is dealt with under issue No. 6.

Under the present order, milk transferred or diverted to a nonpool plant is classified at the plant in the highest priced use remaining after subtracting in series, beginning with Class I milk, receipts of milk at the plant directly from dairy farmers who, the market administrator determines, constitute the regular source of supply for such plant.

In the Dayton-Springfield market, substantial quantities of milk are, at times, transferred or diverted to nonpool plants. A substantial portion of such diversions are to plants located in or near the milkshed. Some of these plants are combination plants wherein both Grade A and ungraded milk are received and processed. At least one of these plants engages in substantial disposition of fluid milk to retail and wholesale outlets along with the production of manufactured products. All bottled milk and some bulk milk is disposed of from this plant as Grade A milk. A substantial portion of the total receipts at this plant is received from producers of ungraded milk. In the case of combination plants of this type, it is necessary for the market administrator to determine the total receipts and classification of all of the milk received in the plant. Under the provisions of the current order, the total receipts of milk received directly from dairy farmers (both Grade A and ungraded) are given prior claim on Class I disposition over the Dayton-Springfield milk transferred or diverted to such plant. This leaves the way open for receipts of ungraded milk from dairy farmers to be allocated to the Class I sales at such plant prior to the allocation of Grade A producer milk from the Dayton-Springfield market. Thus, the present order provisions permit the classification of Grade A milk from this market in the manufacturing classes even though such milk is disposed of as Grade A milk for fluid consumption. It is concluded, therefore, that the Class I sales, determined pursuant to the classification provisions of the order applied at the nonpool plant, which are assigned to the local dairy farmers at such plant should be limited to the receipts of milk from those farmers who hold permits to supply Grade A milk. Any additional Class I sales should be credited to the Grade A producer milk which is received from the regulated market.

In order to preclude undue administrative problems and expense in the application of the transfer provisions of the order, provision should be made that skim milk and butterfat transferred in the form of milk or skim milk in bulk to a nonpool plant located more than 100 miles from either Dayton or Springfield, whichever is nearest, should be Class I milk. More than adequate facilities for handling reserve supplies of milk are located within this designated area. Milk which is moved greater distances is used for fluid disposition (Class I).

At least one nonpool plant to which milk is transferred or diverted from the Dayton-Springfield market, milk is received from other markets which are regulated by other orders issued pursuant to the act. Milk also may be transferred to the same plant by more than one handler under the Dayton-Springfield order. The "net" Class I sales (the amount over and above the receipts of skim milk and butterfat in Grade A milk received from local dairy farmers at such plant) should not be used as a basis for duplicating the Class I classification of milk received from plants regulated by this and other orders. In the classification of milk transferred from the Dayton-Springfield pool plants, consideration should be given, therefore, to milk received at the nonpool plant which is classified as Class I milk for other handlers under this order and under the other orders. It is economically sound and reasonable that the amount of milk at such plant classified as Class I milk for any one regulated market be not less than that market's pro rata share of the "net" Class I sales in such nonpool plant. It is concluded, therefore, that milk which is transferred or diverted by Dayton-Springfield handlers to a nonpool plant should be classified as Class I milk to the extent of the "net" Class I disposition of such plant less receipts of milk at such plant classified as Class I milk during the month pursuant to another Federal order issued under the act; but, in no event should the amount of such milk classified as Class I milk pursuant to the Dayton-Springfield order be less than its pro rata share of such "net" Class I sales at the plant. The pro rata share should be based on the total receipts of milk at such nonpool plant during the month from all plants subject to the pricing and payment provisions of an order issued pursuant to the act. The adoption of this method of classifying milk will not conflict with the transfer provisions of the other orders presently involved, namely Fort Wayne, Indiana, and Lima and Columbus, Ohio. This method of classification will safeguard the primary functions of the transfer provisions of the Dayton-Springfield order. It will assure that transfers of milk to nonpool plants will be classified in accordance with the utilization of the milk. It will provide a degree of protection to the market against shortages caused by withdrawals of milk and at the same time remove any undue price incentive for the handler to dump reserve supplies of milk on other markets for fluid disposition at less than the order Class I prices. The proposed provision provides for equality of treatment of handlers both within the Dayton-Springfield market and in other nearby regulated markets in the classification of milk transferred to the same nonpool plant. Because under the present order all packaged fluid milk products disposed of to nonpool plants are classified as Class I milk, the same as such milk disposed of on a route, pursuant to the Class I milk definition, the transfer provisions need to apply only to fluid milk products in bulk transferred to nonpool plants. All transfers of fluid milk products to producer-handlers are Class I milk as provided by the present order.

5. The schedule for payments to producers under the fall production incentive payment plan should be modified.

Producers proposed adding the month of September to the months of October through December as the period for payments out of the producer-settlement fund to effectuate the fall production incentive program. They also proposed changing the distribution of these funds, set aside each year during the April–July period, from the present plan for equal amounts for each of the months of October, November and December, to 20 percent of the fund in September, 30 percent in each of the months of October and November, and 20 percent in December.

Distribution of the funds under the fall production incentive payment plan should provide encouragement for seasonal production more in accord with market needs than is provided at present. September has become one of the months when producer receipts are relatively short in relation to fluid milk sales. An inducement should be given to producers to produce more of their milk during September. The proposed change has been discussed widely among producers and has their support. September 1, 1957 was proposed as the effective date for the proposed change. All producers supplying the market would be given ample opportunity thereby to adjust their production in accordance with the proposed new payment period. Producers proposal should be adopted.

6. The entire order should be redrafted to add a number of new definitions, provide more specific provisions with respect to accounting for milk, and to incorporate a number of conforming and clarifying changes in the order language.

A number of changes should be made in the order to designate more clearly what milk and what persons would be subject to regulation and the application of the order provisions to them. This can best be done by providing a number of new definitions which set forth the categories of persons, plants, and milk products for the purpose of applying the other order provisions. New definitions should be added for "fluid milk plant", "pool plant", "nonpool plant", "route", "fluid milk product", "producer-handler", "producer milk" and the definitions of "producer", "handler", and "other source milk" should be modified accordingly.

The term "fluid milk plant" should include a bottling or distributing plant which is approved by the appropriate health authority for the processing or packaging of Grade A milk and other fluid products which are disposed of on routes in the marketing area. It should include also plants which supply milk to a distributing plant and the producers of such milk who hold dairy farm inspection permits or equivalent certification issued by the appropriate health authority in the marketing area to supply milk for fluid distribution.

The "pool plant" definition should include all fluid milk plants which are to be fully subject to regulation under the order and whose producer milk will participate in the marketwide pool. Provision should be made for the exclusion of fluid milk plants which would be subject to the classification and pricing provisions of another order issued pursuant to the act, if a lesser volume of fluid milk products classified as Class I milk is furnished from such plant for disposition in the Dayton-Springfield marketing area than in the marketing area regulated pursuant to such other order. Plants which dispose of fluid milk products in more than one marketing area should not be subject to duplicate regulation. It is reasonable and economically sound to regulate such a plant under the order in the market where the largest proportion of Class I sales are made.

"Producer-handler" should be defined to include any person who operates a dairy farm and a fluid milk plant from which milk is distributed on routes in the marketing area, but who receives no milk from other dairy farmers. Under the present provisions of the order, plants operated by producer-handlers are not subject to regulation and are not included under the marketwide pool. Producer-handlers, therefore, should continue to be exempt from all but the reporting provisions of the order. The operators of all fluid milk plants which are not pool plants, producer-handlers and operators of plants subject to another order, should be defined as a "handler" and should be required to file reports, as requested by the market administrator, in order to determine their status under the order.

A "nonpool plant" should be defined to include any milk manufacturing, processing or bottling plant other than a pool plant.

The inclusion of the foregoing definitions is necessary to clarify the order language and will assist in drafting other provisions of the order. The proposed new definitions will not extend the regulation to milk, persons or plants not now subject to the order.

The essential features of the present producer definition should not be changed. The term "producer" should include any person, except a producer-handler, who produces milk, under a dairy farm inspection permit issued by the appropriate health authority in the marketing area, which is received at a pool plant or is diverted by the operator of a pool plant or a cooperative association to a nonpool plant on not more than one-third of the days of delivery during any month. The question of diversion is discussed later in this decision.

"Producer milk" should include that skim milk and butterfat contained in milk received from producers at a pool plant or diverted from a pool plant to another pool plant or a nonpool plant. In case of diversion to a nonpool plant, milk will lose its identity as producer milk after being diverted for more than one-third of the days of delivery during any month. It was proposed by the producers' association that the present pro-

ducer definition be modified to exclude the deliveries of milk by a producer which are diverted by operators of pool plants to nonpool plants and to provide for such diversion by a cooperative association only in the case of an emergency.

Proponents allege that the advent of the farm bulk tank method of assembling milk and the consequent case of transferring milk to other markets and outlets make it extremely difficult for the cooperative association to maintain control over its members' milk supply for the market. It was alleged that milk may be temporarily transferred to other markets during periods of shortages or more favorable prices in competing markets and disrupt the orderly marketing of milk for the Dayton-Springfield market. It was further alleged that some handlers are abusing the privilege of diversion under the order. Producer milk is being diverted on a continuous basis to nonpool plants and it was alleged that this was being done at the expense of the market-wide pool. Considerable discussion on the record was had also on problems associated with bulk tank assembling of milk in connection with testing, weighing, accounting and fixing the responsibility for the receipt of such milk.

It was argued by proponents that it had been customary prior to bulk tank pickup, for handlers to receive all milk at their plants in the marketing area and such method of handling milk if continued would eliminate many of the problems with which they are concerned. As one means of encouraging this, producers supported the elimination of the privilege of diversion of milk directly from the farm to nonpool plants.

In this market, it has been customary to divert milk between pool plants. Such practice promotes efficiency in receiving and handling milk in the market and should be continued.

Efficiency in the marketing of milk can be accomplished also by permitting the diversion of reserve supplies of milk temporarily not needed in the market directly from the farm to manufacturing plants located in or near the production area. The privilege of diverting milk by operators of pool plants and the cooperative association to nonpool plants will tend to promote the orderly marketing of market reserves, particularly during the flush production months. It is concluded, therefore, that the provision of the order with respect to diversion to nonpool plants should be continued. The provisions with respect to the classification of milk which is transferred or diverted to nonpool plants should be modified as heretofore discussed. Also, some limitation should be placed on the length of time that milk may be delivered to nonpool plants and remain as producer milk in the marketwide pool. It is reasonable to permit the diversion of a producer's milk to a nonpool plant on not more than one-third of the days of delivery during any month and have such milk remain in the pool. Based on the receipts—Class I sales relationships in this market, it is concluded that if milk of a producer is moved to a nonpool plant more than one-third of the days of delivery, such producer's milk is not sufficiently associated with the market to participate under the regulation. The order should be clarified with respect to the responsibility for the receipt of milk in the case of farm tank pick-up trucks which deliver milk to more than one plant. This should be accomplished by considering that all the milk on a truck is received at the first pool plant where any of the milk is withdrawn.

The record evidence is not sufficient to form an adequate basis for formulating formal provisions to deal with the other problems discussed in connection with farm bulk tank delivery of milk. Some of these concern the control of the milk of producer members by the cooperative association. Several are of such nature that they can be more appropriately handled by the industry itself through cooperation of the producers' association, handlers and haulers of milk. In those cases dealing with administrative matters in the application of the order, such determinations can be formulated more appropriately by the market administrator based on particular circumstances after soliciting, when necessary, views of the industry.

The definition of "other source milk" should be modified to clarify its meaning and to extend the definition to include all skim milk and butterfat utilized by the handler in his operations except milk received from producers, fluid milk products received from other pool plants and inventory of fluid milk products on hand at the beginning of the month. Thus, other source milk would represent skim milk and butterfat which is not subject to the pricing provisions of the order during the month. It will include all milk products from plants other than pool plants and all manufactured dairy products from any source which are reprocessed or converted into another product during the month. It will include those manufactured products from a regulated plant's own production which are reprocessed or converted into another product during the same or a later month. By incorporating this definition of other source milk, the method of accounting for such milk by all handlers will follow identical accounting procedures whether or not the manufactured products which are reused in a handler's plant were converted from producer milk or purchased from outside sources. The skim milk and butterfat used to produce manufactured (Class II) products should be considered as disposed of when so utilized and therefore will not enter into the classification procedure again unless reused. Records of sales and stocks of manufactured products, however, must be maintained by the handler to facilitate the auditing program of the market administrator and substantiate current usage of such products. This change in the definition of other source milk will assure uniformity among handlers in the application of the allocation and pricing procedure of the order. Any other source milk, including that derived from manufactured products, will continue to be allocated first to the available Class II utilization. The new definition will continue to provide for the allocation of producer milk to Class I to the extent that such milk is available from current receipts or beginning inventory.

By incorporating the proposed new definitions and by making conforming changes in other order provisions, receipts of milk under the order will fall within four categories as follows:

(1) Producer milk;
(2) Milk from pool plants;
(3) Inventory of fluid milk products; and
(4) Other source milk.

The reporting and accounting provisions of the order should be changed to incorporate these terms.

Some handlers in the market produce condensed milk, nonfat dry milk and other manufactured milk products. Some of these products are reused in the pool plant where produced or are disposed of to other handlers. Operators of other pool plants may purchase some solids from outside sources. Condensed solids or nonfat dry milk may be used for reconstituting certain fluid milk products or to fortify skim milk drinks. Such solids are required by the health regulations to be made from Grade A milk and should be calssified as Class I milk when disposed of in a fluid milk product the same as all other skim milk in Class I milk. There appears to be no reason why one portion of the solids nonfat contained in Class I products should be classified differently from another portion in this market. The pounds of skim milk disposed of in any reconstituted or fortified fluid milk product, therefore, should be considered as an amount equal to the nonfat milk solids contained in such product plus the water content reasonably associated with such solids in the form of whole milk. To promote uniformity in the cost of milk among handlers and to effectuate the established principle of allocating current receipts of producer milk to Class I utilization to the fullest extent, the skim milk in other source milk in the form of a manufactured product must likewise be accounted for on the basis of the nonfat solids plus the water reasonably associated with such solids in the form of whole milk. The effect of this accounting procedure in conjunction with the change in the definition of other source milk will have no effect on the net classification of other source milk used in Class II milk. The marketwide effect of this change will be minor because it has been the practice under the present order to account for such solids allocated to Class I milk on a skim milk equivalent basis. It is desirable, however, that specific language be provided in the order for accounting for such products.

Handlers have inventories of milk and milk products on hand at the beginning and end of each month which must enter into the accounting for current receipts and utilization of producer milk. Inventory variations are now classified in Class II milk but the order is silent in this respect. Month-end inventories of fluid milk products whether in bulk or packaged form should continue to be classified as Class II milk.

Manufactured milk products (Class II) will not be included in the fluid milk inventory accounting because the skim milk and butterfat used in such products are accounted for in the month that such products are manufactured.

Handlers frequently use other source milk in their operations. The inventory accounting procedure should provide for producer milk from inventory to have prior claim on Class I utilization over receipts of other source milk in the same manner as current receipts of producer milk. Because inventories of fluid milk items are to be accounted for at the end of the month in Class II milk, as a temporary classification, it is necessary, therefore, to provide a method for handling milk from inventory which is allocated to Class I milk in the current month but which the handler accounted for in Class II milk at the end of the preceding month. The higher use value of any fluid milk product from beginning inventory of producer milk which is used in Class I milk should be reflected in returns to producers. Such milk should be priced the same as a current receipt of producer milk. These goals may be accomplished through the accounting procedure by considering the opening inventory as a receipt in that month and subtracting such receipts, under the allocation procedure, in series, starting with Class II milk, following the subtraction of other source milk and receipts from other pool plants. To the extent that the opening inventory is allocated to Class I milk and there was an equivalent amount of skim milk and butterfat in producer milk classified in Class II milk in the previous month (after allocating allowable producer milk shrinkage and other source milk) a reclassification charge should be made at the difference between the Class II price in the previous month and the Class I price in the current month. Handled in this manner, milk from inventory will be priced to handlers identically with milk derived from current receipts of producer milk during the month. This method of accounting for inventory will result in equality in the cost per hundredweight of milk among handlers and returns to producers irrespective of whether or not such milk is from opening inventory or is a current receipt.

To incorporate the additions and changes recommended herein, it is necessary to make clarifying and conforming changes in nearly every section of the order. The entire order, therefore, should be redrafted and reissued.

Rulings on proposed findings and conclusions. Briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered by the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, amending the order, as amended. The following order regulating the handling of milk in the Dayton-Springfield, Ohio, marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the proposed amended order.

DEFINITIONS

§ 971.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 971.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 971.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 971.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 971.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 971.6 *Dayton-Springfield, Ohio, marketing area.* "Dayton-Springfield, Ohio, marketing area" hereinafter called the "marketing area," means the cities of Dayton, Oakwood, and Springfield; the townships of Bath and Miami, in Greene County; the townships of Miami, Jefferson, Madison, Van Buren, Harrison, Butler, Mad River, and Washington, in Montgomery County; and German township in Clark County; all in the State of Ohio.

§ 971.7 *Fluid milk product.* "Fluid milk product" means milk, including reconstituted milk, skim milk, buttermilk, milk drinks (plain or flavored), concentrated milk, cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, eggnog, ice cream mix, evaporated or condensed milk and sterilized products in hermetically sealed containers).

§ 971.8 *Route.* "Route" means the operation of a plant store or a vehicle (including that operated by a vendor) through the means of which fluid milk products are disposed of to retail or wholesale stops in the marketing area other than to a plant which processes milk.

§ 971.9 *Fluid milk plant.* "Fluid milk plant" means: (a) A plant approved by the appropriate health authority for the processing or packaging of Grade A milk and from which a fluid milk product is disposed of during the month on a route(s) in the marketing area or (b) a plant from which milk is shipped during the month to a plant described in paragraph (a) of this section and which milk is produced under a dairy farm inspection permit or equivalent certification issued by the appropriate health authority in the marketing area for distribution as Grade A milk.

§ 971.10 *Pool plant.* "Pool plant" means a fluid milk plant other than: (a) A fluid milk plant which would be subject to the clasification and pricing provisions of another order issued pursuant to the act and a lesser volume of fluid milk products is disposed of from such plant as Class I milk in the Dayton-Springfield marketing area than in the marketing area regulated pursuant to such other order; and (b) a fluid milk plant operated by a producer-handler.

§ 971.11 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 971.12 *Producer.* "Producer" means any person, except producer-handler, who produces, under a dairy farm inspection permit or equivalent certification issued by the appropriate health authority in the marketing area, milk which is (a) received at a pool plant, or (b) diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association or not more than one-third of the days of delivery during any month: *Provided*, That milk diverted pursuant to this section shall be deemed to have been received at a pool plant.

§ 971.13 *Handler.* "Handler" means any person in his capacity as the operator of one or more fluid milk plants or pool plants and any cooperative association with respect to producer milk diverted to a nonpool plant pursuant to § 971.12.

§ 971.14 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a fluid milk plant pursuant to § 971.9 (a) but who receives no milk from other dairy farmers.

§ 971.15 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at a pool plant directly from producers, or (b) diverted from a pool plant to another pool plant, or from a pool plant to a nonpool plant in accordance with the conditions set forth in § 971.12. With respect to milk caused by the operator of a pool plant to be delivered directly from the producer's farm to the pool plant of another handler, the handler to be considered as receiving such milk shall be determined by written agreement between the two handlers filed with the market administrator on or before the 5th day after the end of the first month during which it becomes effective, or in the absence of such an agreement, shall be determined by the market administrator. Milk delivered in a farm tank pick-up truck to more than one milk plant shall be deemed to have been received at the first pool plant where any of the milk is withdrawn from the tank truck.

§ 971.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from a pool plant, (2) inventory at the beginning of the month, or (3) producer milk; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 971.17 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

MARKET ADMINISTRATOR

§ 971.20 *Designation.* The agency for the administration of this part shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by and shall be subject to removal at the discretion of the Secretary.

§ 971.21 *Powers.* The market administrator shall have the power:

(a) To administer this part in accordance with its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations of the provisions of this part;

(c) To make rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 971.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Within 45 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this part;

(c) Pay, out of the funds provided by § 971.77, (1) the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, (2) his own compensation, and (3) all other expenses, except those incurred under § 971.78, which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclosed to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within two days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 971.30, or (2) payments pursuant to §§ 971.70, 971.71, 971.74 and 971.76;

(f) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any person upon whose utilization the classification of milk depends.

(h) On or before the 6th day of each month notify all handlers and publicly announce the minimum price for Class I milk pursuant to § 971.51 and the Class I butterfat differential pursuant to § 971.53 (a) both for the current month and the minimum price for Class II milk pursuant to § 971.52 and the Class II butterfat differential pursuant to § 971.53 (b) both for the preceding month.

(i) On or before the 12th day after the end of each month notify all handlers and publicly announce the uniform price computed pursuant to § 971.62 and the butterfat differentials computed to § 971.72 for such month.

(j) On or before the 12th day after the end of each month report to each cooperative association for such month with respect to each pool plant, the utilization on a pro rata basis of producer milk, payment for which is to be made to such cooperative association pursuant to § 971:70.

REPORTS, RECORDS AND FACILITIES

§ 971.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, shall report for such month to the market administrator in the detail and on forms prescribed by the market administrator for his pool plant(s):

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in or represented by fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in or represented by other source milk;

(d) The quantities of skim milk and butterfat contained in or represented by inventories of fluid milk products on hand at the beginning of the month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(f) Such other information with respect to receipts and utilization as the market administrator may request.

§ 971.31 *Other reports.* (a) Each producer-handler and each handler who operates a fluid milk plant not a pool plant shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) On or before the 22nd day after the end of each month each handler shall submit to the market administrator such handler's producer payroll for such month, which shall show (1) the total pounds of milk received from each producer and cooperative association and the total pounds of butterfat contained in such milk, (2) the amount of payment to each producer and cooperative association, and (3) the nature and amount of the deductions and charges involved in the payments referred to in subparagraph (2) of this paragraph.

§ 971.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations including the amount and nature of any deductions and the disbursement of money so deducted.

§ 971.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which

such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and records, or specified books and records until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 971.40 *Basis of classification.* The skim milk and butterfat which are required to be reported pursuant to § 971.30 shall be classified each month by the market administrator in the classes set forth in § 971.41, subject to the provisions of §§ 971.42 through 971.46.

§ 971.41 *Classes of utilization.* Subject to the conditions set forth in § 971.43 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product (except that disposed of and used for livestock feed and skim milk dumped) and (2) not accounted for as Class II milk;

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) disposed of and used for livestock feed; and skim milk dumped; (3) contained in inventory of fluid milk products on hand at the end of the month; and (4) plant shrinkage as computed pursuant to § 971.45.

§ 971.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 971.43 *Transfers.* Skim milk or butterfat disposed of by a handler from a pool plant, including transfers or diversions made by a cooperative association shall be classified:

(a) As Class I milk if transferred or diverted in the form of fluid milk products to the pool plant of another handler except as:

(1) Utilization in Class II milk is claimed by the operators of both plants in their reports submitted pursuant to § 971.30;

(2) The receiving handler has utilization in Class II of an equivalent amount of skim milk and butterfat, respectively; and

(3) The classification of the skim milk or butterfat so transferred results in the classification at both plants of the maximum Class I utilization to the producer milk at both plants, if either or both handlers have other source milk during the month;

(b) As Class I milk, if transferred to a producer-handler in the form of bulk fluid milk products;

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk in bulk to a nonpool plant located 100 miles or more from the City Hall of Dayton or Springfield, Ohio, whichever is nearest;

(d) As Class I milk if transferred or diverted to a nonpool plant in the form of cream in bulk or in the form of milk or skim milk in bulk to a nonpool plant located less than 100 miles from the City Hall of Dayton or Springfield, Ohio, whichever is nearest, unless:

(1) The handler claims classification as Class II milk in his report submitted pursuant to § 971.30 and submits a statement which is signed by the handler and the buyer that such skim milk and butterfat was used in a product in Class II milk;

(2) The operator of the nonpool plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification;

(3) The classification reported by the handler results in an amount of Class I skim milk and butterfat claimed by all handlers transferring or diverting milk to such plant of not less than the amount of assignable Class I milk remaining after the following computation;

(i) From the total skim milk and butterfat, respectively, in fluid milk products disposed of from such nonpool plant and classified as Class I milk pursuant to the classification provisions of this order applied to such nonpool plant, subtract the skim milk and butterfat received at such plant directly from dairy farmers who hold permits to supply "Grade A" milk and who the market administrator determines constitute the regular source of supply for such fluid milk products for such nonpool plant;

(ii) From the remainder, subtract the skim milk and butterfat, respectively, in fluid milk products received from another market and which is classified and priced as Class I milk pursuant to another order issued pursuant to the act: *Provided,* That the amount subtracted pursuant to this subdivision shall be limited to such market's pro rata share of such remainder based on the total receipts of skim milk and butterfat, respectively, at such nonpool plant which are subject to the pricing provisions of an order issued pursuant to the act;

(4) If the skim milk and butterfat transferred by all handlers to such a nonpool plant and reported as Class I milk pursuant to this paragraph is less than the skim milk and butterfat assignable to Class I milk pursuant to subparagraph (3) of this paragraph, an equivalent amount of skim milk and butterfat shall be reclassified as Class I milk pro rata in accordance with the claimed Class II classification reported by each of such handlers;

(e) Other source milk caused by a cooperative association to be delivered from the plant of a person not a handler to the pool plant of a handler other than such cooperative association shall be considered as a transfer from the cooperative association to the handler if the cooperative association and the handler operating the pool plant to which such other source milk was caused by the cooperative association to be delivered both so indicate in their reports filed pursuant to § 971.30.

§ 971.44 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water reasonably associated with such solids in the form of whole milk.

§ 971.45 *Shrinkage.* Subject to paragraph (a) of this section, the quantities of skim milk and butterfat, respectively, at each pool plant to be classified as Class II milk pursuant to § 971.41 (b) (4) shall be computed as follows:

(a) If the sum of the quantities of skim milk and butterfat, respectively, classified as Class I and Class II milk pursuant to § 971.41 (a) and (b) (1), (2), and (3) equals or exceeds the receipts of skim milk and butterfat, respectively, required to be reported pursuant to § 971.30, no skim milk or butterfat, respectively, shall be classified as Class II milk pursuant to § 971.41 (b) (4);

(b) Determine gross shrinkage of skim milk and butterfat, respectively, by subtracting the skim milk and butterfat, respectively, classified as Class I milk pursuant to § 971.41 (a) and (b) (1), (2), and (3) from the receipts of skim milk and butterfat, respectively, required to be reported pursuant to § 971.30;

(c) Prorate the quantities of gross shrinkage of skim milk and butterfat, respectively, which are not in excess of 2.5 percent of the sum of the quantities of skim milk and butterfat, respectively, used in the following computation, between:

(1) The skim milk and butterfat, respectively, contained in producer milk at such pool plant less the skim milk and butterfat, respectively, in fluid milk products transferred in bulk form to other pool plants;

(2) The skim milk and butterfat, respectively, in fluid milk products transferred in bulk to other pool plants, multiplied by .6;

(3) The skim milk and butterfat, respectively, in fluid milk products received in bulk from other pool plants, multiplied by .4; and

(4) The skim milk and butterfat, respectively, in other source milk received in the form of fluid milk products.

(d) The sum of the quantities of skim milk and butterfat, respectively, com-

puted pursuant to paragraph (c) of this section shall be classified as Class II milk.

§ 971.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 971.44 the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 971.45 (c) (1) (2) and (3);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk;

(3) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 971.43 (a);

(4) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(5) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 971.50 *Basic formula price.* The basic formula price shall be the highest of the prices per hundredweight as determined by the market administrator pursuant to paragraph (a), (b), or (c) of this section, rounded to the nearest tenth of a cent:

(a) The average of the basic or field prices reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following milk plants for which prices have been reported to the market administrator or to the Department of Agriculture:

Company and Location
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price computed as follows:

(1) Multiply the Chicago butter price by 6;

(2) Add 2.4 times the arithmetical average of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within such month as published by the Department;

(3) Divide by 7 and to the resulting amount add 30 percent; and

(4) Multiply the amount computed in subparagraph (3) of this paragraph by 3.5.

(c) The price computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.2; and

(2) From the simple average, of the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published by the Department for the period from the 26th day of the immediately preceding month through the 25th day of the current month, deduct 5.5 cents and multiply the result by 8.2.

§ 971.51 *Class I milk prices.* Subject to the provisions of § 971.53, the price to be paid by each handler f. o. b. his pool plant for producer milk which is classified as Class I milk during the month shall be computed by the market administrator as follows:

(a) Add $1.20 to the basic formula price for the month immediately preceding, and add or subtract a "supply-demand adjustment" computed as follows:

(1) Divide the total gross volume of Class I milk (less Class I transfers of fluid milk products between pool plants and less bulk sales of Class I milk in excess of 1,000 pounds during each month by each handler to nonpool plants) in the second and third months preceding by total receipts of producer milk for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the current supply-demand percentage.

(2) Compute a net deviation percentage by subtracting from the current supply-demand percentage computed pursuant to subparagraph (1) of this paragraph, the base period ratio shown below:

Month for which price is being computed	Months used to compute ratio	Base period ratio (percent)
January	October and November	81
February	November and December	81
March	December and January	79
April	January and February	77
May	February and March	76
June	March and April	74
July	April and May	69
August	May and June	64
September	June and July	69
October	July and August	74
November	August and September	80
December	September and October	81

(3) Determine the amount of the supply-demand adjustment from the following schedule:

If net deviation percentage is—	*Supply-demand adjustment is—*
+12 or over	+38
+9 or +10	+29
+6 or +7	+20
+3 or +4	+10
+1 or −1	0
−3 or −4	−10
−6 or −7	−20
−9 or −10	−29
−12 or under	−38

When the difference from the base period Class I utilization percentage does not fall within the tabulated brackets, the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

§ 971.52 *Class II milk prices.* Subject to the provisions of § 971.53, the price to be paid by each handler f. o. b. his plant for producer milk which is classified as Class II milk during the month shall be computed by the market administrator as follows:

(a) Multiply the Chicago butter price by 4.2 for each of the months of March through August and by 4.27 for each of the other months of the year.

(b) Add the value of skim milk computed as follows: (1) Subtract 5.5 cents, from the arithmetic average of the carlot prices per pound of roller process nonfat dry milk solids for human consumption, at Chicago, as reported by the Department for the weeks ending within such month, (2) multiply the result by 8.2, and (3) subtract therefrom 20 cents for each of the months of March through August.

§ 971.53 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices for the month calculated pursuant to §§ 971.51 and 971.52 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.127.

(b) *Class II price.* (1) Divide the value computed for butterfat pursuant to § 971.52 (a) by 3.5, (2) subtract the value computed for skim milk pursuant to § 971.52 (b), divided by 96.5, and (3) divide the remainder by 10.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 971.60 *Computation of value of milk for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of producer milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 971.46 (a) (5) and the corresponding step of (b) by the applicable class prices;

(c) Subtract, for each hundredweight of butterfat contained in producer milk which was classified in Class II milk pursuant to § 971.46 and which was used to produce butter during the month in a pool plant or transferred in the form of bulk fluid cream to a pool plant or a nonpool plant and used to produce butter in such plant, the difference between the value computed for butterfat pursuant to § 971.52 (a) divided by .035 and the Chicago butter price multiplied by 120, less $5.00 for each of the months of March through August and less $3.60 for each of the other months of the year;

(d) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified in Class II less shrinkage during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 971.46 (a) (4) and the corresponding step of § 971.46 (b), whichever is less; and

(e) Add or subtract, as the case may be, any amount necessary to correct any errors discovered by the market administrator in the verification of reports or payments of such handler for any previous month which result in payments due the producer-settlement fund or the handler.

§ 971.61 *Notification.* On or before the 12th day after the end of each month the market administrator shall notify each handler of the value of his milk for such month as computed in accordance with § 971.60 and of the amount by which such value is greater or less than the total amount required to be paid by such handler pursuant to § 971.70.

§ 971.62 *Computation of uniform prices.* For each month the market administrator shall compute the uniform price per hundredweight for producer milk, of 3.5 percent butterfat content, at pool plants as follows:

(a) Combine into one total the values computed pursuant to § 971.60 for all handlers, except those of handlers who failed to make payments required pursuant to §§ 971.70 through 971.74 for the preceding month;

(b) Subtract for each of the months of April, May, June and July an amount computed by multiplying the total hundredweight of producer milk for such month by 20 cents in April, 35 cents in May and June, and 30 cents in July;

(c) Add for the month of September 20 percent of the obligated balance in the producer-settlement fund pursuant to § 971.73 (b) on August 31, immediately preceding, add for each of the months of October and November 30 percent of the fund and add for the month of December the remaining 20 percent of the fund, except in 1956, add for each of the months of October, November and December an amount computed by dividing the total amount of the obligated balance in the producer-settlement fund pursuant to § 971.73 (b) on September 20, 1956 by three;

(d) Add an amount representing not less than one-half the unobligated balance in the producer-settlement fund;

(e) Substract, if the weighted average butterfat test of all producer milk is greater than 3.5 percent, or add if the weighted average butterfat test of such milk is less than 3.5 percent an amount computed by multiplying the difference between such weighted average butterfat test and 3.5 by the butterfat differential computed pursuant to § 971.72;

(f) Divide by the hundredweight of pooled milk; and

(g) Subtract not less than 4 cents nor more than 5 cents.

PAYMENTS

§ 971.70 *Time and method of final payment.* Each handler shall pay on or before the 17th day after the end of each month to each producer for all milk received from such producer during such month at not less than the uniform price computed pursuant to § 971.62, subject to the butterfat differential computed pursuant to § 971.72 and less the amount of the payment made pursuant to § 971.71: *Provided,* That a total amount not less than the sum of the amounts payable to individual producers from which a cooperative association has received written authorization to collect payment shall be paid to such association on or before the 16th day after the end of such month.

§ 971.71 *Partial payments.* On or before the 27th day of each month each handler shall make payment to each producer, except as set forth in paragraph (b) of this section, for all milk received from such producer during the first 15 days of such month. Prices at which such payment shall be made shall be computed quarterly to be applicable to payments to be made in January through March, April through June, July through September, and October through December on the basis of the uniform price for the month immediately preceding the beginning of the quarter as follows:

If the uniform price for the preceding month is—	*Partial payment per hundredweight shall be—*
Under $1.00	$0.00
$1.00–$1.99	.50
$2.00–$2.99	1.00
$3.00–$3.99	2.00
$4.00–$4.99	3.00
$5.00–$5.99	4.00
$6.00–$6.99	5.00
$7.00 or over	6.00

Provided, That a total amount not less than the sum of the amounts payable to individual producers from which a cooperative association has received written authorization to collect payment shall be paid to such association on or before the 26th day of such month.

§ 971.72 *Butterfat differential.* For each month the market administrator shall compute to the nearest one-tenth cent a butterfat differential by multiplying the Chicago butter price by 0.12.

§ 971.73 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" which shall function as follows:

(a) All payments made by handlers pursuant to § 971.74 shall be deposited in this fund, and all payments made to handlers pursuant to § 971.75 shall be made out of this fund: *Provided,* That the market administrator shall offset any such payment due any handler against payments due from such handler;

(b) All amounts subtracted pursuant to § 971.62 (b) shall be deposited in this fund and shall remain therein as an obligated balance until it is withdrawn for the purpose of effectuating § 971.62 (c); and

(c) The difference between the amount added pursuant to § 971.62 (d) and the total amounts resulting from the subtraction pursuant to § 971.62 (g) shall be deposited in, or withdrawn from, this fund, as the case may be to effectuate § 971.62 (d) and (g).

§ 971.74 *Payments to the producer-settlement fund.* On or before the 14th day after the end of each month, each handler shall pay to the market administrator the amount by which the total value of his milk for such month is greater than the sum required to be paid by such handler pursuant to § 971.70.

§ 971.75 *Payments out of the producer-settlement fund.* On or before the 16th day after the end of each month the market administrator shall pay to each handler the amount by which the sum required to be paid producers by such handler pursuant to § 971.70 is greater than the total value of the milk of such handler for such month: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who, on the 16th day after the end of any month, has not received full payment for such month from the market administrator pursuant to this section shall be deemed to be in violation of § 971.70 if he reduces his payments per hundredweight thereunder by not more than the amount of the reduction in payment from the market administrator.

§ 971.76 *Adjustment of errors.* Whenever verification by the market administrator of the payment by a handler to a producer or to an association of producers, pursuant to § 971.70 or § 971.71, discloses payment of less than is required, the handler shall make up such payment not later than the time for making payment pursuant to § 971.70 or § 971.71 next following such disclosure.

§ 971.77 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 971.22 (c), each handler shall pay to the market administrator, on or before the 14th day after the end of each month, 2 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to receipts during such month of:

(a) Producer milk (including such handler's own production); and

(b) Other source milk allocated to Class I milk pursuant to § 971.46 (a) (2).

§ 971.78 *Marketing services*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 6 cents per hundredweight, or such lesser amount as the Secretary from time to time may prescribe, from the payments made pursuant to § 971.70, with respect to all milk received by such handler during each month from producers (not including such handler's own production) and from associations of producers, and shall pay such deductions to the market administrator on or before the 14th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of such milk received by handlers and to provide such producers and associations of producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by him and responsible to him.

(b) *By cooperative associations.* In the case of producers for whom a cooperative association is actually performing as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may have been authorized by such producers and, on or before the 16th day after the end of the month, pay over such deductions to the cooperative association rendering such services.

MISCELLANEOUS PROVISIONS

§ 971.90 *Application of provisions.* Sections 971.50 through 971.94 shall not apply to a producer-handler.

§ 971.91 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 971.92.

§ 971.92 *Suspension or termination.* The Secretary may suspend or terminate this part of any provision of this part, whenever he finds that this part or any provisions of this part, obstructs, or does not tend to effectuate, the declared policy of the act. This part shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 971.93 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under this part, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged by the Secretary, (2) from time to time account for all receipts and disbursements, and when so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary may direct, and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

§ 971.94 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 971.95 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 971.96 *Separability of provisions.* If any provision of this part, or the application thereof to any person or circumstances, is held invalid, the remainder of the part, and the application of such provision to other persons or circumstances, shall not be affected thereby.

§ 971.97 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraph (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files, pursuant to section 8c (15) (a) of the act, a petition claiming such money.

Filed at Washington, D. C. on this 24th day of September 1956.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 56-7801; Filed, Sept. 26, 1956; 8:51 a. m.]

[7 CFR Part 980]

[Docket No. AO-182-A6]

MILK IN TOPEKA, KANS., MARKETING AREA

DECISION WITH RESPECT TO TENTATIVE MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act, of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Topeka, Kansas, on July 10 and 11, 1956, pursuant to notice thereof which was issued on June 20, 1956 (21 F. R. 4517).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on September 12, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on September 15, 1956 (21 F. R. 6973).

Issues considered. The material issues considered at the hearing were concerned with the following:

1. Extension of the marketing area;
2. Definition of pool plants;
3. Location adjustments;
4. Base-rating provisions; and
5. The Class II price.

Findings and conclusions. The following findings and conclusions are based on the evidence received at the hearing and the record thereof:

1. *Marketing area.* The Topeka, Kansas, marketing area should be extended to include all of Lyon County, in which Emporia is the county seat and largest city.

There is very extensive competition between Topeka and Emporia handlers in the sale of milk. Two of the three handlers whose plants are located at Emporia have been the successful bidders on contracts within the Topeka marketing area. During the period July 1954 through March 1955, this contract business was so extensive that at each of the plants it accounted for more than 25 percent of their total receipts of Grade A milk (more than 20 percent in March 1955), thus qualifying them as Topeka pool plants during the 9-month period. During the months of April through December 1955, the operators of these two plants still retained sufficient contract business to qualify as handlers under the Topeka order but not as pool plants.

Some Topeka handlers also have extensive sales in Emporia and Lyons Counties. One of them maintains a distributing point in Emporia from which wholesale and retail routes are operated throughout the county and into such additional territory as can more conveniently be served from the Emporia distributing point than from the bottling plant at Topeka.

The two groups of handlers also compete extensively with each other in sales territory outside of Shawnee or Lyon Counties including competitive bidding on the large contracts for Fort Riley, near Manhattan, Kansas.

In view of such extensive direct competition, the two groups of handlers should be on a strictly comparable basis in their purchase of milk from producers. Their supplies of milk should be classified in accordance with use and priced uniformly. A great majority of the producers shipping Grade A milk to the three distributors in Emporia are members of an unincorporated cooperative association. This association actively supported expansion of the order to include Lyon County. The Topeka procurement area almost entirely overlaps the Emporia milkshed and extension of the order would assure producers of the same uniform price regardless of the particular handlers to which they deliver their milk. The producers delivering to Emporia plants would also participate in the same seasonal incentive (the base and excess plan), have the same services of checking weights and tests, and have the same access to complete market information as provided under the present order to producers delivering to Topeka plants.

A proposal that Morris County, Kansas, be included in the marketing area was not supported at the hearing and that county should not be included in the marketing area.

2. *Pool plants.* Under the present Topeka order, only distributing plants are defined as pool plants. Distributing plants are those at which milk is received from producers, pasteurized, and bottled and from which the bottled milk is distributed to wholesale and retail customers. In most of the medium-sized cities of the country these are the only types of milk plants involved in the distribution of fluid milk.

In the larger metropolitan areas, however, the milksheds have become too extensive for farmers to deliver their milk directly to city plants. Instead, it is more economical for the milk to be assembled at country points, cooled, and shipped to the distributing plants in tank truck lots. It is also common for these country supply plants to be equipped with manufacturing facilities. The daily and seasonal surpluses of milk not needed for bottling can then be processed at the country plants instead of being transported into the distributing plants.

There is now such a supply plant serving the Topeka market. It supplies milk to a distributing plant whose supply of direct-delivered milk is far short of its bottling needs. The country supply plant furnishes milk to the distributor whenever it is needed. Commonly, of course, the supply plant milk is called upon most extensively during the late summer and fall months when production is seasonably low. If a substantial volume of such plant's supply of milk is called in by the distributing plant during the fall months, the supply plant should be considered as a regular part of the market supply. Those producers should participate in the equalization pool throughout the year. At the hearing extensive consideration was given to providing objective standards in the order for determining whether a supply plant was sufficiently associated with the market through its performance to become fully regulated under the order and to participate in the marketwide pool. The experience of the supply plant which is already serving the market was described in some detail and furnishes a valuable guide to the development of standards. However, it is essential that the standards accommodate any other supply plant operations which may become closely associated with the market in the future.

A supply plant should qualify as a year-round pool plant if 50 percent of its available supply is shipped to distributing plants in each of the months of August through December. These are the months of shortest supply in the Topeka market and are, therefore, the months in which distributing plants would be most likely to require milk from supply plants. Producers proposed that July be included as one of the qualifying months. It has been a shortage period in recent years, but is still a base-operating month and producers testified that, in their judgment, it should remain in that category. Accordingly, it should not be included in the supply plant qualification period. Since the hearing was not held early enough to permit an amendment to be effective throughout the 1956 shipping period, the requirement should apply only from the effective date of the order through December 31 of 1956 and to the entire August-December period in subsequent years. It was testified that the supply plant presently serving the market would probably ship 70 percent or more of its available supply in each of the specified months. However, the increasingly common practice of bottling milk only 5 or 6 days per week and unforeseeable fluctuations in Class I sales and, more particularly, in receipts from producers would make it exceedingly difficult for a country plant to average so high a rate of shipment in each of the specified months. A 50 percent standard will assure the market that any supply plant which qualifies thereunder will, in fact, be a major supplier to distributing plants.

Any supply plant should qualify as a pool plant in the first month in which it ships 50 percent of its available supply. Commonly, any new supply plant would become associated with the market during one of the fall months, but it is entirely conceivable that rearrangement of receiving facilities could occur even during the months of flush production. It is, therefore, provided that the supply plant qualify for the first and each succeeding month that it ships the 50 percent, but that it would not stay qualified without making shipments during the flush months unless it had been part of the market supply during the preceding short months.

The shipping percentages are computed on the basis of the "available" supply. The operator of the supply plant currently serving the Topeka market with bulk milk also has a sizeable bottling and distribution operation in local areas outside of the Topeka marketing area. The volume of such sales is, of course, fairly constant throughout the year and the quantity of milk so disposed of is not, as a practical matter, available to Topeka distributors. The bottling of milk for local sale is a rather common operation at supply plants. These sales would be reported as Class I utilization and would be fully subject to the order. Such sales should be deducted from the total receipts of milk at a supply plant to determine the total quantity which is available for the Topeka market. The quantities shipped to Topeka distributors should then be divided by the available supply rather than by the total supply to determine whether the 50 percent requirement has been met.

On the other hand, this particular supply plant has also sold bulk supplemental

milk to distributors at plants in Texas and other markets outside of Topeka. The purpose of the supply plant definition is to determine whether any given operation is primarily associated with Topeka or with some other market. Obviously, any plant which ships more of its available bulk supply of milk to Texas or other markets than to Topeka cannot logically be considered a part of the Topeka supply and should not be carried in the Topeka pool during the succeeding flush period.

It was further proposed that supply plant shipments be directly related to the need for Class I milk at the distributing plant through an allocation procedure. It appears, however, that the present standards for distributing plants provide a degree of Class I identification. The order now requires that a distributing plant must keep 50 percent of its total receipts in Class I during the months of July through February and 40 percent during the months of March, April, May and June in order to qualify as a pool plant. This requirement should be broadened to include not only the milk received at the distributing plant directly from producers' farms but also that shipped in from supply plants. Another safeguard against the possibility that country plants will ship milk without regard to Class I needs, merely to participate in the marketwide pool, is provided by denying a location adjustment on milk shipped in excess of Class I use.

The addition of a supply plant definition does not significantly affect those provisions of the order relating to unpriced milk. These now provide that if other source milk is received at a pool plant and allocated to Class I, there will be compensatory payments except in circumstances when producer milk is not available. In the past, during the months when supplemental milk has been obtained by handlers, producer milk has not been available, and compensatory payments have not been assessed. The nearby plant which has performed a supply plant function has furnished milk to a distributing plant under these circumstances. If this plant, or others performing similar functions, qualify as pool plants, their total supply of milk will be priced.

Review of the order provisions relating to pool plant definitions and unpriced milk disclose that if supplemental milk was received from a plant regulated under another Federal order and allocated to Class I, it would be subject to any compensatory payments which might apply. Apparently such a situation has not arisen, but it should be provided for. Since such milk would already have been priced under the original order in accordance with use, no further payment should be assessed. This can be accomplished by providing a separate step in the allocation provisions for milk from sources regulated under another order and by specifically exempting from compensatory payments any of such milk as may be classified as Class I under the Topeka order.

At present, the definitions of "approved dairy farmer" and "approved plant" refer both to health standards and to physical operations in the distribution of milk in the marketing area. Further operational requirements are then specified in the "pool plant" and "handler" definitions. In revising these latter definitions, it appears administratively desirable to confine the approved definition to health standards and to cover the standards for physical operations in the handler and pool plant definitions.

3. *Location adjustments.* Location adjustments are not provided for under the present Topeka order. Until recently, the procurement, bottling, and sale of milk was carried on exclusively by distributing plants located in or near the marketing area and location adjustments were not applicable. Only these distributing plants were defined as pool plants.

The development of supply plants makes it necessary to consider location adjustments, since such facilities are commonly located at considerable distances from the market. It is also widely recognized that distributing plants are serving much wider sales territories than they did a few years ago. It is quite possible that milk may be distributed directly in the Topeka marketing area from plants located at substantial distances from the market. If so, a location adjustment should be allowed in order to equalize the cost of such milk, at the marketing area, with the cost of milk to handlers whose plants are physically located in the area.

The location adjustments to handlers should be at the same rates as the location adjustments provided under the Kansas City order. Kansas City is the closest other Federal order market and hauling conditions are approximately the same in the two areas. The Kansas City rates appropriately reflect transportation costs.

One modification which should be made in the Kansas City location adjustment structure is occasioned by extension of the Topeka marketing area to include Lyon County and the City of Emporia. Distances should be measured from the City Hall in Emporia or in Topeka, whichever is closer.

The location adjustment to handlers should apply only on milk utilized for Class I purposes. In the case of bulk milk transferred from a supply plant to a distributing plant, an allocation procedure is necessary to determine what proportion of milk so transferred can be considered as having been used for Class I purposes at the distributing plant. This can be accomplished by deducting from the distributing plant's total Class I use the quantity of milk received at such plant directly from producers' farms. The remaining Class I utilization would be assigned to the milk received from supply plants. In case a distributing plant receives milk from more than one supply plant, the milk received from the nearest location would be assigned first to the Class I use.

The location adjustments to producers should be at the same rates as to handlers, but should apply to all the milk delivered by producers to any plant at which the location adjustments apply. Producers delivering milk to supply plants are pooled throughout the year, even though their milk may physically be received in the market only during the summer and fall months. Whenever the milk is physically needed, transportation charges are incurred for the haul from the distant plant to the marketing area. It follows that its potential value to the market, whether or not it is physically moved, is reduced by the amount of the location adjustment.

4. *Base-rating.* The order should not be amended to provide a base for producers entering the market after the base-setting months of September through December. A handler proposed that producers entering during any of the base-operating months of January through July be provided a base proportionate to the market average percentage of base deliveries.

In all markets where new producers are allowed to establish bases, old producers (those who had established bases during the regular base-setting months) are allowed to relinquish their old bases and establish new ones under the same conditions as apply to new producers. This is done in the interest of equity since old producers may have changed their operations or recovered from some adversity which prevailed during the base-setting period to an extent that they are almost as much new shippers as producers who had not previously been associated with the market. At the Topeka hearing, producers testified that a new producer provision coupled with one for relinquishing old bases would greatly reduce the effectiveness of the base plan in leveling production.

The extensive intermingling of Topeka and Kansas City shippers must also be considered in this connection. The base-rating plans in the two markets are now identical. Any substantial change in the operation of the plan, particularly in the smaller of the two markets, might seriously disrupt competitive relationships and affect the relative supply of milk in the two markets.

The base-rating provisions should be changed, however, to accommodate shippers to any plants which may qualify as pool plants this fall. This can be accomplished in the same fashion as bases were established in the fall of 1954 when these provisions of the order first became effective. Producers shipping to newly qualified pool plants should be permitted either to establish bases on their deliveries during the period from the effective date of the amending order through December 1956 or to have a base computed from verifiable delivery records for the entire period September through December 1956.

5. *Class II price.* Producers testified that they did not consider the present Class II price provisions of the order appropriate to the marketing area as proposed to be extended.

The most obvious deficiency concerns the list of local manufacturing plants on which the Class II price has been based. One of the three plants has discontinued operations entirely. Another plant is operated in conjunction with a Grade A receiving station which is a regulated supply plant under the Kansas City order. The third plant is operated by the major handler under the Topeka order.

In addition to its manufacturing plant at Topeka, this handler also maintains a receiving station at Emporia which frequently accepts surplus milk from fluid handlers in that locality in addition to milk from ungraded shippers. This milk is then transported to the Topeka plant for processing.

There are manufacturing plants in Kansas which are not associated with fluid milk operations under Federal orders, and the local plant price should be based upon a representative number of such plants. Three such plants are already used for similar purposes under other Federal orders. These are the Borden Company plant at Ft. Scott, Kansas; the Pet Milk Company plant at Iola, Kansas; both condenseries; and the Arkansas City Cooperative Milk Association plant at Arkansas City, Kansas, a plant which specializes in the manufacture of butter and nonfat dry milk. Other plants which appear appropriate for this use include the Carnation Company plant at Girard, Kansas, a condensery, and the Swift and Company plant at Parsons, Kansas, which specializes in the manufacture of American cheese.

The Class II price should be strengthened by using a butter-powder formula as an alternative to the local plant price during the months of lowest production, August through January. To date, the Topeka handlers do not appear to have acquired supplies in excess of Class I needs. During 1955, substantial quantities of milk were imported for Class I purposes in the months of September, October, and November. However, either the present handlers or the prospective new ones may in the future be encouraged to build up Grade A supplies in excess of bottling needs if Class II prices are too low in relation to the values of the resulting products.

One indication that the local plant prices are not fully representative of the value of milk for Class II uses during the short season is that they have been substantially lower than those prevailing in nearby markets. The Kansas City Class II price for the 6 months of low production (September through February in that market) are established by the basic formula price. During the period September 1955 through February 1956 they averaged 35.7 cents above the Topeka Class II price. In the Wichita and Southwest Kansas markets, the Class II price is the average price paid at manufacturing plants throughout the United States. In the same 6-month period these averaged 10.5 cents higher than Topeka. For the 12-month period March 1955 through February 1956 the Topeka Class II price averaged 21.6 cents below the Kansas City price and 10.3 cents below Wichita and Southwest Kansas. Clearly, the Topeka Class II prices are substantially below those applying to similar uses in adjacent Federal order markets and below the U. S. average price for manufacturing grade milk.

Another indication that the Class II price does not fully reflect manufacturing values is the payment by manufacturing plants of premiums over the reported prices on which the Class II price is based. A research study by the U. S. Department of Agriculture, cited at the hearing, disclosed that during the years 1951 through 1953 supplemental payments were substantial. They consisted mainly of hauling subsidies and quality payments. It was testified that the latter are still in effect. Also, it was pointed out that these premiums are of such magnitude that producers can gain a price advantage by marketing their excess milk directly at manufacturing plants rather than through their regular handlers.

In the months of August through January, only a comparatively small proportion of Topeka receipts are utilized for Class II purposes. In the period August 1955 through January 1956 the percentage of producer milk in Class II ranged from lows of 2 percent in August and September to a high of 26 percent in January and averaged 16 percent. During these months a substantial portion of such producer milk as is classified as Class II is utilized for cottage cheese or ice cream in the handler's plants. It is commonly recognized that milk for these uses commands a premium over milk for other manufacturing uses. For example, in mid-June 1956, a plant at Emporia was paying 31 cents per hundredweight over the Topeka Class II price for milk for use in the manufacture of ice cream. Moreover, during this period, there is little or no need to incur the expense of transporting surplus milk from handlers' plants to manufacturing plants for processing.

The butter-powder formula should be computed by subtracting 3 cents from the price of 92-score butter at Chicago, adding a 20 percent yield factor, multiplying by 3.8, the standard test of milk, and adding a value of the nonfat portion obtained by deducting 5.5 cents from the average prices of spray and roller process nonfat dry milk at Chicago area plants and multiplying by a yield factor of 7. This formula does not result in as high a level of prices as that proposed by producers. However, from August 1955 through January 1956 it would have increased the Class II price by an average of 21.2 cents per hundredweight. In view of the available outlets for Class II milk, it is concluded that the increases provided herein are appropriate to conditions as they exist in the market at this time.

The local plant price should be used during the months of February through July and the butter-powder alternative should be applied during the remaining months of August through January. The February through July period is the same as that used for operation of the base-excess plan. Producers specifically testified that the base-operating months should not be changed. It is noted, however, that the records of receipts and utilization for recent years shows that July through December are the 6 months of lowest supply in relation to sales and that January through June are the months of highest production. If interested parties in the market consider it likely that July will continue to be one of the short months instead of one of the months of flush production, it would be appropriate to change the months of the base-operating period, those applying to pool plant qualification, and those in which the butter-powder price is part of the Class II formula.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings. Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Determination of representative period. The month of July 1956, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, as amended, regulating the handling of milk in the Topeka, Kansas, marketing area, in the manner set forth in the attached amending order, is approved or favored by producers, as defined in the order, as amended, and as proposed hereby to be further amended, who during such representative period were engaged in the production of milk for sale in the marketing area as defined in the order, as amended, and as proposed hereby to be further amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, Marketing Agreement Regulating the Handling of Milk in the Topeka, Kansas, Marketing Area, and Order Amending the Order, as Amended, Regulating the Handling of Milk in the Topeka, Kansas, Marketing Area, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of September 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Topeka, Kansas, Marketing Area.

§ 980.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Topeka, Kansas, on July 10 and 11, 1956, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Topeka, Kansas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not resonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of expense, 2 cents per hundredweight, or such amount not exceeding 2 cents per hundredweight, as the Secretary may prescribe with respect to all milk received during such delivery period from approved dairy farmers.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Topeka, Kansas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as set forth below:

1. Revise § 980.5 to read as follows:

§ 980.5 *Topeka, Kansas, marketing area.* The "Topeka, Kansas, marketing area", hereinafter called the "marketing area", means the cities of Topeka and Emporia, and all of the territories included within the counties of Shawnee and Lyon, all in the State of Kansas.

2. Revise § 980.6 to read as follows:

§ 980.6 *Approved dairy farmer.* "Approved dairy farmer" means any person who delivers to an approved plant milk:

(a) Approved under a permit or rating issued by the health authority of any municipal or State government for the production of milk to be disposed of as Grade A milk; or

(b) Acceptable to agencies of the United States Government for fluid consumption in its institutions or bases as Type I; Type II, No. 1, or Type III, No. 1.

3. Revise § 980.8 to read as follows:

§ 980.8 *Approved plant.* "Approved plant" means any milk plant or portion thereof which is:

(a) Approved by the health authority of any municipal or State government for the handling of milk for consumption as Grade A milk in the marketing area; or

(b) Approved for the supplying of milk to any agency of the United States Government located within the marketing area.

4. Revise § 980.9 to read as follows:

§ 980.9 *Pool plant.* A "pool plant" shall be any plant meeting the conditions of paragraph (a) or (b) of this section, except the plant of a producer-handler:

(a) Any approved plant, hereinafter referred to as a "distributing plant", from which during the month the quantity of milk disposed of as Class I milk on a route(s) in the marketing area is equal during April, May, June, or July to 20 percent of the receipts at such plant of milk from approved dairy farmers or from other approved plants, or during August through March to 25 percent of such receipts: *Provided*, That the total quantity of milk disposed of as Class I milk on routes from such plants is equal during April, May, June, or July to 40 percent of the receipts at such plant of milk from approved dairy farmers or from other approved plants, or during August through March to 50 percent of such receipts; or

(b) Any approved plant, hereinafter referred to as a "supply plant," from which, during the month not less than 50 percent of its supply of milk from approved dairy farmers, less any milk regularly disposed of as Class I on routes moved to a distributing plant(s): *Provided*, That any supply plant which has shipped to a distributing plant(s) the required percentage of its supply of milk from approved dairy farmers during each of the months of October, November, and December 1956, and, in subsequent years, during each of the months of August through December, shall be a pool plant for each of the following months of January through July.

(c) For the purpose of this definition, the following shall apply:

(1) Milk diverted from an approved plant for the account of the handler operating such approved plant shall be considered a receipt at the approved plant from which it was diverted; and

(2) Milk diverted from an approved plant to another milk plant for the account of a cooperative association which does not operate a plant shall be deemed to have been received by such cooperative association at a pool plant.

5. Revise § 980.10 to read as follows;

§ 980.10 *Handler.* "Handler" means (a) any person in his capacity as operator of a pool plant, (b) any person who operates an approved plant from which Class I products are disposed of on a route(s) in the marketing area, or (c) any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from a pool plant to another milk plant for the account of such cooperative association.

6a. Delete § 980.46 (a) (2) and substitute therefor the following:

(2) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in other source milk other than that to be subtracted pursuant to subparagraph (3) of this paragraph;

(3) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in other source milk received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

b. In § 980.46 (a) change the designation of subparagraphs "(3)", "(4)", "(5)", and "(6)" to "(4)", "(5)", "(6)" and "(7)", respectively.

7. Revise § 980.50 (b) to read as follows:

(b) *Class II milk.* The price of Class II milk in delivery periods during the months of February through July shall be equal to the price specified in subparagraph (1) of this paragraph and during the months of August through January shall be the higher of the prices specified in subparagraphs (1) and (2) of this paragraph:

(1) The average price ascertained by the market administrator to have been paid for ungraded milk of 3.8 percent butterfat content received during such delivery period at the following plants:

Present Operator and Location

Borden Co., Ft. Scott, Kansas
Carnation Co., Girard, Kansas
Pet Milk Co., Iola, Kansas
Arkansas City Cooperative Milk Association, Arkansas City, Kansas
Swift & Co., Parsons, Kansas; or

(2) A price equal to the sum of the plus values of the following computations:

(i) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the delivery period, subtract 3 cents, add 20 percent thereof, and multiply by 3.8.

(ii) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk, spray and roller process, respectively, for human consumption, f. o. b., manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents, and multiply by 7.

8. Add a § 980.52 as follows:

§ 980.52 *Location adjustments to handlers.* (a) For milk which is received from producers at a pool plant located more than 50 miles by shortest highway distance, as determined by the market administrator, from the City Hall in either Topeka or Emporia, whichever is closer, and which is classified as Class I milk the prices computed pursuant to § 980.50 (a) shall be reduced by 16 cents if such plant is located more than 50 miles, but not more than 70 miles from such city hall and by an additional one-half cent for each 10 miles or fraction thereof that such distance exceeds 70 miles.

(b) Milk moved in bulk from a supply plant as defined in § 980.9 (b) to a distributing plant as defined in § 980.9 (a) shall be considered to be Class I milk to the extent that the Class I milk disposed of from the distributing plant exceeds receipts of milk from producers' farms: *Provided*, That if milk is received by a distributing plant from more than one supply plant, the milk so classified as Class I shall be deemed to have been transferred from the supply plants in the order of their least distance from the applicable city hall.

9. Delete the proviso in § 980.66 (a) and substitute therefor the following: "*Provided*, That the daily base applicable during the delivery periods of February through July 1957 for producers delivering milk to any plant qualifying as a pool plant pursuant to § 980.9 shall be the higher of that resulting from such computation or that resulting from an identical computation with respect to milk received from such producer during the delivery periods from the effective date hereof through December 1956."

10. In § 980.81 delete the words "and subject to the butterfat differential set forth in § 980.82" and substitute therefor the following, "and subject to the butterfat and location differentials set forth in § 980.82."

11. Revise § 980.82 to read as follows:

"§ 980.82 *Producer butterfat and location differentials*—(a) *Butterfat differential.* In making payments pursuant to § 980.80, there shall be added to or subtracted from the uniform price for each one-tenth of one percent that the average butterfat content of milk received from the producer is above or below 3.8 percent, an amount computed by adding four cents to the simple average as computed by the market administrator of the daily wholesale selling price (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture during the delivery period, dividing the resulting sum by 10 and rounding to the nearest one-tenth of a cent.

(b) *Location differential.* For milk which is received from producers at a pool plant located more than 50 miles by shortest highway distance as determined by the market administrator, from the city hall in either Topeka or Emporia (whichever is closer), there shall be deducted 16 cents per hundredweight of milk if such plant is located more than 50 miles but not more than 70 miles from such city hall plus an additional ½ cent for each 10 miles or fraction thereof if such distance exceeds 70 miles.

Order of the Secretary Directing That a Referendum be Conducted Among the Producers Supplying Milk to the Topeka, Kansas, Marketing Area, and Designation of an Agent to Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, and as hereby proposed to be further amended, regulating the handling of milk in the Topeka, Kansas marketing area) who, during the month of July 1956, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of July 1956 is hereby determined to be the representative period for the conduct of such referendum.

Edward L. St. Clair is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this referendum order is issued.

Done at Washington, D. C., this 24th day of September 1956.

[F. R. Doc. 56-7802; Filed, Sept. 26, 1956; 8:51 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 989]

[Docket No. AO 198-A3]

RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

DECISION WITH RESPECT TO PROPOSED FURTHER AMENDMENT OF AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Fresno, California, on June 18 and 19, 1956, upon proposed further amendments to Marketing Agreement No. 109, as amended, and Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California. Said amended marketing agreement and order are effective pursuant to the provisions of the act.

Upon the basis of the evidence adduced at the aforementioned hearing and the record thereof, the Deputy Administrator, Marketing Services, United States Department of Agriculture, on September 5, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. Notice of such recommended decision, and opportunity to file written exceptions with respect thereto, was published in the FEDERAL REGISTER (21 F. R. 6832) on September 8, 1956. No exception to said recommended decision was filed.

Material issues. The material issues presented on the record of the hearing involve amendatory proposals relating to:

(1) Mail or telegraphic voting;

(2) Reconditioning off-grade raisins, including disposition of residual material, storage of off-grade raisins received for reconditioning, and establishment of necessary rules and procedures;

(3) Exemption of shipments or other dispositions of any packed raisins to which the established or prescribed minimum grade standards are not applicable, and modification of the minimum grade and condition standards for natural condition raisins;

(4) The reporting of inter-plant transfers of raisins;

(5) The recovery of raisins from residual raisins obtained in the processing of standard raisins or from any raisins acquired as standard raisins;

(6) The latest date on which the committee must make its recommendation

with respect to the free, reserve, and surplus percentages for any crop year;

(7) The procedure for allocating to handlers offers of surplus tonnage raisins for sale in export;

(8) The price at which reserve tonnage raisins may be offered to handlers, and sale of such raisins after the committee receives notice that the Secretary does not disapprove the making of an offer;

(9) Sale of surplus tonnage raisins after the committee receives notice that the Secretary does not disapprove the making of an offer;

(10) Payment to alternate members of the committee for expenses incurred in attending a meeting when the member also attends; and

(11) The making of such other changes in the order as may be necessary to make the entire order conform with the proposed amendments thereto.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence adduced at the hearing and the record thereof:

(1) The provisions of § 989.52 (a) of the order, relating to voting by the committee, should be amended by deleting the requirement for 14 concurring votes to reach a decision on a mail or telegraphic vote and substituting therefor a provision that a unanimous vote of all selected and eligible members or alternates acting in the place and stead of members shall be required to reach a decision on such vote. Since the full committee membership consists of 14 members and their respective alternates, the present requirement for 14 concurring votes prevents the committee from voting by mail or telegraph if vacancies exist in both the member and the respective alternate position. The proposed amendment would enable the committee to vote in that manner when there is no assembled meeting even though vacancies should reduce the committee to less than its full membership. However, a negative vote by any member, or by an alternate acting for a member, would prevent the adoption of a proposition, as is the case under the present provisions regarding mail and telegraphic voting. The proposal would make it clear that the alternate may vote when a member is unavailable, the same as if the action were taken in an assembled meeting. It is intended that voting may be by mail or telegraph only on routine matters where no extended discussion is necessary and the committee is in complete agreement. Failure of any member or alternate to vote within a reasonable time (not to exceed 10 days) as stated in the balloting notice would raise a question as to complete agreement. Hence, such failure to vote should be held to be a dissenting vote.

(2) The provisions of § 989.58 (e) entitled "options as to off-grade natural condition raisins" should be amended by deleting the last two sentences thereof and substituting therefor other provisions which would: (a) Provide that any off-grade raisins (including stemmer waste and raisin offal) accumulated as a final residual by a handler in reconditioning raisins shall, during or after reconditioning has been completed, be disposed of by the handler, without further inspection, for distillation, animal feed or uses other than for human consumption; (b) require a handler to keep off-grade raisins received by him for reconditioning separate and apart from all other raisins until after the raisins have been reconditioned and the quality of raisins is established by inspection and certification; and (c) require the committee to establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the reconditioning of off-grade raisins and the use of the residual off-grade raisins from such reconditioning operations.

The present provisions of the order permit a handler to return the residual material from reconditioning to the tenderer (or producer) of the off-grade raisins, or dispose of it without further inspection, for distillation, animal feed, or uses other than for human consumption. In the operation of the order, producers who have tendered off-grade raisins to handlers for reconditioning have not requested the return of the residual material. The producer might use such residual material which consists of extremely low grade raisins, stems, and possibly foreign matter for fertilizer or animal feed. Evidently, the value of this material for such purposes does not warrant the producer taking it back to the farm. If the residual matter should be returned to producers, it is possible that some of them would blend it with above-minimum quality raisins and then be able to deliver the resulting blend to handlers as standard raisins. This would be contrary to good sanitation and could subject the producer to having the raisins condemned or seized by the California State authorities as a violation of State food and sanitary rules and regulations. Therefore, in proposing that return of the residual matter to producers be prohibited, official notice is taken of such State rules and regulations. The proposed amendment would place complete responsibility on the handler for the disposition of the residual matter for use in the prescribed outlets.

It is intended that the handler may employ whatever procedures are necessary in reconditioning, other than blending with raisins received or acquired as standard raisins, to recover all of the raisins that can be properly certified as standard raisins, and that the final residual material be disposed of as stated. It should be made clear that a handler shall dispose of any final residual material in the prescribed outlets during or after the reconditioning process has been completed. He should be permitted to make such disposition during the reconditioning process so as to enable him to maintain desirable sanitation and better utilize available space in his plant.

The proposed amendment would not prevent a handler from returning to the tenderer any lot of off-grade raisins in the same form as received, or the standard raisins from any lot turned over to the handler for reconditioning. Whenever off-grade raisins are turned over to a handler for reconditioning, the handler and the person tendering the raisins would consider the value of the residual material in arriving at the terms of the agreement under which the reconditioning is to be done.

Experience during the past season also has demonstrated that no useful purpose is served by requiring lots of off-grade raisins received for reconditioning to be held by the handler separate and apart from each other, as required in the present provisions of the order. In practice, handlers often find it necessary to group together lots of off-grade raisins having similar defects so as to conserve storage space and provide units large enough so that the raisins can be reconditioned economically. The cost of stopping and starting the machinery for individual lots could make the reconditioning of off-grade raisins unprofitable. In most instances, the handler settles with the producer for off-grade raisins received for reconditioning on the basis of the total standard raisins which may be obtained from the lot as determined by the information disclosed on the inspection certificate. Hence, it is not necessarily required that handlers keep particular lots of off-grade raisins received for reconditioning separate from other lots of similar raisins in order to determine the actual out-turn of standard raisins from the lot. If a producer desires that any lot of off-grade raisins tendered to a handler for reconditioning be kept separate from other lots for any reason, he may make arrangements with the handler for having this done. By relieving the handler from the order requirement of separate storage by lots, control of quality would not be impaired, and the resulting lower cost of reconditioning in the larger units should be reflected in lower reconditioning costs to the producer.

The handler would still be required to keep off-grade raisins received for reconditioning separate and apart from all other raisins until the quality of the reconditioned raisins is established by inspection and certification. This would not preclude a handler from mixing final residual material from the reconditioning of off-grade raisins with similar material from his processing of raisins acquired by him as standard raisins, which are to be disposed of for distillation, animal feed, or uses other than for human consumption.

A provision should be added to § 989.58 (e) requiring the committee to establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the reconditioning of off-grade raisins and the use of the residual material from such reconditioning operations. Although the order now authorizes the committee to make rules and procedures to effectuate the terms and provisions thereof, the added provision would require the committee to consider and establish, with the Secretary's approval, such rules and procedures as may be necessary in connection with the reconditioning of off-grade raisins.

(3) The provisions of § 989.59 (a) should be amended by adding a provision to make it clear that a handler is not prohibited from shipping or making

disposition of any raisins to which the minimum grade standards established by or pursuant to § 989.59 (a) or (b) are not applicable. Section 989.59 (a) prescribes U. S. Grade C, as defined in the effective United States Standards for Grades of Processed Raisins, as the minimum grade standards for packed raisins other than Layer Muscats and Zante Currants. For Layer Muscats and Zante Currant raisins, U. S. Grade B is prescribed. Section 989.59 (b) provides for modification of these minimum grade standards.

During the past season, there were instances of handlers desiring to ship certain new or unusual varietal packs of raisins for which applicable minimum grade standards had not been prescribed. These included, among others, packs of Soda Dipped Seeded (Valencia) raisins, and Unseeded, Uncapstemmed, Loose Muscat raisins. Soda Dipped raisins normally are unseeded, and Loose Muscat raisins normally are capstemmed. Such new or unusual varietal packs of raisins may be prepared to fill a special trade demand requiring raisins of good quality, and, in the absence of appropriate minimum grade standards under which they can be inspected, handlers should not be prevented from shipping them. The proposed amendment would enable handlers to ship such varietal packs of raisins without inspection until appropriate minimum grade standards can be established.

The question was considered at the hearing as to whether it would be desirable to amend § 989.97 (Exhibit B; minimum grade and condition standards for natural condition raisins) to include therein the changes of a relatively permanent nature which have been made in such standards during the 1955–56 crop year or to otherwise modify such standards in light of operations during such crop year. The only desirable change in this connection concerns lots of mixed varietal types. Growers sometimes have two or more varieties of grapes interplanted in the same vineyard. In these instances, the growers find it difficult or impossible to prevent commingling of different varietal types of raisins in the same container. Except in a few unusual situations, samples of the individual varieties can be drawn from the commingled raisins and the grade of each determined. To provide a basis for inspecting and certifying these commingled raisins, the first paragraph of § 989.97 should be amended by adding a provision that where the raisins in any lot consist of two or more varietal types commingled within their containers, the lot shall be considered as standard raisins if each varietal type in the lot meets the applicable minimum standards for that varietal type. Since Layer Muscat raisins and Natural (sun-dried) Muscat raisins are not readily distinguishable when commingled within a container, it should be provided that, in the event such raisins are commingled, the entire lot shall be considered as Natural (sun-dried) Muscat raisins and as standard raisins if the lot as a whole meets the minimum standards for Natural (sun-dried) Muscat raisins. Also, since the moisture content of all of the raisins in a container tends to equalize, it should be provided that, should the requirements with respect to moisture content differ as between two or more varietal types which are commingled, the lower (lowest) maximum moisture content requirement shall apply for each varietal type.

(4) The provisions of § 989.59 (e) relating to inter-plant and inter-handler transfers of free tonnage raisins should be amended to provide that transfers of raisins between plants owned or operated by the same handler need not be reported to the committee. The present provisions may be interpreted as requiring a handler who transfers raisins from one of his plants to another plant owned or operated by him to report the transfer. Reporting inter-plant transfers is an unnecessary burden to the handler and the information is not needed by the committee.

(5) The first sentence of § 989.59 (f) relating to disposition of off-grade raisins provides that any off-grade raisins (including stemmer waste and raisin offal) which may be received by a processor or accumulated by a handler by removing them from his standard raisins, and any raisins acquired as standard raisins by a handler which do not meet the applicable grade and condition standards for shipment or final disposition as raisins, shall be disposed of or marketed, without further inspection, for distillation, animal feed, or uses other than for human consumption. A question arose in the operation of the order as to whether these provisions preclude a packer from recovering raisins from any of such off-grade raisins, for shipment or disposition in normal trade channels if by further processing or reworking them they were made to meet the prescribed minimum grade standards. To clarify this situation, § 989.59 (f) should be amended by changing the period at the end of the first sentence to a colon and adding "*Provided*, That this shall not preclude a packer from recovering raisins from such accumulations or acquisitions."

Most handlers normally conduct their processing operations so as to pack several grades of raisins, the lowest of which would be equal to or better than the prescribed minimum grade. This is done to provide different trade outlets with the quality they desire. The raisins which remain from the processing to obtain raisins of high quality may fail to meet the prescribed minimum grade standards. By further processing, at least a part of these residual raisins may be made to meet the minimum grade standards. Also, a handler may hold raisins acquired by him as standard raisins, which have become off-grade. They may be raisins which had gone out of condition in trade channels and were returned to the handler, or raisins which were damaged while held by the handler. In his normal operations, the handler will process, reprocess, or rework these off-grade raisins, including the blending of them with standard raisins, if he finds that he can recover enough good raisins to make it profitable for him to do so. Prohibiting such recovery could cause financial hardship for the handler since he purchased such raisins as standard raisins. It is intended that the order should not interfere with a handler's normal operations in these respects. It is intended that a handler may ship in normal trade channels raisins which he obtains or recovers from raisins acquired as standard raisins if, after his final processing of them, they can be properly certified as meeting the prescribed minimum grade standards for shipment or final disposition.

Since food and sanitary regulations of city, county, state, federal or other agencies may apply to the handling of raisins, § 989.59 (f) should be amended also by adding a provision that this paragraph is not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, state, federal or other agencies having jurisdiction.

(6) The provisions of § 989.63 (a) should be amended by changing the date by which the committee's recommendations to the Secretary shall be made for the fixing of the initial free, reserve, and surplus percentages for any crop year from October 1 to October 5 of such year, with provision that this date may be extended by the committee not more than five days if warranted by a late crop. This change is proposed in order to permit the committee to have available more detailed information on which to base such recommendations. During the past year, the committee adopted a formula for arriving at the percentages that should be recommended. Information on production in the form of a raisin lay report normally is expected to be received by the committee from the California Crop and Livestock Reporting Service by October 1 of each year, on the basis of agreements with such agency. Approximately five days are required for the board and the committee to consider the latest available information, including the raisin lay report, and for the committee to formulate and submit to the Secretary its recommendation on free, reserve, and surplus percentages. However, in unusual seasons the grape crop may be so late in maturing that it would be impracticable for a reliable estimate of raisin production to be made by October 1. To provide for such an eventuality, provision should be made for the committee to extend the date for making its recommendation on the fixing of volume percentages not more than five days beyond October 5 if warranted by a late crop.

The date on which the committee makes its recommendation on volume percentages should be the earliest date possible with proper consideration of all available information concerning raisin production. In some years it may be practicable for the committee to make its recommendation before October 5. Only in the most unusual situations would it be necessary for the recommendation to be delayed beyond October 5. The committee's recommendation must be made as soon as practicable because raisin producers and handlers need to know what the free, reserve, and surplus percentages will be for the crop year so that field prices for raisins may be

established and the season's trade in raisins begun.

(7) The first sentence of § 989.66 (e) (4) now provides that each handler's share of an offer of surplus tonnage raisins for sale in export shall be determined as the same proportion that the surplus tonnage raisins acquired by him is of the surplus tonnage raisins acquired by all handlers. As set forth in the notice of hearing, it was proposed that this formula be revised so as to change the allocation basis from that of handlers' current acquisitions of surplus tonnage to that of handlers' current acquisitions of free tonnage, and to provide more specific procedure for its application. At the hearing, it was further proposed that another formula based on handlers' acquisitions of free tonnage raisins during the preceding crop year be provided for use in conjunction with the formula as proposed in the notice to take care of an allocation problem which occurs in the first part of the crop year. This and other aspects of allocating surplus tonnage raisins to handlers throughout the crop year was considered at the hearing.

Handlers' acquisitions of free tonnage raisins, rather than their acquisitions of surplus tonnage, should be used in allocating surplus tonnage to them for sale in export. The same free tonnage percentage applies throughout the crop year. Under § 989.67 (c), any reserve tonnage held unsold on July 1 becomes surplus tonnage on that date. Also, any reserve tonnage acquired between July 1 and the end of the crop year becomes surplus tonnage at the time of acquisition. The proposed use of free tonnage acquisitions as a basis for allocating surplus tonnage to handlers would eliminate the apparent change in the base (from the standpoint of relation to total acquisitions) when reserve tonnage becomes surplus on and after July 1. It would not result in any material difference in a handler's share of an offer of surplus tonnage as compared with the use of surplus tonnage acquisitions as an allocation basis, because the quantity of any raisins acquired by handlers after July 1 is extremely small, and by definition (§ 989.17) the quantity of reserve tonnage held on July 1 which becomes surplus would not be an acquisition by reason of the transfer to surplus.

The demand for surplus tonnage raisins for sale in export usually is most active during the fall and early winter months. The respective handlers are concerned, therefore, that they receive their proper allocations of surplus tonnage offered during this period. Also, to the extent that each handler's allocation during this period is proportional to his normal volume of business during the crop year, a larger total quantity of surplus tonnage may be sold. A large cooperative marketing association and some of the other handlers acquire most, or all, of their raisins during the first part of the crop year. Other handlers, because of limited facilities or the effect on income taxes, acquire a substantial part of their raisins after the first of January. Hence, the use of current acquisitions of free tonnage raisins as an allocation basis would not permit some handlers to receive an allocation of surplus tonnage during the period of most active demand which would be proportional to their normal acquisitions of free tonnage raisins over the entire crop year. On the other hand, such basis permits other handlers to obtain, in the early part of the season, shares of surplus which are more than proportional to such acquisitions, and more than they may sell in export at the time. The use of total free tonnage acquisitions of the preceding crop year as an allocation basis prior to February 1, with subsequent adjustments of shares to a basis of current free tonnage acquisitions as set forth below, would overcome this problem and yet keep the allocations on a basis as nearly current as possible.

Therefore, § 989.66 (e) (4) should be amended so as to provide that, except for new handlers, each handler's share of surplus tonnage raisins offered for sale in export prior to February 1 of any crop year shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by him during the preceding crop year is of the free tonnage raisins acquired by all handlers during the preceding crop year who remain handlers. The amendment should provide that subsequent to January 31 of any crop year, each handler's share shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by him during the then current crop year is of the total free tonnage raisins acquired by all handlers during the then current crop year. It should provide also that with respect to any offer other than the initial offer, each handler's share of the total quantity offered as of that date (the then current offer plus all prior offers of that crop year) shall first be determined by the appropriate formula, and then his share of the current offer determined by subtracting from his share of the total quantity offered, the total of his share of prior offers from the beginning of the crop year. This would have the effect of establishing the shares of all handlers for the crop year on the basis of current acquisitions of free tonnage raisins. Yet, it would provide the necessary flexibility prior to February 1.

To provide for new handlers, provision should be added to § 989.66 (e) (4) that, if any handler did not acquire raisins during the preceding crop year, the basis for his share of surplus tonnage offered prior to February 1 shall be his acquisitions of free tonnage raisins during the then current crop year. The current free tonnage acquisitions of all of such handlers should, for the purpose of determining the shares of all handlers, be added to the total acquisitions of free tonnage raisins during the preceding crop year by all handlers. While a new handler's share by this formula would normally be relatively smaller than shares of handlers who acquired raisins during the preceding crop year, his relative share would be brought in line with those of the other handlers by adjustment after January 31, under the amendatory proposal stated above. In the past seven years, only a very few persons have entered the raisin packing business as new members.

Amendment of § 989.66 (e) (4) should provide also that, if prior to February 1 of any crop year a handler's share of any offer exceeds the quantity of surplus tonnage raisins held by him for the account of the committee (the shortage being for reasons other than deferment of his set-aside obligations pursuant to § 989.66 (c)), and upon the committee concluding that the handler's acquisitions of surplus as of January 31 will exceed the total of his shares or upon said handler furnishing the committee such written undertaking secured by a bond as the committee may require, the committee may permit the handler to borrow, for a period not to exceed 30 days (or ending not later than January 31) from the date of the acceptance of the offer, raisins from any reserve tonnage held by him for the account of the committee. Since failure to repay the reserve tonnage would seriously interfere with the operations of the order, and to further insure repayment, it should be provided that any handler who has not repaid all prior loans from the reserve pool by the end of the 30-day period or by January 31, whichever date is earlier, may not participate in any subsequent offers of surplus tonnage until the loan is repaid. Borrowing from the reserve tonnage in this way would eliminate or reduce the cost to the committee of transferring surplus tonnage from one handler to another during the period ending January 31. Most handlers' purchasing of raisins from producers is such that there would be no question of them subsequently acquiring enough surplus to repay any loan. However, if there are indications that a handler will complete his acquisitions early or will not continue in business, thus making it unlikely that he could repay a loan, the committee should obtain a bond from the handler to insure repayment to the reserve pool. The amount of the bond should be sufficient, considering the amount the handler pays the committee for his purchase of the raisins as surplus, to cover necessary expenses and enable the committee to purchase free tonnage raisins and repay the reserve pool. However, in case of recovery under a bond, the committee could, in its discretion, credit the reserve pool with the amount recovered, plus the return from the sale of the borrowed reserve tonnage as surplus.

In some crop years, essentially all of the surplus tonnage raisins acquired as surplus, or the reserve tonnage which becomes surplus on July 1, may have been offered to handlers on a share basis. In this event, some of the handlers probably would not be interested in further offers of any surplus tonnage which then remained unpurchased. To facilitate disposition of the remaining tonnage, amendment of § 989.66 (e) (4) should include a provision that, in such an event, approval of applications may be made in the same order in which the applications are filed with the committee.

Any handler's share or allocation of surplus tonnage raisins, determined in accordance with the conclusions stated above, could be less than or exceed his holdings by a minor quantity. Amendment of § 989.66 (e) (4) should provide that, in such an event, the committee

may adjust the handler's share or allocation so as to avoid the cost of physical transfers of raisins. The maximum quantity by which a handler's share or allocation may properly be adjusted to avoid such a transfer of raisins could vary, depending on prevailing conditions, and should not be prescribed in the order. However, it should be provided in the proposed amendment that such maximum quantity shall be prescribed in rules and procedures with respect to the allocation of surplus tonnage raisins to handlers which the committee shall establish with the approval of the Secretary.

The present provisions of § 989.66 (e) (4), other than the first sentence, should remain unchanged, except for desirable clarification.

(8) The provisions of § 989.67 (b), which relate to the price at which reserve tonnage raisins may be sold to handlers, should be amended to provide that where the outlook for the next crop year or other factors have caused a downward trend in the prices received by producers for free tonnage raisins or in the prices received by handlers for free tonnage packed raisins, reserve tonnage may be sold to handlers at the currently prevailing or the approximate computed field price for free tonnage raisins, as determined by the committee. This proposal is similar to the present provisions in these respects, except that they do not specifically provide for any downward trend in prices to be determined on the basis of the prices received by handlers for free tonnage packed raisins, or for the field price for free tonnage raisins to be computed. Reserve tonnage is most often offered for sale to handlers during the latter part of the crop year. Usually, handlers' purchasing of raisins from producers is largely completed by February or March, and there may be no prevailing field price or one which is representative when the committee offers reserve tonnage. The committee should be permitted to use packers' prices for packed raisins for computing a field price or determining whether there has been a downward trend. The prices which handlers pay producers for their free tonnage raisins are determined by the market for packed raisins. Hence, prices received by handlers provide a reasonable basis for determining any downward trend in prices, and for computing a field price.

It was testified at the hearing that the committee should first determine the percentage decline in handler's prices for packed raisins and then apply the same percentage to the field price established earlier in order to arrive at the current field price. It was testified also that this would give a higher computed field price than if it were computed by deducting from handlers' current price for packed raisins the normal margin between the price for packed raisins and the field price. When there has been a downward trend in prices, the computed field price most desirable for use in offering reserve tonnage may vary according to trading conditions, including whether the trend is continuing downward, leveling off, or showing an upturn. Since reserve tonnage becomes surplus (for sale in surplus outlets usually at lower prices) if not purchased by handlers, the offering price for reserve tonnage should be such as to enable handlers to purchase their reasonable requirements and maximize pool returns. The committee would need to use a price which will best achieve that purpose. Therefore, in order to maintain some flexibility in this regard, no particular method of computing the field price should be prescribed in the order.

The provisions of § 989.67 (b) which relate to the review by the Secretary of the committee's offers of reserve tonnage raisins to handlers and his right to disapprove now require the committee to file the necessary information with the Secretary five days (exclusive of Saturdays, Sundays, and holidays) prior to making any offer to sell reserve tonnage raisins. This could be interpreted as preventing the committee from making the offer in less than the five days, even though the committee is advised earlier that the Secretary will not disapprove. Frequently, it is desirable that offers to handlers be made as soon as possible in order for them to have raisins to meet their requirements. If the committee is advised that the Secretary does not disapprove, it is unnecessary that it wait until the end of the five-day period before making the offer. Therefore, the provisions of § 989.67 (b) should be amended to provide that at any time prior to the expiration of the five-day period, the offer may be made to handlers upon the committee receiving from the Secretary notice that he does not disapprove the making of the offer.

(9) Those provisions of § 989.68 (d) and (e), which relate to the Secretary's review of proposals to sell surplus tonnage raisins and subsequent action by the committee if the Secretary does not disapprove, should be amended in the same manner and for the same reasons as specified in issue (8) for offers of reserve tonnage raisins.

(10) Section 989.48 now provides that members of the committee and the board, and alternate members when acting as members, shall serve without compensation but shall be allowed their necessary expenses as approved by the committee. This section should be amended to provide that whenever specifically authorized in advance by the committee, or when requested to attend due to the anticipated absence of a member, an alternate member of the committee shall be reimbursed for reasonable expenses incurred by him in attending not to exceed three committee meetings per crop year when the committee member for whom he serves as alternate also attends such meetings. Some committee meetings, such as the annual marketing policy meeting, are of such importance that both members and alternates are justified in attending. By attending such meetings, the alternates will be better qualified to act when they are later required to serve for members. An alternate member who, upon request, attends a meeting to serve in place of the member, and the member subsequently attends unexpectedly, has acted in good faith and should be reimbursed for the expenses incurred by him in attending. However, there should be only a few meetings which both members and the alternates need to attend. To avoid unnecessary meeting expense, the number of meetings that an alternate may attend and be reimbursed for his expenses when the member also attends should be limited to not more than three in any one crop year.

(11) It was testified at the hearing that changes should be made in any other provisions of the order not directly involved in connection with specific amendments, but which are necessary to make such other provisions conform with any amended provisions which might result from this proceeding. Such changes should be made in §§ 989.79 and 989.54. The necessity for these results from the proposed amendment of § 989.63 (a) which would change the date by which the committee's recommendations to the Secretary shall be made for the fixing of the initial free, reserve, and surplus percentages for any crop year from October 1 to October 5 of such crop year, with provision that this date may be extended by the committee not more than five days if warranted by a late crop. This proposed amendment is discussed under issue (6).

The provision in § 989.79, which requires the committee to file with the Secretary not later than October 1 of each crop year a proposed budget of expenses for the maintenance of the committee and the board and a proposal as to the assessment rate to be fixed pursuant to § 989.80, should be amended to provide for the filing of such proposed budget and rate of assessment not later than October 5 of each crop year, with provision that this date may be extended by the committee not more than five days if warranted by a late crop. The free, reserve, and surplus percentages when applied to the estimated acquisitions of raisins by handlers during the crop year provide a basis for estimating the committee's budget. They provide a basis also for determining the probable assessable tonnage and the assessment rate. Because of this interrelationship between the percentages and the budget and assessment rate, it would be impracticable to require the committee to file its proposed budget and rate of assessment before the percentages to be recommended to the Secretary had been formulated. They should, in fact, be formulated and recommended at the same time, which is consistent with the existing provisions for dates of filing the respective recommendations with the Secretary.

It is now provided in § 989.54 that not later than August 20 preceding the beginning of each crop year, the committee shall hold a meeting to formulate and adopt a marketing policy for the marketing of raisins for the ensuing crop year and shall submit to the Secretary within 10 days a report setting forth its marketing policy for the regulation of the handling of raisins in each crop year. This provision of § 989.54 should be amended to provide that prior to or simultaneously with making its recommendation to the Secretary for fixing the initial free, reserve, and surplus percentages for any crop year (which would be not later than

October 5 of such crop year unless this date should be extended by the committee not more than five days because of a late crop), the committee shall hold a meeting to formulate and adopt a marketing policy for the marketing of raisins for the crop year and shall submit promptly to the Secretary a report setting forth its marketing policy for the regulation of the handling of raisins in such crop year. As discussed under issue (6), a formula has been adopted for arriving at the free, reserve, and surplus percentages and the use of this formula depends upon the accuracy of estimates of raisin production. An official production estimate is expected to be received from a governmental agency, normally not later than October 1 of each year. In most years, volume regulation is the most important consideration in the adoption of a marketing policy. Since an official estimate of production on which volume regulation can be recommended will not be available on August 20, it would be impracticable to require the committee to adopt its marketing policy by that date. In fact, it would be inadvisable for the committee to adopt a policy based on unofficial estimates in view of forthcoming official estimates. Since the volume percentages provide a basis for trading in raisins, producer returns could be affected adversely if the committee used estimates in adopting its marketing policy which were later changed. These difficulties would be overcome by permitting the committee to delay its adoption of a marketing policy until it makes its recommendations for fixing the volume percentages.

Amendments to the marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Agreement Further Amending the Marketing Agreement, as Amended, Regulating the Handling of Raisins Produced from Raisin Variety Grapes Grown in California," and "Order Further Amending the Order, as Amended, Regulating the Handling of Raisins Produced from Raisin Variety Grapes Grown in California," which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision except the agreement further amending the marketing agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement further amending the amended marketing agreement are identical with those contained in the attached order further amending the amended order which will be published with this decision.

Dated: September 21, 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Order[1] Further Amending the Order, as Amended, Regulating the Handling of Raisins Produced From Raisin Variety Grapes Grown in California

§ 989.0 *Findings and determinations*—(a) *Previous findings and determinations.* The findings and determinations set forth below in this section are supplementary, and in addition, to the findings and determinations which were previously made in connection with the original issuance of this marketing order (14 F. R. 5136) and related marketing agreement, as supplemented by the findings and determinations which were made in connection with the amendment of such marketing order (20 F. R. 6435) and marketing agreement which were issued on August 26, 1955, and all of said previous findings and determinations are hereby ratified and confirmed, except insofar as such findings and determinations may be in conflict with the findings set forth herein.

(b) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Fresno, California, on June 18 and 19, 1956, upon proposed amendments of Marketing Agreement No. 109, as amended, and Order No. 89, as amended (7 CFR Part 989; 20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California. Upon the basis of the evidence adduced at such hearing, and the record thereof, it is found that:

(1) The said amended marketing order, as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said amended marketing order, as hereby proposed to be further amended, will be applicable only to persons in the respective classes of industrial and commercial activities specified or necessarily included in the proposals upon which the amendment hearing has been held; and

(3) There are no differences in the production and marketing of raisins in the production area covered by this amended marketing order, as hereby proposed to be further amended, which make necessary different terms applicable to different parts of such area.

It is therefore ordered, That, on and after the effective date hereof, all handling of raisins produced from raisin variety grapes grown in California shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid amended order, as hereby further amended as follows:

1. Amend the provisions of § 989.52 (a) to read as follows:

§ 989.52 *Procedure.* (a) All decisions of the committee reached at an assembled meeting shall be by majority vote of the members present and a quorum must be present. All votes in an assembled meeting shall be cast in person. The presence of nine members shall be required to constitute a quorum. The committee may vote by mail or telegraph when there is no assembled meeting, but any proposition to be so voted upon first shall be explained accurately, fully, and identically in a notice by mail or telegraph to all members, or alternates acting in the place and stead of the members. Said notice shall contain a statement of a reasonable time not to exceed 10 days in which a member or alternate must vote by mail or telegraph in order that the vote may be counted. A unanimous vote of all selected and eligible members or alternates acting in the place and stead of members shall be required to reach a decision on a mail or telegraphic vote. Failure of any such member or alternate to vote within the prescribed time shall be held to be a dissenting vote. No action to recommend a marketing policy or volume regulation can be taken on the basis of a mail or telegraphic vote.

2. Amend the provisions of § 989.58 (e) to read as follows:

(e) *Options as to off-grade natural condition raisins.* Any natural condition raisins tendered to a handler which fail to meet the applicable minimum grade standards may at the option of either the handler or the person making the tender: (1) Be returned to the person tendering the raisins; (2) if storable, be turned over to the handler to be held by him as off-grade natural condition raisins for the account of the committee; or (3) be turned over to the handler for reconditioning under the terms of a written agreement between the person making the tender and the handler. If the handler is to acquire such raisins after they are reconditioned, his obligations with respect to such raisins shall be based on the weight of the raisins (if stemmed, adjusted to natural condition weight) after they have been reconditioned. If after such reconditioning, such raisins meet the minimum grade standards but are no longer natural condition raisins, any handler who acquires such raisins shall meet his surplus and reserve tonnage obligations from natural condition raisins acquired by him. Any off-grade raisins (including stemmer waste and raisin offal) accumulated as a final residual by a handler in reconditioning raisins shall, during or after reconditioning has been completed, be disposed of by the handler, without further inspection, for distillation, animal feed, or uses other than for human consumption. Off-grade raisins received by a handler for reconditioning shall be kept by him separate and apart from all other raisins until after the raisins have been reconditioned and the quality of the raisins is established by inspection and certification. The committee shall establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the reconditioning of off-grade raisins and the use of the residual matter from such reconditioning operations.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing orders have been met.

3. Amend the provisions of § 989.59 (a) to read as follows:

§ 989.59 *Regulation of the handling of raisins subsequent to their acquisition by handlers*—(a) *Regulation.* Unless otherwise provided in this part, no handler shall: (1) Ship or otherwise make final disposition of natural condition raisins unless they meet the effective applicable minimum grade and condition standards for natural condition raisins; or (2) ship or otherwise make final disposition of packed raisins unless they at least meet the following minimum grade standards or such standards as modified pursuant to the provisions of paragraph (b) of this section: (i) With respect to all raisins except Layer Muscats and Zante Currants, "U. S. Grade C" as defined in effective United States Standards for Grades of Processed Raisins; (ii) with respect to Golden Seedless and Sulfur Bleached raisins, the color requirements for "bleached color" (or "choice color") as defined in the said standards; (iii) with respect to Layer Muscat raisins, "U. S. Grade B" as defined in the said standards; and (iv) with respect to Zante Currant raisins, "U. S. Grade B" as defined in the effective United States Standards for Grades of Dried Currants: *Provided,* That nothing contained in this paragraph shall prohibit the shipment or final disposition of any raisins to which the prescribed standards are not applicable.

3a. Amend the provisions of the first paragraph of § 989.97 to read as follows:

Raisins meeting the varietal standards set forth hereinafter shall be considered as standard raisins and those failing to meet such standards shall be considered as off-grade raisins. Where the raisins in any lot consist of two or more varietal types commingled within their containers, the lot shall be considered as standard raisins if each varietal type in the lot meets the applicable minimum standards for that varietal type: *Provided,* That, in the event Layer Muscat raisins are commingled within their containers with Natural (Sun-dried) Muscat raisins, the entire lot shall be considered as Natural (sun-dried) Muscat raisins, and as standard raisins if the lot as a whole meets the minimum standards for Natural (sun-dried) Muscat raisins: *Provided further,* That, should the requirements with respect to the maximum moisture content differ as between any two or more varietal types which are commingled, the lower (lowest) maximum moisture content requirement shall apply for each varietal type. In each category, only those raisins which have been properly dried and cured in original natural condition, are free from active infestation, and are in such condition that they are capable of being received, stored, and packed without undue deterioration or spoilage, shall be considered as storable raisins.

4. Amend the provisions of § 989.59 (e) to read as follows:

(e) *Inter-plant and inter-handler transfers.* Any handler may transfer from his plant to his own or another handler's plant within the State of California any free tonnage raisins without having had such raisins inspected as provided in paragraph (d) of this section. The transferring handler shall transmit promptly to the committee a report of such transfer, except that transfers between plants owned or operated by the same handler need not be reported. Before shipping or otherwise making final disposition of such raisins, the receiving handler shall comply with the requirements of this section.

5. Amend the provisions of § 989.59 (f) to read as follows:

(f) *Off-grade raisins accumulated by handlers.* Any off-grade raisins (including stemmer waste and raisin offal) which may be received by a processor or accumulated by a handler by removing them from his standard raisins, and any raisins acquired as standard raisins by a handler which do not meet the applicable grade and condition standards for shipment or final disposition as raisins, shall be disposed of or marketed, without further inspection, for distillation, animal feed, or uses other than for human consumption: *Provided,* That this shall not preclude a packer from recovering raisins from such accumulations or acquisitions. The committee shall establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure such uses. The provisions of this paragraph are not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, state, federal or other agencies having jurisdiction.

6. Amend the provisions of § 989.63 (a) to read as follows:

§ 989.63 *Recommendation for designation of percentages.* (a) If the committee concludes that the supply and demand conditions for raisins make it advisable to designate the percentages of standard raisins acquired by handlers in any crop year which shall be free tonnage, reserve tonnage, and surplus tonnage, respectively, it shall recommend such percentages to the Secretary. The committee may recommend such percentages separately, for each varietal type. The committee also shall submit, together with any recommendation with respect to percentages, the information on the basis of which such recommendation was made, and the recommendation of the board, and also shall specify for each varietal type of raisins the outlets which were considered in determining the free and surplus tonnages and the free and surplus percentages. In the event the committee subsequently deems it desirable to modify, suspend, or terminate any designation by the Secretary of such percentages, it shall submit to the Secretary its recommendation in that regard along with the information on the basis of which such modification, suspension or termination is recommended, and the recommendation of the board. The committee shall file with its recommendation to the Secretary, a verbatim record of that portion of its meeting or meetings, relating to the free, reserve, and surplus percentages. The recommendations of the committee for the fixing of the initial free, reserve, and surplus percentages for any crop year shall be made not later than October 5 of such year, but this date may be extended by the committee not more than five days if warranted by a late crop.

7. Amend the provisions of § 989.66 (e) (4) to read as follows:

(4) (i) Except as provided in subdivision (ii) of this subparagraph, for new handlers, each handler's share of surplus tonnage raisins offered for sale in export prior to February 1 of any crop year shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by him during the preceding crop year is of the free tonnage raisins acquired by all handlers during the preceding crop year who remain handlers. Subsequent to January 31, each handler's share shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by the handler during the then current crop year is of the total free tonnage raisins acquired by all handlers during the then current crop year. With respect to any offer other than the initial offer, each handler's share of the total quantity offered as of that date (the then current offer plus all prior offers of that crop year) shall first be determined by the appropriate formula. His share of the current offer shall then be determined by subtracting from his share of the total quantity offered, the total of his share of prior offers from the beginning of the crop year.

(ii) If any handler did not acquire raisins during the preceding crop year, the basis for his share of any quantity of surplus tonnage raisins offered prior to February 1 shall be his acquisitions of free tonnage raisins during the then current crop year. The current free tonnage acquisitions of all such new handlers shall, for the purpose of determining the shares of all handlers prior to February 1, be added to the total acquisitions of free tonnage raisins during the preceding crop year of all handlers in business at the time the offer is made.

(iii) If prior to February 1 of any crop year, a handler's share of any offer exceeds the quantity of surplus tonnage raisins held by him for the account of the committee (the shortage being for reasons other than deferment of his set aside obligations pursuant to § 989.66 (c)), and upon the committee concluding that the handler's acquisitions of surplus as of January 31 will exceed the total of his shares or upon said handler furnishing the committee such written undertaking secured by a bond as the committee may require, the committee may permit the handler to borrow, for a period not to exceed 30 days (or ending not later than January 31) from the date of the acceptance of the offer, raisins from any reserve tonnage held by him for the account of the committee. Any handler who has not repaid all prior loans from the reserve pool by the end of the required 30-day period or by January 31, whichever date is earlier, may not participate in any subsequent offers of surplus tonnage until the loan is repaid.

(iv) If prior to the close of any offer of surplus tonnage raisins for sale in export and subsequent to any share

reservation period the entire offer has not been purchased, any handler who has purchased his entire share and makes application to the committee shall be allocated additional surplus tonnage raisins from such raisins held by him. In the event such handler no longer holds any surplus tonnage raisins for the account of the committee, the committee shall, subsequent to any period the committee may prescribe for handlers to purchase their holdings, allocate and deliver to the handler, surplus tonnage raisins held by other handlers. In making such allocation, the committee shall, insofar as is practicable, first withdraw surplus tonnage raisins from those handlers who have purchased for sale in export the smallest percentage of the surplus tonnage raisins acquired by them or who for other reasons are holding the largest percentage of their acquisitions of surplus tonnage. The cost of transporting any such surplus tonnage raisins from one handler to another shall be paid by the committee from surplus pool funds.

(v) Whenever essentially all of the surplus tonnage raisins acquired as surplus, or the reserve tonnage which becomes surplus on July 1, have been offered on a share basis, and any unpurchased or unoffered tonnage of surplus is offered to handlers, approval of applications may be made in the same order in which the applications are filed with the committee.

(vi) Whenever a handler's share or allocation pursuant to this subparagraph is less than or exceeds his holdings of surplus by a minor quantity, the committee may adjust the handler's share or allocation so as to avoid the cost of the physical transfer. The maximum quantity by which a handler's share or allocation may be so adjusted shall be prescribed in rules and procedures with respect to the allocation of surplus tonnage raisins to handlers which the committee shall establish with the approval of the Secretary.

8. Amend the provisions of § 989.67 (b) to read as follows:

(b) Reserve tonnage of any varietal type shall not be sold at a price below that which the committee concludes reflects the average price received by producers for free tonnage of the same varietal type purchased by handlers during the current crop year up to the time of any offer for sale of reserve tonnage by the committee, to which shall be added the costs incurred by the committee on account of the receiving, inspecting, storing, insuring, and holding of said raisins: *Provided*, That where the outlook for the next crop year or other factors have caused a downward trend in the prices received by producers for free tonnage raisins or in the prices received by handlers for free tonnage packed raisins, reserve tonnage may be sold to handlers at the currently prevailing or the approximate computed field price for free tonnage raisins, as determined by the committee. No offer to sell reserve tonnage raisins to handlers shall be made by the committee until five days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, and price involved in such offer, and the Secretary may disapprove the offer or any term thereof: *Provided*, That at any time prior to the expiration of the five-day period, the offer may be made to handlers upon the committee receiving from the Secretary notice that he does not disapprove the making of the offer.

9. Amend the provisions of § 989.68 (d) and (e) to read as follows:

(d) Surplus tonnage raisins shall be sold to handlers at prices and in a manner intended to maximize producer returns and achieve complete disposition of such raisins by August 31 of the crop year. No offer to sell surplus tonnage raisins to handlers shall be made by the committee until five days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, and price involved in such offer, and the Secretary may disapprove the offer or any term thereof: *Provided*, That at any time prior to the expiration of the five-day period, the offer may be made to handlers upon the committee receiving from the Secretary notice that he does not disapprove the making of the offer.

(e) The committee may sell surplus tonnage raisins as provided in paragraph (b) (3) of this section only when such country is not included in the list of specified countries established pursuant to paragraph (c) of this section and may sell surplus tonnage raisins to foreign government agencies or foreign importers in any country removed from such list. No agreement to sell surplus tonnage raisins shall be entered into by the committee until five days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, price, and foreign country involved in any such proposed sale, and the Secretary may disapprove such sale or any term thereof: *Provided*, That at any time prior to the expiration of the five-day period, the sale may be made upon the committee receiving from the Secretary notice that he does not disapprove the making of the sale.

10. Amend the provisions of § 989.48 to read as follows:

§ 989.48 *Compensation and expenses.* The members of the committee and the board, and the alternate members when acting as members, shall serve without compensation but shall be allowed their necessary expenses as approved by the committee. Whenever specifically authorized in advance by the committee, or when requested to attend due to the anticipated absence of a member, an alternate member of the committee shall be reimbursed for reasonable expenses incurred by him in attending not to exceed three committee meetings per crop year when the committee member for whom he serves as alternate also attends such meetings.

11. Amend the provisions of § 989.79 to read as follows:

§ 989.79 *Expenses.* The committee is authorized to incur such expenses (other than those specified in § 989.82) as the Secretary finds are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the committee and the board. The funds to cover such expenses shall be obtained by levying assessments as provided in § 989.80. The committee shall file with the Secretary for each crop year a proposed budget of these expenses and a proposal as to the assessment rate to be fixed pursuant to § 989.80, together with a report thereon. Such filing shall be not later than October 5 of the crop year, but this date may be extended by the committee not more than five days if warranted by a late crop. Also, it shall file at the same time a proposed budget of the expenses likely to be incurred during the crop year in connection with reserve, surplus, or off-grade raisins held for the account of the committee, exclusive of the receiving, storing, and handling expenses which are covered by a schedule of payments to handlers effective pursuant to § 989.66 (f) or any rules and procedures established by the committee, and exclusive of any expenses it may incur in connection with the disposition of such raisins and which are unknown at the time. The said report shall also cover this proposed budget.

11a. Amend the provisions of § 989.54 to read as follows:

§ 989.54 *Marketing policy.* Prior to or simultaneously with making its recommendation to the Secretary for fixing the initial free, reserve, and surplus percentages for any crop year (which shall be not later than October 5 of such crop year unless this date is extended by the committee not more than five days as provided in § 989.63 (a)), the committee shall hold a meeting to formulate and adopt a marketing policy for the marketing of raisins for the crop year and shall submit promptly to the Secretary a report setting forth its marketing policy for the regulation of the handling of raisins in such crop year. The report shall include the data and information used by the committee in formulating the marketing policy, and the recommendation of the board. In developing the marketing policy, the committee shall give consideration to the following factors with respect to each varietal type of raisins:

(a) The estimated tonnage of raisins held by producers and handlers;

(b) The estimated tonnage of raisins which will be produced during the crop year;

(c) An appraisal of the quality of raisins of the crop to be produced in such crop year, including the estimated tonnage of standard raisins and off-grade raisins, respectively;

(d) The tonnage of raisins marketed during recent crop years in the domestic market and in Canada;

(e) The tonnage of raisins marketed in recent crop years in foreign markets, segregated to show the quantities marketed from free and surplus tonnage raisins and the countries in which such raisins were marketed;

(f) The current price being received for raisins by producers and handlers;

(g) The estimated trade demand during the crop year for raisins in normal market channels both domestic and foreign;

(h) The trend and level of consumer income in the domestic market;

(i) The estimated probable market requirements for raisins during the crop year in foreign markets segregated by countries or groups of countries;

(j) Such factors, if any, which in the supplying of foreign markets, may tend to directly affect or burden the normal domestic market;

(k) Any other pertinent factors bearing on the marketing of raisins; and

(l) The conditions, including pricing formula, for the sale of surplus tonnage raisins in foreign markets pursuant to the provisions of § 989.68.

Order Directing That a Referendum Be Conducted; Designating Agents To Conduct Such Referendum; and Determining the Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the producers who, during the period July 1, 1955 through June 30, 1956 (which is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the State of California, in the production for market, of raisin variety grapes to determine whether such producers approve or favor the issuance of an order further amending the order, as amended, regulating the handling of raisins produced from raisin variety grapes grown in California. The order further amending the amended order is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith.

W. Allmendinger, W. B. Blackburn, David B. Fitz, Eugene C. Holly, and M. G. Young, of the Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, are hereby designated agents of the Secretary of Agriculture to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176; 19 F. R. 35), except that subparagraph (6) of paragraph (c) thereof is hereby amended, for the purposes of this referendum, to read as follows:

(6) Cause copies of the text of the proposed further amendments to the amended order (regulating the handling of raisins produced from raisin variety grapes grown in California), instructions on voting, and appropriate ballot and other necessary forms to be mailed to each such cooperative association, and each producer of raisin variety grapes who produced raisins during the representative period, whose name and address is on record with the Raisin Administrative Committee, established under Marketing Agreement No. 109 and Marketing Order No. 89 (20 F. R. 6435); and such agents shall make copies of the ballot, and other necessary forms and instructions available in the office of Farm Advisor, County Director of Agricultural Extension, in each county in California in which raisin variety grapes are produced for market.

Copies of the aforesaid annexed order, the aforesaid referendum procedure, and this order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C.

Any producer of raisin variety grapes for market who does not receive a ballot, a copy of the proposed further amendments to the amended order, and other necessary forms and instructions for use in the referendum by mail, may obtain them from the appropriate Farm Advisor, County Director of Agricultural Extension, or from W. Allmendinger, Oakland Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1515 Clay Street, 6th Floor, Oakland 12, California, or O. C. Fuqua, Fresno Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 3529 East Tulare Street, Fresno 2, California.

[P. R. Doc. 56-7782; Filed, Sept. 26, 1956; 8:47 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 657, 673, 706]

[Administrative Order 468]

PUERTO RICO; ALCOHOLIC BEVERAGE AND INDUSTRIAL ALCOHOL INDUSTRY; FOOD AND RELATED PRODUCTS INDUSTRY; TOBACCO INDUSTRY

APPOINTMENTS TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES; NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), I hereby appoint, convene, and give notice of the hearings of Industry Committee No. 25–A for the alcoholic beverage and industrial alcohol industry in Puerto Rico, Industry Committee No. 25–B for the food and related products industry in Puerto Rico, and Industry Committee No. 25–C for the tobacco industry in Puerto Rico.

Industry Committee No. 25–A is composed of the following representatives:

For the Public: Maynard Persig, Chairman, Minneapolis, Minnesota; Reed Tripp, Madison, Wisconsin; Pedro Munoz Amato, Rio Piedras, Puerto Rico.

For the Employees: Mario Azpeitia, Washington, D. C.; Karl F. Feller, Cincinnati, Ohio; Hipolito Marcano, San Juan, Puerto Rico.

For the Employers: Hiram S. Hall, New York, New York; Jesus F. Diaz-Hernandez, San Juan, Puerto Rico; Antonio Escudero Torruellas, Santurce, Puerto Rico.

For the purpose of this order the alcoholic beverage and industrial alcohol industry in Puerto Rico is defined as follows:

The manufacture, including, but without limitation, the distilling, rectifying, blending, or bottling of rum, gin, whisky, brandy, cordials, liqueurs, wines, ale, beer and similar malt beverages with or without alcohol, other alcoholic beverages, industrial alcohol (such as ethyl alcohol, butyl alcohol, and acetone), anti-freeze, and any related by-product resulting from the manufacture of any of the foregoing products.

Industry Committee No. 25–B is composed of the following representatives:

For the Public: Maynard Persig, Chairman, Minneapolis, Minnesota; Reed Tripp, Madison, Wisconsin; Pedro Munoz Amato, Rio Piedras, Puerto Rico.

For the Employees: Mario Azpeitia, Washington, D. C.; Karl F. Feller, Cincinnati, Ohio; Hipolito Marcano, San Juan, Puerto Rico.

For the Employers: Hiram S. Hall, New York, New York; Norman E. Parkhurst, Bayamon, Puerto Rico; Antonio J. Bennazar, Santurce, Puerto Rico.

For the purpose of this order the food and related products industry in Puerto Rico is defined as follows:

The canning, preserving (including freezing, drying, dehydrating, curing, pickling, and similar processes), or other manufacturing or processing, and the packaging in conjunction therewith, of foods, ice, and non-alcoholic beverages, including, but without limitation, meat animals and meat animal products, poultry and poultry products, milk and dairy products, fish and seafood products, fruits and vegetables and fruit or vegetable products, grains and grain products, bakery products, confectionery and related products, and miscellaneous foods and food products. The handling, grading, packing, or preparing in their raw or natural state of fresh vegetables, fresh fruits, or nuts, and the gathering of wild plant or animal life. *Provided, however,* That the definition shall not include any product or activity included in the Sugar Manufacturing Industry, as defined in the wage order for that industry in Puerto Rico, or in the Chemical, Petroleum, Rubber, and Related Products Industry, as defined in Administrative Order No. 464 appointing Industry Committee No. 23–A for Puerto Rico, or in the Alcoholic Beverage and Industrial Alcohol Industry, as defined in Administrative Order No. 468 appointing Industry Committee 25–A for Puerto Rico.

Industry Committee No. 25–C is composed of the following representatives:

For the Public: Maynard Persig, Chairman, Minneapolis, Minnesota; Reed Tripp, Madison, Wisconsin; Pedro Munoz Amato, Rio Piedras, Puerto Rico.

For the Employees: Mario Azpeitia, Washington, D. C.; Karl F. Feller, Cincinnati, Ohio; Hipolito Marcano, San Juan, Puerto Rico.

For the Employers: Hiram S. Hall, New York, New York; Serafín Inclan, Jr., Caguas,

Puerto Rico; Francisco Verdiales, Caguas, Puerto Rico.

For the purpose of this order the tobacco industry in Puerto Rico is defined as follows:

The processing of leaf tobacco including, but without limitation, the grading, fermenting, stemming, chopping, packing, storing, drying, and handling of tobacco; and the manufacture of cigarettes, cigars, cheroots, little cigars, snuff, chewing tobacco, and smoking tobacco.

I hereby refer to each of the above mentioned industry committees the question of the minimum wage rate or rates to be fixed under section 6 (c) of the act for its industry. Each such industry committee shall investigate conditions in its industry, and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the act.

Industry Committee No. 25–A shall commence its hearing on October 22, 1956, at 2:00 p. m. in the offices of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico. Consecutively, at the same place, after the hearing of Industry Committee No. 25–A, Industry Committees Nos. 25–B and 25–C shall hold their hearings in that order.

Each committee will meet at the same place before its hearing to make its investigation and appropriate decisions concerning its hearing. Industry Committee No. 25–A will meet at 10:00 a. m. on October 22, 1956, and Industry Committee Nos. 25–B and 25–C will meet at an hour to be designated by the committee chairman.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6 (a) of the act, each industry committee shall recommend to the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Where an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set out here which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) the wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters herein referred to each committee. Copies of these reports may be obtained at the national and Puerto Rican offices of the United States Department of Labor as soon as they are completed and prior to the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearings.

The procedure of these industry committees will be governed by Title 29 of the Code of Federal Regulations, Part 511, as revised and amended on November 4, 1955 (20 F. R. 8285) and May 30, 1956, (21 F. R. 3678). As a prerequisite to participation as witnesses or parties these regulations require, among other things, that interested persons in the present matters shall file a prehearing statement containing certain specified data, not later than October 12, 1956.

Signed at Washington, D. C. this 21st day of September 1956.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 56–7805; Filed, Sept. 26, 1956; 8:52 a.m.]

THE RENEGOTIATION BOARD

[32 CFR Part 1467]

MANDATORY EXEMPTION OF CONTRACTS AND SUBCONTRACTS FOR STANDARD COMMERCIAL ARTICLES OR SERVICES

NOTICE OF PROPOSED RULE MAKING

The Renegotiation Board pursuant to section 109 of the Renegotiation Act of 1951, Public Law No. 9, 82d Congress, as amended by Public Law No. 764, 83d Congress, Public Law No. 216, 84th Congress, and Public Law No. 870, 84th Congress, proposes to issue the following regulations not less than thirty days after the date of this publication in the FEDERAL REGISTER. The Board intends to make such changes in these proposed regulations as it considers appropriate in the light both of recommendations made by interested persons for changes and improvements therein and of its own further study.

Interested persons are hereby notified that, in order for recommendations for changes and improvements in the proposed regulations to be considered, they must be presented, in writing, to The Renegotiation Board, Washington 25, D. C., within thirty days from the date of this publication in the FEDERAL REGISTER.

Dated: September 24, 1956.

THOMAS COGGESHALL,
Chairman.

Part 1467 is amended in the following respects:

1. The heading "Subpart A—Fiscal Years Ending On Or Before June 30, 1956" is inserted before § 1467.1.

2. Section 1467.1 *Statutory provision* is amended by deleting "section 106 (a) (8) of the act (added by Pub. Law 764, 83d Cong., approved September 1, 1954) exempts the following:" and inserting in lieu thereof the following: "With respect to fiscal years ending on or before June 30, 1956, section 106 (a) (8) of the act (added by Pub. Law 764, 83d Cong., approved September 1, 1954, as limited by Pub. Law 870, 84th Cong., approved August 1, 1956) exempts the following:".

3. Section 1467.1 is further amended by deleting the matter in brackets at the end of such section and inserting in lieu thereof the following:

[The statutory provision set forth above applies to contracts with the Departments and subcontracts only to the extent of the amounts received or accrued by a contractor or subcontractor after December 31, 1953 in a fiscal year ending on or before June 30, 1956. Matter in italics added by Pub. Law 216, 84th Cong., approved August 3, 1955. By Pub. Law 870, 84th Cong., approved August 1, 1956, section 106 (a) (8) of the act was stricken out with respect to fiscal years ending after June 30, 1956.]

4. Subpart B, consisting of new §§ 1467.21 to 1467.37, is added to read as follows:

SUBPART B—FISCAL YEARS ENDING AFTER JUNE 30, 1956

Sec.
1467.21 Statutory provision.
1467.22 Application of exemption.
1467.23 Waiver of exemption.
1467.24 The term "article".
1467.25 Exemption of standard commercial articles.
1467.26 Exemption of "like articles".
1467.27 Exemption of standard commercial classes of articles.
1467.28 The term "service".
1467.29 Exemption of standard commercial services.
1467.30 Exemption of like services.
1467.31 Application for Commercial Exemption.
1467.32 Duty to furnish additional information.
1467.33 Effect of filing Application for Commercial Exemption.
1467.34 Grant of exemption.
1467.35 Accrual of exemption by failure of Board to act.
1467.36 Denial of exemption.
1467.37 Exemption not applicable to related subcontracts.

AUTHORITY: §§ 1467.21 to 1467.37 issued under sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219. Interpret or apply sec. 106, 65 Stat. 17, as amended; 50 U. S. C. App. 1216.

§ 1467.21 *Statutory provision.* With respect to fiscal years ending after June 30, 1956, section 106 (e) of the act (added by Pub. Law 870, 84th Cong., approved August 1, 1956) provides as follows:

(e) *Mandatory exemption for standard commercial articles and services*—(1) *Articles and services.* The provisions of this title shall not apply to amounts received or accrued in a fiscal year under any contract or subcontract for an article or service (with respect to such fiscal year) is—

(A) A standard commercial article;

(B) An article which is identical in every material respect with a standard commercial article; or

(C) A service which is a standard commercial service or is reasonably comparable with a standard commercial service.

(2) *Classes of articles.* The provisions of this title shall not apply to amounts received or accrued in a fiscal year under any contract or subcontract for an article which (with respect to such fiscal year) is an article in a standard commercial class of articles.

(3) *Applications.* Paragraph (1) (B) or (C) and paragraph (2) shall apply to amounts received or accrued in a fiscal year under any contract or subcontract for an article or service only if—

(A) The contractor or subcontractor at his election files, at such time and in such form and detail as the Board shall by regulations prescribe, an application containing such information and data as may be required by the Board under its regulations for the purpose of enabling it to make a determination under the applicable paragraph, and

(B) The Board determines that such article or service is, or fails to determine that such article or service is not, an article or service to which such paragraph applies, within the following periods after the date of filing such application:

(i) In the case of paragraph (1) (B) or (C), three months;

(ii) In the case of paragraph (2), six months; or

(iii) In either case, any longer period stipulated by mutual agreement.

(4) *Definitions.* For the purposes of this subsection—

(A) The term "article" includes any material, part, component, assembly, machinery, equipment, or other personal property;

(B) The term "standard commercial article" means, with respect to any fiscal year, an article—

(i) Which either is customarily maintained in stock by the contractor or subcontractor or is offered for sale in accordance with a price schedule regularly maintained by the contractor or subcontractor, and

(ii) From the sales of which by the contractor or subcontractor at least 35 percent of the receipts or accruals in such fiscal year, or of the aggregate receipts or accruals in such fiscal year and the preceding fiscal year, are not (without regard to this subsection and subsection (c) of this section) subject to this title;

(C) An article is, with respect to any fiscal year, "identical in every material respect with a standard commercial article" only if—

(i) Such article is of the same kind and manufactured of the same or substitute materials (without necessarily being of identical specifications) as a standard commercial article from sales of which the contractor or subcontractor has receipts or accruals in such fiscal year,

(ii) Such article is sold at a price which is reasonably comparable with the price of such standard commercial article, and

(iii) At least 35 percent of the aggregate receipts or accruals in such fiscal year by the contractor or subcontractor from sales of such article and sales of such standard commercial article are not (without regard to this subsection and subsection (c) of this section) subject to this title;

(D) The term "service" means any processing or other operation performed by chemical, electrical, physical, or mechanical methods directly on materials owned by another person;

(E) The term "standard commercial service" means, with respect to any fiscal year, a service from the performance of which by the contractor or subcontractor at least 35 percent of the receipts or accruals in such fiscal year are not (without regard to this subsection) subject to this title;

(F) A service is, with respect to any fiscal year, "reasonably comparable with a standard commercial service" only if—

(i) Such service is of the same or a similar kind, performed with the same or similar materials, and has the same or a similar result, without necessarily involving identical operations, as a standard commercial service from the performance of which the contractor or subcontractor has receipts or accruals in such fiscal year, and

(ii) At least 35 percent of the aggregate receipts or accruals in such fiscal year by the contractor or subcontractor from the performance of such service and such standard commercial service are not (without regard to this subsection) subject to this title; and

(G) The term "standard commercial class of articles" means, with respect to any fiscal year, two or more articles with respect to which the following conditions are met:

(i) At least one of such articles either is customarily maintained in stock by the contractor or subcontractor or is offered for sale in accordance with a price schedule regularly maintained by the contractor or subcontractor,

(ii) All of such articles are of the same kind and manufactured of the same or substitute materials (without necessarily being of identical specifications),

(iii) All of such articles are sold at reasonably comparable prices, and

(iv) At least 35 percent of the aggregate receipts or accruals in the fiscal year by the contractor or subcontractor from sales of all of such articles are not (without regard to this subsection and subsection (c) of this section) subject to this title.

(5) *Waiver of exemption.* Any contractor or subcontractor may waive the exemption provided in paragraphs (1) and (2) with respect to his receipts or accruals in any fiscal year from sales of any article or service by including a statement to such effect in the financial statement filed by him for such fiscal year pursuant to section 105 (e) (1), without necessarily waiving such exemption with respect to receipts or accruals in such fiscal year from sales of any other article or service. A waiver, if made, shall be unconditional, and no waiver may be made without the permission of the Board for any receipts or accruals with respect to which the contractor or subcontractor has previously filed an application under paragraph (3).

(6) *Nonapplicability during national emergencies.* Paragraphs (1) and (2) shall not apply to amounts received or accrued during a national emergency proclaimed by the President, or declared by the Congress, after the date of the enactment of the Renegotiation Amendments Act of 1956.

§ 1467.22 *Application of exemption*—(a) *Effective date.* The exemption provided in section 106 (e) of the act, and the regulations contained in this subpart, are applicable only with respect to fiscal years ending after June 30, 1956. The exemption applies to amounts received or accrued in any such fiscal year under prime contracts with the Departments and subcontracts, without regard to whether such prime contracts or subcontracts were made before or during such fiscal year.

(b) *Scope.* Section 106 (e) of the act exempts amounts received or accrued under any contract or subcontract for any of the following:

1. A standard commercial article;

2. An article which is identical in every material respect with a standard commercial article (hereinafter in this subpart referred to as a "like article");

3. An article in a standard commercial class of articles;

4. A standard commercial service;

5. A service which is reasonably comparable with a standard commercial service (hereinafter in this subpart referred to as a "like service").

The exemption of item 1 is applied by the contractor itself, without application to the Board, or it may be waived. With respect to items 2, 3, 4 and 5, the contractor must file an application with the Board in order to obtain exemption. The contractor is not required to file an application for exemption of any of these items, but may elect to do so; or the contractor may waive the exemption expressly with respect to all or any of such items. The contractor shall not be entitled to claim exemption for any like articles, standard commercial services, or like services, to which the 3-month period prescribed in section 106 (e) (3) (B) (i) of the act is applicable, and in the same application to claim exemption for articles in one or more standard commercial classes of articles, to which the 6-month period prescribed in section 106 (e) (3) (B) (ii) of the act is applicable, unless the contractor consents and agrees that such 6-month period shall apply with respect to all of the articles, or all of the articles and services, for which exemption is claimed in such application.

(c) *Effect.* (1) When the contractor does not waive the exemption with respect to amounts received or accrued in a fiscal year from the sale of a standard commercial article, such receipts or accruals are exempt and may not be included as renegotiable sales in the financial statement filed by the contractor for such fiscal year.

(2) When the contractor files an application for exemption of amounts received or accrued in a fiscal year from the sale of a like article, or a standard commercial, service, or a like service, such receipts or accruals are exempt for such fiscal year if within three months thereafter, or any longer agreed period, the Board grants, or fails to deny, such application.

(3) When the contractor files an application for exemption of amounts received or accrued in a fiscal year from sales of an article in a standard commercial class of articles, such receipts or accruals are exempt if within six months thereafter, or any longer agreed period, the Board grants, or fails to deny, such application.

(d) *Procedure.* When a contractor files an application, pursuant to section 106 (e) (3) of the act, for exemption of some of its receipts or accruals for a fiscal year, the applicability of the exemption to such receipts or accruals will be determined by the Board before the Board takes action with respect to any other receipts or accruals of the contractor in such fiscal year.

(e) *Initial treatment.* (1) If the amounts received or accrued under prime contracts with the Department and subcontracts during the fiscal year by the contractor and all related contractors, including receipts or accruals for which exemption may be obtained

only by application to the Board under section 106 (e) (3) of the act, aggregate less than the minimum amount for renegotiation prescribed in section 105 (f) (1) of the act, the contractor shall not file the Application for Commercial Exemption set forth in § 1467.31. An Application for Commercial Exemption filed under such circumstances will be returned to the contractor without action by the Board thereon.

(2) Except as stated in subparagraph (1) of this paragraph, every contractor who claims that the exemption provided in paragraph (1) (B) or (C) or paragraph (2) of section 106 (e) of the act is applicable to any of its receipts or accruals for a fiscal year shall file the Application for Commercial Exemption as provided in § 1467.31.

(3) If, in addition to receipts or accruals for which the contractor has filed an Application for Commercial Exemption, the contractor in the same fiscal year has other renegotiable receipts or accruals which in themselves aggregate more than the minimum amount prescribed in section 105 (f) (1) of the act, the contractor shall also file the Standard Form of Contractor's Report with respect to such other receipts or accruals (see § 1470.3 of this subchapter). Unless before the Standard Form of Contractor's Report is filed the Board shall have determined that the exemption is not applicable to the receipts or accruals for which exemption has been claimed by the contractor in its Application for Commercial Exemption, such receipts or accruals shall be excluded from the Standard Form of Contractor's Report.

(4) If, in addition to receipts or accruals for which the contractor has filed an Application for Commercial Exemption, the contractor in the same fiscal year has other renegotiable receipts or accruals which in themselves do not aggregate more than the minimum amount prescribed in section 105 (f) (1) of the act, the contractor shall not be entitled to file the Statement of Non-Applicability prescribed in § 1470.91 (b) of this subchapter until the Board has completed its action upon the Application for Commercial Exemption. A Statement of Non-Applicability filed before such time will be returned to the contractor, and will not constitute the filing of a financial statement under section 105 (e) (1) of the act and will not commence the running of the one-year period of limitations prescribed in section 105 (c) of the act.

§ 1467.23 *Waiver of exemption*—(a) *Scope.* Under section 106 (e) of the act, the contractor may waive the exemption therein granted by including a statement to such effect in the Standard Form of Contractor's Report filed by the contractor pursuant to section 105 (e) (1). If the Board agrees to accept a waiver of the exemption from a contractor who has not included such waiver in its Standard Form of Contractor's Report, such waiver, when accepted, will be deemed a part of the Standard Form of Contractor's Report of such contractor with the same force and effect as if it had been set forth therein when such report was filed. The exemption may be waived with respect to the receipts or accruals of the contractor in the fiscal year from sales of all articles or services within the scope of section 106 (e) of the act; or the contractor may waive the exemption with respect to receipts or accruals in the fiscal year from sales of any of such articles or services, without necessarily waiving the exemption with respect to receipts or accruals in such fiscal year from sales of any other of such articles or services. The exemption may be waived either individually or by class with respect to any articles or services. For this purpose, articles or services may be grouped into such product or service classes as the contractor uses regularly in its own accounting system.

(b) *Limitations.* (1) A waiver made in the Standard Form of Contractor's Report shall be effective only with respect to the fiscal year to which such report relates, and shall not be effective for any other year.

(2) The exemption may not be claimed with respect to receipts or accruals under certain prime contracts or subcontracts for an article or service, and waived with respect to receipts or accruals in the same fiscal year under other prime contracts or subcontracts for the same article or service.

(3) A waiver of the exemption, to be effective, must be unconditional. The contractor shall not be entitled to state in its Standard Form of Contractor's Report or in its Application for Commercial Exemption that, if the Board denies the exemption with respect to certain articles or services, or classes thereof, the exemption is waived with respect to any or all other articles or services, or classes thereof.

(4) No waiver may be made without the permission of the Board for any receipts or accruals with respect to which the contractor has previously filed an Application for Commercial Exemption.

(5) Once made, a waiver of this exemption may not be withdrawn except with the permission of the Board.

§ 1467.24 *The term "article".* Section 106 (e) (4) (A) of the act defines the term "article" to include any material, part, component, assembly, machinery, equipment, or other personal property. For the purposes of this exemption, the term "article" will be given a narrow meaning. When two products differ only in dimensions or size, or in such nonfunctional respects as color or markings, and are sold at the same price, it will be considered that such products are a single article. If such products are sold at different prices, each will be considered a separate article. Similarly, if two products differ in any respects other than those indicated above, each will be considered a separate article, even though both may sell coincidentally at the same price. In determining whether prices are the same or different, volume or other discounts will be disregarded.

Example. If copper tubing is quoted and sold at a stated price per lineal foot, sales of such tubing are considered to be sales of a single article, although different customers may buy it in different lengths. On the other hand, and ignoring volume or other discounts, if 1-foot lengths of copper tubing are quoted and sold at one stated price, and 2-foot lengths are quoted and sold at a price other than exactly double, a difference in price exists and each such length of tubing is considered a separate article.

§ 1467.25 *Exemption of standard commercial articles*—(a) *Scope.* Section 106 (e) (1) (A) exempts all "standard commercial articles," as that term is defined in section 106 (e) (4) (B) of the act. This exemption is self-executing; it may be availed of by the contractor without application to the Board. However, the exemption does not apply and will not be allowed to the contractor in any fiscal year unless both of the two conditions prescribed in section 106 (e) (4) (B) are met with respect to such fiscal year. These conditions are explained in the succeeding paragraphs of this section.

(b) *Stock or catalog sales.* (1) The first requisite of a standard commercial article, as provided in section 106 (e) (4) (B) (i) of the act, is that the article must be customarily maintained in stock by the contractor, or must be offered for sale in accordance with a price schedule regularly maintained by the contractor.

(2) An article is "customarily maintained in stock" if it is customarily kept in continuing inventory on a maximum-minimum or other acceptable inventory basis, and if sales orders are customarily filled from such supply.

(3) The expression "offered for sale in accordance with a price schedule regularly maintained by the contractor" means that the prices and terms at which the article is customarily sold by the contractor are made known to customers generally, by either a published catalog, a posted price list, or any other acceptable means. The price schedule need not state separately the price of every article, but may show the prices of certain basic articles and extra charges for other articles containing specific variations. The fact that seasonal or other general price adjustments are made in a price schedule does not necessarily mean that it is not regularly maintained. When the contractor customarily offers an article for sale in accordance with daily or other periodically published market quotations, such quotations will be considered to be a price schedule maintained by the contractor.

(c) *The 35 percent test.* (1) The second requisite of a standard commercial article, as provided in section 106 (e) (4) (B) (ii) of the act, is that the non-renegotiable receipts or accruals of the contractor from sales of the article must aggregate at least 35 percent of the contractor's total receipts or accruals from such sales in the fiscal year under review, or in such fiscal year and the preceding fiscal year. The purpose of this requirement is to establish the existence of a commercial market for the article. The requirement is met if at least 35 percent of the contractor's sales of the article in the fiscal year under review are non-renegotiable. If this is not the case, the contractor may still satisfy the requirement if at least 35 percent of its aggregate sales of the article in the fiscal year under review and the preceding fiscal year are non-renegotiable.

(2) In computing non-renegotiable receipts or accruals for the purpose of subparagraph (1) of this paragraph, the receipts or accruals for which exemption is claimed in the Application for Commercial Exemption shall be considered renegotiable. Also, the extent to which a prime contract or subcontract for new durable productive equipment is exempt by reason of section 106 (c) of the act shall be disregarded; every such prime contract or subcontract shall, for such purpose, be considered wholly renegotiable.

Example. A contractor manufactures and sells typewriters to order. Its catalog lists a standard office model in either a black or gray finish, with no difference in price, but $10.00 higher if equipped with elite type rather than pica type. In the fiscal year under review, the contractor has $80,000 of renegotiable sales and $20,000 of non-renegotiable sales of black standard office typewriters with elite type. Of the gray typewriter with elite type, the contractor has renegotiable sales of $60,000 and non-renegotiable sales of $40,000 in the fiscal year under review. Of total sales of $200,000, only 30 percent are non-renegotiable. Thus, the exemption does not apply unless, by including its sales in the preceding fiscal year, the contractor attains the qualifying percentage. Assume that in the preceding fiscal year the contractor had renegotiable sales of $10,000 and non-renegotiable sales of $90,000 of the black typewriter with elite type, and had no renegotiable sales and $50,000 of non-renegotiable sales of the gray typewriter with elite type. Now, of aggregate sales of $350,000 for the two years, the contractor's sales of typewriters with elite type are well above 35 percent, and thus that article qualifies for exemption as a standard commercial article in the fiscal year under review. Since the typewriter with pica type is sold at a different price, it is a different article (see § 1467.23) and the sales thereof must be considered separately for purposes of the exemption.

§ 1467.26 *Exemption of "like articles"*—(a) *In general.* Section 106 (e) (1) (B) exempts an article which is "identical in every material respect with a standard commercial article", as that term is defined in section 106 (e) (4) (C), and whether or not the contractor has waived the exemption with respect to such standard commercial article. The statute contemplates that such an article, although not itself a standard commercial article, is sufficiently like a standard commercial article to warrant similar treatment for renegotiation purposes. The exemption of such "like articles" is not self-executing; it may be obtained only by application to the Board, upon a showing that all of the conditions prescribed in section 106 (e) (4) (C) exist. If any of such conditions is not present, the article is not identical in every material respect with a standard commercial article, and the exemption does not apply. The necessary conditions are explained in the succeeding paragraphs of this section.

(b) *Limitations.* (1) This exemption, if granted, is effective only with respect to the fiscal year under review. If exemption is desired for any other year, separate application must be made therefor to the Board.

(2) The standard commercial article selected for comparison must be one sold by the contractor itself in the fiscal year under review. The requirements of the statute cannot be satisfied by comparing like articles with standard commercial articles sold by other contractors in the fiscal year under review, or with standard commercial articles sold by the contractor or by other contractors in any fiscal year other than the fiscal year under review.

(c) *"Of the same kind".* (1) Section 106 (e) (4) (C) (i) provides that a like article must be "of the same kind" as the standard commercial article selected for comparison. In determining whether articles are of the same kind, the Board will consider both their generic and their specific qualities or attributes. The articles need not be of identical specifications. The uses made or to be made of the respective articles will be taken into consideration, but such uses need not be identical.

(2) The term "of the same kind" will be narrowly construed to exclude unreasonable deviations from the standard commercial article selected for comparison. For example, an ultra-precision bearing manufactured to extremely close tolerances is not considered to be an article of the same kind as a bearing manufactured of the same materials but to much wider tolerances. Also, a capacitor for an aircraft electronic assembly, having an estimated reliability ratio of 1 unit in 20,000 units and requiring 40 hours to manufacture, is not considered to be an article of the same kind as a capacitor for a commercial radio, having an estimated reliability ratio of 1 unit in only 200 units and requiring only 2 hours to manufacture.

(3) The term "of the same kind" will also be construed to exclude obviously unlike articles which, for accounting or other purposes, are sometimes grouped together by the contractor in a single general classification. For example, ordinary commercial plate and armor plate are not considered to be articles of the same kind although both may be carried by the contractor under the single accounting classification of "plate".

(d) *"Same or substitute materials."* (1) Section 106 (e) (4) (C) (i) provides that a like article must be "manufactured of the same or substitute materials" as the standard commercial article selected for comparison. This requirement may be satisfied without the two articles necessarily being of identical specifications.

(2) The term "same or substitute materials" will be construed to exclude materials having substantially different combinations of elements or ingredients. For example, aluminum sheet made of an alloy containing 5 percent zinc is not an article manufactured of "the same or substitute materials" as aluminum sheet of the same dimensions but made from an alloy containing 4 percent copper and having significantly different performance characteristics, such as melting temperature, strength, etc. Because of these differences, and because one of these alloys is used predominantly in high-speed airplane construction and users are willing to pay a considerably higher price for it, these two types of aluminum sheet would also not be considered to be articles of the same kind under paragraph (c) of this section.

(e) *"Reasonably comparable" price.* (1) Section 106 (e) (4) (C) (ii) provides that a like article must be sold at a price which is "reasonably comparable" with the price of the standard commercial article selected for comparison. As so used, the term "reasonably comparable" means that such differences as exist between the prices of the two articles are attributable to measurable characteristics and, without resort to cost analyses, are explainable in terms of market-tested differentials shown in the contractor's established commercial pricing pattern for articles of the same kind. This does not include price differences which are not reflected in the contractor's commercial price schedules, even though such differences are alleged to be and can be proved to be consistent with the cost differences between the articles. The Board will disregard price differences which it considers to be of negligible importance.

Example. Assume that the contractor sells pipe in the following sizes only, listed in its catalog at the following prices:

Inside diameter	Wall thickness (Price per linear foot) 0.15 in.	0.20 in.	0.25 in.
1 inch	$0.10	$0.14	$0.18
2 inches	.15	.21	.27
3 inches	.19	.27	.35

Assume also that all of the pipe sizes are articles of the same kind and manufactured of the same materials.

(i) Assume further that the Army is the sole purchaser of the contractor's 2-inch pipe of .15-inch wall thickness, and that all of the other articles listed are sold by the contractor in substantial quantities to commercial customers. It is evident that the price of the pipe bought by the Army is consistent with the market-tested relationships shown in the contractor's catalog for pipe of different diameters and different wall thicknesses, and hence is reasonably comparable with the prices of such other articles.

(ii) Assume now that the contractor makes only negligible sales of pipe of 3-inch diameter. The catalog relationship between price increases and pipe diameter increases would thus be without market-tested support. In such case the contractor's price of 15 cents for the 2-inch pipe sold to the Army would not be considered reasonably comparable with the 10-cent price for 1-inch pipe of the same wall thickness.

(iii) Assume now that the contractor customarily makes substantial commercial sales of all of the articles listed above, and fills a special order from the Navy for 5-inch pipe. With no market-tested price record to offer for pipe in diameters above 3 inches, the contractor would be unable to establish that its price to the Navy for 5-inch pipe is reasonably comparable with its prices for the other pipe sizes.

(f) *The 35 percent test.* (1) Section 106 (e) (4) (C) (iii) of the act provides that at least 35 percent of the aggregate sales in the fiscal year under review of a like article and the standard commercial article selected for comparison must be non-renegotiable. Under this provision, unlike that relating to the exemption of standard commercial articles (see § 1467.25 (c)), recourse may not be had to sales in the preceding fiscal year; the like article must qualify on the basis of the contractor's sales in the fiscal year under review only.

(2) In computing non-renegotiable receipts or accruals for the purpose of subparagraph (1) of this paragraph, the receipts or accruals for which exemption is claimed in the Application for Commercial Exemption shall be considered renegotiable. Also, the extent to which a prime contract or subcontract for new durable productive equipment is exempt by reason of section 106 (c) of the act shall be disregarded; every such prime contract or subcontract shall, for such purpose, be considered wholly renegotiable.

§ 1467.27 *Exemption of standard commercial classes of articles*—(a) *In general.* Section 106 (e) (2) of the act exempts an article in "a standard commercial class of articles", as that term is defined in section 106 (e) (4) (G). Under this provision, a group of articles may be exempted even though the contractor does not maintain sales records on the individual articles comprising the group and is thus unable to qualify any individual article in the group as a standard commercial article. This exemption is not self-executing; it may be obtained only by application to the Board, upon a showing that all of the conditions prescribed in section 106 (e) (4) (G) exist. If any of such conditions is not present, the group containing the articles for which exemption is sought does not constitute a standard commercial class of articles, and the exemption does not apply. The necessary conditions are explained in the succeeding paragraphs of this section.

(b) *Limitation.* This exemption, if granted, is effective only with respect to the fiscal year under review. If exemption is desired for any other year, separate application must be made therefor to the Board.

(c) *Stock or catalog sales.* Section 106 (e) (4) (G) (i) of the act provides that at least one of the articles in a standard commercial class of articles must be customarily maintained in stock, or must be offered for sale in accordance with a price schedule regularly maintained by the contractor. For the purposes of this section, these terms shall have the meanings given to them in § 1467.25. The contractor will be required to identify the article or articles which are alleged to meet this requirement.

(d) *"Of the same kind" and "same or substitute materials".* Section 106 (e) (4) (G) (ii) of the act provides that all of the articles in a standard commercial class of articles must be of the same kind and manufactured of the same or substitute materials (without necessarily being of identical specifications). For the purposes of this section, these terms shall have the meanings given to them in § 1467.26.

(e) *"Reasonably comparable" prices.* Section 106 (e) (4) (G) (iii) of the act provides that all of the articles in a standard commercial class of articles must be sold at reasonably comparable prices. For the purposes of this section, this term shall have the meaning given to it in § 1467.26. However, since it is recognized that a standard commercial class of articles will often include articles for which separate sales records are not available, the contractor will not be required to furnish market-tested support for the price of each separate article in the class.

(f) *The 35 percent test.* (1) Section 106 (e) (4) (G) (iv) of the act provides that at least 35 percent of the aggregate sales in the fiscal year under review of all the articles in a standard commercial class of articles must be non-renegotiable. Sales of any of such articles in the preceding fiscal year are not relevant to this computation and shall not be included therein.

(2) In computing non-renegotiable receipts or accruals for the purpose of subparagraph (1) of this paragraph, the receipts or accruals for which exemption is claimed in the Application for Commercial Exemption shall be considered renegotiable. Also, the extent to which a prime contract or subcontract for new durable productive equipment is exempt by reason of section 106 (c) of the act is disregarded; every such prime contract or subcontract shall, for such purpose, be considered wholly renegotiable.

§ 1467.28 *The term "service".* Section 106 (e) (4) (D) of the act defines the term "service" to mean any processing or other operation performed by chemical, electrical, physical, or mechanical methods directly on materials owned by another person. For the purposes of this exemption, the term "service" will be given a narrow meaning. When two operations differ in non-essential respects only, and are sold at the same price, it will be considered that such operations are a single service. If such operations are sold at different prices, each will be considered a separate service. Similarly, if two operations differ in any essential respects, each will be considered a separate service, even though both may sell coincidentally at the same price. In determining whether prices are the same or different, volume or other discounts will be disregarded.

§ 1467.29 *Exemption of standard commercial services*—(a) *In general.* Section 106 (e) (1) (C) exempts a "standard commercial service", as that term is defined in section 106 (e) (4) (E) of the act. This exemption is not self-executing; it may be obtained only by application to the Board.

(b) *Interpretation.* This exemption is not limited to services performed on articles which qualify for exemption under section 106 (e) of the act. A service may qualify as a standard commercial service even though it is performed on an article which does not itself qualify for exemption. For example, if a contractor produces aircraft parts and furnishes them to a subcontractor for plating, the subcontractor is not precluded from obtaining the exemption merely because the aircraft parts are not exempt under section 106 (e) of the act.

(c) *The 35 percent test.* To qualify as a standard commercial service, a service must be one from the performance of which by the contractor at least 35 percent of the receipts or accruals in the fiscal year under review are non-renegotiable. In computing non-renegotiable receipts or accruals for this purpose, the receipts or accruals for which exemption is claimed in the Application for Commercial Exemption shall be considered renegotiable.

(d) *Limitation.* This exemption, if granted, is effective only with respect to the fiscal year under review. If exemption is desired for any other year, separate application must be made therefor to the Board.

§ 1467.30 *Exemption of like services*—(a) *In general.* Section 106 (e) (1) (C) exempts a service which is "reasonably comparable with a standard commercial service", as that term is defined in section 106 (e) (4) (F) of the act, and whether or not the contractor has waived the exemption with respect to such standard commercial service. The Statute contemplates that such a service, although not itself a standard commercial service, is sufficiently like a standard commercial service to warrant similar treatment for renegotiation purposes. The exemption of such "like services" is not self-executing; it may be obtained only by application to the Board, upon a showing that all of the conditions prescribed in section 106 (e) (4) (C) exist. If any of such conditions is not present, the service is not reasonably comparable with a standard commercial service, and the exemption does not apply. The necessary conditions are explained in the succeeding paragraphs of this section.

(b) *Limitations.* (1) This exemption, if granted, is effective only with respect to the fiscal year under review. If exemption is desired for any other year, separate application must be made therefor to the Board.

(2) The standard commercial service selected for comparison must be one performed by the contractor itself in the fiscal year under review. The requirements of the statute cannot be satisfied by comparing like services with standard commercial services performed by other contractors in the fiscal year under review, or with standard commercial services performed by the contractor or by other contractors in any fiscal year other than the fiscal year under review.

(c) *Qualitative requirements.* Section 106 (e) (4) (F) (i) of the act provides that a like service must be of the same or a similar kind, must be performed with the same or similar materials, and must have the same or a similar result as a standard commercial service from the performance of which the contractor has receipts or accruals in the fiscal year under review. In determining whether two services meet these requirements, the Board will consider both their generic and their specific characteristics. These requirements may be satisfied without the two services necessarily involving identical operations.

(d) *The 35 percent test.* (1) Section 106 (e) (4) (F) (ii) of the act provides that at least 35 percent of the aggregate sales in the fiscal year under review of a like service and the standard commercial service selected for comparison must be non-renegotiable. Sales of the contractor in the preceding fiscal year are not relevant to this computation and shall not be included therein.

(2) In computing non-renegotiable receipts or accruals for the purposes of subparagraph (1) of this paragraph, the receipts or accruals for which exemption is claimed in the Application for Commercial Exemption shall be considered renegotiable.

§ 1467.31 *Application for Commercial Exemption*—(a) *Form.* No printed form is prescribed for the filing of an application for exemption under section 106 (e) (3) of the act. However, the information and data prescribed in paragraph (b) of this section will be known as the "Application for Commercial Exemption". This application shall be furnished in writing, shall be entitled "Application for Commercial Exemption", and shall consist of numbered paragraphs corresponding with the numbers in paragraph (c) of this section. Attention is called to the fact that the submission of this application is subject to the penalty provisions of section 105 (e) (1) of the act.

(b) *Use.* Except as provided in § 1467.22 (e) (1), the Application for Commercial Exemption shall be filed by every contractor who claims exemption under section 106 (e) of the act for any articles or services, except standard commercial articles (see § 1467.22 (b)). A separate application must be filed by every contractor claiming the exemption; affiliated or related contractors may not file consolidated applications.

(c) *Contents.* The Application for Commercial Exemption shall contain the information and data prescribed in the following instructions:

(1) *Description of articles or services.* Set forth a description of the articles or services claimed to be exempt, including representative catalogs or brochures, if available. State clearly whether exemption is being claimed for (i) like articles—i. e., articles which are identical in every material respect with a standard commercial article or articles; (ii) articles in a standard commercial class or classes of articles; (iii) standard commercial services; or (iv) like services—i. e., services which are reasonably comparable with a standard commercial service or services. If it is desired in a single application to claim exemption for any like articles, standard commercial services, or like services, as well as for articles in one or more standard commercial classes of articles, a statement in substantially the following form must be included: "The contractor hereby consents and agrees that the 6-month period prescribed in section 106 (e) (3) (B) (ii) of the act shall apply with respect to all of the articles (or: all of the articles and services) for which exemption is claimed in this application."

(2) *Like articles.* With respect to each like article described separately in subparagraph (1) of this paragraph, set forth a description of the standard commercial article with which such like article is claimed to be identical in every material respect; set forth information sufficient to establish that both of such articles are of the same kind, are manufactured of the same or substitute materials, and are sold at reasonably comparable prices; and set forth a schedule of sales showing the following with respect to the fiscal year under review:

Like article claimed to be exempt	Standard commercial article compared	Total sales		Renegotiable sales		Nonrenegotiable sales (like and standard combined)	
		Like	Standard	Like	Standard	Amount	Percent of total
(1)							
(2)							
(3)							
(4)							

The above figures must be actual, not estimated. If the new durable productive equipment exemption is applicable (see Part 1454 of this subchapter), the sales listed above should be stated before application of such exemption.

(3) *Standard commercial classes of articles.* With respect to any standard commercial class of articles described in subparagraph (1) of this paragraph, identify at least one article in the class which either is customarily maintained in stock by the contractor or is offered for sale in accordance with a price schedule regularly maintained by the contractor; set forth information sufficient to establish that all of the articles in the class are of the same kind, are manufactured of the same or substitute materials, and are sold at reasonably comparable prices; and set forth a schedule of sales showing the following with respect to the fiscal year under review:

Standard commercial class of articles	Total sales	Sales claimed to be exempt	Nonrenegotiable sales	
			Amount	Percent of total
(1)				
(2)				
(3)				
(4)				

The above figures must be actual, not estimated. If the new durable productive equipment exemption is applicable (see Part 1454 of this subchapter), the sales listed above should be stated before application of such exemption.

(4) *Standard commercial services.* With respect to each standard commercial service described in subparagraph (1) of this paragraph, state the total amount of sales of such service in the fiscal year under review, and the amount and percent of the nonrenegotiable portion of such sales.

(5) *Like services.* With respect to any like service described in subparagraph (1) of this paragraph, describe the standard commercial service with which such like service is claimed to be reasonably comparable; set forth information sufficient to establish that both of such services are of the same or a similar kind, are performed with the same or similar materials, and have the same or a similar result; and set forth a schedule of sales showing the following with respect to the fiscal year under review:

Like service claimed to be exempt	Standard commercial service compared	Total sales		Renegotiable sales		Non-renegotiable sales (like and standard combined)	
		Like	Standard	Like	Standard	Amount	Percent of total
(1)							
(2)							
(3)							
(4)							

The above figures must be actual, not estimated.

(d) *Time for filing.* Except as set forth in § 1467.22 (e) (1), every contractor who claims that the exemption provided in paragraph (1) (B) or (C) or paragraph (2) of section 106 (e) of the act is applicable to any of its receipts or accruals in a fiscal year, under prime contracts with the Departments or subcontracts, shall file an Application for Commercial Exemption as soon as practicable after the close of such fiscal year, but in no event later than the date upon which the contractor is required to file the Standard Form of Contractor's Report with respect to such fiscal year. If the Application for Commercial Exemption is filed before the date upon which the contractor is required to file the Standard Form of Contractor's Report with respect to such fiscal year, the contractor shall not be required to file the Standard Form of Contractor's Report until the date prescribed in § 1470.3 (d) (1) of this subchapter for the filing thereof or until the thirtieth day after the Board sends to the contractor written notice of the action of the Board on the claim for exemption, whichever occurs

later. If, as a result of such action of the Board, the renegotiable receipts or accruals of the contractor and all related contractors in such fiscal year aggregate less than the minimum amount for renegotiation prescribed in section 105 (f) (1) of the act, the contractor shall not be required to file the Standard Form of Contractor's Report but shall be entitled, if it elects so to do, to file the Statement of Non-Applicability with respect to such fiscal year.

§ 1467.32 *Duty to furnish additional information.* The filing of an Application for Comercial Exemption in accordance with the provisions of this section will not relieve any prime contractor or subcontractor of the duty to furnish any other information, records or data which are determined by the Board to be necessary to carry out its responsibilities under section 106 (e) of the act.

§ 1467.33 *Effect of filing Application for Commercial Exemption*—(a) *In general.* When the Application for Commercial Exemption is filed, it will be considered that the contractor has filed the information and data prescribed in paragraph (3) of section 106 (e) of the act, and the applicable 3-month or 6-month period prescribed in said paragraph will thereupon begin to run, except as provided in the succeeding paragraphs of this section.

(b) *When application is defective.* If, within sixty (60) days after the filing of an Application for Commercial Exemption, the Board sends to the contractor a written notice that such application is in the opinion of the Board incomplete or otherwise defective in any material respect, and that exception has been taken thereto in such respect, the filing of such application will not be considered to be the filing of the information and data prescribed in paragraph (3) of section 106 (e) of the act, sufficient to start the running of the applicable 3-month or 6-month period prescribed in said paragraph, and such period will not begin to run until such defect has been corrected by the filing of the information or data specified in the notice of the Board. If the contractor fails to correct the defect within a reasonable time after such notice, the Board may deny the application of the contractor for exemption.

(c) *When additional information is required.* If, within sixty (60) days after the filing of an Application for Commercial Exemption, the Board sends to the contractor a written request to furnish specific additional information or data to support the claim for exemption, the filing of such application will not be considered to be a filing of information and data sufficient to start the running of the applicable 3-month or 6-month period prescribed in section 106 (e) (3) of the act, and such period will not begin to run until a complete and satisfactory filing of the additional information or data so requested has been made. Any such additional information or data, when filed, will be deemed a part of the Application for Commercial Exemption. If such additional filing is complete and satisfactory, the Board as soon as possible thereafter will send to the contractor a written notice that the additional information and data is complete and satisfactory and that the applicable 3-month or 6-month period began to run on the date of such additional filing. If the contractor fails to furnish the additional information or data within a reasonable time after the request therefor, the Board may deny the application of the contractor for the exemption.

(d) *When material mis-statement occurs.* If the Application for Commercial Exemption filed by any contractor contains a mis-statement of a material fact, the applicable 3-month or 6-month period prescribed in section 106 (e) (3) of the act will not begin to run until such mis-statement has been corrected, with or without any notice or request from the Board, and notwithstanding that the Board previously may have notified the contractor that such application had been accepted as complete and satisfactory.

§ 1467.34 *Grant of exemption.* If, within the applicable 3-month or 6-month period prescribed in section 106 (e) (3) of the act, computed in accordance with the provisions of § 1467.33, or within any longer period stipulated by mutual agreement, the Board determines that any article or service for which exemption has been claimed by the contractor in the Application for Commercial Exemption is an article or service to which the exemption applies, the Board will give written notice of such determination to the contractor and will advise the contractor that its sales of such article or service in the fiscal year under review are not exempt under section 106 (e) of the act.

§ 1467.37 *Exemption not applicable to related subcontracts.* The exemption provided in section 106 (e) of the act is limited to prime contracts and subcontracts meeting the conditions prescribed in said subsection (e). It does not extend to related subcontracts. With respect to any such subcontracts, the exemption, if claimed, must be independently established. Section 106 (a) (7) of the act, which exempts subcontracts under certain exempt prime contracts or subcontracts, does not apply to subcontracts under prime contracts or subcontracts exempted under section 106 (e) of the act (see § 1453.6 of this subchapter).

[F. R. Doc. 56-7806; Filed, Sept. 26, 1956; 8:53 a. m.]

longer period stipulated by mutual agreement, the Board fails to determine that any article or service for which exemption has been claimed by the contractor in the Application for Commercial Exemption is not an article or service to which the exemption applies, the sales of such article or service in the fiscal year under review shall be exempt under section 106 (e) of the act and, except as provided in § 1467.33 (d), such exemption shall be fixed and final.

§ 1467.36 *Denial of exemption.* If, within the applicable 3-month or 6-month period prescribed in section 106 (e) (3) of the act, computed in accordance with the provisions of § 1467.33, or within any longer period stipulated by mutual agreement, the Board determines that any article or service for which exemption has been claimed by the contractor in the Application for Commercial Exemption is not an article or service to which the exemption applies, the Board will give written notice of such determination to the contractor and will advise the contractor that its sales of such article or service in the fiscal year under review are not exempt under section 106 (e) of the act.

§ 1467.37 *Exemption not applicable to related subcontracts.* The exemption provided in section 106 (e) of the act is limited to prime contracts and subcontracts meeting the conditions prescribed in said subsection (e). It does not extend to related subcontracts. With respect to any such subcontracts, the exemption, if claimed, must be independently established. Section 106 (a) (7) of the act, which exempts subcontracts under certain exempt prime contracts or subcontracts, does not apply to subcontracts under prime contracts or subcontracts exempted under section 106 (e) of the act (see § 1453.6 of this subchapter).

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

CITY OF OAKLAND, CALIF. AND ENCINAL TERMINALS

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8155, between the City of Oakland, California and Encinal Terminals, covers the lease to Encinal of certain terminal property in the Outer Harbor Terminal Area, Oakland, designated as Building C-107, Building B-101, and the open area between and adjacent to said buildings, subject to the terms and conditions set forth in the agreement, dated September 1, 1956, for a term of one year beginning on the first day of the month next succeeding 30 days after approval by the Board.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: September 24, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN, *Assistant Secretary.*

[F. R. Doc. 56-7803; Filed, Sept. 26, 1956; 8:52 a. m.]

FREDERIC HENJES, JR., INC. AND KENNEDY-WHITE & CO., INC.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8145 between Frederic Henjes, Jr., Inc., New York, New York, and Kennedy-White & Co., Inc., Baltimore, Maryland, is a cooperative working arrangement between the parties under which they perform freight forwarding services for each other.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement, and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: September 24, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN, *Assistant Secretary.*

Office of the Secretary

CARL M. VUCKEL

STATEMENT OF CHANGES IN FINANCIAL INTERESTS

In accordance with the requirements of section 710 (b) (6) of the Defense Production Act of 1950, as amended, and Executive Order 10647 of November 28, 1955, the following changes have taken place in my financial interests as reported in the FEDERAL REGISTER of 21 F. R. 2666, April 25, 1956.

A. Deletions: No change.

B. Additions: No change.

This statement is made as of September 16, 1956.

Dated: September 18, 1956.

CARL M. VUCKEL.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Doc. 141]

[Classification 54]

ARIZONA

SMALL TRACT CLASSIFICATION

SEPTEMBER 19, 1956.

1. Pursuant to authority delegated by Document No. 43, Arizona, effective May 19, 1955, (20 F. R. 3514-15), I hereby classify the following described land, totalling approximately 240 acres in Maricopa County, Arizona, as suitable for lease and sale for residence purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended.

GILA AND SALT RIVER MERIDIAN

T. 5 N., R. 2 E.,
Sec. 35: NW¼, W½SW¼.

2. Classification of the above described land by this order segregates it from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The land classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the land to application or bid with a preference right to veterans of World War II and of the Korean Conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279-284), as amended.

4. All valid applications filed prior to February 9, 1949 will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

E. R. TRAGITT, *State Lands and Minerals, Staff Officer.*

FEDERAL POWER COMMISSION

[Docket No. G-2453]

MANUFACTURERS LIGHT AND HEAT CO.

ORDER FIXING DATE OF HEARING

The Commission, by order issued June 4, 1954, in this docket, suspended the FPC Gas Tariff, Third Revised Volume No. 1 filed by The Manufacturers Light and Heat Company proposing an increase in rates and charges for the sale in interstate commerce of natural gas for resale to each of its fifteen wholesale customers.

The Commission finds: It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act that the proceeding in this docket be set for hearing as hereinafter provided.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 5, 15 and 16 of the Natural Gas Act and the Commission's general rules and regulations including rules of practice and procedure (18 CFR, Chapter I), public hearing hereby is set to commence on October 15, 1956, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved and the issues presented by the above-entitled proceeding.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f).

Issued: September 20, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-7777; Filed, Sept. 26, 1956; 8:46 a. m.]

[Docket Nos. G-9383, G-11112]

C. N. HOUSH, ET AL.

ORDER PERMITTING CHANGE IN RATES DUE TO REDUCTION IN TEXAS OCCUPATION TAX AND SUSPENDING PROPOSED INCREASE IN RATES

On August 24, 1956, C. N. Housh, et al., (Applicant) submitted for filing proposed changes in Applicant's rate schedules presently in effect. The proposed changes and proposed effective date are as follows:

Description; Purchaser; Rate Schedule Designation; and Effective Date[1]

Notice of change undated; Texas Illinois Natural Gas Pipeline Company; Supplement No. 6 to Applicant's FPC Gas Rate Schedule No. 1.

By order issued September 22, 1955 in Docket No. G-9383, the Commission suspended the increased rates and charges previously proposed by Supplement No. 5 to Applicant's FPC Gas Rate Schedule No. 1. On August 24, 1956, concurrently with the present filing, Applicant moved to place in effect such suspended Supplement No. 5, and, by order in Docket No. G-9383 issued concurrently herewith, the Commission has allowed such increased rates and charges to become effective as of August 24, 1956,

[1] Applicant proposes and the Commission hereinafter prescribes September 1, 1956 as the effective date for the change in rates due to reduction in Texas Occupation Tax. Applicant also proposes September 1, 1956 as the effective date for the proposed increase in rates; however, the effective date of this portion of the filing is the first day after expiration of the 30-days' notice required by sec. 4 (d) of the Natural Gas Act, or September 6, 1956.

subject to refund if subsequently so ordered by the Commission.

The present filing perfects an original tender for filing made August 6, 1956, covering the present subject matter, which omitted to take into account the prior suspension above-mentioned.

Applicant here proposes by said Supplement No. 6 (1) to give effect in the rates being collected subject to refund (pursuant to the above-mentioned order issued concurrently herewith) to the reduction in the Texas occupation tax as of September 1, 1956; and (2) to reflect as of the same date a periodic increase in the price of gas sold to Texas Illinois Natural Gas Pipeline Company. The increased rates and charges proposed by the periodic increase have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) Good cause has been shown that the 30-day notice period provided in section 4 (d) of the Natural Gas Act be waived with respect to the change in rates proposed in Supplement No. 6 to Applicant's FPC Gas Rate Schedule No. 1 to give effect to the change in the Texas occupation tax, and it is appropriate and in the public interest that such change should be permitted to become effective as of September 1, 1956; provided, however, that such change in rates in no way amends, modifies, or changes the rate suspension proceedings involved in Docket No. G-9383.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the increased rates and charges proposed in Supplement No. 6 to Applicant's FPC Gas Rate Schedule No. 1 and that said supplement insofar as it pertains to a periodic rate increase be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) The 30-day notice period provided in section 4(d) of the Natural Gas Act is hereby waived with respect to Supplement No. 6 to Applicant's FPC Gas Rate Schedule No. 1, insofar as it provides for a change in rate to give effect to the change in Texas occupation tax, and such Supplement, to that extent, hereby is permitted to become effective as of September 1, 1956, subject to the proviso contained in Finding (1) above.

(B) Pursuant to the authority contained in sections 4, 5, 15 and 16 of the Natural Gas Act, and the Commission's general rules and regulations, a public hearing be held, upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 6 to Applicant's FPC Gas Rate Schedule No. 1; and pending such hearing and decision thereon, said supplement insofar as it relates to the proposed periodic increased rates and charges hereby is suspended in Docket No. G-11112 and the use thereof deferred until February 6, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: September 21, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-7778; Filed, Sept. 26, 1956; 8:46 a. m.]

[Project No. 2218]

PUBLIC UTILITY DISTRICT NO. 1 OF KLICKITAT COUNTY, WASH.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

SEPTEMBER 21, 1956.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by Public Utility District No. 1 of Klickitat County, Washington, of Goldendale, Washington, for preliminary permit for proposed water power Project No. 2218, known as the John Day Project, to be located on the Columbia River in the region of Boardman, Castle Rock, Irrigon, Arlington, and Umatilla, Oregon, and Alderdale, Roosevelt, Luzon, Plymouth, and Patterson, Washington, and in Gilliam and Morrow Counties, Oregon, and Klickitat and Benton Counties, Washington, affecting United States Government lands and navigable waters of the United States. The proposed project would comprise a concrete gravity dam having a gated spillway section 1,310 feet long, an intake and powerhouse section 1,298 feet long, and several connecting non-overflow gravity sections aggregating 1,192 feet in length, creating a reservoir with normal pool at elevation 255 feet extending 75 miles upstream to McNary Dam; a navigation lock; fishways; a powerhouse with initial installation of 13 units; each turbine rated at 134,000 horsepower and direct connected to a generator rated at 85,000 kilowatts at 93 feet rated head and provisions for expansion of the powerhouse for ultimate installation of 18 units; and appurtenant facilities. The power generated would be used to serve the applicant's customers and to meet the requirements of an expected industrial growth. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is November 8, 1956. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

GENERAL SERVICES ADMINISTRATION

CERTAIN GOVERNMENT OFFICIALS

DELEGATION OF AUTHORITY TO MAKE CERTAIN ADVANCE PAYMENTS

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, and in the interest of carrying out Recommendation No. 6 of the First Progress Report of the Cabinet Committee on Small Business with respect to advance payments, authority is hereby delegated to the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Postmaster General, the Chairman of the Atomic Energy Commission and the Administrator of Veterans Affairs to make certain advance payments in accordance with section 305 of the act, in connection with contracts negotiated without advertising. This authority applies to contracts negotiated under the Federal Property and Administrative Services Act of 1949, as amended, or under any other law.

2. Contracts employing the authority herein delegated shall be subject to applicable limitations and requirements in the act, particularly sections 304 and 307, and shall be exercised in accordance with policies, procedures and controls prescribed by the General Services Administration.

3. This authority may not be redelegated but may be exercised in accordance with the provisions of section 309 (a) of the act.

4. This delegation shall be effective as of the date hereof.

Dated: September 25, 1956.

Washington, Friday, September 28, 1956

TITLE 3—THE PRESIDENT

PROCLAMATION 3157

NATIONAL EMPLOY THE PHYSICALLY HANDICAPPED WEEK, 1956

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS opportunity for employment should not be denied any qualified person because of a physical handicap; and

WHEREAS there is a community responsibility for developing local understanding and local acceptance of handicapped persons seeking employment; and

WHEREAS there is a need for sound planning, organization, and concerted action if this responsibility is to be met; and

WHEREAS there is also a need for increased community efforts to overcome misconceptions among employers and co-workers concerning the handicapped, who, when properly placed, make efficient, reliable, and loyal employees and fellow workers; and

WHEREAS 1956 marks the twelfth observance of a week wherein Nation-wide attention is focused on the problems of rehabilitation and placement of the physically handicapped; and

WHEREAS the observance of National Employ the Physically Handicapped Week each year, as authorized by the joint resolution of the Congress approved August 11, 1945 (59 Stat. 530), emphasizes the desirability of a year-round program for the utilization and conservation of the abilities of our handicapped citizens:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do call upon the people of our Nation to observe the week beginning October 7, 1956, as National Employ the Physically Handicapped Week, and to cooperate with the President's Committee on Employment of the Physically Handicapped in carrying out the aforementioned resolution of the Congress.

I also urge the governors of States, mayors of municipalities, other public officials, leaders of industry and labor, and members of religious, civic, veterans', agricultural, women's, handicapped persons', and fraternal organizations to participate actively in this observance.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 20th day of September in the year of our Lord nineteen hundred and
[SEAL] fifty-six, and of the Independence of the United States of America the one hundred and eighty-first.

DWIGHT D. EISENHOWER

By the President:

HERBERT HOOVER, JR.,
Acting Secretary of State.

PROCLAMATION 3158

IMMIGRATION QUOTA—TUNISIA

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS under the provisions of section 201 (b) of the Immigration and Nationality Act, the Secretary of State, the Secretary of Commerce, and the Attorney General, jointly, are required to determine the annual quota of any quota area established pursuant to the provisions of section 202 (a) of the said act, and to report to the President the quota of each quota area so determined; and

WHEREAS under the provisions of section 202 (e) of the said act, the Secretary of State, the Secretary of Commerce, and the Attorney General, jointly, are required to revise the quotas, whenever necessary, to provide for any political change requiring a change in the list of quota areas or the territorial limits thereof; and

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

CFR SUPPLEMENTS

(As of January 1, 1956)

The following Supplements are now available:

Title 26 (1954) Part 221 to end (Rev., 1955) ($2.25)

Title 38 ($2.00)

Titles 44–45 ($1.00)

Title 50 ($0.60)

Previously announced: Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 6 ($1.75); Title 7: Parts 1–209 ($1.25), Parts 210–899 (Rev., 1955) with Supplement ($4.50), Parts 900–959 (Rev., 1955) ($6.00), Part 960 to end (Rev., 1955) with Supplement ($5.85); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Parts 1–399 ($2.50), Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26 (1954) Parts 1–220 (Rev., 1955) ($2.00); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. 1, and Title 27 ($1.00); Titles 28 and 29 ($1.25); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 400–699 ($0.65), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Title 33 ($1.50); Titles 35–37 ($1.00); Title 39 (Rev., 1955) ($4.25); Titles 40–42 ($0.65); Title 43 ($0.50); Title 46: Parts 1–145 ($0.60), Part 146 to end ($1.25); Titles 47 and 48 ($2.25); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)

WHEREAS the country of Tunisia has heretofore constituted a subquota area within the immigration quota established for France and has, therefore, been subject to the limitation provided in section 202 (c) (1) of the Immigration and Nationality Act (66 Stat. 177–178); and

WHEREAS the country of Tunisia was granted its independence on March 20, 1956, and has been recognized as an independent country by the United States; and

WHEREAS the Secretary of State, the Secretary of Commerce, and the Attorney General have reported to the President that in accordance with the duty imposed and the authority conferred upon them by section 201 (b) of the Immigration and Nationality Act, they jointly have made the determination provided for and computed under the provisions of section 201 (a) of the said act; and have fixed, in accordance therewith, an immigration quota for Tunisia as hereinafter set forth:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the aforesaid act of Congress, do hereby proclaim and make known that the annual quota area hereinafter enumerated has been determined in accordance with the law to be, and shall be, as follows:

Area No.	Quota area	Quota
87	Tunisia	100

The provision of an immigration quota for any quota area is designed solely for the purpose of compliance with the pertinent provisions of the Immigration and Nationality Act and is not to be considered as having any significance extraneous to such purpose.

Proclamation No. 2980 of June 30, 1952, is amended accordingly.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 20th day of September in the year of our Lord nineteen hundred and fifty-six, and of the Independence of the United States of America the one hundred and eighty-first.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

HERBERT HOOVER, Jr.,
Acting Secretary of State.

PROCLAMATION 3159

COLUMBUS DAY, 1956

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS four hundred and sixty-four years ago Christopher Columbus, seeking a short route to Asia, fearlessly set sail from Spain, crossed an uncharted and unknown sea, and found instead a vast new world; and

WHEREAS the passing of the centuries has not dimmed the glory of his exploits, which continue to inspire and encourage all of us who are his heirs to seek broader fields of endeavor and new ways of understanding our planet and its peoples; and

WHEREAS, in recognition of the vision, the daring, and the achievements of Christopher Columbus, the Congress, by a joint resolution approved April 30, 1934 (48 Stat. 657), requested the President to issue a proclamation designating October 12 of each year as Columbus Day:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby set aside Friday, October 12, 1956, as Columbus Day, and I invite the people of this Nation to observe the day with ceremonies commemorative of the sighting of land by Columbus and his crew on their westward voyage in 1492. I also direct the appropriate officials of the Government to arrange for the display of the flag of the United States on all Government buildings on Columbus Day in honor of the great discoverer.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 26th day of September in the year of our Lord nineteen hundred and fifty-six, and of the Independence of the United States of America the one hundred and eighty-first.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

RULES AND REGULATIONS

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter E—Account Servicing

[FHA Instruction 451.1]

PART 361—ROUTINE

NOTIFICATION OF APPLICATION OF PAYMENTS

Section 361.5, Title 6, Code of Federal Regulations (20 F. R. 9294, 21 F. R. 6053), is amended to add a new paragraph (e) prescribing regulations with respect to notifying borrowers of the application of payments to accounts, and to read as follows:

§ 361.5 *Application of payments on Farm Ownership, Soil and Water Conservation (except Water Facilities loan accounts coded J), Farm Housing, and Other Real Estate loan accounts.* * * *

(e) *Notifying borrowers of application of payments.* For those borrowers who desire to be notified of the application of each payment for which Form FHA–37 is issued, Form FHA–180, "Application of Payment on Real Estate Account," will be sent to the borrower. For a direct loan, Form FHA–180 will be sent when the yellow copy of Form FHA–37 is returned from the Finance Office showing the application to interest and principal. For an insured loan, Form FHA–180 will be sent when the copy of Form FHA–282 is received from the Finance Office showing the application to interest and principal provided any amount was applied to the note account. If no amount was applied to the note account on Form FHA–37, Form FHA–180 will be sent to the borrower as soon as it is evident that no reapplication of the amount to be applied to the loan insurance account will be

made by the Finance Office if only the payment of the loan insurance charge is involved; if an advance has been made from the insurance fund, Form FHA–180 will be sent to the borrower upon receipt of the yellow copy of Form FHA–37 from the Finance Office showing the application to interest and principal.

(1) When Form FHA–282 is received from the Finance Office showing that an advance has been made to a lender, for the account of the borrower, out of the insurance fund, those borrowers who desire to be notified of the application of each payment should be notified by letter of the amount and date of the advance and the application of the advance to interest and principal.

(R. S. 161, sec. 6 (3); 50 Stat. 870, sec. 41 (1), 60 Stat. 1066, sec. 510 (g), 63 Stat. 438, sec. 4 (c) 64 Stat. 100, sec. 1 (4), 68 Stat. 735; 5 U. S. C. 22, 16 U. S. C. 590W (3), 7 U. S. C. 1015 (1), 42 U. S. C. 1480 (g), 40 U. S. C. 442 (c), 16 U. S. C. 590x–3 (a) (7))

Dated: September 24, 1956.

[SEAL] K. H. HANSEN,
Administrator,
Farmers Home Administration.

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 850.53]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

1957 CROP

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (hereafter referred to as "act") the following determination is hereby issued:

§ 850.53 *Proportionate shares for farms in the domestic beet sugar area*—(a) (1) *National acreage and State acreage allocations.* A national acreage limitation for 1957-crop sugar beets of 885,000 acres is hereby established and allocated as follows:

State:	*Acres*
California	192,341
Colorado	137,275
Idaho	83,425
Illinois	2,201
Indiana	64
Iowa	1,630
Kansas	7,611
Michigan	77,803
Minnesota	70,095
Montana	53,406
Nebraska	61,292
Nevada	525
New Mexico	796
North Dakota	36,479
Ohio	21,224
Oregon	18,555
South Dakota	5,709
Texas	1,699
Utah	31,903
Washington	32,110
Wisconsin	12,149
Wyoming	36,208
Reserve	500
Total	885,000

(2) Acreage within the reserve of 500 acres may be allocated by the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture (hereinafter referred to as "Director") to States not listed in this paragraph for the purpose of establishing proportionate shares for farms having sugar beet production records in the crop period 1950–54 or for new producers (as defined in paragraph (i) (2) of this section) in such States and if necessary to provide acreage for increases in proportionate shares granted by the Director in accordance with paragraph (k) of this section.

(b) *Instructions and forms.* The Director shall cause to be prepared for issuance to Agricultural Stabilization and Conservation State Committees such forms and internal management instructions as are necessary for carrying out the regulations of this section. Such instructions shall be approved and issued by the Deputy Administrator for Production Adjustment, Commodity Stabilization Service, U. S. Department of Agriculture (referred to in this section as "Deputy Administrator").

(c) *Proportionate shares.* The proportionate share of the 1957 crop of sugar beets for a farm shall be the acres established for the farm pursuant to this section within the allocation provided under paragraph (a) of this section for the State in which the base of operations for the farm is located, subject to any increase in acreage granted by the Director in accordance with paragraph (k) of this section.

(d) *Administration of proportionate share program.* In each State the Agricultural Stabilization and Conservation State Committee (hereinafter referred to as "State Committee") shall establish individual farm proportionate shares in accordance with paragraph (i) of this section. In carrying out the proportionate share program within the State, the State Committee may utilize the services of members of Agricultural Stabilization and Conservation county committees and may cooperate with advisory committees consisting of sugar beet growers, representatives of sugar beet grower associations, representatives of sugar beet processors or combinations of these groups. The State Committee shall formulate the standards and procedures in written form for establishing proportionate shares within the State in accordance with the provisions of this section. Such standards and procedures shall be reviewed by the Director for conformity with the provisions of this section and to assure reasonable uniformity between adjoining areas in adjacent States, shall be subject to the approval of the Director, and shall be available for public inspection in State and county offices. The basic standards and procedures for each State shall become effective when published in the FEDERAL REGISTER.

(e) *Requests for proportionate shares.* Any operator (the producer who controls and directs the operations on the farm) or owner (or his representative) of a farm for the 1957-crop season desiring a proportionate share shall file a written request therefor. A form for this purpose may be obtained from local Agricultural Stabilization and Conservation county offices, from fieldmen of sugar companies, or from such other source as the State Committee may designate. The State Committee shall publicize directions for filing such requests. To assure consideration in the initial distribution of acreage pursuant to paragraph (i) (1) or (2) of this section, a request shall be filed on or before the date set forth below for the State; *Provided,* That a request may be accepted after such date for consideration with respect to available acreage, if the State Committee determines that the farm operator or owner was prevented from filing before such date because of absence, illness or other reason beyond his control, and provided, further, that requests may be accepted generally by the State Committee after such date if the total acreage covered by bona fide requests filed by such date by old producers (all producers except new producers (as defined in paragraph (i) (2) of this section)) is less than the acreage available for distribution to old producers:

State	*Date*
California:	
Northern area	Oct. 26, 1956
Imperial area	Mar. 29, 1957
Colorado	Feb. 1, 1957
Idaho	Jan. 18, 1957
Illinois	Mar. 15, 1957
Indiana	Do.
Iowa	Mar. 1, 1957
Kansas	Feb. 1, 1957
Michigan	Feb. 15, 1957
Minnesota	Feb. 1, 1957
Montana	Do.
Nebraska	Do.
Nevada	Feb. 15, 1957
New Mexico	Do.
North Dakota	Feb. 1, 1957
Ohio	Mar. 1, 1957
Oregon:	
Amalgamated area	Jan. 18, 1957
Utah-Idaho area	Dec. 14, 1956
South Dakota	Feb. 15, 1957
Texas	Jan. 25, 1957
Utah	Feb. 1, 1957
Washington	Dec. 14, 1956
Wisconsin	Feb. 15, 1957
Wyoming	Feb. 1, 1957

(f) *Waiver of requirements.* If the requested and planted acreages in any State are less than the acreage available for distribution in such State, the requirements of paragraphs (g), (h), (i) and (k) of this section shall not apply and the proportionate shares for individual farms in such State shall be established within the State allocation so as to coincide with the acreages of 1957-crop sugar beets planted on each farm.

(g) *Set-aside acreage for new producers, appeals and adjustments.* Not less than two percent of the State acreage allocation shall be set aside for establishing proportionate shares for farms operated by new producers and not less than one percent shall be set aside for adjustments under appeals. Any acreage required to supplement the acreage available from initial proportionate shares in excess of requested acreages in making adjustments in initial proportionate shares pursuant to paragraph (i) (1) of this section may also be set aside.

(h) *Subdivision of State acreage allocation.* Before establishing individual farm proportionate shares, the State

acreage allocation into allotments for areas within the State, such as an area served by a beet sugar company, a county, or a group of counties. In making any such subdivision, appropriate weightings, approved by the Director, shall be given to the past production of sugar beets and the ability to produce sugar beets. "Past production" shall be measured by the average planted acreage of the area for not less than three crop years during the period 1950 through 1954, except that if the State Committee determines that the inclusion of one or both of the 1955 and 1956 crop years would provide a more representative period, one or both of such crop years may be included upon prior approval of the Director. "Ability" shall be measured by the area's largest planted acreage during any of the crop years used to measure "past production" or by a combination of planted acreages for any such years. If the State acreage allocation is not subdivided, proportionate shares will be established directly from such allocation and the State shall be deemed to be one allotment area. Subject to the provisions of paragraph (i) (3) of this section, unused acreage in any area may be reallotted by the State Committee among other areas within the State.

(i) *Establishment of individual proportionate shares*—(1) *Old producers.* In establishing proportionate shares for farms operated by old producers from area allotments, the State Committee shall consider the factors of past production of sugar beets and ability to produce sugar beets. These factors shall be given effect by establishing 1957-crop farm bases so that in an allotment area the farm base for each such farm will equal the proportionate share established for the farm for the 1956 crop pursuant to § 850.30, as amended, including adjustments made under appeals but not including adjustments made to offset underplanting and failure to plant, or in an allotment area the farm base for each such farm will be determined by applying a formula to the acres of sugar beets planted on the farm during not less than three crop years in the period 1950 through 1954: *Provided,* That the 1957 crop base for any farm operated by a producer who was a new producer on such farm in the 1955 or 1956 crop years shall equal the initial 1956-crop share established for such farm pursuant to § 850.30, as amended. If the State Committee determines that the inclusion of one or both of the 1955 and 1956 crop years in the effective base period would provide a more representative base period, one or both of such years may be included upon prior approval of the Director. However, if the farm operator is a tenant in an area where sugar beet production is organized around tenant-operators rather than around units of land, production may be measured by the personal sugar beet production record of the farm operator within the State or allotment area in the years selected by the State Committee during the period 1950–56, or by a combination of farm and such personal production records. In case of death or incapacity of a tenant, his personal sugar beet production record shall be credited to the administrator or executor of his estate or to a member of his family, if in the year of such death or incapacity, or in the following year, such administrator, executor, or family member continues as a tenant the customary sugar beet operations of the deceased or incapacitated tenant. In case 1956-crop shares are extended as 1957-crop bases and requests for shares are filed by old producers with respect to farms for which 1956-crop shares were not established, farm bases shall be established for such farms on the basis of the 1956-crop shares which would have been established, pursuant to § 850.30, as amended, if requested. In any allotment area in which the total of farm bases is smaller than the area allotment less the set-asides of acreage made pursuant to paragraph (g) of this section, initial farm proportionate shares shall be established as follows: For farms for which the respective requested acreages are equal to or less than their farm bases, the initial shares shall coincide with the requested acreages; and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases the area allotment less such set-asides and the total of the initial shares of the farms for which the requested acreages are equal to or less than their farm bases. In any allotment area in which the total of farm bases is in excess of the area allotment less the set-asides of acreage made pursuant to paragraph (g) of this section, initial farm proportionate shares shall be computed by prorating to the farms in accordance with their respective bases the area allotment less such set-asides. Initial proportionate shares shall then be adjusted by the State Committee to the extent determined by it to be necessary to establish a proportionate share for each farm which is fair and equitable as compared with proportionate shares for all other farms in the allotment area, by taking into consideration availability and suitability of land, area of available fields, availability of irrigation water (where irrigation is used), adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(2) *New producers.* Within the acreage set aside for new producers from the State acreage allocation pursuant to paragraph (g) of this section and other unused acreage that the State Committee determines should be used for new producers, proportionate shares shall be established in an equitable manner for farms which are to be operated by new producers during the 1957-crop year. In determining proportionate shares for farms which are to be operated by new producers, the State Committee shall take into consideration availability and suitability of land, area of available fields, availability of irrigation water (where irrigation is used), adequacy of drainage, availability of production and marketing facilities and the production experience of the operator. For the purposes of this section, the term "new producer" shall mean a farm operator on a farm which has no record of sugar beet production for the period of years selected by the State Committee for establishing proportionate shares, or for the 1955 or 1956 crop years, except that such term shall not include a tenant (including an owner who is also a tenant) whose personal sugar beet production record will be considered under subparagraph (1) of this paragraph. The entire acreage set aside for new producers shall be allotted to new producers, if requested, unless the State Committee finds that new producers would then be allotted shares out of proportion to the shares established for old producers and such committee obtains the approval of the Director to allot a lesser acreage. Any acreage set aside for new producers and not requested and any acreage allotted to new producers and remaining unused shall be available for distribution to other farms.

(3) *Redistribution of unused proportionate share acreage.* Adjustments in proportionate shares may be made within the State acreage allocation in accordance with procedures established by the State Committee to offset underplanting and failure to plant: *Provided,* That in case of a disagreement between producers and a sugar beet processor with respect to the sugar beet purchase contract to be effective in the settlement area, or where no company offers a contract to producers to cover fully the shares established for their farms, the shares allotted to the farms operated by such producers shall not be reduced unless the affected producers voluntarily agree to reductions in their respective proportionate shares or the State Committee determines that such shares should be reduced because of unusual circumstances and for good cause.

(4) *Small producers, cash tenants, share tenants, and sharecroppers.* In establishing proportionate shares, the State Committee shall, insofar as practicable, protect the interests of small producers and the interests of producers who are cash tenants, share tenants, or sharecroppers.

(j) *Notification of proportionate shares.* Each farm operator filing a request shall be notified in writing on behalf of the State Committee of the proportionate share established in response to his request, even if the acreage established is "none" and such notice shall inform him of his right to appeal under paragraph (k) of this section. In any State to which the provisions of paragraph (f) of this section apply, producers may be furnished a general notice informing them that their proportionate shares will coincide with their respective planted acreages, notwithstanding any prior notices to the contrary.

(k) *Appeals.* A farm operator who believes that the proportionate share established for his farm pursuant to this section is inequitable may file a written appeal for reconsideration of such proportionate share at the local Agricultural Stabilization and Conservation county office, not later than the date shown on the notification of proportionate share, as established by the State Committee. The appeal shall be accompanied by a statement of facts constituting the basis for such appeal. The appeal shall be

reviewed and forwarded with recommendations to the State Committee. The State Committee shall review the appeal, and any increase in the proportionate share approved by the State Committee by reason of the appeal shall be within the acreage set aside for appeals pursuant to paragraph (g) of this section and any other acreage remaining unused within the State allocation. The State Committee shall notify the operator in writing as soon as possible regarding its decision in the case. If the farm operator is dissatisfied with the decision of the State Committee, he may appeal in writing to the Director, whose decision shall be final. In acting upon the appeal, the State Committee or the Director shall consider only such matters as under the provisions of this determination are required or permitted to be considered by such Committee in the establishment of the farm proportionate share to be reviewed.

(l) *Compliance with the proportionate share.* For any producer on the farm to be eligible for Sugar Act payments with respect to the requirements of section 301 (b) of the act, the acreage of sugar beets grown on the farm and marketed (or processed) for the extraction of sugar, except sugar for livestock feed or for the production of livestock feed, shall not exceed the farm proportionate share. If sugar beets are marketed (or processed) from the farm from an acreage in excess of the proportionate share for the extraction of sugar for livestock feed, or for the production of livestock feed, the operator-producer on the farm shall obtain from the processor and furnish to the county committee such evidence as may be required by the State Committee establishing that such sugar beets were sold (or processed) by him for the extraction of sugar for livestock feed or the production of livestock feed, and if so sold were purchased by the processor for such purpose.

(m) *Filing application for payment.* Application for payments authorized under Title III of the act with respect to sugar beets planted on a farm for harvest during the 1957-crop season shall be made on form SU–110 by the producer on the farm, or his legal representative, who must sign the form and file it in the county office for the county where the farm or major portion thereof is located or with a representative of such office no later than December 31, 1959.

(n) *Determination of eligibility and basis for payment and appeals for review thereof.* Except as otherwise provided in regulations relating to conditional payments, compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment, and the amount thereof shall be determined by the county committee. Determinations by the county committee shall be made and decided in accordance with the applicable provisions of the act and regulations issued by the Secretary thereunder and on the basis of the facts in the individual case. Within 15 days after notice of such a determination is forwarded to or made available to a producer, he may request the county committee in writing to reconsider such determination. The county committee shall notify him of its decision in writing. If he is dissatisfied with the decision of the county committee, he may, within 15 days after the date of mailing of the decision to him, appeal in writing to the State Committee. The State Committee shall notify him of its decision in writing within 30 days after the submission of his appeal. If the producer is dissatisfied with the decision of the State Committee, he may, within 15 days after the date of mailing of the decision to him, request the Secretary to review the decision of the State Committee. The decision of the Secretary shall be final.

(o) *Obtaining information regarding eligibility for payment.* For the purposes of obtaining information, where necessary, to assist the county committee in determining compliance with the conditions prescribed by the act and regulations for payment authorized under Title III of the act, the facts constituting the basis for any such payment, or the amount thereof, or for the purposes of assisting, where necessary, the State Committee or the Secretary in reviewing, upon appeal, any such determination by the county committee, any employees of the county committee designated by the county office manager to be qualified to carry out the duty of ascertaining such information, or any employees of the State Office who are determined by the State Administrative Officer to be qualified to perform such duties, shall visit any farm with respect to which application for such payment is made and enter thereon if such entry will facilitate the acquisition of the required information. Where measurement by an employee of the county committee or State Office is required with respect to the extent of sugar beet acreage growing, harvested, abandoned, or otherwise disposed of on any farm for which application is made for any payment authorized under Title III of the act, the employee of the county committee or the State Office as the case may be, designated as provided in this paragraph, shall measure such acreage by identification of fields or parts of fields by use of a map, aerial photography, or by use of a steel or metallic tape, or by a combination of these methods. In this connection, remeasurements, rechecks and spot checks thereof may be made by the county office manager, county performance supervisor, district performance supervisor or any other employees of the State Office who are determined by the State Administrative Officer to be qualified to perform such duties. If the operator (or his representative) of any farm, with respect to which application is made for any payment authorized under Title III of the act, prevents the county committee from obtaining information necessary to determine compliance with the conditions for any such payment or to determine the facts constituting the basis for any such payment or the amount thereof, the conditions prescribed by the act and regulations for any such payment shall be deemed not to have been met until such farm operator (or his representative) permits such information to be obtained.

STATEMENT OF BASIS AND CONSIDERATIONS

Sugar act requirements. As a condition for payment, section 301 (b) of the act provides that there shall not have been marketed (or processed), except for livestock feed or for the production of livestock feed, an acreage of sugar beets grown on the farm and used for the production of sugar or liquid sugar in excess of the proportionate share for the farm as determined by the Secretary pursuant to section 302 of the act. In the domestic beet sugar area, the term "proportionate share" is the individual farm's share of the total acreage of sugar beets required to enable the producing area to meet its quota (and provide a normal carryover inventory) as estimated by the Secretary for the calendar year during which the larger part of the sugar from such crop normally would be marketed.

Section 302 (a) of the act provides that the amount of sugar with respect to which payment may be made shall be the amount of sugar commercially recoverable from the sugar beets grown on a farm and marketed (or processed by the producer) for sugar or liquid sugar not in excess of the proportionate share established for the farm.

Section 302 (b) provides that in determining the proportionate share for a farm, the Secretary may take into consideration the past production on the farm of sugar beets marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets, and that the Secretary shall, insofar as practicable, protect the interests of new producers and small producers, and the interests of producers who are cash tenants, share tenants, or sharecroppers, and of the producers in any local producing area whose past production has been adversely, seriously and generally affected by drought, storm, flood, freeze, disease or insects, or other similar abnormal and uncontrollable conditions.

General. Restrictive proportionate shares are required when the indicated sugar supply for an area will be greater than the quantity needed to fill the quota and provide a normal carryover inventory for such area.

The sugar extracted from each crop in the beet sugar area is normally marketed during two calendar years. Since the processing of the crop in most of the beet sugar factory districts usually begins in the month of October, only a minor portion of the total sugar extracted from a crop is marketed during the balance of the calendar year.

Because of the relatively high production from the 1953 and 1954 crops, a larger-than-average carryover of beet sugar existed on January 1, 1955. The 1955 crop, which was limited to 850,000 acres, yielded about 1,730,000 tons of sugar, which was 96 percent of the 1955 quota for the beet sugar area. Current estimates of the 1956 crop, also limited to 850,000 acres, indicate a production of approximately 1,900,000 tons, an amount which is slightly in excess of the current quota. In view of the substantial carryover of beet sugar and the keen interest in the production of 1957-crop sugar beets, the limitation of that crop is required.

Public hearing. A public hearing was held by the Department in Denver, Colorado, on June 19, 1956, to consider 1957-crop proportionate shares. The Department requested recommendations concerning the desirable level of acreage to be allocated for the 1957 crop and presented a proposal for allocating that acreage to individual States and to farms. The most significant items of that proposal provided for the following:

(a) Extending the general plan effective for the 1955 and 1956 programs with respect to establishing State, area and farm allotments with major responsibilities within States delegated to ASC State Committees;

(b) Establishing State allocations by using as bases the recomputed 1956-crop allocations including reduction for States in which 1955-crop allocations were underplanted 5 percent or more and with larger reductions for 1956-crop underplantings;

(c) Increasing the required minimum set-aside of acreage for new producers from one percent to two percent;

(d) Allowing ASC State Committees the option of using 1956-crop farm shares as bases for alloting 1957-crop acreage or proceeding under formulas to set up farm bases recognizing "past production" and "ability to produce" sugar beets within the crop years 1950 through 1956; and

(e) Giving no special consideration to "prevented production" as provided in the recent amendments to section 302 (b) of the Sugar Act, in allocating the national acreage to States, but permitting ASC State Committees to recognize prevented plantings at area and farm levels.

The statements made by industry representatives at the hearing and included in briefs filed subsequently favored the allocation of a national acreage within the limits of 875,000 to 925,000 acres, with a consensus of opinion favoring a limitation of somewhat less than 900,000 acres. These statements strongly favored the general plan of operation followed for the previous two crops and the optional method of establishing farm bases. The other proposals met with general opposition. Except for a few representatives of areas wherein there is great demand for expansion of acreage, opposition was expressed to increasing the set-aside of acreage for new producers. The chief objection to the proposed method of establishing State allocations related to the reduction based on failure to fully plant State allocations in one year. Moreover, questions were raised concerning the fact that prevented plantings were not recognized in the State allocations.

With respect to prevented plantings, the Department requested each ASC State Office in the sugar beet area early this spring to develop information relative to the extent of prevented plantings in the 1950–55 period. This survey resulted in claims of more than 200,000 acres. The claims and the justifications therefor were too inconclusive for use in establishing State allocations, particularly since the lines between economic causes and natural disasters were not clearly drawn and serious questions arose as to what constituted normal conditions. Moreover, a review of the problem showed that the operation of the basic formula used in establishing State allocations had counteracted in large part the effect of prevented plantings in the base period. At the hearing, representatives of the industry suggested that further study be given to this matter and that an industry committee be established for this purpose. Following the hearing, a Committee consisting of four producer and three processor representatives was named by the industry. At the request of the industry, a representative of the Department met with the Committee for the purpose of furnishing information. After reviewing the problem, the committee unanimously adopted a resolution stating that it is not practicable for the Department to give special recognition to prevented plantings of the 1950–54 crops in establishing 1957-crop State allocations, that failure to fully plant 1955 or 1956 State allocations should be disregarded except in States where there was lack of interest among the farmers generally or lack of ability to produce, and that the Department should develop prevented planting records for the 1955, 1956 and subsequent crops for possible use in establishing shares for the 1958 or subsequent crops.

Determination. Prior to the approval of Public Law 545 on May 29, 1956, the beet sugar area was limited to a fixed quota of 1,800,000 tons of sugar. That law provides that commencing with the current calendar year, the beet area will participate in supplying U. S. sugar requirements in excess of 8,350,000 tons. In addition, the area will share in supplying any unfilled portions of quotas for other domestic areas resulting from market growth. The current quota is 1,884,975 tons.

In consideration of the carryover of beet sugar, the probable quota, the recommendations made at the hearing or filed subsequently and other available data, this determination establishes a limitation for the 1957 crop of 885,000 acres. Although, it is expected that a somewhat smaller acreage will be planted, the resultant production, together with inventories, should enable the area to meet its quota and carryover requirements.

The 1957-crop acreage less the reserve of 500 acres and less the acreages specified for three States, is prorated to the other States in accordance with their recomputed 1955-crop allocations, as set forth in the Statement of Bases and Considerations of the Determination of Proportionate Shares—1956 Crop (20 F. R. 7159) except that for Nevada, which had no 1955 allocation, the 1956 allocation of 500 acres is used as a basis of proration. For Indiana, Michigan, and Wisconsin—the only States in which the plantings for both the 1955 and 1956 crops were less than 90 percent of the respective allocations—the 1957 allocations coincide with their 1956 allocations. For these States, the 1956 allocations had been reduced to 95.7 percent of their recomputed 1955 allotments.

The 1955-crop allocations were accepted generally as representing reasonable divisions of 850,000 acres. For the past two years, industry representatives have objected strongly to reductions in State allocations based on underplantings of a single crop. While this basic position was supported by the committee which considered prevented plantings, it expressed an exception for those States where underplantings are clearly the result of lack of interest among the farmers generally or of other reasons showing lack of ability to produce. Although unfavorable weather may have had some effect on plantings in Indiana, Michigan and Wisconsin, the failure to plant as much as 90 percent of the effective allocations for two successive crops is significant in considering past production and evidences lack of ability to produce. The Department plans to develop records of prevented plantings for the 1955, 1956 and subsequent crops. Pending the development of such records, the 1956 allocations for these three States are extended without change.

The determination increases from one percent to two percent the required minimum set-aside of acreage for new producers, although approval for the use of a lesser amount may be obtained if the full two percent is not requested or if the allotment thereof to new producers would provide them with shares out of proportion when compared with shares established for old producers. Since the 1956-crop shares for a large majority of old producers exceeded their average plantings during the base period and since the national acreage for the 1957 crop is increased significantly, it appears reasonable, for the 1957 crop, to provide for some increase for new producers.

As was provided for the 1955 and 1956 crops, this determination grants ASC State Committees considerable discretion in the use of industry advisory committees, in the establishment of proportionate share areas, in the development of detailed procedure, and in the adjustment of individual farm shares to achieve equitable results.

New provisions of this determination relate to such procedural matters as appeals from the determination of compliance with conditions for payment, filing of applications for payment, and the right of entry on farms to permit the measurement and verification of acreages, to estimate potential production and to obtain information pertaining to facts constituting the basis for payments and the amounts thereof. In view of the recent amendment to section 301 (b) of the act by Public Law 545, 84th Congress, 2nd Session, approved May 29, 1956, regarding sugar for livestock feed, the determination permits the use of sugar beets from an acreage in excess of the proportionate share for the farm for the extraction of sugar for livestock feed or for the production of livestock feed. Since the sugar beet producers who are not processor-producers do not control the processing of sugar beets, the responsibility of such pro-

ducers regarding the disposition of sugar beets from excess acreage for such use will be considered as having been fulfilled upon the submission of satisfactory evidence that the sugar beets were sold by them and purchased by the processor for the extraction of sugar for livestock feed or for the production of livestock feed.

Accordingly, I hereby find and conclude that the aforestated determination will effectuate the applicable provisions of the act.

(Sec. 403, 61 Stat. 932, 7 U. S. C. Sup. 1153. Interprets or applies sec. 302, 61 Stat. 930; 7 U. S. C. Sup. 1132)

Issued this 25th day of September 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-247-A3]

MILK IN UPSTATE MICHIGAN MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING OF MILK IN UPSTATE MICHIGAN MARKETING AREA

§ 916.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Upstate Michigan marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, effective not later than October 1, 1956. Any delay beyond that date in making this order amending the order effective will tend to disrupt the orderly marketing of milk in the Upstate Michigan marketing area. The changes effected by this order amending the order do not require persons affected to make substantial or extensive preparation prior to the effective date. Proposed amendments which would result in changes similar to those effected by this order amending the order were considered at a public hearing held on May 24, 1956; a recommended decision in this proceeding, to which interested parties were given an opportunity to file written exceptions, was issued on August 15, 1956, and a final decision was issued on September 18, 1956. Under these circumstances persons affected by this order amending the order have been afforded a reasonable time within which to prepare for its effective date. Therefore, good cause exists, pursuant to section 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 237), for making this order amending the order effective October 1, 1956.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Upstate Michigan marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Upstate Michigan marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as set forth below:

1. Amend § 916.22 (l) (1) by deleting "§§ 916.51 and 916.52" and substituting therefor "§ 916.51" and further deleting "§ 916.53" and substituting therefor "§ 916.52".

2. Delete § 916.41 and substitute therefor the following:

§ 916.41 *Classes of utilization.* Subject to the conditions set forth in §§ 916.42 and 916.43, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat (1) disposed of for consumption in fluid form as milk, flavored milk, skim milk, buttermilk, and half-and-half or other mixtures of cream and milk containing less than 18 percent butterfat; and (2) not accounted for as Class II or Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraphs (a) or (c) of this section; (2) disposed of as fluid cream; and (3) in shrinkage of producer milk up to 2 percent of receipts from producers.

(c) Class III utilization shall be all skim milk and butterfat (1) used to produce butter, dry milk (either whole or non-fat) or cheese in any form except cottage cheese; (2) disposed of for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (3) in shrinkage of other source milk.

3. Delete § 916.43 and substitute therefor the following:

§ 916.43 *Transfers.* (a) Skim milk and butterfat disposed of from a fluid milk plant to another handler in the form of milk or skim milk shall be Class I utilization, unless utilization in another class is indicated by both handlers in their reports submitted pursuant to § 916.30: *Provided*, That in no event shall the amount so classified in such class be greater than the amount of producer milk used in such class by the transferee handler after allocating other source milk in his plant in series beginning with the lowest priced utilization.

(b) Skim milk and butterfat moved in the form of milk or skim milk from a fluid milk plant to a person not a handler shall be Class I utilization unless all of the following conditions are met:

(1) Utilization in another class is indicated by the handler in his report submitted pursuant to § 916.30;

(2) The operator of the transferee plant had actually used in the month of such movement an equivalent amount of skim milk and butterfat in such class or moved such amount to another plant not operated by a handler which meets the requirements of subparagraph (3) of this paragraph and utilized in the month an equivalent amount of skim milk and butterfat in such class.

(3) The operator of the transferee plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such utilization.

(c) Skim milk and butterfat disposed of from a fluid milk plant to a producer handler shall be Class I utilization.

4. Delete § 916.45 and substitute therefor the following:

§ 916.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I, Class II, and Class III utilization for such handler.

5. Amend § 916.50 (c) by deleting "Beatrice Foods Co., Cadillac, Mich." and "Kraft Cheese Co., Clare, Mich." and substituting therefor "Kraft Foods Co., Cadillac, Mich." and "Kraft Foods Co., Clare, Mich."

6. Delete §§ 916.51, 916.52, 916.53, and 916.54 and substitute therefor the following:

§ 916.51 *Class prices.* Subject to the provisions of §§ 916.52 and 916.53 the prices per hundredweight to be paid by each handler, f. o. b. his plant as described in § 916.6 for milk received from producers or from cooperative associations, during the month, shall be as follows:

(a) *Class I milk.* Through June 30, 1958 the Class I milk price shall be the basic formula price plus $1.05 during the months of February through June and plus $1.45 during the months of July through January.

(b) *Class II milk.* The Class II milk price shall be the basic formula price.

(c) *Class III milk.* The Class III milk price shall be the basic formula price less 20 cents.

§ 916.52 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to § 916.51, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent an amount equal to the producer butterfat differential determined pursuant to § 916.71.

§ 916.53 *Handler location adjustments.* For milk which is received from producers at a fluid milk plant located more than 90 miles but not more than 110 miles, by shortest highway distance, as determined by the market administrator, from the courthouse in either Grayling or Manistee, whichever is closer, and utilized as Class I (prorating to such milk the utilization of all producer milk received at the plant), the price shall be the price effective pursuant to § 916.51 (a), less 12 cents, and less 1 cent additional for each 20 miles or fraction thereof over 110 miles.

7. Amend § 916.61 (b) by deleting the term "Class II" and substituting therefor "Class III".

8. Amend § 916.70 (c) (1) by deleting the terms "Class II" and "§ 916.52" and substituting therefor "Class III" and "§ 916.51 (c)".

9. Amend § 916.72 by deleting the terms "Gaylord or Traverse City" and "§ 916.54" and substituting therefor "Grayling or Manistee" and "§ 916.53".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 25th day of September 1956, to be effective on and after the first day of October 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6556]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

L. SILBERMAN & SONS, INC. ET AL.

Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition;* § 13.1295 *Quality or grade.* Subpart—*Using misleading name*—Goods: § 13.2280 *Composition;* § 13.2330 *Quality.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, L. Silberman & Sons, Inc., et al., Philadelphia, Pa., Docket 6556, Sept. 13, 1956]

In the Matter of L. Silberman & Sons, Inc., a Corporation, and Benjamin Silberman, Individually and as an Officer of Said Corporation.

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its controlling officer, engaged in the sale and distribution at wholesale from their offices in Philadelphia, of shoe findings, with stamping or labeling with the words "ASMC Horsehair" and "ASMC Pure Horsehair" shoebrushes which contained various quantities of palma, a vegetable fiber, or fibers other than horsehair—and an agreement between the parties for a consent order.

On this basis, the hearing examiner made his initial decision,[1] including order to cease and desist, which became, on September 13, the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent L. Silberman & Sons, Inc., a corporation, and its officers, and respondent Benjamin Silberman, individually and as an officer of said corporation, and said respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of shoe brushes in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Branding or labeling said brushes with the legend, word, or words "Horsehair" or "Pure Horsehair" unless and until the same, exclusive of the handle, is composed entirely of horsehair.

(2) Representing in any manner that said brushes are composed of "horsehair" or "pure horsehair" unless and until the same, exclusive of the handle, is actually composed entirely of horsehair.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission,

Issued: September 13, 1956.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 56-7821; Filed, Sept. 27, 1956; 8:48 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETBACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

CAPSULES TETRACYCLINE AND OLEANDOMYCIN

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 141c, 146c) are amended as indicated below.

1. Part 141c is amended by adding the following new section:

§ 141c.231 *Capsules tetracycline and oleandomycin*—(a) *Potency*—(1) *Tetracycline content by turbidimetric assay*—(i) *Test culture and media.* Maintain the test organism *Escherichia coli* (ATCC 10536) on the agar described in § 141a.1 (b) (1) of this chapter. For use in the assay, prepare a suspension of the organism every 2 weeks, as follows: Transfer the organism to a fresh agar slant and incubate at 37° C. overnight. Wash the growth from the slant with the aid of 2 milliliters of sterile distilled water and sterile glass beads into a Roux bottle containing 300 milliliters of the maintenance medium. Incubate overnight at 37° C. and then harvest the growth with 50 milliliters of sterile distilled water and sterile glass beads. Standardize this suspenson by determining the dilution that

will permit 40-percent light transmission in a photoelectric colorimeter using a 650-millimicron filter and an 18-millimeter diameter test tube as an absorption cell. Prepare the daily inoculum by adding 10 milliliters of that dilution to each liter of nutrient broth, prepared as directed in § 141a.1 (b) (3) of this chapter, needed for the test.

(ii) *Working standard and solutions.* Dissolve an appropriate amount of the working standard in sufficient 0.01 *N* HCl to give a concentration of 1,000 micrograms per milliliter. This stock solution may be kept in the refrigerator for 1 week. Make daily dilutions of the stock solution with 0.1 *M* potassium phosphate buffer (pH 4.5) to obtain concentrations of 0.16, 0.20, 0.24, 0.28, and 0.32 microgram per milliliter. Add 1.0 milliliter of each such concentration to each of three 16 millimeters x 125 millimeters test tubes.

(iii) *Preparation of sample.* Dissolve the contents of a representative number of capsules in sufficient 0.01 *N* HCl to give a stock solution of convenient concentration. Further dilute the stock solution with 0.1 *M* potassium phosphate buffer (pH 4.5 to obtain a final concentration of 0.24 microgram per milliliter (estimated). Add 1.0 milliliter of this dilution to each of three 16 millimeters x 125 millimeters test tubes.

(iv) *Procedure.* To each of the 16 millimeters x 125 millimeters test tubes prepared in subdivisions (ii) and (iii) of this subparagraph, add 9.0 milliliters of the inoculated nutrient broth described in subdivision (i) of this subparagraph and place immediately in a 37° C. water bath for 3 to 4 hours. After incubation, add 0.5 milliliter of a 12-percent formaldehyde solution to each tube and read the absorbance values in a suitable photoelectric colorimeter, using a wavelength of 530 millimicrons. Set the instrument at zero absorbance with clear uninoculated broth prepared as described in § 141a.1 (b) (3) of this chapter.

(v) *Estimation of potency.* Plot the average values for each concentration of the standard on arithmetic graph paper with absorbance values on the ordinate and tetracycline concentrations on the abscissa. Construct the best straight line through the points, either by inspection or by means of the following equations:

$$L=\frac{3a+2b+c-e}{5},$$

$$H=\frac{3e+2d+c-a}{5},$$

where:

L = absorbance value for the lowest concentration of the standard curve,
H = absorbance value for the highest concentration of the standard curve,
a, b, c, d, e = average absorbance values for each concentration of the standard curve.

Plot the values obtained for L and H and connect the points with a straight line. Average the absorbance values for the sample and read the tetracycline concentration from the standard curve. Multiply the concentration by appropriate dilution factors to obtain the tetracycline content of the sample. Its content of tetracycline is satisfactory if it is not less than 85 percent of the number of milligrams that it is represented to contain.

(2) *Oleandomycin content.* Proceed as directed in paragraph (c) (1) of this section, except prepare the sample as follows: Dissolve the contents of a representative number of capsules in sufficient 0.1 *M* potassium phosphate buffer (pH 8.0) to give a stock solution of convenient concentration. Further dilute with 0.1 *M* potassium phosphate buffer (pH 8.0) to obtain a final concentration of 5.0 micrograms of oleandomycin base per milliliter (estimated). Its content of oleandomycin is satisfactory if it is not less than 85 percent of the number of milligrams that it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

(c) *Oleandomycin used in making the capsules*—(1) *Potency*—(i) *Cylinders (cups).* Use cylinders described in § 141a.1 (a) of this chapter.

(ii) *Culture media.* (*a*) Use the nutrient agar described in § 141a.1 (b) (1) of this chapter for the seed layer and for maintaining the test organism.

(*b*) Use the nutrient agar described in § 141a.1 (b) (2) of this chapter for the base layer.

(iii) *Working standard.* Dissolve a suitable weighed quantity of the working standard (obtained from the Food and Drug Administration) in sufficient 0.1 *M* potassium phosphate buffer (pH 8.0) to give a concentration of 1,000 micrograms of oleandomycin base per milliliter. This stock solution may be kept in the refrigerator for 3 days.

(iv) *Preparation of sample.* Dissolve the sample in sufficient 0.1 *M* potassium phosphate buffer (pH 8.0) to give a convenient stock solution. Further dilute in 0.1 *M* potassium phosphate buffer (pH 8.0) to give a final concentration of 5.0 micrograms per milliliter (estimated).

(v) *Preparation of test organism.* The test organism is *Micrococcus pyogenes* var. *albus* (ATCC 12228), which is maintained on slants of agar described under subdivision (ii) (*a*) of this subparagraph. Wash the organism from the agar slant with 3 milliliters of sterile physiological saline solution onto a large agar surface such as that provided by a Roux bottle containing 300 milliliters of the agar described in subdivision (ii) (*a*) of this subparagraph. Spread the suspension of organisms over the entire agar surface with the aid of sterile glass beads. Incubate for 24 hours at 32° C. and then wash the resulting growth from the agar surface with about 30 milliliters of sterile physiological saline solution. Standardize the suspension by determining the dilution that will give 80-percent light transmission, using a suitable photoelectric colorimeter with a 650-millimicron filter and an 18-millimeter-diameter test tube as an absorption cell. Run test plates to determine the quantity of the diluted suspension (usually 1.5 milliliters) that should be added to each 100 milliliters of agar to give clear, sharp zones of inhibition of appropriate size.

(vi) *Preparation of plates.* Add 21 millimeters of the agar prepared as described in subdivision (ii) (*b*) of this subparagraph to each Petri dish (20 millimeters x 100 millimeters). Distribute the agar evenly in the plates and allow it to harden. Use the plates the same day they are prepared. Melt a sufficient amount of the agar described in subdivision (ii) (*a*) of this subparagraph, cool to 48° C., add the proper amount of the test organism as described in subdivision (v) of this subparagraph, and mix thoroughly. Add 4 milliliters of this inoculated agar to each Petri dish. Distribute the agar evenly in the plates, cover with porcelain covers glazed on the outside, and allow to harden. After the agar has hardened, place 6 cylinders on the agar surface so that they are at approximately 60° intervals on a 2.8-centimeter radius.

(vii) *Standard curve.* Prepare the daily standard curve by further diluting the 1,000 micrograms per milliliter stock solution in 0.1 *M* potassium phosphate buffer (pH 8.0) to obtain concentrations of 3.2, 4.0, 5.0, 6.25 and 7.81 micrograms per milliliter. Use 3 plates for the determination of each point on the curve, except the 5.0 micrograms per milliliter concentration, a total of 12 plates. On each of 3 plates fill 3 cylinders with the 5.0 micrograms per milliliter standard, and the other 3 cylinders with the concentration under test. Thus, there will be 36 five-microgram determinations and 9 determinations for each of the other points on the curve. After incubation, read the diameters of the circles of inhibition in the plates. Average the readings of the 5.0 micrograms per milliliter concentration and the readings of the point tested for each set of 3 plates and average also all 36 readings of the 5.0 micrograms per milliliter concentration. The average of the 36 readings of the 5.0 micrograms per milliliter concentration is the correction point for the curve. Correct the average value obtained for each point to the figure it would be if the 5.0 micrograms per milliliter reading for that set of 3 plates were the same as the correction point. Thus, if in correcting the 4.0-microgram concentration, the average of the 36 readings of the 5.0-microgram concentration were 20.0 millimeters, and the average of the 5.0-microgram concentration of this set of 3 plates were 19.8 millimeters, the correction would be +0.2 millimeter. If the average reading of the 4.0-microgram concentration of these same 3 plates were 19.0 millimeters, the corrected value would be 19.2 millimeters. Plot these corrected values, including the average of the 5.0 micrograms per milliliter concentration, on 2-cycle semilog paper, using the concentration in micrograms per milliliter as the ordinate (the logarithmic scale) and the diameter of the zone of inhibition as the abscissa. Draw the standard curve through these points, either by inspection or by means of the following equations:

$$L=\frac{3a+2b+c-e}{5},$$

$$H=\frac{3e+2d+c-a}{5},$$

where:

L = corrected zone diameter for the lowest concentration of the standard curve,
H = corrected zone diameter for the highest concentration of the standard curve,
c = average zone diameter of 36 readings of the 5.0 micrograms per milliliter standard,
a, b, d, e = corrected average values for the 3.2, 4.0, 6.25, and 7.81 micrograms per milliliter standard solutions, respectively.

Plot the values obtained for L and H and connect with a straight line.

(viii) *Assay.* Use 3 plates for each sample. Fill 3 cylinders on each plate with the standard 5.0 micrograms per milliliter solution and 3 cylinders with the 5.0 micrograms per milliliter (estimated) sample, alternating standard and sample. Incubate all plates, including those containing the standard curve, at 32° C.–35° C. overnight, and measure the diameter of each circle of inhibition. To estimate the potency of the sample, average the zone readings of the standard and the zone readings of the sample on the 3 plates used. If the sample gives a larger zone size than the average of the standard, add the difference between them to the 5.0 micrograms per milliliter zone on the standard curve. If the average sample value is lower than the standard value, subtract the difference between them from the 5.0 micrograms per milliliter value on the curve. From the standard curve, read the potencies corresponding to these corrected values of zone sizes.

(2) *Toxicity.* Proceed as directed in § 141a.4 of this chapter, except use physiological salt solution as the diluent, and inject 0.5 milliliter of a solution containing 8 milligrams per milliliter.

(3) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

(4) *pH.* Proceed as directed in § 141a.5 (b) of this chapter, using a solution containing 100 milligrams per milliliter.

(5) *Crystallinity.* Proceed as directed in § 141a.5 (c) of this chapter.

2. Part 146c is amended by adding the following new section:

§ 146c.231 *Capsules tetracycline and oleandomycin phosphate*—(a) *Standards of identity, strength, quality, and purity.* Capsules tetracycline and oleandomycin phosphate are capsules that conform to all requirements and procedures prescribed by § 146c.204 for tetracycline capsules, except that:

(1) Each capsule contains not less than 100 milligrams of oleandomycin as the phosphate salt. The oleandomycin used is the crystalline phosphate salt of a kind of oleandomycin, produced by the growth of *Streptomyces antibioticus*. Its potency is not less than 800 micrograms per milligram; it is nontoxic; its moisture content is not more than 5.0 percent; its pH in a solution containing 100 milligrams per milliliter is not less than 3.0 and not more than 6.0.

(2) The moisture content of the capsule is not more than 5 percent.

(3) In addition to the labeling prescribed for tetracycline capsules, each package shall bear on its label and labeling the number of milligrams of oleandomycin (as phosphate) in each capsule of the batch. The expiration date of the drug shall be 24 months.

(4) In addition to complying with the requirements of § 146c.204 (d), a person who requests certification of a batch shall submit with his request a statement showing the batch mark and (unless previously submitted) the results and the date of the latest tests and assays of the oleandomycin phosphate used in making the batch for potency, toxicity, moisture, pH, and crystallinity. He shall also submit in connection with his request a sample consisting of not less than 30 capsules and (unless previously submitted) a sample consisting of 10 packages, each containing approximately equal portions of not less than 300 milligrams of the oleandomycin used in making the batch.

(b) The fee for the services rendered with respect to each container in the samples of oleandomycin submitted in accordance with the requirements prescribed by paragraph (a) (4) of this section shall be $4.00.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: September 21, 1956.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 56-7809; Filed, Sept. 27, 1956; 8:45 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter D—Miscellaneous Excise Taxes

[T. D. 6204]

PART 40—MANUFACTURERS AND RETAILERS EXCISE TAXES

FLOOR STOCKS TAXES ON CERTAIN VEHICLES AND TIRES AND ON TREAD RUBBER AND GASOLINE

The following regulations, effective on and after July 1, 1956, are hereby prescribed under section 4226 of the Internal Revenue Code of 1954, as added by section 207 (a) of the Highway Revenue Act of 1956 (70 Stat. 391):

Sec.
40.4226 Statutory provisions; floor stocks taxes.
40.4226-1 Scope of tax.
40.4226-2 Application of tax.
40.4226-3 Rates of tax.
40.4226-4 Inventory.
40.4226-5 Requirements with respect to return.
40.4226-6 Time for filing return and paying tax.
40.4226-7 Credit or refund.
40.4226-8 Records.

AUTHORITY: §§ 40.4226 to 40.4226-8, issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 40.4226 *Statutory provisions; floor stocks taxes.*

SEC. 4226. *Floor stocks taxes*—(a) *In general*—(1) *1956 tax on trucks, truck trailers, buses, etc.* On any article subject to tax under section 4061 (a) (1) (relating to tax on trucks, truck trailers, buses, etc.) which, on July 1, 1956, is held by a dealer for sale, there is hereby imposed a floor stocks tax at the rate of 2 percent of the price for which the article was purchased by such dealer. If the price for which the article was sold by the manufacturer, producer, or importer is established to the satisfaction of the Secretary or his delegate, then in lieu of the amount specified in the preceding sentence, the tax imposed by this paragraph shall be at the rate of 2 percent of the price for which the article was sold by the manufacturer, producer, or importer.

(2) *1956 tax on tires of the type used on highway vehicles.* On tires subject to tax under section 4071 (a) (1) (as amended by the Highway Revenue Act of 1956) which, on July 1, 1956, are held—

(A) By a dealer for sale,

(B) For sale on, or in connection with, other articles held by the manufacturer, producer, or importer of such other articles, or

(C) For use in the manufacture or production of other articles, there is hereby imposed a floor stocks tax at the rate of 3 cents a pound. The tax imposed by this paragraph shall not apply to any tire which is held for sale by the manufacturer, producer, or importer of such tire or which will be subject under section 4218 (a) (2) or 4219 to the manufacturers excise tax on tires.

(3) *1956 tax on tread rubber.* On tread rubber subject to tax under section 4071 (a) (4) (as amended by the Highway Revenue Act of 1956) which, on July 1, 1956, is held by a dealer, there is hereby imposed a floor stocks tax at the rate of 3 cents a pound. The tax imposed by this paragraph shall not apply in the case of any person if such person establishes, to the satisfaction of the Secretary or his delegate, that all tread rubber held by him on July 1, 1956, will be used otherwise than in the recapping or retreading of tires of the type used on highway vehicles (as defined in section 4072 (c)).

(4) *1956 tax on gasoline.* On gasoline subject to tax under section 4081 which, on July 1, 1956, is held by a dealer for sale, there is hereby imposed a floor stocks tax at the rate of 1 cent a gallon. The tax imposed by this paragraph shall not apply to gasoline in retail stocks held at the place where intended to be sold at retail, nor to gasoline held for sale by a producer or importer of gasoline.

(b) *Overpayment of floor stocks taxes.* Section 6416 shall apply in respect of the floor stocks taxes imposed by this section, so as to entitle, subject to all provisions of section 6416, any person paying such floor stocks taxes to a credit or refund thereof for any of the reasons specified in section 6416.

(c) *Meaning of terms.* For purposes of subsection (a), the terms "dealer" and "held by a dealer" have the meaning assigned to them by section 6412 (a) (3).

(d) *Due date of taxes.* The taxes imposed by subsection (a) shall be paid at such time after September 30, 1956, as may be prescribed by the Secretary or his delegate.

[Sec. 4226 as added by sec. 207 (a), Highway Revenue Act of 1956.]

§ 40.4226–1 *Scope of tax*—(a) *General.* Floor stocks taxes are imposed on any article subject to tax under (1) section 4061 (a) (1) of the Internal Revenue Code of 1954 (relating to trucks, buses, etc., hereinafter referred to as "vehicles"), (2) section 4071 (a) (1) of the Code (relating to tires of the type used on highway vehicles, hereinafter referred to as "highway tires"), (3) section 4071 (a) (4) of the Code (relating to tread rubber), and (4) section 4081 of the Code (relating to gasoline) which are held for sale or other specified disposition at the first moment of July 1, 1956, by a dealer or certain other persons (see § 40.4226–2, relating to application of tax). The taxes do not apply to articles held by the manufacturer, producer, or importer of such articles. The taxes are imposed on articles held for sale or for other specified disposition, and not on their sale or disposition.

(b) *Dealer.* A dealer for purposes of the floor stocks taxes includes a wholesaler, jobber, distributor, or retailer.

(c) *Held by a dealer.* (1) An article subject to floor stocks tax is regarded as held by a dealer if title to the article has passed to the dealer (whether or not delivery has been made), and if for purposes of consumption title to such article or possession thereof has not at any time been transferred to any person other than a dealer. For example, the tax applies to a vehicle mortgaged by the dealer to a finance company as security for a loan even though title or possession as of July 1, 1956, has been transferred to the lender.

(2) If the dealer has title to an article, the article is considered to be held by him even though it is in transit, in storage, or at a distribution point. Where title does not pass until delivery, articles in transit at the first moment of July 1, 1956, are regarded as held by the shipper at that time.

§ 40.4226–2 *Application of tax*—(a) *Vehicles.* (1) The floor stocks tax applies to the following vehicles taxable under section 4061 (a) (1) of the Code (including parts or accessories therefor sold by the manufacturer, producer, or importer of the vehicle on or in connection with the vehicle or with the sale of the vehicle) held at the first moment of July 1, 1956, by a dealer for sale:

(i) Automobile truck and bus chassis and bodies;

(ii) Truck and bus trailer and semitrailer chassis and bodies; and

(iii) Tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer.

(2) The tax does not apply to second-hand vehicles or vehicles which will not be offered for sale.

(3) Motor driven machines of the type designed and adapted for use in pulling or drawing vehicles around the premises of factories and railway stations, and small trucks for handling baggage and trunks at railway stations, as distinguished from automotive vehicles used on highways and roads, are illustrative of vehicles which are not taxable under section 4061 (a) (1) of the Code and thus are not subject to the floor stocks tax.

(b) *Highway tires.* (1) The floor stocks tax applies to tires of the type used on highway motor vehicles, such as automobiles, trucks, buses, highway tractors, and motorcycles, and on vehicles such as trailers (including house trailers) and semitrailers of the type used in connection with highway motor vehicles. Highway tires are subject to the tax if held at the first moment of July 1, 1956, (i) by a dealer for sale; (ii) by a manufacturer, producer, or importer for sale on, or in connection with, other articles manufactured, produced, or imported by him and held by him; or (iii) for use in the manufacture or production of other articles. Thus, a manufacturer, producer, or importer of vehicles incurs liability for the tax on highway tires which are on vehicles held by him for sale or which are held by him in inventory for use in the manufacture or production of vehicles.

(2) The tax does not apply to tires which at the first moment of July 1, 1956, are actually mounted on a vehicle held for sale by a person who is not the manufacturer, producer, or importer of the vehicle. The tax does not apply to used tires as such, nor to recapped tires, unless the recapping has been from bead to bead so that the original tire has lost its identity. The tax also does not apply to bicycle tires. Likewise, the tax does not apply to tires which are neither of the type used on highway motor vehicles nor of the type used on vehicles of the type used in connection with highway motor vehicles. The tax does not apply to tires held for sale by the manufacturer, producer, or importer of such tires. Nor does the floor stocks tax apply to any tires which will be subject under section 4218 (a) (2) or 4219 to the manufacturers excise tax on tires.

(3) The tax applies to tires which are made wholly or in part of rubber, including synthetic or substitute rubber.

(4) The tax is computed on the total weight of the tire, including fractional parts of a pound, but excluding metal rims or rim bases.

(5) Any person liable for the floor stocks tax on tires may be guided by schedules furnished by the manufacturer, producer, or importer of such tires as to which tires manufactured, produced, or imported by him are subject to floor stocks tax and the taxable weight of such tires, provided such schedules are based upon the latest method of classification and determination of weight of tires as approved by the Commissioner.

(c) *Tread rubber.* (1) The floor stocks tax applies to tread rubber held at the first moment of July 1, 1956, by any person (other than the manufacturer, producer, or importer of the tread rubber) for either sale or use.

(2) The term "tread rubber" means any material which is commonly or commercially known as tread rubber or camelback, or which is a substitute for such material and is of a type used in recapping or retreading tires.

(3) Any person (other than the manufacturer, producer, or importer of the tread rubber) who holds tread rubber for sale or use at the first moment of July 1, 1956, incurs liability for the tax on such tread rubber and must report and pay the tax thereon unless he can show that all the tread rubber held by him at such time will be used for a purpose other than the recapping or retreading of highway tires. If any of the tread rubber held by such person is to be used in the recapping or retreading of highway tires, the tax applies to all the tread rubber held by him at the first moment of July 1, 1956. However, credit or refund of the tax may be claimed, as provided in sections 4226 (b) and 6416 of the Code, by the person paying the tax with respect to tread rubber which is used or resold for use other than in the recapping or retreading of highway tires. See § 40.4226–7, relating to credit or refund of floor stocks tax.

(d) *Gasoline.* (1) The floor stocks tax applies to gasoline held at the first moment of July 1, 1956, by a dealer for sale.

(2) The term "gasoline" means all products commonly or commercially known or sold as gasoline (including casinghead and natural gasoline).

(3) The tax does not apply to retail stocks of gasoline held in those tanks from which it is delivered direct through gasoline pumps to the ultimate consumer. However, the tax applies to gasoline held in bulk storage tanks for replenishment of the supply in the tanks serving the retail gasoline pumps, even though such gasoline may be held in storage tanks or in tank cars on premises occupied by a retail establishment.

(4) The tax does not apply to gasoline held by any person for his own use rather than for sale, nor does the tax apply to gasoline held by a producer or importer of gasoline.

§ 40.4226–3 *Rates of tax.* The rates of the floor stocks taxes are:

(a) *Vehicles.* (1) 2 percent of the price at which the vehicle was purchased. In determining the price at which the vehicle was purchased, there shall be included any separate charge made for parts or accessories sold by the manufacturer, producer, or importer of the vehicle on or in connection with the vehicle or with the sale of the vehicle. The price at which the vehicle was purchased shall include also any cost to the holder of the floor stocks in obtaining delivery of the vehicle to him.

(2) The tax may be computed at 2 percent of the price at which the vehicle was sold by the manufacturer, producer, or importer, if the holder of the floor stocks is able to identify the manufacturer, producer, or importer and establishes to the satisfaction of the district director of internal revenue the price at which the vehicle was sold by the manufacturer, producer, or importer. Section 4216 of the Code contains the rules for determining the price at which the vehicle was sold by the manufacturer, producer, or importer. In determining the price at which the vehicle was sold by the manufacturer, producer, or importer on which to base the floor stocks tax, the pertinent provisions of the manufacturers excise tax regulations shall apply. In general, this consists of the manufacturer's, producer's, or importer's actual price at the point of distribution or sale. In determining the price there shall be included any charge incident to placing the vehicle in condition packed ready for shipment. There shall be excluded (i) the amount of the manufacturers excise tax under section 4061 (a) (1) of the Code, whether or not billed as a separate item, and (ii) transportation, delivery, insurance, installation, or other charges (not required by the preceding sentence to be included).

(b) *Highway tires.* 3 cents per pound on the total weight of the highway tire. See § 40.4226–2 (b) (4) for determining total weight.

(c) *Tread rubber.* 3 cents per pound on the total weight of the tread rubber.

(d) *Gasoline.* 1 cent per gallon.

§ 40.4226–4 *Inventory.* (a) Every person liable for the floor stocks tax on vehicles, highway tires, tread rubber, or gasoline shall prepare an inventory of such articles held at the first moment of July 1, 1956. Persons holding articles subject to the tax at more than one location shall prepare a separate inventory, in duplicate, for each such location. One copy of the separate inventory shall be retained at such location and one copy shall be kept at the address shown on the return for the floor stocks tax. Each inventory shall show the name of the taxpayer, the location of the particular premises for which the inventory is made, and the address shown on the tax return. The inventories shall not be filed with the return but shall be retained by the taxpayer at the address shown on his return.

(b) The inventory shall consist of the following information with respect to articles subject to tax:

(1) (i) A description of each vehicle, including serial number or other manufacturer's number, in sufficient detail to permit positive identification of the vehicle and (ii) the price at which the vehicle was purchased by the person liable for the tax, or the price at which the vehicle was sold by the manufacturer, producer, or importer, if that can be established.

(2) The trade name, grade, size, number of plies, and weight of highway tires.

(3) The crown width, gauge, and weight of tread rubber.

(4) The total number of gallons of gasoline.

§ 40.4226–5 *Requirements with respect to return*—(a) *Form.* Every person liable for the floor stocks tax on vehicles, highway tires, tread rubber, or gasoline shall make a return of such tax on Form 2265.

(b) *Place for filing returns by persons other than corporations.* The return of a person other than a corporation shall be filed with the district director of internal revenue for the district in which is located the principal place of business or legal residence of such person. If such person has no principal place of business or legal residence in any internal revenue district, the return shall be filed with the District Director at Baltimore, Maryland.

(c) *Place for filing returns by corporations.* The return of a corporation shall be filed with the district director for the district in which is located the principal place of business or principal office or agency of the corporation. If the corporation has no principal place of business or principal office or agency in any internal revenue district, the return shall be filed with the District Director at Baltimore, Maryland.

§ 40.4226–6 *Time for filing return and paying tax.* The return with remittance of the tax due, shall be filed on or before October 15, 1956. The tax is due and payable without assessment or notice from the district director. For additions to the tax for failure to file a return within the prescribed time, see section 6651 of the Code and the regulations thereunder.

§ 40.4226–7 *Credit or refund.* A claim on Form 843 for credit or refund may be filed by any person who makes an overpayment of the floor stocks tax. Any person who has paid a floor stocks tax may be entitled, subject to all the provisions of section 6416 of the Code, to a credit or refund of the tax for any of the reasons specified in section 6416, such as where the price of the vehicle on which the tax was based is readjusted, as provided in section 6416 (b) (1). Likewise, subject to the conditions provided in section 6416 (a), where the vehicle, highway tire, tread rubber, or gasoline is used or resold for use for any of the purposes specified (a) in section 6416 (b) (2) (A), relating to resale for the exclusive use of a State, Territory of the United States, or any political subdivision of the foregoing, or the District of Columbia; (b) in section 6416 (b) (2) (B), relating to use or resale for use of certain supplies for vessels and aircraft; (c) in section 6416 (b) (2) (H), relating to use of gasoline in the production of special motor fuels; or (d) in section 6416 (b) (2) (M), relating to use or resale for use of tread rubber otherwise than in the recapping or retreading of tires of the type used on highway vehicles.

§ 40.4226–8 *Records*—(a) *Inventories.* Every person liable for floor stocks taxes shall maintain records of the separate inventories required by § 40.4226–4.

(b) *Copies of returns and other relevant papers and material.* Every person liable for floor stocks taxes shall keep a duplicate copy of the return, together with other relevant papers and material.

(c) *Records of claimants.* Every person claiming refund, credit, or abatement of the tax, interest, additional amount, addition to the tax or assessible penalty, shall keep a complete and detailed record with respect to the claim.

(d) *Place and period for keeping records.* (1) All records required by the regulations in this section shall be kept, by the person required to keep them, at a convenient and safe location within the United States which is accessible to internal revenue officers. Such records shall at all times be available for inspection by such officers. If such person has a principal place of business in the United States, the records shall be kept at such place of business.

(2) Records required by paragraphs (a) and (b) of this section shall be maintained for a period of at least 3 years after the date the tax becomes due or the date the tax is paid, whichever is the later. Records required by paragraph (c) of this section (including any record required by paragraph (a) or (b) of this section which relates to a claim) shall be maintained for a period of at least 3 years after the date the claim is filed.

Because this Treasury decision relates to floor stocks taxes imposed on certain vehicles and tires, and on tread rubber and gasoline, held at the first moment of July 1, 1956, it is hereby found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of such act.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: September 24, 1956.

W. RANDOLPH BURGESS,
Acting Secretary of the Treasury.

[F. R. Doc. 56–7826; Filed, Sept. 27, 1956; 8:49 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

Subchapter B of the Renegotiation Board regulations is amended in the following respects:

PART 1451—SCOPE OF RENEGOTIATION BOARD REGULATIONS UNDER THE RENEGOTIATION ACT OF 1951, AND DEFINITIONS APPLICABLE THERETO

This part is amended in the following respects:

1. Section 1451.14 *"Department"* is deleted in its entirety and the following is inserted in lieu thereof:

§ 1451.14 *"Department".* (a) To and including December 31, 1956, the term "Department" means the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the Department of Commerce, the General Services Administration, the Atomic Energy Commission, the Reconstruction Finance Corporation, the Canal Zone Government, the Panama Canal Company, the Housing and Home Finance Agency, the Federal Civil Defense Administration, the National Advisory Committee for Aeronautics, the Tennessee Valley Authority, the United States Coast Guard, the Defense Materials Procurement Agency, the Bureau of Mines, the (United States) Geological Survey, the Bonneville Power Administration, the Bureau of Reclamation, the Federal Facilities Corporation, and such other agencies of the Government exercising

functions having a direct and immediate connection with the national defense as the President shall designate.

(b) After December 31, 1956, the term "Department" means the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the Maritime Administration, the Federal Maritime Board, the General Services Administration, the Atomic Energy Commission, and any other agency of the Government exercising functions having a direct and immediate connection with the national defense which is designated by the President during a national emergency proclaimed by the President, or declared by the Congress, after August 1, 1956; but any such designation shall cease to be in effect on the last day of the month during which such national emergency is terminated.

2. Section 1451.15 *"Secretary"* is deleted in its entirety and the following is inserted in lieu thereof:

§ 1451.15 *"Secretary".* (a) To and including December 31, 1956, the term "Secretary" means the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Commerce, the Administrator of General Services, the Atomic Energy Commission, the Administrator of the Reconstruction Finance Corporation, the Governor of the Canal Zone, the President of the Panama Canal Company, the Housing and Home Finance Administrator, the Administrator of Federal Civil Defense, the Chairman of the National Advisory Committee for Aeronautics, the Chairman of the Board of Directors of the Tennessee Valley Authority, the Commandant of the United States Coast Guard, the Administrator of the Defense Materials Procurement Agency, the Director of the Bureau of Mines, the Director of the (United States) Geological Survey, the Administrator of Bonneville Power, the Commissioner of Reclamation, the Administrator of the Federal Facilities Corporation, and the head of any other agency of the Government which the President shall designate pursuant to section 103 (a) of the act.

(b) After December 31, 1956, the term "Secretary" means the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Commerce (with respect to the Maritime Administration), the Federal Maritime Board, the Administrator of General Services, the Atomic Energy Commission, and the head of any other agency of the Government which the President shall designate as a Department pursuant to section 103 (a) of the act.

PART 1452—PRIME CONTRACTS AND SUBCONTRACTS WITHIN THE SCOPE OF THE ACT

This part is amended in the following respects:

1. Section 1452.1 *General coverage of the act* is amended by deleting paragraph (a) in its entirety and inserting in lieu thereof the following:

(a) *Coverage through December 31, 1956* — (i) *Statutory provisions.* (i) Section 102 (a) of the act, as effective through December 31, 1956, provides as follows:

In general. The provisions of this title shall be applicable (1) to all contracts with the Departments specifically named in section 103 (a), and related subcontracts, to the extent of the amounts received or accrued by a contractor or subcontractor on or after the first day of January 1951, whether such contracts or subcontracts were made on, before, or after such first day, and (2) to all contracts with the Departments designated by the President under section 103 (a), and related subcontracts, to the extent of the amounts received or accrued by a contractor or subcontractor on or after the first day of the first month beginning after the date of such designation, whether such contracts or subcontracts were made on, before, or after such first day; but the provisions of this title shall not be applicable to receipts or accruals attributable to performance, under contracts or subcontracts, after December 31, 1953. ["1953" changed to "1954" by Sec. 1, Pub. Law 764, 83d Cong., approved September 1, 1954; changed to "1956" by Sec. 1, Pub. Law 216, 84th Cong., approved August 3, 1955.]

(ii) Section 103 (a) of the act, as effective through December 31, 1956, provides as follows:

Department. The term "Department" means the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the Department of Commerce, the General Services Administration, the Atomic Energy Commission, the Reconstruction Finance Corporation, the Canal Zone Government, the Panama Canal Company, the Housing and Home Finance Agency, and such other agencies of the Government exercising functions having a direct and immediate connection with the national defense as the President shall designate.

2. Section 1452.1 *General coverage of the act* is further amended by redesignating paragraph (b) as subparagraph (2); by renumbering subparagraphs (1), (2), (3), (4) and (5) thereof as subdivisions (i), (ii), (iii), (iv), and (v); and by adding a new paragraph (b) to read as follows:

(b) *Coverage after December 31, 1956*—(1) *Statutory provisions.* (i) Section 102 (a) of the act, as amended by Pub. Law 870, 84th Cong., approved August 1, 1956, effective December 31, 1956, provides as follows:

In general. The provisions of this title shall be applicable (1) to all contracts with the Departments specifically named in section 103 (a), and related subcontracts, to the extent of the amounts received or accrued by a contractor or subcontractor on or after the first day of January 1951, whether such contracts or subcontracts were made on, before, or after such first day, and (2) to all contracts with the Departments designated by the President under section 103 (a), and related subcontracts, to the extent of the amounts received or accrued by a contractor or subcontractor on or after the first day of the first month beginning after the date of such designation, whether such contracts or subcontracts were made on, before, or after such first day.

(ii) Section 103 (a) of the act, as amended by Public Law 870, 84th Cong., approved August 1, 1956, effective December 31, 1956, provides as follows:

Department. The term "Department" means the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the Maritime Administration, the Federal Maritime Board, the General Services Administration, and the Atomic Energy Commission. Such term also includes any other agency of the Government exercising functions having a direct and immediate connection with the national defense which is designated by the President during a national emergency proclaimed by the President, or declared by the Congress, after the date of the enactment of the Renegotiation Amendments Act of 1956; but such designation shall cease to be in effect on the last day of the month during which such national emergency is terminated.

(iii) Section 102 (c) of the act, as amended by Pub. Law 870, 84th Con., approved August 1, 1956, effective December 31, 1956, provides as follows:

(c) *Termination*—(1) *In general.* The provisions of this title shall apply only with respect to receipts and accruals, under contracts with the Departments and related subcontracts, which are determined under regulations prescribed by the Board to be reasonably attributable to performance prior to the close of the termination date. Notwithstanding the method of accounting employed by the contractor or subcontractor in keeping his records, receipts or accruals determined to be so attributable, even if received or accrued after the termination date, shall be considered as having been received or accrued not later than the termination date. For the purposes of this title, the term "termination date" means December 31, 1958.

(2) *Termination of status as Department.* When the status of any agency of the Government as a Department within the meaning of section 103 (a) is treminated, the provisions of this title shall apply only with respect to receipts and accruals, under contracts with such agency and related subcontracts, which are determined under regulations prescribed by the Board to be reasonably attributable to performance prior to the close of the status termination date. Notwithstanding the method of accounting employed by the contractor or subcontractor in keeping his records, receipts or accruals determined to be so attributable, even if received or accrued after the status termination date, shall be considered as having been received or accrued not later than the status termination date. For the purposes of this paragraph, the term "status termination date" means, with respect to any agency, the date on which the status of such agency as a Department within the meaning of section 103 (a) is terminated.

3. Section 1452.2 *Application of the act to prime contracts* is deleted in its entirety and the following is inserted in lieu thereof:

§ 1452.2 *Application of the act to prime contracts.* Except as exempted pursuant to section 106 of the act (see Parts 1453, 1454 and 1455 of this subchapter), and except as set forth in § 1457.3 of this subchapter, all contracts with the following Departments are subject to renegotiation under the act to the extent of amounts received or accrued on or after the applicable date, indicated below, and attributable to performance before the close of the termination date of the act or the status termination date indicated below (see section 102 (c) of the act):

Department, Applicable Date, and Status Termination Date
Department of Defense, January 1, 1951.
Department of the Army, January 1, 1951.
Department of the Navy, January 1, 1951.
Department of the Air Force, January 1, 1951.
General Services Administration, January 1, 1951.
Atomic Energy Commission, January 1, 1951.
Department of Commerce, January 1, 1951, December 31, 1956 (except Maritime Administration and Federal Maritime Board).
Reconstruction Finance Corporation, January 1, 1951, December 31, 1956.
Canal Zone Government, January 1, 1951, December 31, 1956.
Panama Canal Company, January 1, 1951, December 31, 1956.
Housing and Home Finance Agency, January 1, 1951, December 31, 1956.
Federal Civil Defense Administration, July 1, 1951, December 31, 1956.
National Advisory Committee for Aeronautics, July 1, 1951, December 31, 1956.
Tennessee Valley Authority, July 1, 1951, December 31, 1956.
United States Coast Guard, July 1, 1951, December 31, 1956.
Defense Materials Procurement Agency, October 1, 1951, December 31, 1956.
Bureau of Mines, October 1, 1951, December 31, 1956.
(United States) Geological Survey, October 1, 1951, December 31, 1956.
Bonneville Power Administration, November 1, 1951, December 31, 1956.
Bureau of Reclamation, July 1, 1952, December 31, 1956.
Federal Facilities Corporation, October 1, 1954, December 31, 1956.

PART 1453—MANDATORY EXEMPTIONS FROM RENEGOTIATION

SUBCONTRACTS UNDER EXEMPT CONTRACTS AND SUBCONTRACTS

This part is amended by deleting in its entirety § 1453.6 *Subcontracts under exempt contracts and subcontracts* and inserting in lieu thereof the following:

§ 1453.6 *Subcontracts under exempt contracts and subcontracts*—(a) *Statutory provision.* Section 106 (a) (7) of the act exempts the following:

(7) any subcontract directly or indirectly under a contract or subcontract to which this title does not apply by reason of *any paragraph, other than paragraph* (1), (5), or (8) *of this subsection;* [Matter in italics added by sec. 5 (a) of Pub. Law 764, 83d Cong., approved September 1, 1954, as amended by sec. 8 (a), Pub. Law 870, 84th Cong., approved August 1, 1956. The latter amendment added the reference to paragraphs (1) and (5) and applies only with respect to subcontracts made after June 30, 1956.]

(b) *Interpretation and application.* (1) The foregoing exemption applies only when the subcontract is under a prime contract or subcontract exempted by any paragraph of section 106 (a) of the act, other than paragraph (1), (5), or (8). Thus, a subcontract under a prime contract or subcontract for a standard commercial article or service exempted under paragraph (8) is not exempt under paragraph (7); a subcontract made after June 30, 1956, under a prime contract with, for example, a State or municipal corporation exempted under paragraph (1), is not exempt under paragraph (7); and a subcontract made after June 30, 1956, under a prime contract or subcontract with, for example, a tax-exempt charitable institution exempted under paragraph (5), is not exempt under paragraph (7). The exemption in paragraph (7) does not apply to subcontracts under prime contracts or subcontracts for (i) standard commercial articles or services exempted under section 106 (c), or (ii) new durable productive equipment partially exempted under section 106 (c) of the act.

(2) Subcontracts for the furnishing of packaging materials and containers in which there are delivered materials or products pursuant to prime contracts or subcontracts which are exempt under any paragraph of section 106 (a) of the act, except paragraph (1), (5), or (8) thereof, are subcontracts under exempt contracts, and are exempt from renegotiation.

(3) Certain subcontracts related to prime contracts which the Board has exempted pursuant to section 106 (d) of the act, have also been exempted by the Board. (See § 1455.7 of this subchapter.)

PART 1455—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

1. Section 1455.2 *Prime contracts and subcontracts to be performed outside of the United States* is amended in the following respects:

(1) Paragraph (b) is amended by deleting *"Exemption.* Subject to the limitation provided in paragraph (c) of this section, the Board has exempted from the provisions of the act:" and inserting in lieu thereof *"Exemption through June 30, 1956.* Subject to the limitation provided in paragraph (c) of this section, the Board has exempted from the provisions of the act, with respect to amounts received or accrued to and including June 30, 1956, the following:".

(2) A new paragraph (c–1) is inserted after paragraph (c) to read as follows:

(c–1) *Exemption after June 30, 1956.* (1) The Board has exempted from the provisions of the act, with respect to amounts received or accrued after June 30, 1956, all prime contracts and subcontracts wholly performed outside the United States by any person who is not engaged in a trade or business in the United States and is—

(i) An individual who is not a national of the United States;

(ii) A partnership or joint venture in which individuals who are not nationals of the United States or corporations which are not domestic corporations are entitled to more than 50 percent of the profits; or

(iii) A corporation (other than a domestic corporation) more than 50 percent of the voting stock of which is owned directly or indirectly by persons described in subdivisions (i) and (ii) of this subparagraph.

For the purposes of this paragraph, the term "United States", when used in a geographical sense, includes the Territories and possessions of the United States, the Commonwealth of Puerto Rico, and the Canal Zone, and the term "domestic corporation" means a corporation organized under the laws of the United States or of any State, any Territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Canal Zone.

(2) Interpretation and illustrations: The exemption provided in this paragraph will not apply unless all of the requirements described in subparagraph (1) of this paragraph are met at all times during the performance of the contract. If the contractor fails to meet any of these requirements at any time during the performance of the contract, the entire amount received or accrued under the contract will be subject to renegotiation. For example:

(i) The exemption will not apply to any prime contract or subcontract for sea or air transportation or cargo carriage from any point in the United States to a point outside the United States, or vice versa.

(ii) An individual who is not a national of the United States enters into a prime contract with the Navy requiring three years to perform. The contract is wholly performed outside the United States, but during the last month of performance the contractor becomes a national of the United States. The exemption does not apply and the entire receipts or accruals under the contract, if not otherwise exempt, are subject to renegotiation.

(iii) A partnership in which one member is a national of the United States and two members are nationals of Canada enters into a prime contract with the Navy. If at any time during the performance of the contract the United States national becomes entitled to more than 50 percent of the profits, the exemption does not apply and the entire receipts or accruals under the contract, if not otherwise exempt, are subject to renegotiation.

(iv) A corporation, all of the shares of which are owned by nationals of the United States, is incorporated in Canada. The corporation forms a wholly owned Canadian subsidiary. Any prime contract or related subcontract wholly performed by the subsidiary outside the United States is exempt under this paragraph.

(v) A corporation, all of the shares of which are owned by Canadian nationals, is incorporated in Canada. All of the property of the corporation is located in Canada and all of its business is conducted in Canada, with the exception of a sales office in the United States. The exemption does not apply to any prime contract or related subcontract of the corporation, even though wholly performed in Canada.

2. Section 1455.3 *Contracts under which profits can be determined at time contract price is established* is amended by striking out paragraph (b) (6) in its entirety and inserting in lieu thereof the following:

(6) *Subcontracts for architectural, design or engineering services.* Subcontracts described in section 103 (g) (3) (A) and (B) of the act for architectural, design or engineering services, no part of which services is or was related to the

effecting or procuring of a contract with a Department or a subcontract, if the aggregate renegotiable business of the subcontractor holding such subcontracts and all persons under control of or controlling or under common control with such subcontractor during a fiscal year of 12 months is not more than $250,000, in the case of a fiscal year ending before June 30, 1953, or $500,000, in the case of a fiscal year ending on or after June 30, 1953, or $1,000,000, in the case of a fiscal year ending after June 30, 1956, or, during a fiscal year which is a fractional part of 12 months, is not more than the same fractional part of $250,000, $500,000, or $1,000,000, as the case may be: *Provided, however,* That such subcontractor is not exempted from the provisions of the first sentence of section 105 (e) (1) of the act which require the filing of the Standard Form of Contractor's Report prescribed in § 1470.3 (a) of this subchapter, if such provisions are otherwise applicable to such subcontractor.

3. Section 1455.6 *Subcontracts as to which it is not administratively feasible to segregate profits* is amended as follows:

(1) Paragraph (b) is amended by deleting from the caption the words "January 1, 1957" and inserting in lieu thereof the words "January 1, 1958."

(2) Paragraph (b) is further amended by deleting the date "January 1, 1957" and inserting in lieu thereof the date "January 1, 1958".

PART 1456—METHODS OF SEGREGATING RENEGOTIABLE AND NON-RENEGOTIABLE SALES

This part is amended by inserting in § 1456.3 *How to determine receipts or accruals subject to renegotiation; generally,* in the seventh sentence of paragraph (b) (1) thereof, after "section 106 (a) (8)" the following: "or (e)".

PART 1457—FISCAL YEAR BASIS FOR RENEGOTIATION AND EXCEPTIONS

This part is amended in the following respects:

1. Section 1457.8 *Profit or loss in other years* is amended as follows:

(a) The heading of the section is changed to read as follows: "*Losses on renegotiable business in other years: extent allowable in fiscal years ending before December 31, 1956*".

(b) In paragraph (a), "Section 103 (f) of the act provides in part as follows:" is deleted and the following is inserted in lieu thereof: "With respect to fiscal years ending before December 31, 1956, section 103 (f) of the act provides in part as follows:".

(c) The first sentence of the statutory provision set forth in paragraph (a) is deleted in its entirety; and in the second sentence, "any fiscal year," is deleted and "any fiscal year *ending before December 31, 1956,*" is inserted in lieu thereof.

(d) At the end of paragraph (a), the following is added: "[Matter in italics added by Pub. Law 870, 84th Cong., approved August 1, 1956.]"

(e) In paragraph (b), the first sentence is deleted in its entirety and the following is inserted in lieu thereof: "Except as provided in this section, any loss sustained by the contractor on renegotiable business in years other than the year under review shall not be used as an accounting offset or adjustment in the determination of excessive profits for the year under review."

2. A new § 1457.9 is added to read as follows:

§ 1457.9 *Losses on renegotiable business in other years: extent allowable in fiscal years ending on or after December 31, 1956*—(a) *Statutory provision.* With respect to fiscal years ending on or after December 31, 1956, section 103 (m) of the act provides as follows:

(m) *Two-Year Loss Carryforward*—(1) *Allowance.* Notwithstanding any other provision of this section, the renegotiation loss deduction for any fiscal year ending on or after December 31, 1956, shall be allowed as an item of cost in such fiscal year, under regulations of the Board.

(2) *Definitions.* For the purposes of this subsection—

(A) The term "renegotiation loss deduction" means, for any fiscal year ending on or after December 31, 1956, the sum of the renegotiation loss carryforwards to such fiscal year from the preceding two fiscal years.

(B) The term "renegotiation loss" means for any fiscal year, the excess, if any, of costs (computed without the application of this subsection and the third sentence of subsection (f)) paid or incurred in such fiscal year with respect to receipts or accruals subject to the provisions of this title over the amount of receipts or accruals subject to the provisions of this title which were received or accrued in such fiscal year, but only to the extent that such excess did not result from gross inefficiency of the contractor or subcontractor.

(3) *Amount of carryforwards.* A renegotiation loss for any fiscal year (hereinafter in this paragraph referred to as the "loss year") shall be a renegotiation loss carryforward to the first fiscal year succeeding the loss year. Such renegotiation loss, after being reduced (but not below zero) by the profits derived from contracts with the Departments and subcontracts in the first fiscal year succeeding the loss year, shall be a renegotiation loss carryforward to the second fiscal year succeeding the loss year. For the purposes of the preceding sentence, the profits derived from contracts with the Departments and subcontracts in the first fiscal year succeeding the loss year shall be computed as follows:

(A) If such first fiscal year ends on or after December 31, 1956, such profits shall be computed by determining the amount of the renegotiation loss deduction for such first fiscal year without regard to the renegotiation loss for the loss year.

(B) If such first fiscal year ends before December 31, 1956, such profits shall be computed without regard to any renegotiation loss for the loss year or any fiscal year preceding the loss year.

[This subsection (m) added by Pub. Law 870, 84th Cong., approved August 1, 1956.]

(b) *In general.* Except as provided in this section, losses on renegotiable business in years other than the one under review shall not be used as an accounting offset or adjustment in the determination of excessive profits for the year under review.

(c) *Interpretation.* (1) Any amount carried forward to the fiscal year under review from a preceding fiscal year is a "renegotiation loss carryforward" to the fiscal year under review. The sum of the renegotiation loss carryforwards to the fiscal year under review is the "renegotiation loss deduction" for such fiscal year and is the amount which, under these regulations, is allowed as an item of cost in the fiscal year under review. If the contractor sustains renegotiation losses in two consecutive years, the losses of both years are allowed as a cost in the third year and thus offset against any renegotiable profits in such third year. If the contractor has a renegotiation loss in the first year, renegotiable profits in the second year, and renegotiable profits in the third year, the loss of the first year is reduced by the profits of the second year before being carried forward and applied against the profits of the third year.

(2) Once a renegotiation loss has been carried forward into a later year and allowed as a cost therein, thereby reducing the profits of such later year, the profits as so reduced will be the amount by which a renegotiation loss for the fiscal year immediately preceding such later year is reduced before being carried forward to the fiscal year immediately succeeding such later year. This is of significance only when two consecutive loss years have been followed by two consecutive profit years, and the renegotiation loss deduction for the fourth year is being computed, as illustrated in paragraph (e) (2) of this section.

(d) *Limitations.* (1) The renegotiation loss deduction provided in section 103 (m) of the act is not allowable as a cost in any fiscal year ending before December 31, 1956. Accordingly, if the fiscal year intervening between a loss year and the year under review is one which ends before December 31, 1956, the profits of such intervening year will be computed without any deduction for any renegotiation losses sustained in the loss year or in any fiscal year preceding the loss year. This is illustrated in paragraph (e) (3) of this section.

(2) In computing the amount of a renegotiation loss carryforward, the renegotiation loss for any fiscal year is not reduced below zero by the profits of the first fiscal year succeeding the loss year. This means that the loss is reduced only to the point where the full amount of the loss is eliminated—i. e., the zero point. For example, assume a loss of 20 in 1955 and profits of 30 in 1956. The loss of 20 is reduced only to the zero point; the remaining 1956 profits of 10 are not used.

(3) In computing the amount of an over-all renegotiation loss, any losses resulting from gross inefficiency of the contractor or subcontractor will be excluded.

(4) Any prime contractor claiming allowance of a renegotiation loss deduction must show that it has reasonably pursued all remedies afforded by any agency of the Government for obtaining relief from such loss.

(e) *Application.* The operation of the two-year loss carryforward provision of the act may be illustrated by the following examples (figures in parentheses indicating losses):

(1) *Example.*

Item	Fiscal year ending Dec. 31—		
	1954	1955	1956
Renegotiable receipts	300	200	275
Cost (without carryforward)	220	230	200
Profit or loss (without carryforward)	(20)	(30)	75
Carryforward of 1954 loss	-----	(20)	(30)
Carryforward of 1955 loss	-----	-----	(30)

Explanation. The losst of 20 in 1954 is first carried forward to 1955. Since that year is also a loss year, the entire amount of the 1954 loss is still available as a carryforward to 1956. The loss of 30 in 1955 is also carried forward to 1956. The sum of such two carryforwards, aggregating 50, represents the renegotiation loss deduction for 1956 and is allowed as a cost in that year, thereby reducing renegotiable profits in 1956 from 75 to 25.

(2) *Example.*

Item	Fiscal year ending Dec. 31—			
	1954	1955	1956	1957
Renegotiable receipts	100	100	100	100
Costs (without carryforward)	120	125	70	80
Profit or loss (without carryforward)	(20)	(25)	30	20
Carryforward of 1954 loss	-----	(20)	(20)	-----
Carryforward of 1955 loss	-----	-----	(25)	(15)

Explanation. The loss of 20 in 1954 and the loss of 25 in 1955, aggregating 45, are both carried forward to 1956 and allowed as a cost in that year, thereby completely eliminating renegotiable profits in 1956. With respect to 1957, the renegotiation loss deduction for that year is computed as follows: The loss of 25 in 1955 is first carried forward to 1956, and is reduced by the profits in that year before being carried forward to 1957. For this purpose, in computing 1956 profits, the loss in 1955 is ignored but the 1954 loss of 20 is taken into consideration (see paragraph (c) (2) of this section), thus reducing the 1956 profit of 30 to 10. It is by this amount that the 1955 loss of 25, when carried forward to 1957, is reduced. Since 1956 is not a loss year, no additional amount is carried forward from that year to 1957. Accordingly, the renegotiation loss deduction for 1957 is 15.

(3) *Example.*

Item	Fiscal year ending Dec. 31—			
	1953	1954	1955	1956
Renegotiable receipts	100	100	100	100
Costs (without carryforward)	120	125	70	80
Profit or loss (without carryforward)	(20)	(25)	30	20
Carryforward of 1953 loss	-----	-----	-----	-----
Carryforward of 1954 loss	-----	-----	(25)	-----

Explanation. This example illustrates the limitation described in paragraph (d) (1) of this section. It will be observed that the basic figures are the same as those in the example set forth in subparagraph (2) of this paragraph, but that the 1953 loss is not carried forward. The loss of 25 in 1954 is carried forward to 1955 and is completely absorbed by the profits of 30 in that year, so that no part of such loss remains to be carried forward to 1956. The renegotiation loss deduction for 1956 is, therefore, zero.

(4) *Example.*

Item	Fiscal year			
	July 1 to Dec. 31, 1954	Jan. 1 to Dec. 31, 1955	Jan. 1 to Dec. 31, 1956	Jan. 1 to Dec. 31, 1957
Renegotiable receipts	100	100	100	100
Costs (without carryforward)	120	125	70	80
Profit or loss (without carryforward)	(20)	(25)	30	20
Carryforward of July-Dec. 1954 loss	-----	(20)	(20)	-----
Carryforward of 1955 loss	-----	-----	(25)	(15)

Explanation. In this example, all of the basic figures and results are the same as those in the example set forth in subparagraph (2) of this paragraph, but the first loss shown occurs in a fiscal year running only from July 1 to December 31, 1954. Since the renegotiation loss deduction for 1956 is limited to the sum of the loss carryforwards from the preceding two fiscal years only, no account is taken of loss, if any, sustained in the first half of 1954.

(f) *Proration of renegotiation loss among fiscal years.* When the 24 months immediately following the close of the fiscal year in which an over-all renegotiation loss was sustained are included in more than two consecutive fiscal years of the contractor, such loss will be prorated over such 24 months and a prorata share of such loss will be allowed as a cost in each of such fiscal years which includes any part of such 24 months if, in the opinion of the Board, the allowance of such cost in more than two such fiscal years is necessary to avoid inequity and undue hardship.

(g) *Allowance upon acquisition of business.* When a contractor acquires the business of another contractor within 24 months after the close of a fiscal year in which such other contractor sustained an over-all renegotiation loss, the acquiring contractor will be allowed to charge such loss as a cost if, in the opinion of the Board, such allowance is necessary to avoid inequity and undue hardship. Acquisitions within the scope of this paragraph include those effected by inheritance, transfer or exchange, either inter vivos or by operation of law, including transfer or exchange of physical assets or of rights of ownership. The principles of paragraph (f) of this section will be applied in an equitable manner in prorating the amount of any such loss between the contractor which sustained the loss and the acquiring contractor. In determining whether the acquiring contractor would suffer inequity and undue hardship in the case of acquisitions other than by inheritance or by operation of law, the primary consideration will be whether, during the fiscal year with respect to which such cost is claimed, the acquiring contractor is owned, directly or indirectly, by the same individual or substantially the same individuals who, as shareholders, partners or otherwise, owned such other contractor during the fiscal year in which the over-all loss was sustained.

PART 1458—RECEIPTS OR ACCRUALS UNDER STATUTORY MINIMUM

This part is amended in the following respects:

1. Section 1458.1 *Statutory provision* is amended as follows:

(a) After "*after June 30, 1953,*" wherever appearing in paragraph (1) set forth therein, the following is inserted: "*or $1,000,000, in the case of a fiscal year ending after June 30, 1956,*".

(b) In the first sentence of paragraph (3) set forth therein, "for the purposes of paragraphs (1) and (2)" is deleted and the following is inserted in lieu thereof: "for the purposes of paragraph (1)".

(c) In the second sentence of said paragraph (3), after "*the $500,000 amount,*" the following is inserted: "*the $1,000,000 amount,*".

(d) The following is added at the end of said paragraph (3): "*In the case of a fiscal year beginning on or before the termination date and ending after the termination date, the $1,000,000 amount and the $25,000 amount shall be reduced to an amount which bears the same ratio to $1,000,000 or $25,000, as the case may be, as the number of days in such fiscal year before the close of the termination date bears to 365.*"

(e) The period in the brackets at the end of said paragraph (3) is changed to a comma, and the following is added: "as amended by sec. 6 (a) and (b) and section 7 (a) of Public Law 870, 84th Cong., approved August 1, 1956. The latter amendment added the references to $1,000,000 for fiscal years ending after June 30, 1956; and, in paragraph (3), changed 'for the purposes of paragraphs (1) and (2)' to 'for the purposes of paragraph (1)', effective only with respect to fiscal years ending on or after June 30, 1956, and added the last sentence."

2. Section 1458.2 *Computation of aggregate receipts and accruals* is amended as follows:

(a) In paragraph (a) (1), after "after June 30, 1953" the following is inserted: ", or $1,000,000, in the case of a fiscal year ending after June 30, 1956".

(b) In paragraph (b), the last sentence is deleted in its entirety and the following is inserted in lieu thereof: "In making such computation for the purposes of paragraph (1) of section 105 (f) of the act, there shall also be excluded all 'inter-company sales'—i. e., all amounts received or accrued by the contractor from related contractors and all amounts received or accrued by each such related contractor from the contractor and from each other such related contractor. However, in making such computation for the purposes of paragraph (2) of section 105 (f) of the act (relating to subcontracts described in section 103 (g) (3) of the act, held chiefly by brokers and manufacturers' agents), inter-company sales shall be included. This means that whenever a broker, manufacturers' agent, or other person holding a subcontract described in section 103 (g) (3) of the act receives commissions or other compensation from its parent or other related principal, all such amounts which are referable to renegotiable prime contracts or subcontracts must be included in computing the aggregate renegotiable receipts or accruals of such broker, agent or other person for the purpose of applying the $25,000 'floor'."

3. Section 1458.3 *No reduction by refund below statutory minimum* is amended by changing the period at the end of paragraph (a) thereof to a comma, and adding the following: "or $1,000,000, in the case of a fiscal year ending after June 30, 1956."

4. Section 1458.4 *Proration of statutory minimum* is amended by deleting in paragraph (a) "$250,000 and $500,000" and inserting in lieu thereof "$250,000, $500,000 and $1,000,000", and by adding a new paragraph (d) to read as follows:

(d) In the case of a fiscal year beginning on or before the termination date and ending after the termination date (see § 1466.2 of this subchapter), the $1,000,000 amount and the $25,000 amount will be reduced to an amount which bears the same ratio to $1,000,000 or $25,000, as the case may be, as the number of days in such fiscal year before the close of the termination date bears to 365.

5. Section 1458.5 *Statutory minimum not an exemption* is amended by inserting after "$500,000", wherever it appears in paragraphs (a) and (b), the following: ", $1,000,000".

PART 1459—COSTS ALLOCABLE TO AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

This part is amended in the following respects:

1. Section 1459.1 *Statutory provisions and general regulations* is amended by deleting "any fiscal year" in the third sentence of the statutory provision set forth in paragraph (a) and inserting in lieu thereof "any fiscal year *ending before December 31, 1956,*", and by adding at the end of paragraph (a) the following: "[Matter in italics added by Pub. Law 870, 84th Cong., approved August 1, 1956; and see section 103 (m) of the act (§ 1457.9 of this subchapter) for allowance of losses incurred in fiscal years ending on or after December 31, 1956.]"

2. Section 1459.5 *Losses* is amended by deleting the third and fourth sentences of paragraph (a) and inserting in lieu thereof the following: "Under certain circumstances, however, (1) there will be allowed as a cost in a fiscal year ending before December 31, 1956, the amount of a loss sustained on renegotiable business in the preceding fiscal year, and (2) there will be allowed as a cost in a fiscal year ending on or after December 31, 1956, the sum of the 'renegotiation loss carryforwards' to such fiscal year from the preceding two fiscal years. (See §§ 1457.8 and 1457.9 of this subchapter.)"

PART 1460—PRINCIPLES AND FACTORS IN DETERMINING EXCESSIVE PROFITS

1. Section 1460.10 *Reasonableness of costs and profits* is amended by adding at the end of paragraph (b) (1) thereof the following: "Under no circumstances, except as provided in § 1457.8 or § 1457.9 of this subchapter, will the contractor's profits or losses on renegotiable business in years other than the year under review be used as an accounting offset or adjustment in the determination of excessive profits for the year under review."

2. Section 1460.14 *Character of business* is amended by deleting paragraph (b) (3) in its entirety and inserting in lieu thereof the following:

(3) (i) Defense production needs and the policy of Congress require that subcontracting, particularly to small business concerns, be used to the maximum extent practicable. Although a contractor who subcontracts work may not reasonably expect to be allowed as large a profit thereon as if it had done the work itself, subcontracting of the kind described in this subparagraph, especially the extent to which subcontracts are placed with small business concerns, will be given favorable consideration in the renegotiation of the contractor.

(ii) A contractor will be given favorable treatment when, by subcontracting, it utilizes in the defense effort facilities and services, particularly of small business concerns, which might otherwise have been overlooked or passed by; when it has demonstrated its efficiency and ingenuity in finding appropriate opportunities for subcontracting; when the amount of subcontracting so accomplished is substantial; when the amount or complexity of technical, engineering and other assistance rendered by the contractor to the subcontractor is substantial; and when the price negotiated with the subcontractor is reasonable in view of the character of the components produced.

(iii) The portion of the renegotiable business of the contractor which is subcontracted will be a part of its total sales, and separate consideration must be given in applying to this portion the factors of risks assumed, capital employed, and reasonableness of costs and profits.

(iv) The subcontractor, of course, will receive favorable consideration in renegotiation for the successful employment of its own facilities and production skill.

PART 1461—RECOVERY OF EXCESSIVE PROFITS AFTER DETERMINATION

Section 1461.2 *Recovery of refund pursuant to agreement* is amended by relettering paragraph (c) as paragraph (b).

PART 1465—LIMITATIONS ON COMMENCEMENT AND COMPLETION OF RENEGOTIATION

This part is deleted in its entirety and the following is inserted in lieu thereof:

Sec.
1465.1 Statutory provision.
1465.2 Commencement of renegotiation proceedings.
1465.3 Completion of renegotiation proceedings.

AUTHORITY: §§ 1465.1 and 1465.3 issued under sec. 109, Pub. Law 9, 82d Cong. Interpret or apply sec. 105, Pub. Law 9, 82d Cong.

§ 1465.1 *Statutory provision.* Section 105 (c) of the act provides as follows:

Periods of limitations. In the absence of fraud or malfeasance or willful misrepresentation of a material fact, no proceeding to determine the amount of excessive profits for any fiscal year shall be commenced more than one year after *a financial statement* under subsection (e) (1) of this section is filed with the Board with respect to such year, and, *in the absence of frauds or malfeasance or willful misrepresentation of a material fact,* if such proceeding is not commenced prior to the expiration of one year following the date upon which such statement is so filed, all liabilities of the contractor or subcontractor for excessive profits received or accrued during such fiscal year shall thereupon be discharged. If an agreement or order determining the amount of excessive profits is not made within two years following the commencement of the renegotiation proceeding, then, *in the absence of fraud or malfeasance or willful misrepresentation of a material fact,* upon the expiration of such two years all liabilities of the contractor or subcontractor for excessive profits with respect to which such proceeding was commenced shall thereupon be discharged, except that (1) if an order is made within such two years pursuant to a delegation of authority under subsection (d) of section 107, such two-year limitation shall not apply to review of such order by the Board, and (2) such two-year period may be extended by mutual agreement. [Matter in italics added by Pub. Law 870, 84th Cong., approved August 1, 1956, which also deleted "the financial statement required" before "under".]

§ 1465.2 *Commencement of renegotiation proceedings.* (a) Under section 105 (a) of the act, renegotiation proceedings are commenced by the mailing of a notice to that effect, by registered mail, to the contractor or subcontractor. Except as provided in paragraph (b) of this section, unless renegotiation proceedings are commenced within one year after a financial statement under section 105 (e) (1) of this act is filed with the Board with respect to a fiscal year, the liability of the contractor or subcontractor for excessive profits received or accrued during such fiscal year is discharged. In cases described in section 1470.3 (d) (2) of this subchapter, the filing of that portion of the Standard Form of Contractor's Report entitled RB–1 is considered for the purposes of this section to be the filing of the financial statement required in such cases under section 105 (e) (1) of the act.

(b) The financial statement prescribed in section 105 (e) (1) of the act provides the information upon the basis of which it is determined whether the contractor or subcontractor will or will not be renegotiated under the act. If, in the opinion of the Board, any fraud or malfeasance or willful misrepresentation of a material fact has occurred in or in connection with the filing of a purported financial statement by a contractor or subcontractor, the filing of such purported statement will not be regarded as a filing of a financial statement pursuant to section 105 (e) (1) of the act, sufficient to start the one-year period of limitations running as prescribed in section 105 (c) of the act, and even if renegotiation proceedings are not commenced by the Board within one year after the filing of such purported statement, the liability of the contractor or subcontractor for excessive profits received or accrued during the fiscal year involved will not be regarded as discharged.

§ 1465.3 *Completion of renegotiation proceedings.* Except as provided in the succeeding sentence, unless an agreement or order determining the amount of excessive profits (see Parts 1474 and 1475 of this subchapter) is made within two years after the commencement of renegotiation proceedings with respect to a fiscal year, the liability of the contractor or subcontractor for excessive profits received or accrued during such fiscal year is discharged. If, in the opinion of the Board, any fraud or malfeasance or willful misrepresentation of a material fact has occurred in or in connection with such proceedings, the liability of the contractor or subcontractor for excessive profits received or accrued during the fiscal year involved will not be regarded as discharged even if renegotiation is not completed by the Board within two years after the commencement of such renegotiation proceedings.

PART 1466—TERMINATION OF RENEGOTIATION

This part is deleted in its entirety and the following is inserted in lieu thereof:

Sec.
1466.1 Statutory provision.
1466.2 Definition of "termination date".
1466.3 Definition of "status termination date".
1466.4 Renegotiability of amounts received or accrued and allowability of costs paid or incurred after "date of termination".
1466.5 Fiscal year proceedings in which amounts received or accrued and costs paid or incurred after date of termination will be considered.
1466.6 Proration of statutory minimum for fiscal years which include the termination date.

AUTHORITY: §§ 1466.1 to 1466.6 issued under sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219. Interpret or apply sec. 102, 65 Stat. 8; 50 U. S. C. App. Sup. 1212.

§ 1466.1 *Statutory provision.* Section 102 (c) of the act provides as follows:

(c) *Termination*—(1) *In general.* The provisions of this title shall apply only with respect to receipts and accruals, under contracts with the Departments and related subcontracts, which are determined under regulations prescribed by the Board to be reasonably attributable to performance prior to the close of the termination date. Notwithstanding the method of accounting employed by the contractor or subcontractor in keeping his records, receipts or accruals determined to be so attributable, even if received or accrued after the termination date, shall be considered as having been received or accrued not later than the termination date. For the purposes of this title, the term "termination date" means December 31, 1958.

(2) *Termination of status as Department.* When the status of any agency of the Government as a Department within the meaning of section 103 (a) is terminated, the provisions of this title shall apply only with respect to receipts and accruals, under contracts with such agency and related subcontracts, which are determined under regulations prescribed by the Board to be reasonably attributable to performance prior to the close of the status termination date. Notwithstanding the method of accounting employed by the contractor or subcontractor in keeping his records, receipts or accruals determined to be so attributable, even if received or accrued after the status termination date, shall be considered as having been received or accrued not later than the status termination date. For the purposes of this paragraph, the term "status termination date" means, with respect to any agency, the date on which the status of such agency as a Department within the meaning of section 103 (a) is terminated.

§ 1466.2 *Definition of "termination date".* "Termination date" means December 31, 1958.

§ 1466.3 *Definition of "status termination date".* "Status termination date" means, with respect to any agency of the Government, the date on which the status of such agency as a Department within the meaning of section 103 (a) of the act is terminated.

§ 1466.4 *Renegotiability of amounts received or accrued and allowability of costs paid or incurred after "date of termination"—*(a) *Definition of "date of termination".* The terms "termination date" and "status termination date" are referred to in this part collectively as the "date of termination".

(b) *In general.* The act applies only to amounts received or accrued which are determined under regulations prescribed by the Board to be reasonably attributable to performance before the close of the date of termination. It is immaterial whether the contracts under which such amounts are derived are completed before or after the date of termination. The purpose of this section is to state the circumstances under which amounts received or accrued and costs paid or incurred after the date of termination from prime contracts or subcontracts performed in whole or in part before the close of the date of termination will be considered to be reasonably attributable to performance before the close of the date of termination.

(c) *Amounts received or accrued—*(1) *Completed contract method of accounting.* If a contractor, pursuant to § 1459.1 (b) of this subchapter, employed a completed contract method of accounting for the fiscal year of the contractor which included the date of termination, there will be considered as attributable to performance on or before the date of termination an amount of receipts or accruals which bears the same relationship to the total income derived from the contract as the amount of work performed under the contract on or before the date of termination bears to the total amount of work performed under the contract.

(2) *Cash receipts and disbursements method of accounting.* If a contractor, pursuant to § 1459.1 (b) of this subchapter, employed a cash receipts and disbursements method of accounting for the fiscal year of the contractor which included the date of termination, only those amounts received on or before the date of termination will be considered to be attributable to performance on or before the date of termination.

(3) *Other methods of accounting.* If a contractor, pursuant to § 1459.1 (b) of this subchapter, employed for the fiscal year of the contractor which included the date of termination a method of accounting other than one of the methods described in subparagraphs (1) and (2) of this paragraph, only those amounts accrued or properly accruable on or before the date of termination will be considered to be attributable to performance on or before the date of termination.

(4) *When accounting method does not properly reflect renegotiable receipts.* The Board may determine that additional amounts received or accrued by a contractor after the date of termination are attributable to performance on or before the date of termination when, in the opinion of the Board, the amounts received or accrued on or before the date of termination are disproportionate to the performance of the contractor on or before such date. For example, if a manufacturer's representative employs a cash receipts and disbursements method of accounting and if his receipts on or before the date of termination are substantially out of proportion to services performed by him on or before the date of termination, amounts received after the date of termination which are referable to such services will be determined to be attributable to performance on or before the date of termination.

(d) *Costs paid or incurred.* Costs paid or incurred after the date of termination will be allowed in renegotiation in accordance with the provisions of Part 1459 of this subchapter to the extent that they are paid or incurred in respect of receipts or accruals to which the act applies. Costs paid or incurred on or before the date of termination will not be allowed in renegotiation to the extent that they are paid or incurred in respect of receipts or accruals to which the act does not apply by virtue of section 102 (c) thereof and this part.

§ 1466.5 *Fiscal year proceedings in which amounts received or accrued and costs paid or incurred after the date of termination will be considered.* Generally, amounts received or accrued and costs paid or incurred which, on the basis of the method of accounting employed by the contractor pursuant to § 1459.1 (b) of this subchapter, are received or accrued or paid or incurred after the close of the date of termination, but which, pursuant to these regulations, are attributable to performance before the close of the date of termination, will be deemed to have been received or accrued or paid or incurred on the date of termination. The provisions of this section are not intended to eliminate the necessity of allocating excessive profits to the taxable year or years in which the Board determines that such excessive profits were reported by the contractor as income for Federal income tax purposes (see § 1462.8 of this subchapter).

§ 1466.6 *Proration of statutory minimum for fiscal years which include the termination date.* In the case of a fiscal year beginning on or before the termination date and ending after the termination date, the $1,000,000 amount prescribed in section 105 (f) (1) of the act, and the $25,000 amount prescribed in section 105 (f) (2) thereof, will be reduced to an amount which bears the same ratio to $1,000,000 or $25,000, as the case may be, as the number of days in such fiscal year before the close of the

termination date bears to 365 (see § 1458.4 (d) of this subchapter).

PART 1470—INFORMATION REQUIRED OF CONTRACTORS

This part is amended in the following respects:

1. The title of the part is deleted in its entirety and a new title is inserted to read as set forth above.

2. Section 1470.1 *Scope of part* is deleted in its entirety and the following is inserted in lieu thereof:

§ 1470.1 *Scope of part.* This part deals with the filing of financial statements required of contractors or elected to be filed by contractors, and other information.

3. Section 1470.2 *Statutory provision* is deleted in its entirety and the following is inserted in lieu thereof:

§ 1470.2 *Statutory provision.* Section 105 (e) (1) of the act provides as follows:

Furnishing of financial statements, etc. Every person who holds contracts or subcontracts, to which the provisions of this title are applicable, shall, in such form and detail as the Board may by regulations prescribe, file with the Board, on or before the first day of the fifth calendar month following the close of his fiscal year, a financial statement setting forth such information as the Board may by regulations prescribe as necessary to carry out this title. [In addition to the statement required under the preceding sentence, every such person shall at such time or times and in such form and detail as the Board may by regulations prescribe, furnish the Board any information, records, or data which are determined by the Board to be necessary to carry out this title. Any person who willfully fails or refuses to furnish any statement, information, records, or data required of him under this subsection, or who knowingly furnishes any such statement, information, records, or data containing information which is false or misleading in any material respect, shall, upon conviction thereof, be punished by a fine of not more than $10,000 or imprisonment for not more than one year, or both.] *The preceding sentence shall not apply to any such person with respect to a fiscal year if the aggregate of the amounts received or accrued under such contracts and subcontracts during such fiscal year by him, and all persons under control of or controlling or under common control with him, is not more than the applicable amount prescribed in subsection (f) (1) or (2) of this section; but any person to whom this sentence applies may, if he so elects, file with the Board for such fiscal year a financial statement setting forth such information as the Board may by regulations prescribe as necessary to carry out this title. The Board may require any person who holds contracts or subcontracts to which the provisions of this title are applicable (whether or not such person has filed a financial statement under this paragraph) to furnish any information, records, or data which are determined by the Board to be necessary to carry out this title and which the Board specifically requests such person to furnish. Such information, records, or data may not be required with respect to any fiscal year after the date on which all liabilities of such persons for excessive profits received or accrued during such fiscal year are discharged. Any person who willfully fails or refuses to furnish any statement, information, records, or data required of him under this subsection, or who knowingly furnishes any statement, information, records, or data pursuant to this subsection containing information which is false or misleading in any material respect, shall, upon conviction thereof, be punished by a fine of not more than $10,000 or imprisonment for not more than one year, or both.* [Matter in brackets deleted by Pub. Law 870, 84th Cong., approved August 1, 1956, which also added matter in italics.]"

4. Section 1470.3 *Filing of financial statement* is amended as follows:

(a) Paragraph (b) is amended by deleting "required to be filed by every person" and inserting in lieu thereof "which may be filed, if he so elects, by any person".

(b) Paragraph (d) is amended by inserting after "this subchapter" in subparagraph (1) thereof the following: "with respect to fiscal years ending on or before June 30, 1956".

(c) Paragraph (e) is amended by inserting after "Standard Form of Contractor's Report" the following: "and the Statement of Non-Applicability".

(d) Paragraph (f) is amended by inserting after "Standard Form of Contractor's Report" the following: "and the Statement of Non-Applicability".

(e) Paragraph (g) is amended by inserting after "Standard Form of Contractor's Report" the words "or a Statement of Non-Applicability", and by adding at the end thereof the following: "If the Board specifically requests any prime contractor or subcontractor to furnish any information, records, or data which are determined by the Board to be necessary to carry out the provisions of the act, such prime contractor or subcontractor will be required to furnish such information, records, or data whether or not he has filed a Standard Form of Contractor's Report or a Statement of Non-Applicability. The Board will not exercise this authority with respect to a prime contractor or subcontractor who has made no filing or who has filed a Statement of Non-Applicability, except where the Board has reason to believe that such prime contractor or subcontractor is required to file the Standard Form of Contractor's Report for the fiscal year in question. The Board will not require any prime contractor or subcontractor to furnish any information, records, or data, for the purpose of enabling the Board to determine excessive profits for a fiscal year, after the date on which all liabilities of the prime contractor or subcontractor for excessive profits received or accrued during such fiscal year have been discharged (see Part 1465 of this subchapter)."

(f) Paragraph (h) is amended by inserting after the first sentence thereof the following: "If each member of an affiliated or related group is entitled to file a Statement of Non-Applicability pursuant to the second sentence of section 105 (e) (1) of the act, such group may, if it so elects, file a consolidated Statement of Non-Applicability."

(g) Paragraph (i) is deleted in its entirety.

5. Section 1470.91 *Statement of Non-Applicability of the Renegotiation Act of 1951, as amended,* is amended as follows:

(a) The following is inserted immediately after the heading: "(a) *For fiscal years ending on or before June 30, 1956.*"

(b) Under the heading "Instructions", after "*For fiscal years ending after December 31, 1953*" in the third paragraph, the following is inserted: "*but not later than June 30, 1956*".

(c) At the end of the section, a new paragraph (b) is inserted to read as follows:

(b) *For fiscal years ending after June 30, 1956.*

(This form to be used only for fiscal years ending after June 30, 1956)

To: The Renegotiation Board LPI No. __

STATEMENT OF NON-APPLICABILITY OF THE RENEGOTIATION ACT OF 1951, AS AMENDED

(Contractors are not required to file this form but may elect to do so)

1. We hereby declare that our aggregate receipts or accruals (together with those of all below-listed persons, firms or corporations under control of or controlling or under common control with the undersigned) under contracts and subcontracts subject to the Renegotiation Act of 1951, as amended, hereinafter referred to as the Act, did not exceed $---------- for our fiscal year (Insert amount)

ended ---------- (Fill (Insert month, day, and year)

in amount of $1,000,000 unless fiscal year is less than 12 months, in which event prorate this amount and state beginning and ending dates). We estimate that such receipts or accruals aggregated $---------- (Insert amount)

In computing such receipts or accruals we have excluded brokerage commissions and other income under subcontracts described in section 103 (g) (3) of the act (*Brokers and manufacturers' agents: Disregard this paragraph. See paragraph 2 below*).

2. We declare that brokerage commissions and other income, if any, received or accrued by us (together with those of all below-listed persons, firms or corporations under control of or controlling or under common control with the undersigned), under subcontracts described in section 103 (g) (3) of the act, did not exceed $25,000, or the prorated amount thereof, for our fiscal year ended ---------- We (Insert Month, day, and year)

estimate that such receipts or accruals aggregated $---------- (Insert amount)

3. We represent that we do not expect to receive or accrue any further amounts subject to renegotiation which will bring total receipts or accruals, for the fiscal year involved, above the $1,000,000 floor or the $25,000 floor, or the prorated amount thereof.

4. The following persons, firms or corporations, and no others, controlled or were under control of or under common control with the undersigned during such fiscal year (if none, write "None"; do not insert your own name):

Name of person, firm, or corporation	Address	Renegotiable business Yes	No
----------	----------	(☐)	(☐)
----------	----------	(☐)	(☐)
----------	----------	(☐)	(☐)

5. Our gross sales or gross receipts reported for Federal income tax purposes were $----------.

6. The Standard Commercial Article Exemption: Is not applicable (☐) has been applied by us (☐) in the estimated amount of $---------- An Application for Commercial Exemption was approved (☐) was denied (☐). Date of action ----------, 19__. See instructions on reverse side.

7. In submitting this statement, we are aware that Section 105 (e) (1) of the Act provides in part as follows: "• • • Any person who willfully fails or refuses to furnish any statement, information, records, or data required of him under this subsection, or who knowingly furnishes any such statement, information, records, or data containing information which is false or misleading in any material respect, shall, upon conviction thereof, be punished by a fine of not more than $10,000 or imprisonment for not more than one year, or both."

---------- Exact name of contractor (not abbreviated)

---------- State of incorporation

---------- Mailing address (Street, City, and State)

---------- Date of incorporation

Signature: ---------- Principal officer, partner, or proprietor

---------- Title

Date of this report: ----------

---------- If a proprietorship or partnership give date business established.

INSTRUCTIONS

(Read with particular reference to Item 7, Standard Commercial Article Exemption)

The Renegotiation Act of 1951, as amended, under certain conditions exempts amounts received or accrued in fiscal years ending after June 30, 1956 (other than brokerage commissions or other similar income), under contracts or subcontracts for any of the following:

1. A standard commercial article;
2. An article which is identical in every material respect with a standard commercial article;
3. An article in a standard commercial class of articles;
4. A standard commercial service;
5. A service which is reasonably comparable with a standard commercial service.

The exemption of Item 1 above may be applied by the contractor itself, without application to the Board. With respect to the other 4 items above, the contractor's sales thereof are not exempt unless the contractor has filed an Application for Commercial Exemption with The Renegotiation Board and such application has been granted. (The terms used herein are defined in section 106 (e) of the act).

In determining whether you are entitled to use the form on the reverse side, the following rules should be observed (see RBR 1467.22 (e)):

(a) If renegotiable receipts or accruals are $1,000,000 or less (including sales of Items 1 through 5 above), you may use this form but do not submit an Application for Commercial Exemption.

(b) If renegotiable receipts or accruals are $1,000,000 or less only when sales of Item 1 above are excluded, you may use this form but do not submit an Application for Commercial Exemption.

(c) If renegotiable receipts or accruals are $1,000,000 or less only when sales of Items 2 through 5 above are excluded, you may submit an Application for Commercial Exemption to support claim for exemption, but you may not file this form until the Board has completed action on such application.

(d) If renegotiable receipts or accruals are more than $1,000,000 (exclusive of sales of Items 2 through 5 above), do not use this form but use Standard Form of Contractor's Report (RB Forms 1 and 1B) for such receipts or accruals, and file an application for Commercial Exemption to support claim for exemption.

(e) In addition to the foregoing, in computing renegotiable receipts or accruals, amounts received or accrued under all other prime contracts or subcontracts exempted by the act or by The Renegotiation Board should be excluded in all cases. If an Application for Commercial Exemption has previously been submitted and denied, sales covered thereby should be included.

If each member of an affiliated or related group is entitled to file a Statement of Non-Applicability pursuant to Section 105 (e) (1) of the act, such group may, if it so elects, file a consolidated Statement of Non-Applicability. This means that a consolidated Statement of Non-Applicability may be filed when the sum of the renegotiable sales of all members of the group is less than the applicable minimum amount prescribed in Section 105 (f) (1) or (2) of the act.

(If used, this form should be filed in duplicate with The Renegotiation Board, Washington 25, D. C.)

(A separate statement should be filed for each fiscal year or period for which this form is used)

PART 1471—ASSIGNMENT OF CONTRACTORS FOR RENEGOTIATION

Section 1471.1 *When assignment is made* is amended by deleting the second sentence and "However, no" in the third sentence and inserting in lieu thereof "No".

PART 1472—CONDUCT OF RENEGOTIATION

Section 1472.5 *Filing of information and requests by contractor* is amended in the following respects:

1. Paragraph (b) (1) is deleted in its entirety and the following is inserted in lieu thereof:

(1) *Information.* Every prime contractor or subcontractor who is required by the first sentence of section 105 (e) (1) of the act to file a financial statement with the Board for a fiscal year is required to file the information prescribed by Part 1470 of this subchapter to be contained in the Standard Form of Contractor's Report. Any prime contractor or subcontractor who elects to file a financial statement with the Board for a fiscal year pursuant to the second sentence of section 105 (e) (1) of the act may file the Statement of Non-Applicability. Any prime contractor or subcontractor, whether or not he has filed a Standard Form of Contractor's Report or a Statement of Non-Applicability, may be required by the Board to file any information, records or data which are determined by the Board or a Regional Board to be necessary to carry out the provisions of the act.

2. In paragraph (d) (2), after "Report", the following is inserted: "or the Statement of Non-Applicability, if such latter form is appropriate and the contractor elects to file the same,".

PART 1476—REVIEW BY THE COURT

This part is amended by inserting "only" after "section 105" in § 1476.1 *Statutory provision.*

PART 1490—BROKERS AND MANUFACTURERS' AGENTS

1. Section 1490.2 *Statutory provisions* is amended by adding a new paragraph (c) to read as follows:

(c) *Computation of aggregate receipts or accruals.* Under section 105 (f) (3) of the act, in computing its aggregate receipts or accruals for any fiscal year ending after June 30, 1956, a broker, agent or other person holding a subcontract described in section 103 (g) (3) of the act must include all commissions or other compensation from its parent or other related principal which are referable to renegotiable prime contracts or subcontracts. See § 1458.2 (b) of this subchapter.

2. Section 1490.3 *Limited exemption of subcontracts for architectural, design or engineering services* is amended by inserting, in the second sentence, "or $1,000,000, in the case of a fiscal year ending after June 30, 1956," after "after June 30, 1953", and by striking out "$250,000 or $500,000" and inserting in lieu thereof "$250,000, $500,000, or $1,000,000".

3. Section 1490.5 *Filing of financial statement* is amended by striking out the third sentence in its entirety and inserting in lieu thereof the following: "Every such person, if required by the first sentence of section 105 (e) (1) of the act to file a financial statement with the Board for a fiscal year, shall adapt the Standard Form of Contractor's Report to his particular needs. Any such person who elects to file a financial statement with the Board for a fiscal year pursuant to the second sentence of section 105 (e) (1) of the act may file the Statement of Non-Applicability."

4. Section 1490.6 *Determination of renegotiable business under section 103 (g) (3) of the act* is amended by striking out paragraph (e) in its entirety and inserting in lieu thereof the following:

(e) Receipts and accruals under subcontracts described in section 103 (g) (3) of the act are exempt from renegotiation to the extent that such receipts or accruals are referable to prime contracts or subcontracts which are exempted from the provisions of the act by section 106 (d) thereof, or, for fiscal years ending on or before June 30, 1956, by any paragraph, other than paragraph (8), of section 106 (a) thereof. Receipts or accruals under subcontracts described in section 103 (g) (3) of the act, if such subcontracts are made after June 30, 1956, are not exempt from renegotiation to the extent that such receipts or accruals are referable to prime contracts or subcontracts which are exempted from the provisions of the act by paragraph (1) or (5) of section 106 (a) thereof. See §§ 1453.6 or 1455.7 of this subchapter. Receipts or accruals under subcontracts described in section 103 (g) (3) of the act are not exempt from renegotiation to the extent that such receipts or accruals are referable to prime contracts or subcontracts which are exempt from the provisions of the act by section 106 (e) thereof.

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219)

Dated: September 25, 1956.

THOMAS COGGESHALL,
Chairman.

[F. R. Doc. 56-7839; Filed, Sept. 27, 1956; 8:52 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order V-2, Amdt. 1]

ESTABLISHMENT OF A TITANIUM ADVISORY COMMITTEE

1. Defense Mobilization Order V-2, dated February 17, 1954, is hereby amended by striking paragraph 1 and substituting therefor, the following:

1. There is established in the Office of Defense Mobilization a Titanium Advisory Committee. The Committee shall consist of the Assistant Secretary for Mineral Resources, Department of the Interior, the Assistant Secretary of Defense (Supply and Logistics), the Assistant Secretary of Defense (Research and Development), Assistant Secretary of the Air Force (Materiel), or their Deputies, and two other members selected by the Director of the Office of Defense Mobilization, one of whom he shall designate as Chairman, and an Executive Officer appointed from the Office of Defense Mobilization staff.

2. This amendment shall take effect immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

[F. R. Doc. 56-7807; Filed, Sept. 27, 1956; 8:45 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

MISCELLANEOUS AMENDMENTS

1. In § 21.443, paragraph (a) is amended to read as follows:

§ 21.443 *Basis of payments for residence courses*—(a) *Tuition and fees.* Contracts where required or statement of charges, VA Form VB 7-1957, covering courses of vocational rehabilitation under Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), shall provide for payments on the following basis:

(1) *"Customary cost of tuition."* Where the institution has a "customary cost of tuition" as defined by § 21.467 (a) (1), payment will be made for Part VII trainees on the same basis as the "customary cost of tuition" authorized for payment for Part VIII trainees, or on the same basis as the institution charges similarly circumstanced nonveteran students, or Public Law 550 veterans.

(2) *Special services.* The full agreed cost of any special services or courses furnished at the request of the Veterans Administration may be paid. Included in the term "special services" are all services over and above those customarily required by the institution for similarly circumstanced nonveterans and Public Law 550 veterans which are considered by the Manager to be necessary for the vocational rehabilitation of the trainee.

* * * * *

2. Section 21.471 *Payments of tuition and fees to nonprofit educational institutions for courses of 30 weeks or more* is revoked.

3. Section 21.472 is revised to read as follows:

§ 21.472 *Tuition on the basis of customary cost of tuition to nonprofit educational institutions for courses of 30 weeks or more.* Where an educational institution has a customary cost of tuition as defined in § 21.467 (a) (1), the Veterans Administration will pay such customary tuition as is charged to other students pursuing the same or comparable courses, as set forth in the published catalogs or bulletins of the school or college, subject to the limitations contained in Veterans Administration regulations. In the event an institution does not publish a bulletin, the Manager of the Veterans Administration regional office within whose territory the institution is located may accept the certification of a responsible official of the institution as to the customary tuition for the courses offered. All customary fees will be paid to an educational institution where the institution is receiving payment on the basis of the customary cost of tuition as defined in § 21.467 (a) (1), or where the institution does not charge a tuition as such but elects to be paid on the basis of customary fees only.

4. Section 21.478 *Request for adjusted tuition (see limitations in § 21.479)* is revoked.

5. In § 21.479, paragraph (c) is amended to read as follows:

§ 21.479 *Limitations on payment of adjusted compensation to nonprofit educational institutions.* * * *

(c) It has been administratively determined that the considerations under which adjusted compensation was authorized and paid on behalf of Part VIII veterans will cease to exist as a basis for payment to institutions for veterans enrolled in any period of instruction commencing subsequent to September 28, 1956, except where authorized by a contract entered into prior to September 28, 1956. Accordingly, no new contracts or authorizations of adjusted compensation will be issued, and payments for periods of enrollment beginning after September 28, 1956, will be limited to the customary charges established by the institution for similarly circumstanced nonveteran students except that where a contract entered into prior to September 28, 1956, authorizes prospective payment of adjusted compensation, the limitation restricting payments to the customary charges will not become operative until the first period of enrollment subsequent to the termination of the contract.

6. Section 21.570 is revised to read as follows:

§ 21.570 *Determination when contract or statement of charges is required.* (a) Except for the conditions referred to in paragraph (b) of this section, payment of customary charges will upon the expiration of existing contracts be authorized on the basis of a statement of charges, VA Form VB 7-1957.

(b) A contract will be negotiated under Public Law 16, 78th Congress, as amended, and Public Law 346, 78th Congress, as amended, for payments for tuition, fees, books, supplies, equipment, and other necessary expenses to the institution for the training of veterans under the following circumstances:

(1) With institutions providing training to veterans under conditions requiring adjustments for surplus or deficit, see §§ 21.530 (a) (5) (iii), and 21.613 through 21.619.

(2) With institutions offering courses of instruction by correspondence, see §§ 21.625 through 21.627.

(3) With institutions authorized to provide training to veterans enrolled under Public Law 16, 78th Congress, as amended, for whom special services are furnished at the request of the Veterans Administration. (See § 21.443 (a) (2).)

(c) In all cases where a contract on VA Form 7-1903 is not required, the benefits and facilities activity will notify the Finance Officer, in writing, of the charges for the courses to be offered, including the rate of tuition, fees and separate charges, if any, for books, supplies, and equipment, school calendar, schedule of classes and hours of training, absence policy, refund policy, and such other provisions as are required to determine proper payment for the training of veterans. Such information as described in this paragraph will be obtained from the institution on VA Form VB 7-1957 which will provide appropriate details.

7. Section 21.572 is revised to read as follows:

§ 21.572 *Renewals or supplements to contracts.* Renewals of contracts in lieu of making new contracts where required may be accomplished by the completion of renewal agreements when no change is made in existing contractual provisions. Supplements to contracts will be negotiated when any provisions of existing contracts are to be changed.

8. Section 21.606 is revised to read as follows:

§ 21.606 *Contracts required.* Subject to § 21.605, the Managers are authorized to approve the payment of customary charges without requiring the submission of cost data or negotiation of a formal contract for one or all of the unit flight courses, provided the majority of the enrollment in the unit course or courses no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), and the charges are not more than those made to other students, including veterans enrolled under Public Law 550, 82d Congress, as amended. Upon the expiration of existing contracts, provisions for payment of the customary rates approved by the Manager will be set forth on a statement of charges, VA Form VB 7-1957.

9. Section 21.613 is revised to read as follows:

§ 21.613 *Payments for institutional on-farm training.*—(a) *Contract required.* Except as provided in § 21.570 (b) (1), payment for institutional on-farm training provided to Part VIII veterans will be made on the basis of the customary rates as set forth on a statement of charges, VA Form VB 7-1957, for instruction furnished in accordance with the provisions of Public Law 346, 78th Congress, as amended by Public Law 377, 80th Congress.

(b) *Basis for payment.* Contracts where required will be prepared on VA Form 7-1903 and will provide for payment for institutional on-farm training at a fixed monthly rate per student to include the cost of instruction in the classroom, individual instruction on the farm, and supervision, which has been determined to be fair and reasonable by the regional office in accordance with the formula and criteria set forth in § 21.614.

10. The following sections are revoked:

§ 21.657 *Advance payment of tuition and other allowable charges to nonprofit colleges and universities under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A).* [Revoked.]

§ 21.658 *Advance payment of tuition and other allowable charges to States for instruction under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A).* [Revoked.]

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12A. Interpret or apply secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697-697d, 697f, g, ch. 12A)

This regulation is effective September 28, 1956.

[SEAL] JOHN S. PATTERSON,
Deputy Administrator.

[F. R. Doc. 56-7834; Filed, Sept. 27, 1956; 8:51 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1960]

PART 194—POTASSIUM PERMITS AND LEASES

MISCELLANEOUS AMENDMENTS

On page 4758 of the FEDERAL REGISTER for June 28, 1956, there was published a notice of proposed rule making to implement amendments of certain sections of the potassium regulations approved May 6, 1955, as amended August 25, 1955. Interested persons were given 30 days in which to submit written comments, suggestions, or objections with respect to the proposed amendments. No adverse comments having been received, the proposed amended regulations are hereby adopted without change and are set forth below.

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

SEPTEMBER 24, 1956.

1. Section 194.13 is amended by adding thereto new paragraph (c) as follows:

§ 194.13 *Reward for discovery.* * * *

(c) If the permittee dies before the lease is issued, the lease will be issued to the executor or administrator of the estate if probate of the estate has not been completed; if probate has been completed, or is not required, to the heirs or devisees; and if there are minor heirs or devisees, to their legal guardian or trustee in his name, provided there is filed in all cases the following information:

(1) Where probate of the estate has not been completed:

(i) Evidence that the person, who as executor or administrator submits forms of lease and bond, has authority to act in that capacity and to sign such forms.

(ii) Evidence that the heirs or devisees are the heirs or devisees of the deceased permittee and are the only heirs or devisees of the deceased.

(iii) A statement over the signature of each heir or devisee concerning citizenship and holdings similar to that required by § 194.4 (c) (1) and (4).

(2) Where the executor or administrator has been discharged or no probate proceedings are required:

(i) A certified copy of the will or decree of distribution, if any, and if not, a statement signed by the heirs that they are the only heirs of the permittee and citing the provisions of the law of the deceased's last domicile showing no probate is required.

(ii) A statement over the signature of each of the heirs or devisees with reference to citizenship and holdings similar to that required by § 194.4 (c) (1) and (4), except that if the heir or devisee is a minor, the statement must be over the signature of the guardian or trustee.

(3) Where there is a legal guardian or trustee:

(i) A certified copy of the court order authorizing the guardian or trustee to act as such and to fulfill in behalf of the minor or minors all obligations of the lease or arising thereunder; statements by the guardian or trustee as to the citizenship and holdings of each of the minors and as to his own citizenship and holdings, including his holdings for the benefit of other minors similar to that required by § 194.4 (c) (1) and (4).

2. Section 194.19 is amended, as follows:

§ 194.19 *Bid deposits.* The successful bidder at a sale by public auction must on the date of sale deposit with the Manager of the Land Office, or other officer conducting the sale, and each bidder at a sale by sealed bids must submit with his bid the following: Certified check, cashier's check, bank draft, money order or cash for one-fifth of the amount of the bid by him, and a statement over the bidder's own signature with respect to citizenship and interests held similar to that prescribed in § 194.4.

3. Section 194.20 is amended, as follows:

§ 194.20 *Award of lease.* Upon receipt of the high bid at, and at the close of, an oral auction, or the opening of the sealed bids, the Manager, subject to his right to reject any and all bids, will award the lease to the successful bidder, who will be notified accordingly. Four copies of the lease will be sent to the successful bidder, who will be required within 30 days from receipt thereof to execute them, pay the balance of the bonus bid, the first year's rental, and the cost of publication of the notice of lease offer as specified in § 194.18, and file a bond as required by § 194.15. If a bidder, after being awarded a lease, fails to execute it or otherwise comply with the applicable regulations, his deposit will be forfeited and disposed of as other receipts under the Mineral Leasing Act of February 25, 1920 (41 Stat. 437), as amended. If the lease awarded to the successful bidder is executed by an attorney acting in behalf of the bidder, the lease must be accompanied by evidence that the bidder authorized the attorney to execute the lease. If the bidder dies before the lease is issued, evidence such as specified in § 194.13 (c) must be filed before it can be determined to whom the lease may be issued.

4. Section 194.24 is amended by adding thereto new paragraphs (c) and (d), as follows:

§ 194.24 *Transfers, including subleases.* * * *

(c) No transfer will be approved if the transferee is not qualified to take and hold a permit or lease or if his bond is insufficient. A minor, except a minor heir or devisee of a permittee or lessee, is not qualified to hold a permit or lease and a transfer to a minor will not be approved.

(d) In order for the heirs or devisees of a deceased holder of a permit or lease, an operating agreement, or a royalty interest in a permit or lease, to be recognized by the Secretary as the holder of the permit or lease, agreement or interest, there must be furnished the appropriate showing required under § 194.13 (c).

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189. Interpret or apply secs. 1-7, 44 Stat. 1057, 1058, as amended, 47 Stat. 151; 30 U. S. C. 281-287)

[F. R. Doc. 56-7811; Filed, Sept. 27, 1956; 8:46 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11769; FCC 56-893]

[Rules Amdt. 31-7]

PART 31—UNIFORM SYSTEM OF ACCOUNTS, CLASS A AND CLASS B TELEPHONE COMPANIES

ACCOUNTING FOR STATION APPARATUS, INSTALLATIONS AND WIRING

1. On July 5, 1956, the Commission adopted a notice of proposed rule making proposing to amend Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies), of the Commission's rules and regulations. This notice was published in the FEDERAL REGISTER on July 14, 1956 (21 F. R. 5296), in accordance with section 4 (a) of the Administrative Procedure Act. Interested persons were given until August 22, 1956, to file comments on the proposed amendments and twenty days thereafter were allowed for filing comments or briefs in reply to the original comments.

2. The amendments are designed to simplify the presently prescribed accounting for station apparatus by including the investment in most equipment on subscribers' premises in a telephone plant in service account from the time such equipment is purchased with a view to use on subscribers' premises until its final disposition by the telephone company, ignoring for purposes of plant investment accounting, movements out of and back into active service during its overall life. Costs of intallation of equipment on subscribers' premises and of wiring directly associated therewith will become depreciable. In addition to requesting comments on the two general proposals, comments were particularly solicited in the Notice regarding the advisability of excluding teletypewriters and other telegraph equipment from the accounting treatment proposed for other equipment on subscribers' premises and of providing special accounting treatment therefor.

3. The time for filing comments regarding the above-mentioned proposed rule making has expired. The Commission received timely comments from the American Telephone and Telegraph Company in behalf of the Bell System Telephone Companies, the United States Independent Telephone Association, and The Western Union Telegraph Company. While comments were not filed by the National Association of Railroad and Utilities Commissioners, the Accounting and Statistics Committee of that body reviewed and approved the proposed amendments in principle prior to the issuance by the Commission of the notice of proposed rule making. No comments or briefs in reply to the original comments were received.

4. The United States Independent Telephone Association state that members of their Accounting and Plant Committees consider the proposed amendments desirable from an accounting as well as a plant standpoint and indicate no objection to their adoption. Comments were not submitted regarding the possible exceptional accounting treatments which might be accorded teletypewriters and other telegraph equipment.

5. The American Telephone and Telegraph Company favors adoption of the proposed amendments, urging that they be permitted to be made effective January 1, 1957, for the Bell System Telephone Companies, rather than as of January 1, 1958, in order that annual savings of millions of dollars should not be deferred. Several suggested changes in the text of the proposed amendments, mostly of an editorial or minor nature, were submitted as an attachment to the comments of the American Company in the interest of clarity and to assure future understanding of the current intent of the accounting proposed. Specific comments were also included favoring adoption of the amendments as proposed with respect to the accounting to be accorded record communications equipment. In substance, the American Company is of the definite opinion that "cradle-to-grave" accounting is appropriate for teletypewriters (Bell System investment in telegraph station equipment other than teletypewriters is alleged to be inconsequential) in account 231, "Station apparatus," for the following reasons:

(a) Establishment of a single account for all inside plant used exclusively in record communications service or for all such plant on customers' premises is objectionable because it is desirable to continue to include such equipment in the appropriate station equipment accounts as well as in the central office equipment account, where applicable, in order to reflect properly the usage and location of such equipment;

(b) To a considerable extent, the same installation forces install and service both telephone and teletypewriter station plant. Exclusion of the latter type of equipment from "cradle-to-grave" accounting would require the workmen to switch from one set of internal reporting rules for telephone equipment to a different set for teletypewriter station equipment with an accompanying loss in simplification;

(c) While teletypewriters are fewer in number and their cost greater than regular telephone instruments, the former have a behavior in plant very similar to that of other station apparatus in that the degree of reuse is approximately the same and from the standpoint of the desirability of eliminating multiple fixed capital lives, "cradle-to-grave" accounting is as necessary and appropriate for teletypewriters as for telephones;

(d) "Cradle-to-grave" treatment for teletypewriter station equipment would involve less of a change from present practices than for general telephone instruments in that the former are more nearly on such basis today. Under present accounting, Bell's general practice is "direct-to-code" accounting for teletypewriters and for this reason the average teletypewriter spends a smaller proportion of its total life in the material and supplies account than the average telephone; and

(e) Data maintained under the present accounting will be equally available under the proposed accounting and any pertinent related data required on occasion by regulatory authorities can be furnished as readily.

6. The American Company suggested language changes in the proposed amendments, all of which are being adopted, which may be briefly summarized. American company believes that the term "minor items" in the system of accounts should be limited to classes of plant for which there are "retirement units," since these are used together as complementary terms to establish the accounting for replacements, which will not apply to station apparatus and station connections. Adoption of this suggestion calls for a slight change in wording in paragraph (r) of § 31.01–3, in § 31.2–25 (b) (2), and in paragraph (b) of account 231. The American Company suggests the insertion of commas in paragraph (a) of accounts 100:2 and 100:3. Instead of adding a fourth subparagraph (b) (10) (iv) to § 31.2–22 the suggestion is made that a clause be added to paragraph (b) (10) (i) of that section for a clearer statement regarding the accrual of interest during construction Rewording of note D to account 231 was suggested to eliminate the "specially segregated" clause. Certain revised language for the text of account 232 was suggested in order to use the same terminology in three paragraphs and to add certain intended flexibility regarding retirements. A small change was suggested in the second item in the list under account 605. A small deletion was suggested in subsection 231 of § 31.8.

7. The Western Union Telegraph Company in its comments stated that it "does not object to the 'cradle-to-grave' concept in principle." Western Union did not state specifically whether or not it agreed with the proposal to treat the costs of installation and of wiring directly associated with equipment on subscribers' premises as depreciable plant. It noted, however, that in the telegraph system of accounts to which it is subject all costs of installation and wiring are depreciable so that adoption of this proposed amendment will bring about a new area of conformity between the telephone and telegraph systems of accounts. Western Union summarized its position by stating that it interposed no objection to the adoption of the proposed revisions as outlined in the Notice of Proposed Rule Making insofar as they "relate to telephone plant." This statement was followed with an expression of opinion that since the record communications services of telephone companies are offered in competition with like services of Western Union, the purposes of regulation might better be served by a high degree of comparability in the accounting for telegraph plant. Western Union added, in part, that this can only be accomplished by the segregation, in the accounts of the telephone companies, insofar as possible, of all plant used in record communications services. It is not clear whether or not Western Union intended to object formally to telephone company station apparatus used for record communications services being accounted for on the "cradle-to-grave" basis. It appears, at least, that it would be better satisfied if no change in the present life-cycle basis were made. For us to deny herein "cradle-to-grave" treatment for record communications-station apparatus would still leave Western Union short of its stated goal of obtaining a high degree of comparability in the accounting for all telegraph plant by telephone companies and telegraph companies. Western Union's comments raise questions far broader in scope than those embraced in the instant rule making proceeding. For this reason as well as the arguments advanced by the American Company, we have concluded that we should not take any steps herein toward denying "cradle-to-grave" treatment for teletypewriters and other telegraph equipment in account 231, or toward placing such equipment in a separate plant account.

8. Since issuing the notice of proposed rule making herein the Commission has noted that, while the language of accounts 231, "Station apparatus," and 234, "Large private branch exchanges," makes a clear and sharp dividing line as to what private branch exchanges are includible in each, the line of demarcation is not nearly so satisfactory with respect to teletypewriter switching equipment. In an effort to remedy this deficiency the item "Teletypewriter equipment" in the items list under account 231 has been expanded to read "Teletypewriter equipment, including switching equipment. (See also accounts 221 and 234.)"

9. The effective date of the amendments being adopted to the system of accounts is January 1, 1958. This is because the Commission is directed by section 220 (g) of the Communications Act to give at least six months notice of alterations in the required manner or form of keeping accounts, and it is believed that alterations of the type being made should become effective only at the beginning of a calendar year. It is provided, however, that those companies desiring to do so may place the amendments into effect as of January 1, 1957. The Commission understands that many telephone companies intend to take advantage of this option of a January 1, 1957, effective date and it would seem that benefits would accrue to companies, regulatory bodies, and the public if it were possible for all Class A and B telephone companies to achieve a January 1, 1957, effective date.

It appearing that the proposed rule making proceeding in this matter has indicated the desirability of amendment of the Commission's accounting rules for Class A and B telephone companies in substantially the form proposed;

It is ordered, That under authority contained in sections 4 (i) and 220 (a) of the Communications Act of 1934, as amended, Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) of the Commission's rules and regulations is amended as set forth below effective January 1, 1958; *Provided, however*, That any company may if it so desires place these amendments into effect as of January 1, 1957.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 220, 48 Stat. 1078; 47 U. S. C. 220)

Adopted: September 19, 1956.

Released: September 24, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1a. Delete present paragraph (r) of § 31.01–3 and substitute the following in lieu thereof:

(r) "Minor items," as applied to depreciable telephone plant, means any part or element of such plant, other than station apparatus and station connections, which is not designated as a retirement unit in § 31.8.

b. In paragraph (bb) of § 31.01–3 change the period to a comma and add the following words "or other appropriate account." Paragraph (bb), as amended, reads as follows:

(bb) "Salvage value" means the amount received for property retired, if sold, or if retained for reuse, the amount at which the material recovered is chargeable to account 122, "Material and supplies," or other appropriate account.

2. Add the following two sentences at the end of paragraph (c) of § 31.02–80: "For purposes of the records required to be kept under this paragraph no costs of removal or disconnection shall be associated with account 231, 'Station apparatus.' Any such costs shall be recorded as applicable to account 232, 'Station connections.'" Paragraph (c), as amended, reads as follows:

(c) The company shall keep such records of property and property retirements as will reflect the service life of property which has been retired, or will permit the determination of service-life indications by mortality, turnover, or other appropriate methods, and also such records as will reflect the percentage of salvage value, or net salvage value, as appropriate, for property retired from each class of depreciable telephone plant. For purposes of the records required to be kept under this paragraph no costs of removal or disconnection shall be associated with account 231, "Station apparatus." Any such costs shall be recorded as applicable to account 232, "Station connections."

3. In § 31.02–82, beneath the words "Station apparatus (account 231).", insert the words "Station connections (account 232)."; change the words "Private branch exchanges" to read "Large private branch exchanges"; and delete the words "Booths and special fittings (account 235)." Section 31.02–82, as amended, reads as follows:

§ 31.02–82 *Classes of depreciable telephone plant.* The classes of depreciable telephone plant and the accounts covering such plant are as follows:

Right of way (account 207).
Buildings (account 212).
Central office equipment (account 221).
Station apparatus (account 231).
Station connections (account 232).
Large private branch exchanges (account 234).
Pole lines (account 241).
Aerial cable (account 242:1).
Underground cable (account 242:2).
Buried cable (account 242:3).
Submarine cable (account 242:4).
Aerial wire (account 243).
Underground conduit (account 244).
Furniture and office equipment (account 261).
Vehicles and other work equipment (account 264).

NOTE: When depreciable plant carried in account 276, "Telephone plant acquired," is distributed to the appropriate plant accounts, adjusting entries shall be made covering the depreciation charges applicable to such plant for the period during which it was carried in account 276.

4. Delete paragraph (a) of § 31.100:2 and substitute the following in lieu thereof:

§ 31.100:2 *Telephone plant under construction.* (a) This account shall include the original cost (note § 31.01–3 (x)) of construction of telephone plant, other than station apparatus, that is not completed ready for service. It shall include interest during construction, taxes during construction, and all other elements of cost of such construction work. (Note also §§ 31.2–20 to 31.2–22 and account 231.)

5. In § 31.100:3, paragraph (a), add the words "other than station apparatus," between the words "property" and "owned." Paragraph (a), as amended, reads as follows:

§ 31.100:3 *Property held for future telephone use.* (a) This account shall include the original cost (note § 31.01–3 (x)) of property, other than station apparatus, owned and held for imminent use in telephone service under a definite plan for such use.

6. Amend § 31.122 as follows:

a. In paragraph (a), after the words "held in stock," insert "(see also Note E to this account)". Paragraph (a), as amended, reads as follows:

§ 31.122 *Material and supplies.* (a) This account shall include the cost of unapplied material and supplies held in stock (see also Note E to this account), including plant supplies, tools, fuel, stationery, directory paper stock, and other supplies; and material and articles of the company in process of manufacture for supply stock.

b. In the first sentence of paragraph (b), after the word "charges," insert the words "and sales and use taxes,". Delete the second sentence of paragraph (b). Paragraph (b), as amended, reads as follows:

(b) Transportation charges and sales and use taxes, so far as practicable, shall be included as a part of the cost of the particular material to which they relate.

c. Following Note D, add a new note as follows:

NOTE E: This account shall not include items in stock which are includible in account 231, "Station apparatus." Materials in stock that are normally used for station apparatus repair purposes shall be included in account 605, "Repairs of station equipment," if company-held, and in this account if in stocks held by others.

7. Amend paragraph (b) of § 31.171 as follows:

a. In the first sentence, delete the words "(except the cost of removal of station apparatus)". Insert the following as a new second sentence: "(With respect to entries relating to station apparatus and station connections, see accounts 231 and 232.)" Change present second sentence to read: "This account shall also be credited with amounts chargeable to account 138, 'Extraordinary maintenance and retirements,' as provided in § 31.02–83."

b. Paragraph (b), as amended, reads as follows:

(b) At the time of retirement of depreciable telephone plant, this account shall be charged with the original cost (note § 31.01–3(x)) of the property retired plus the cost of removal and shall be credited with the salvage value and insurance recovered, if any. (With respect to entries relating to station apparatus and station connections, see accounts 231 and 232.) This account shall also be credited with amounts chargeable to account 138, "Extraordinary maintenance and retirements," as provided in § 31.02–83. (Note also § 31.2–25.)

8a. In the last sentence of paragraph (b) of § 31.2–20 delete the words "or account 607, 'Station removals and changes,' as appropriate." As amended, that portion of paragraph (b) preceding Note A reads as follows:

(b) The telephone plant accounts shall not include the cost or other value of telephone plant contributed to the company. Contributions in the form of money or its equivalent toward the construction of telephone plant shall be credited to the accounts charged with the cost of such construction. Amounts of initial non-recurring charges based on the cost of plant or equipment furnished in rendering service to a customer, other than as provided in § 31.5–50 (b) (2) shall be credited to the accounts charged with the cost of the plant or equipment. Amounts of initial charges based on the estimated cost of removal of such plant or equipment shall be credited to account 171, "Depreciation reserve."

b. In paragraph (d) of § 31.2–20 change "$10" to read "$25". Paragraph (d), as amended, reads as follows:

(d) The cost of individual items of equipment, such as tools and office equipment of small value (for example, costing $25 or less) or short life, shall be charged to the appropriate operating expense or clearing accounts according to the use of such items, except that such accounting shall not be permitted when the investment in such property is relatively large and the correctness of the accounting therefor is verified by current inventories.

9. a. At the end of paragraph (b) (10) (i) of § 31.2–22 delete the period and add the following words: ", except, however, that such interest shall be only on amounts in account 100.2, 'Telephone plant under construction'."

b. Paragraph (b) (10) (i), as amended, reads as follows:

(i) Reasonable amounts for interest during the construction period (before the property is received or is completed ready for telephone service) on general funds expended for the acquisition or construction of telephone plant shall be charged to the telephone plant accounts and credited to account 313, "Interest income," except, however, that such interest shall be only on amounts in account 100.2, "Telephone plant under construction."

10. Amended § 31.2–25 as follows:

a. In the first sentence of paragraph (a) delete the words "(except as provided in paragraph (b) (2) of this section)" and substitute the words "(except as provided in paragraph (b) (2) of this section and in account 231)".

b. In the first sentence of paragraph (b) (2), after the word "element" insert the words "of plant, other than station apparatus and station connections (see § 31.01–3 (r)),".

c. At the beginning of the third sentence of paragraph (b) (2), delete the words "Except as provided in the note under account 231, 'Station apparatus,' in § 31.8," and capitalize the first letter of the word "if".

d. After paragraph (b) (2) add new subparagraphs as follows:

(3) Station apparatus: The accounting to be performed upon the disposition of station apparatus shall be as provided in account 231. (Note also § 31.02–80 (c).)

(4) Station connections: The accounting to be performed upon the retirement of station connections shall be as provided in account 232. (Note also § 31.02–80 (c).)

e. Delete present paragraphs (c) and (d) and substitute the following in lieu thereof:

(c) Leaseholds: The accounting for leaseholds retired shall be as provided for in the texts of account 172, "Amortization reserve," and account 613, "Amortization of intangible property."

(d) Land: The original cost of land retired shall be credited to account 211, "Land." If the land is sold, the difference between such original cost and the sale price (less commissions and other expenses of making the sale) of the land shall be credited to account 401, "Credits for telephone plant sold," or debited to account 410, "Debits for telephone plant sold," as may be appropriate. If the land is retained by the company and held for sale, its cost shall be charged to account 103, "Miscellaneous physical property."

f. In the third sentence of paragraph (e) change the word "installations" to "connections".

g. Section 31.2–25, as amended, reads as follows:

§ 31.2–25 *Telephone plant retired.* (a) To the end that the telephone plant accounts (note §§ 31.2–20, 31.2–21) shall at all times disclose the original cost (note § 31.01–3 (x)) of all property in service, the original cost of retired property, whether replaced or not (except as provided in paragraph (b) (2) of this section and in account 231), shall be credited to the account or accounts in this classification to which such cost was charged. Normally, these retirement credits with respect to such plant as entire buildings, entire central offices, large private branch exchanges, all plant abandoned, and any large sections of plant withdrawn from service with knowledge that they will not be physically removed during the following month shall be entered in the accounts for the month in which use of the property ceased and no later than the next succeeding month with respect to other plant: *Provided*, That when literal compliance with this provision for timing of entries with respect to the property amounting to less than $5,000 retired under any one project would involve an unreasonable amount of record keeping and estimating of quantities, original costs, and salvage, such entries may be deferred until physical removal of the property or decision to abandon it in place if there is assurance that such removal or decision will not be unduly delayed. Every company shall, therefore, take such measures and establish such procedure as will insure strict compliance with these requirements. When any item of property subject to plant retirement accounting is worn out, lost, sold, destroyed, abandoned, surrendered upon lapse of title, becomes permanently unserviceable, is withdrawn, or for any other reason is retired from service, the amount in the plant accounts applicable to that item shall be credited to the appropriate plant accounts, and the retirement entry shall refer to the source (or to the supporting records showing the source) in the continuing property record from which the cost was obtained. (Note also paragraph (e) of this section.)

(b) Depreciable telephone plant: For the purpose of avoiding undue refinement in accounting for the replacement of small items of property, the accounting for retirements and replacements of depreciable telephone plant shall be as follows:

(1) Retirement units: This group includes major items of property, a list of which is shown in § 31.8. The original cost of any such item retired shall be credited to the plant account and charged to account 171, "Depreciation reserve," whether or not replaced. (Note also paragraph (b) of account 171.) The original cost of property installed in place of the property retired shall be charged to the appropriate telephone plant account.

(2) Minor items: This group includes any part or element of plant, other than station apparatus and station connections (see § 31.01–3 (r)), which is not designated as a retirement unit. The original cost of any minor item of property retired and not replaced shall be credited to the plant account and charged to account 171 (note also paragraph (b) of the text of that account), except that if the original cost of a minor item of property is included in the specific or average cost for a retirement unit of which the minor item is a part, no separate credit to the telephone plant account is required when such a minor item is retired. If minor items of property are replaced (apart from the retirement unit of which they form a part or with which they are associated) no adjustment shall be made in account 171. The cost of the replacement shall be charged to the account appropriate for the cost of repairs of the property, except that if the replacement effects a substantial betterment (the primary aim of which is to make the property affected more useful, of greater durability, of greater capacity, or more economical in operation) the excess cost of (i) such a replacement over (ii) the estimated cost at the then current prices of replacing without betterment the minor items being retired, shall be charged to the appropriate telephone plant account.

(3) Station apparatus: The accounting to be performed upon the disposition of station apparatus shall be as provided in account 231. (Note also § 31.02–80 (c).)

(4) Station connections: The accounting to be performed upon the retirement of station connections shall be as provided in account 232. (Note also § 31.02–80 (c).)

(c) Leaseholds: The accounting for leaseholds retired shall be as provided for in the texts of account 172, "Amortization reserve," and account 613, "Amortization of intangible property."

(d) Land: The original cost of land retired shall be credited to account 211, "Land." If the land is sold, the difference between such original cost and the sale price (less commissions and other expenses of making the sale) of the land shall be credited to account 401, "Credits for telephone plant sold," or debited to account 410, "Debits for telephone plant sold," as may be appropriate. If the land is retained by the company and held for sale, its cost shall be charged to account 103, "Miscellaneous physical property."

(e) Determination of the cost of property to be retired: The cost of telephone plant retired shall be the amount at which such property is included in the telephone plant accounts. When it is impracticable to determine the cost of each item due to the relatively large number or small cost of such items, the average cost of all the items covered by an appropriate subdivision of the account shall be used in determining the cost to be assigned to such items when retired: *Provided*, That the method used in determining average cost gives due regard to the quantity, size, and kind of items, the area in which they were installed and their classification in other respects, as called for by the rules of the Commission regarding continuing property records and by the system of continuing property records accepted by the Commission specifically for use of the accounting company. This method of average cost may be applied in retirement of such items as telephones, bell boxes, station connections, poles, crossarms, wire, cable, cable terminals, conduit, and nonmultiple private branch exchange switchboards. Any company may use average cost of property installed in a year or band of years. It should be understood, however, that the use of average costs shall not relieve the company of the requirement for maintaining its continuing property records in such manner as to show, where practicable, dates of installation and removal so as to provide these data for purposes of mortality studies.

(f) The accounting for the retirement of organization, franchises, patent rights, and other intangible property, shall be as provided for in the texts of account 172, "Amortization reserve," account 413, "Miscellaneous debits to earned surplus," account 613, "Amortization of intangible property," and account 100:4, "Telephone plant acquisition adjustment."

(g) When telephone plant is sold together with the telephone traffic associated therewith, the original cost of the property shall be credited to the appropriate plant accounts and the estimated amounts carried with respect thereto in the depreciation and amortization reserve accounts shall be charged to such reserve accounts. The difference, if any, between (1) the net amount of such debit and credit items and (2) the consideration received (less commissions and other expenses of making the sale) for the property shall be included, if a debit, in account 410, "Debits for telephone plant sold," and if a credit, in account 401, "Credits for telephone plant sold." The accounting for depreciable telephone plant sold without the traffic associated therewith shall be in accordance with the accounting provided in paragraph (b) of account 171, "Depreciation reserve."

11. Delete § 31.231 and substitute the following in lieu thereof:

§ 31.231 *Station apparatus.* (a) This account shall include the original cost (note § 31.01–3 (x)) of station apparatus, including small private branch exchanges and booths, installed either for customers' or the company's use. This account shall also include the cost of materials in stock which are normally used as station apparatus or additions thereto, as distinguished from items normally used for repair purposes. Items included in this account which are normally used as station apparatus shall remain herein until finally disposed of or until used in such manner as to be includible in other accounts.

(b) Each company shall prepare a list of items of station apparatus which shall be used as its list of disposition units for this account the cost of which when finally disposed of shall be credited to this account and charged to the depreciation reserve. Two copies of such list shall be submitted to the Commission not later than the date it is to be made effective for use by the company, together with the company's plan for determining disposition unit costs and the methods to be used to insure that an equitable portion of the cost of other items, supply expense, and other amounts included in this account will be credited hereto and charged to account 171, "Depreciation reserve," upon the ultimate disposal of any disposition unit. Revisions made during any year to the effective list of disposition units shall be submitted in duplicate to the Commission not later than March 1 of the following year.

ITEMS

(Note § 31.01–8)

Amplifying equipment.
Answering equipment.
Attendants' cabinets.
Attendants' desks.
Backboards.
Battery boxes.
Booths.
Code call units.
Code sending sets.
Coin collectors.
Desk sets, hand sets, wall sets, and combined sets, including those used at main, extension, private branch exchange, and private line stations, etc. This includes such sets used as operators' sets at large private branch exchanges and in central offices and operators' schools. (See also Note C to this account.)
Directory stands or shelves.
Distributing frames.
Extension bells.
Hand-set mountings.
Messenger, and similar signaling devices.
Mobile telephone equipment.
Operators' chairs.
Operators' head sets and breastplate transmitters. (See also Note C to this account.)
Order receiving tables.
Order turrets.
Power equipment.
Printer-telegraph equipment.
Private branch exchange equipment—nonmultiple manual and cordless switchboards and dial equipment of types designed for not more than two digit operation.
Program supply equipment.
Public telephone signs.
Station switching and signaling devices, including apparatus cabinets, keys, key cabinets, and other devices used as parts of intercommunicating systems.
Subscriber sets.
Telegraph equipment.
Teletypewriter equipment, including switching equipment. (See also accounts 221 and 234.)

NOTE A: The cost of installation (including cabling, station protectors, and wiring) shall be charged to account 232, "Station connections."

NOTE B: The cost of cross-connection boxes installed as a part of the house cable system, including those used as distributing frames, shall be charged to account 242.1, "Aerial cable."

NOTE C: Operators' head sets and breastplate transmitters in central offices and at large private branch exchanges, and test sets such as those used by wire chiefs, linemen, and others, shall be included in account 221, "Central office equipment," account 234, "Large private branch exchanges," or account 264, "Vehicles and other work equipment," as appropriate.

NOTE D: Items of station apparatus in stock for which no further use in the ordinary conduct of the business is contemplated, or which as a precautionary measure, are held for possible future contingencies instead of being junked, shall be excluded from this account and included in account 122, "Material and supplies."

NOTE E: An annual inventory shall be taken of all telephones in stock that are included in this account. The number of such telephones as determined by this inventory, together with the number of all other telephones included in this account, shall be compared with the corresponding number of telephones as shown by the respective control records. The original cost of any unreconciled differences thereby disclosed shall be adjusted through account 171, "Depreciation reserve." Appropriate verifications shall also be made at suitable intervals and necessary adjustments between this account and account 171 shall be made for all other station apparatus included in this account.

12. Delete § 31.232 and substitute the following in lieu thereof:

§ 31.232 *Station connections.* (a) This account shall include the original cost (note § 31.01–3 (x)) of installing or connecting items of station apparatus and the original cost of inside wiring and cabling and of drop and block wires. (See also account 605, "Repairs of station equipment.")

(b) When station apparatus is installed, the cost of installation shall be charged to this account. The original cost (actual or estimated average unit cost) of any portion of the station connections which is thereby returned to service shall also be charged to this account and credited to account 171, "Depreciation reserve."

(c) When a left-in station is reconnected, the cost of reconnection shall be charged to this account. The original cost (actual or estimated average unit cost) of the portion of the station connections associated with the left-in station which is retired as a result of the reconnection work shall be credited hereto and charged to account 171, "Depreciation reserve."

(d) When a station (or other item of station apparatus with which station connections are associated in the company's retirement practices) is physically removed, the original cost (actual or estimated average unit cost) of the associated station connections carried in this account shall be credited hereto and charged to account 171, "Depreciation reserve." In the event of the replacement of a small private branch exchange or booth, if the cost of installation of the replacement is charged to this account, an appropriate retirement shall be made from this account for the station connections associated with the plant replaced.

ITEMS

(Note § 31.01–8)

The wires (or small cables) from the station apparatus to the point of connection with the general overhead or underground system or to the junction boxes where the house cable or other cable terminates. This includes circuits, carried by means of wire or small cables, extending to the cable terminal in cases where connection is made with a general cable system, or to the point of connection with the aerial wire plant in cases where connection is made with a general wire system.

The wires (or small cables) used to connect station apparatus in the same building, such as main stations with extension stations, and stations of intercommunicating systems.

The wires (or small cables) used to connect private branch exchange switchboards or their distributing frames with terminal stations located in the same building.

The wires (or small cables) used to connect the various parts of a small private branch exchange, such as the cables or wires from distributing frames to switchboard.

The wires (or small cables) installed specifically to serve as trunk, battery, or generator circuits from a small private branch exchange to the point of connection with the permanent house or outside cables or wires.

Connecting blocks, ground wires, ground rods, station protectors, clamps, cleats, nails, screws and other material used in the installation of station apparatus and inside wiring and cabling.

Labor and other costs incurred in connection with station apparatus and station connection installations or additions thereto.

Brackets, bridle rings, insulators, knobs, span clamps, screws, sleeves, strand, tubes, and other material used in the installation of drop and block wires; trimming trees and other costs incurred in the installation of such wires; pipes or other protective covering for underground service connections; and permits and privileges for construction.

NOTE A: Costs chargeable to this account in connection with inside cabling are restricted to small cables used in station installations instead of wires, such as those run from wall outlets or floor terminals to the station apparatus, and to cables used in installing small private branch exchanges. The cost of cables used in installing large private branch exchanges is chargeable to account 234, "Large private branch exchanges." The cost of other inside cables, including riser and distributing cables in buildings, which by their physical character, method of installation, and permanence constitute house cables, is chargeable to account 242:1, "Aerial cable."

NOTE B: The cost of outside plant, such as poles, wires, and cables, whether or not on private property, used to connect a private branch exchange with its terminal stations shall be charged to the appropriate pole, wire and cable accounts.

NOTE C: The cost of disconnecting or removing station apparatus and station connections shall be charged to account 171, "Depreciation reserve." However, provisional denials of service to stations for nonpayment shall not be treated as stations disconnected unless the denials become final. Similarly, restoration of service to such stations subjected to provisional denials which have not become final shall not be treated as stations reconnected. The cost of disconnecting and reconnecting customers' lines at customers' premises to effect such provisional denials and restorations shall be charged to account 605, "Repairs of station equipment." If the disconnection and reconnection are made in central offices, the cost thereof shall be charged to account 604, "Repairs of central office equipment."

13. Delete § 31.233.

14. Delete § 31.234 and substitute the following in lieu thereof:

§ 31.234 *Large private branch exchanges.* This account shall include the original cost (note § 31.01–3 (x)), including cost of installation, of multiple manual private branch exchanges, and of dial system private branch exchanges of types designed for more than two digit operation (types designed to accommodate normally 100 or more extensions) installed either for customers' or the company's use. (See also account 231.)

ITEMS

(Note § 31.01–8)

Cables or wires from distributing frame to switchboard.

Dial system private branch exchanges of types designed for more than two digit operation, including any nonmultiple manual switchboards used as attendants' positions in connection with such dial system exchanges.

Distributing frames.

Multiple manual switchboards.

Operators' chairs.

Operators' head sets and breastplate transmitters.

Power equipment, including special foundations.

Switching equipment at automatic switching centers of private line teletypewriter systems.

Wires (or small cables used instead of wires) installed specifically to serve as trunk, battery, or generator circuits from a large private branch exchange to the point of connection with the permanent house or outside cables or wires.

NOTE A: The cost of riser and distributing cables in buildings other than central offices, which by their physical characteristics, method of installation, and permanence constitute regular house cables shall be charged to account 242:1.

NOTE B: The cost of outside plant, such as poles, wires, and cables, whether or not on private property, used to connect a private branch exchange with its terminal stations shall be charged to the appropriate pole, wire, and cable accounts.

NOTE C: The cost of cross-connection boxes installed as a part of the house cable system, including those used as distributing frames, shall be charged to account 242:1.

15. Delete § 31.235.

16. In the last sentence of Note A to § 31.242:1, change the words "account 234." to read "account 232 or account 234, as appropriate." Note A, as amended, reads as follows:

NOTE A: House cables are considered to be extensions of aerial cable plant. They do not include the inside wires extending from terminal boxes of house cables to subscribers' stations which are included in account 232, or the cables for subscribers' private branch exchange switchboards which are included in account 232 or account 234, as appropriate.

17. Delete Note B to § 31.242:2 and substitute the following:

NOTE B: The cost of small cables used in station installations or as drop wires shall be charged to account 232.

In the second sentence of Note D to § 31.242:2, change the words "account 234." to read "account 232 or account 234, as appropriate." Note D, as amended, reads as follows:

NOTE D: House cables are considered to be extensions of aerial cable plant. They do not include the inside wires extending from terminal boxes of house cables to subscribers' stations which are included in account 232, or the cables for subscribers' private branch exchange switchboards which are included in account 232 or account 234, as appropriate.

18. In the note to § 31.243, change the words "account 233." to read "account 232." The note, as amended, reads as follows:

NOTE: The cost of drop and block wires shall be included in account 232.

19. In Note B to § 31.244, change the words "account 233." to read "account 232." Note B, as amended reads as follows:

NOTE B: The cost of pipes or other protective covering for underground drop and block wires or service connections shall be included in account 232.

20. In § 31.261, delete the words "(Note also accounts 221, 234, and 235 and § 31.2–20 (d).)" and substitute the words "(Note also § 31.2–20 (d) and accounts 221 and 234.)". Section 31.261, as amended, reads as follows:

§ 31.261 *Furniture and office equipment.* This account shall include the original cost (note § 31.01–3 (x)) not provided for in other accounts, of furniture and equipment in offices, storerooms, shops, and other quarters. (Note also § 31.2–20 (d) and accounts 221 and 234.)

ITEMS

(Note § 31.01–8)

Beds, cots, and couches.
Bins, counters, and shelves.
Bookcases.
Cabinets and filing cases.
Cages, cashiers'.
Chairs, carpets, and rugs.
Clocks.
Davenports.
Desks.
Equipment in rest, dining, recreation and medical rooms.
Fans, electric, portable.
Fire-extinguisher equipment, portable.
Floor-scrubbing and polishing machines.
Gas and electric fixtures, portable.
Lockers and wardrobes, portable
Mirrors, portable.
Motion-picture equipment.
Office devices, including addressing, billing, blueprinting, computing, dating, duplicating, mailing, photostat and recording machines, cash registers, check writers, postage meter machines, typewriters, etc.
Pianos and phonographs.
Radio sets.
Racks—magazine, newspaper, umbrella, and clothing.
Refrigerators, portable
Safes.
Sewing machines.
Stoves.
Switchboards, special type public demonstration.
Tables.
Vacuum sweepers.
Vending machines.
Water coolers.

NOTE: The cost of fixtures attached to and constituting a part of buildings shall be charged to account 212.

21. Following Note F to § 31.305, add a new note as follows:

NOTE G: Sales and use taxes shall be accounted for, so far as practicable, as a part of the cost of the items to which the taxes relate.

22. Delete paragraph (b) (2) of § 31.5–50 and substitute the following in lieu thereof:

(2) Amounts of initial nonrecurring charges for plant or equipment, furnished in rendering service to a customer, includible in accounts 231, 232, and 234, except initial charges based on the cost of specially assembled private branch exchanges includible in account 234. (Note paragraph (b) and Note A of § 31.2–20.).

23. In paragraph (b) of § 31.6–61 delete the words "except as provided in account 605, 'Repairs of station equipment,' for labor and incidental costs in the replacement of station apparatus". Paragraph (b), as amended reads as follows:

(b) The cost of repairs does not include the cost of replacing items of property designated as "retirement units." (Note also § 31.2–25.)

24. In paragraph (a) of § 31.603, delete the words "station reconnections, reinstallations, inside moves and rearrangements of station equipment" and substitute the words "inside moves and rearrangements of station apparatus, including service regrades". Paragraph (a), as amended, reads as follows:

§ 31.603 *Test desk work.* (a) This account shall include the costs incurred by forces located in central offices and engaged in the work of receiving and recording reports of trouble from subscribers and others; testing from test desks to determine the nature and location of trouble; dispatching repairman from test desks; testing from test desks with repairmen during the course of their work or upon its completion and making other tests from test desks to determine the condition of the plant; and testing from test desks in the course of inside moves and rearrangements of station apparatus, including service regrades.

* * * * *

25. Delete § 31.605 and substitute the following in lieu thereof:

§ 31.605 *Repairs of station equipment.* (a) This account shall include the cost of repairing station apparatus, station connections and large private branch exchanges. It shall also include the cost of replacing station apparatus (excluding the cost of material other than repair parts) and the cost of replacing station connections where service discontinuance is not involved.

(b) This account shall include also amortization of costs of extensive replacements of station apparatus, inside wires, and drop and block wires, which, under conditions provided in § 31.6–64, have been included in account 138, "Extraordinary maintenance and retirements."

ITEMS

(Note § 31.01–8)

Changing type of telephone, such as from desk set to hand set, wall set to desk set, magneto to common battery, or nondial to dial.

Changing inside and drop and block wires.

Cleaning station apparatus and large private branch exchange equipment.

Disconnecting and reconnecting customers' lines at customers' premises to deny service provisionally for nonpayment and to restore service in cases of provisional denials which have not become final. (See also Note C to account 232.)

Inside moves (moves or relocations on the same premises or at the same address) of items of station apparatus. (See also Note A to this account.)

Inspecting, testing, and reporting on condition of equipment to determine the need for repairs or replacements. (See also account 603.)

Materials normally used as repair parts for station apparatus.

Number plate changes not incident to station connections.

Removing sediment from and cleaning batteries.

Repainting and other repairs of booths, including those owned by others.

Repairing used station equipment for reuse.

Replacing dry-cell batteries.

Replacing minor items of large private branch exchanges, including labor and material used and the removal and recovery of the items retired less salvage recovered, except when such items are replaced through the replacement of retirement units. (Note also § 31.2–25.)

Replacing one small private branch exchange by another of the same capacity and type. (See paragraph (d) of account 232.)

Routine work to prevent trouble, such as trimming trees to protect existing drop and block wires.

Supply expense applicable to station apparatus being reused.

Testing for, locating and clearing trouble in station apparatus and large private branch exchanges. (See also account 603.)

NOTE A: The accounting for station connections in cases of customers' moves to different premises or to a different address shall be on the basis of a retirement or a disconnection at the old location and an installation or a reconnection at the new location.

NOTE B: Amounts charged customers for moves and changes of station apparatus and large private branch exchanges shall be credited to account 500 or to other revenue accounts appropriate for the class of service involved.

26. Delete § 31.607.

27. In § 31.632, add the following new item after the fifth item in the item list: "Repairs of furniture and office equipment used at public telephone locations and cost and repairs of individual items of small value or short life. (Note also § 31.2–20 (d).)"

28. Delete paragraph (b) of § 31.704 preceding "Items" and substitute the following in lieu thereof.

(b) This account shall be cleared by equitably distributing the total expense on the basis of material and supplies and items of station apparatus.

29. Amend § 31.8 as follows:

a. In sub-section 221 Central office equipment, after the words "Teletypewriter sets:", delete the words "Units specified under account 231." and substitute the words "The disposition units maintained by each company for account 231 in accordance with the provisions of that account."

b. Delete sub-section 231 *Station apparatus* in its entirety and substitute the following in lieu thereof:

231 *Station apparatus.* None, but each company shall maintain its own list of station apparatus disposition units for account 231 in accordance with the provisions of that account.

c. Delete sub-section 232 *Station installations* in its entirety and substitute the following in lieu thereof:

232 *Station connections.* (See § 31.2–25 and accounts 232 and 605.)

d. Delete sub-section 233 *Drop and block wires* in its entirety.

Delete sub-section 234 *Private branch exchanges* in its entirety and substitute the following in lieu thereof:

234 *Large private branch exchanges.* Units specified under sub-section 221 *Central office equipment* of this section.

e. Delete sub-section 235 *Booths and special fittings* in its entirety.

30. In Case 6–R–2 of Appendix A, delete paragraph (h) and substitute the following in lieu thereof:

(h) All the central office equipment, station apparatus, station connections, large private branch exchanges, furniture and office equipment, or vehicles and other work equipment situated in or utilized in a single exchange area, central office area, or other extensive area, without additional classes of associated plant.

31. In the last sentence of the answer in Case 9–R–1 of Appendix A, delete the words "see account 233, 'Drop and block

wires.'" and substitute the words "see account 232, 'Station connections.'". The answer, as amended, reads as follows:

Answer: With respect to both the basic structure and the conductor serving as a ground (except when, constituting underground dips, which may be viewed as a virtual part of the adjoining conductor structure), the cost shall be included in account 242:3, "Buried cable," [1] unless protected by a structure reusable in place for other cable, in which event the cost of these wires shall be included in account 242:2, "Underground cable," [1] and the cost of the protective structure shall be included in account 244, "Underground conduit" [1] (see account 244, note A). (The foregoing does not apply to drop wires, even if buried, extending from the point of connection with the general overhead or underground system to the subscribers' premises—see account 232, "Station connection." [2])

32. In the first sentence of paragraph 4 (a) of Appendix B, delete the words "station installations" and substitute the words "station connections". Paragraph 4 (a), as amended, reads as follows:

4. *Average costs.* (a) In the development of average costs for plant consisting of a large number of similar units, such as telephones, bell boxes, station connections, poles, crossarms, wire, cable, cable terminals, conduit, and nonmultiple private branch exchange switchboards, units of similar size and type within each specified accounting area and plant account may be grouped without regard to year of construction. Each such average cost shall be set forth in the continuing property record or in records supplemental thereto and in support thereof.

In the second sentence of paragraph 5 of Appendix B, delete the words "station apparatus, station installations, and drop and block wires)" and substitute the words "station apparatus and station connections)". Paragraph 5, as amended, reads as follows:

5. *Identification of property-record units.* There shall be shown in the continuing property record or in records supplemental thereto and in support thereof, a complete description of the property-record units in such detail as to identify plainly such units. The description (except for classes of plant for which it is impracticable, such as station apparatus and station connections) shall include the identification of the work order under which constructed, the year of installation (unless not determinable at reasonable expense with respect to past acquisitions or installation), the specific location of the property within each accounting area in such manner that it can be readily spot-checked for proof of physical existence, the accounting company's number or designation, and any other description used in connection with the determination of the original cost. Descriptions of units of similar size and type shall follow prescribed groupings.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Parts 250, 251]

LIQUORS AND ARTICLES FROM PUERTO RICO AND THE VIRGIN ISLANDS; IMPORTATION OF DISTILLED SPIRITS, WINES, AND BEER

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

In order (a) to simplify recordkeeping and reporting requirements, and (b) to delete the detailed listing of various tax rates, 26 CFR Parts 250 and 251 are amended as follows:

PARAGRAPH 1. 26 CFR Part 250, "Liquors and Articles from Puerto Rico and the Virgin Islands," is amended as follows:

(A) Section 250.127 is amended to read:

§ 250.127 *Report of red strip stamps used.* The insular internal revenue agent will record and report the use of red strip stamps on taxpaid spirits bottled for sale to tourists in Puerto Rico as provided in § 250.146.

(B) Section 250.146, and the headnote thereto, is amended to read as follows:

§ 250.146 *Record and report of red strip stamps.* Insular internal revenue agents having custody of red strip stamps will keep a daily record, by denomination, of red strip stamps received, used, mutilated, unaccounted for, destroyed, and on hand at the beginning and end of the day. No form is prescribed for the daily records but such records shall be retained to support the monthly report. At the close of the month, or within 10 days thereafter, the insular internal revenue agent will prepare a report, in quadruplicate, of the strip stamps received and used during the month on Form 2260, properly modified. The agent will retain one copy and forward three copies to the treasurer; the treasurer will retain one copy, forward one copy to the United States Internal Revenue Service office, and one copy to the assistant regional commissioner.

(68A Stat. 602; 26 U. S. C. 5008)

(C) Subpart H is amended to read as follows:

SUBPART H—RECORDS AND REPORTS OF LIQUORS FROM PUERTO RICO

§ 250.163 *General requirements.* Except as provided in § 250.164, every person, other than a tourist, bringing liquors into the United States from Puerto Rico shall keep records and render reports of the physical receipt and disposition of such liquors in accordance with Part 194 ("Liquor Dealers") of this chapter: *Provided,* That regardless of who takes actual physical possession of the liquors at the time of their release from customs custody, the records and reports of the person actually responsible for such release shall reflect the transaction. Records and reports will not be required under this part with respect of liquors while in customs custody.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

§ 250.164 *Proprietors of taxpaid premises.* Transactions involving the bringing of liquors into the United States from Puerto Rico by proprietors of industrial alcohol plants or bonded warehouses, registered distilleries, fruit distilleries, and internal revenue bonded warehouses operating taxpaid premises, and proprietors of taxpaid bottling houses and rectifying plants shall be recorded and reported in accordance with the regulations governing the operations of each such premises.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

PROCUREMENT OF FORMS

§ 250.165 *Forms to be provided by users at own expense.* Forms 52A, 52B, and 338 shall be purchased by users from commercial printers and must be in the form prescribed: *Provided,* That, with the approval of the Director, Alcohol and Tobacco Tax Division, they may be modified to adapt their use to tabulating or other mechanical equipment.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

(D) The title of Subpart N is amended to read, "Records and reports of liquors from the Virgin Islands".

(E) Section 250.274, and the headnote thereto, is amended to read as follows:

§ 250.274 *General requirements.* Except as provided in § 250.275, every person, other than a tourist, bringing liquors into the United States from the Virgin Islands shall keep records and render reports of the physical receipt and disposition of such liquors in accordance with Part 194 ("Liquor Dealers") of this chapter: *Provided,* That regardless of who takes actual physical possession of the liquors at the time of their release from customs custody, the records and reports of the person actually responsible for such release shall reflect the transaction. Records and reports will not be required under this part with respect of liquors while in customs custody.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

(F) Section 250.275 and the headnote thereto is amended to read as follows:

§ 250.275 *Proprietors of taxpaid premises.* Transactions involving the bringing of liquors into the United States from the Virgin Islands by proprietors of industrial alcohol plants or bonded warehouses, registered distilleries, fruit distilleries, and internal revenue bonded warehouses operating taxpaid premises, and proprietors of taxpaid bottling houses and rectifying plants shall be recorded and reported in accordance with the regulations governing the operations of each such premises.

(68A Stat. 618, 619, 681; 26 U. S. C. 5112, 5114, 5555)

(G) Section 250.276 is revoked.
(H) Section 250.277 is revoked.
(I) Section 250.278 is revoked.
(J) Section 250.279 is revoked.
(K) Section 250.280 is revoked.
(L) Section 250.281 and the undesignated centerhead immediately preceding that section are revoked.
(M) Section 250.282 is revoked.
(N) Section 250.283 is revoked.
(O) Section 250.284 is amended as follows:

(1) By striking from the first sentence the phrase "Form 52 F, Record 52, and".

(2) By striking from the first sentence the phrase: ": *Provided, further,* That where the form is printed in book form (including loose-leaf books), the instructions may be printed on the cover or the fly leaf of the book instead of on the individual form."

PAR. 2. 26 CFR Part 251, "Importation of Distilled Spirits, Wines, and Beer," is amended as follows:

(A) Section 251.40 is amended as follows:

(1) By striking from the first sentence the phrase "of $10.50 per" and inserting in lieu thereof the phrase "prescribed by law on each".

(2) By striking the last sentence.

(B) Section 251.41 is amended as follows:

(1) By striking from the first sentence the phrase "of $10.50 per wine gallon" and inserting in lieu thereof the phrase "prescribed by law on each wine gallon,".

(2) By striking the last sentence.

(C) Section 251.42 is amended as follows:

(1) By placing the phrase "including imitation, substandard, or artificial wine, and compounds sold as wine, having not in excess of 24 percent of alcohol by volume" in the first sentence within parenthesis.

(2) By striking from the first sentence the phrase "rates shown below, such taxes to be" and inserting in lieu thereof the phrase "rates prescribed by law; such tax to be".

(3) By inserting in the third sentence, which begins "Fractions of less", immediately after the phrase "converted to the next", the word "full".

(4) By striking paragraphs (a), (b), (c), (d), and (e).

(5) By striking the paragraph designation only from paragraph (f).

(D) Section 251.45 is amended as follows:

(1) By striking from the first sentence the phrase "an internal revenue tax of $9.00" and inserting in lieu thereof the phrase "the internal revenue tax prescribed by section 5051, I. R. C.,".

(2) By striking the second sentence, which begins "On and after".

(E) Subpart I is amended to read as follows:

SUBPART I—IMPORTER'S RECORDS AND REPORTS

RECORD AND REPORT OF RED STRIP STAMPS

§ 251.130 *Daily record, part I, Form 96.* Importers shall keep a daily record on part I of Form 96 of red strip stamps procured and used. A separate page in single copy is required for each denomination of stamps.

(68A Stat. 612, 619; 26 U. S. C. 5008, 5114)

§ 251.131 *Monthly report, parts II and III, Form 96.* At the close of the month, importers shall prepare parts II and III of Form 96, in triplicate, reporting on part II the red strip stamps procured and used during the month, and on part III the stamps shipped abroad to importer's agents. On or before the 10th day of the succeeding month, one copy shall be forwarded to the assistant regional commissioner of the region in which the business of the importer is conducted, and one copy shall be forwarded to the collector of customs who approved the importer's requisitions. The remaining copy shall be retained for filing in accordance with § 251.136.

(68A Stat. 602; 26 U. S. C. 5008)

§ 251.132 *Separate record for each place of business.* Where an importer has more than one place of business, a separate record on part I of Form 96 shall be maintained on the premises of each place of business. A separate monthly report (parts II and III) shall also be rendered for each place of business. Where an agent procures stamps for several importers, the agent shall keep a separate record for each importer on part I of Form 96 of all stamps sent abroad or retained on his premises for the account of the importer. Separate monthly reports (parts II and III) shall be rendered by the agent in the name of each importer to the assistant regional commissioner of the region in which the stamps are procured.

(68A Stat. 602, 681; 26 U. S. C. 5008, 5555)

RECORD AND REPORT OF IMPORTED LIQUORS

§ 251.133 *General requirements.* Except as provided in § 251.134, every importer who imports distilled spirits, wines, or beer shall keep records and render reports of the physical receipt and disposition of such liquors in accordance with Part 194 ("Liquor Dealers") of this chapter: *Privided,* That regardless of who takes actual physical possession of the liquors at the time of their release from customs custody, the records and reports of the person actually responsible for such release shall reflect the transaction. Records and reports will not be required under this part with respect of liquors while in customs custody.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

§ 251.134 *Proprietors of taxpaid premises.* Importing operations conducted by proprietors of industrial alcohol plants or bonded warehouses, registered distilleries, fruit distilleries, and internal revenue bonded warehouses operating taxpaid premises, and proprietors of taxpaid bottling houses and rectifying plants shall be recorded and reported in accordance with the regulations governing the operations of each such premises.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

§ 251.135 *Forms to be provided by users at own expense.* Forms 52A, 52B, and 338 shall be provided by importers at their own expense, but must be in the form prescribed: *Provided,* That with the approval of the Director, Alcohol and Tobacco Tax Division, they may be modified to adapt their use to tabulating or other mechanical equipment.

(68A Stat. 618, 619, 681; 26 U. S. C. 5112, 5114, 5555)

FILING AND RETENTION OF RECORDS AND REPORTS

§ 251.136 *Filing.* If the importer maintains looseleaf records of receipt or disposition, one legible copy of each such record shall be marked or stamped "Government File Copy", and shall be filed not later than the close of the business day next succeeding that on which the transaction occurred. All records required by this part and legible copies of all reports submitted to the assistant regional commissioner shall be filed separately, chronologically, and in numerical sequence within each date, at the importer's place of business to which they relate: *Provided,* That upon application, the assistant regional commissioner may authorize the files, or any individual file, to be maintained at other premises under control of the importer, if he finds that such maintenance will not delay the timely filing of any document, or cause undue inconvenience to internal revenue officers desiring to examine such files. Supporting documents, such as consignors' invoices, delivery receipts, bills of lading, etc., or exact copies thereof, may be filed in accordance with the importer's customary practice. Documents supporting records of disposition shall have noted thereon the serial numbers of the records of disposition to which they refer.

(68A Stat. 619, 661; 26 U. S. C. 5114, 5555)

§ 251.137 *Retention.* All records prescribed by this part, documents or copies of documents supporting such records, and file copies of reports submitted to the assistant regional commissioner shall be preserved for a period of not less than two years, and during such period shall be available, during business hours, for inspection and the taking of abstracts therefrom by internal revenue officers. Any records, or copies

thereof, containing any of the information required by this part to be prepared, wherever kept, shall also be made available for such inspection and the taking of abstracts therefrom.

(68A Stat. 619, 681; 26 U. S. C. 5114, 5555)

[F. R. Doc. 56-7827; Filed, Sept. 27, 1956; 8:50 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 185]

GENERAL MINING REGULATIONS

ENTRY AND LOCATION OF SOURCE MATERIAL UPON PUBLIC LANDS OF THE UNITED STATES CLASSIFIED OR KNOWN TO BE VALUABLE FOR COAL

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the act of August 11, 1955 (69 Stat. 679; 30 U. S. C. 521–531), and Revised Statutes 2478 (43 U. S. C. 1201), it is proposed to issue regulations implementing the said act of August 11, 1955, supra, so far as is necessary. The primary purpose of the act is to permit entry and location of valuable source material on public lands of the United States classified or known to be valuable for coal, unless embraced within a coal permit or lease, and also provides for the recordation of location notices for such material in the United States Land Office of the land district in which the claim is located.

Interested persons may submit in triplicate written comments, suggestions, or objections with respect to the proposed regulations to the Bureau of Land Management, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Dated: September 24, 1956.

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

The title of Subpart C is amended to read: Areas Subject to Special Laws; Fissionable Sources Material in Coal.

The following new §§ 185.87 to 185.99, inclusive, are added at the end of Subpart C of Part 185. The present §§ 185.35 and 185.36 are renumbered 185.100 and 185.101.

ENTRY AND LOCATION OF SOURCE MATERIAL UPON PUBLIC LANDS VALUABLE FOR COAL

Sec.
185.87 Purpose and authority.
185.88 Public lands known or classified as coal land, containing source material opened to location; exception.
185.89 Copy of Notice of Location to be filed in appropriate County Recorder's office, Land Office, and posted on the claim.
185.90 Claimant to report annually to Mining Supervisor, Geological Survey.
185.91 Mineral patents subject to recording and payment requirements to contain reservation of leasable minerals.
185.92 Mineral patents not to include lignite; exception.
185.93 Lodes do not include extralateral rights.
185.94 Source material not in leasing minerals, right to remove lignite filing of description.
185.95 Entryman or owner or an assignee thereof of lands patented with coal reservation entitled to exclusive right to locate source material; exception.
185.96 Holder of coal lease entitled to exclusive right to locate source material; exception.
185.97 Definitions.
185.98 Expiration of act; exception.
185.99 Appeals.

AUTHORITY: §§ 185.87 to 185.99, inclusive, issued under the act of August 11, 1955 (69 Stat. 679), 30 U. S. C. 541–541 (1), inclusive, and R. S. 2478 (43 U. S. C. 1201).

§ 185.87 *Purpose and authority.* The act of August 11, 1955 (69 Stat. 679) was enacted:

To provide for entry and location, on discovery of a valuable source material, upon public lands of the United States, classified as or known to be valuable for coal, and for other purposes.

The regulations in this part are intended to implement those parts of the act which require action by the Department of the Interior.

§ 185.88 *Public lands known or classified as coal land, containing source material opened to location; exception.* The act in section 1 provides in part as follows:

That, subject to the conditions and provisions of this act and to any valid intervening rights acquired under the laws of the United States, public lands of the United States classified as or known to be valuable for coal subject to disposition under the mineral leasing laws and which are open to location and entry subject to the conditions and provisions of the act of August 13, 1954 (68 Stat. 708), unless embraced within a coal prospecting permit or lease, shall also be open to location and entry under the mining laws of the United States upon the discovery of a valuable source material occurring within any seam, bed, or deposit of lignite in such lands.

§ 185.89 *Copy of Notice of Location to be filed in appropriate County Recorder's office, Land Office, and posted on the claim.* (a) The act in section 1 provides in part as follows:

• • • a copy of the notice of any mining location made for source material occurring in any such bed, seam, or deposit, shall be filed for record in the land office of the Bureau of Land Management for the State in which the claim is situated within ninety days after the date of its location.

(b) The act in section 2 provides as to mining claims located prior to May 25, 1955:

That the locator or locators of such a mining claim shall, not later than one hundred and eighty days from and after the date of this Act, post on the claim and file for record in the office where the notice or certificate of location is of record, an amended notice of the mining location stating that such amended notice is filed pursuant to the provisions of this Act and for the purpose of obtaining the benefits thereof; and that a copy of said amended notice is, within the said one-hundred-and-eighty-day period, filed in the land office of the Bureau of Land Management for the State in which the mining location is situated • • •[1]

[1] In this connection, the Land Office for North Dakota and South Dakota is located at Billings, Montana; that for Nebraska at Cheyenne, Wyoming; and that for Arkansas, Florida, Louisiana, and Mississippi, at Washington 25, D. C.

(c) The act in section 3 provides in part as follows:

• • • upon filing in the land office designated in section 1 hereof, an adequate description of his claim or claims containing such lignite.

(d) Any location notice filed under the above-quoted sections should clearly state that the claim was located for uranium or other source material contained in a bed, seam, or deposit of lignite pursuant to the act of August 11, 1955 (69 Stat. 679). The notice should describe the lands included therein by subdivision, section, township and range, if covered by a public land survey, for a placer claim, and if unsurveyed, or if the location is a lode claim, by a metes and bounds description tied to a corner of the public land survey, or to a mineral monument.

§ 185.90 *Claimant to report annually to Mining Supervisor, Geological Survey.* (a) The act in section 1 provides in part as follows:

That the claimant to any such mining location shall report annually to the Mining Supervisor of the Geological Survey the amount of lignite mined or stripped in the recovery of such valuable source material during each calendar year and tender payment to him of 10 cents per ton thereon • • • subject to the recording and payment requirements • • •

(b) Payments shall be by check, draft or money order, payable to the United States Geological Survey, accompanied by a report of the tons of lignite mined or stripped, whether disposed of or not, in recovering the source material as defined in § 185.94. Each report should show the name of the claim, identify the location, the calendar year for which payment is made and address of claimant. A suggested form of report as shown in Appendix A to the regulations in this part may be used for this purpose.

(c) Tonnage reports and remittances for claims in Montana, North Dakota, South Dakota, and Northern Wyoming should be sent to the Regional Mining Supervisor, U. S. Geological Survey, Billings, Montana. As to claims in other states, the address of the Regional Mining Supervisor may be obtained from the Director, U. S. Geological Survey, Washington 25, D. C.

§ 185.91 *Mineral patents subject to recording and payment requirements to contain reservation of leasable minerals.* (a) The act in section 1 provides in part as follows:

Any mineral patents issued hereunder shall be made subject to the recording and payment requirements of this section and shall contain a reservation to the United States of all Leasing Act minerals owned by the United States other than lignite containing valuable source material and lignite necessary to be stripped or mined in the recovery of such material.

(b) Under this section, all debts due the United States on account of coal mined under the location must be paid, before a patent will issue.

§ 185.92 *Mineral patents not to include lignite; exception.* (a) The act in section 1 provides in part as follows:

Mining claims located and mineral patents issued under the provisions of this Act shall not include rights to lignite not containing valuable source material except to the extent it may be necessary to mine or strip such lignite in order to mine the source material • • •

(b) The reservation of leasing act minerals including lignite that do not contain valuable source material which will be inserted in every patent issued under the Act, will be subject to the right of the patentee to remove such lignite when necessary to mine source material subject to the provisions of the Act.

§ 185.93 *Lodes do not include extralateral rights.* (a) The act in section 1 provides in part as follows:

• • • lode claims, shall not include extralateral rights.

(b) The act in section 2 provides in part as follows:

That no extralateral rights shall attach to any mining location validated under this section.

(c) The right of all locators under the Act are therefore limited to the extraction of unreserved minerals within the exterior boundaries of the claim extended vertically downward.

§ 185.94 *Source material not in leasing minerals, right to remove lignite, filing of description.* (a) The act in section 3 provides in part as follows:

SEC. 3. Subject to the provisos of section 2 of this Act, any mining location made under the mining laws of the United States, including the Act of August 13, 1954, on lands of the character described in section 1 of this Act, except locations made for lands within the exterior boundaries of a prior coal prospecting permit or lease, if based upon a discovery of valuable source material in deposits other than deposits of Leasing Act minerals, shall include the right to mine, remove, and dispose of lignite containing valuable source material and lignite necessary to be stripped or mined in the recovery of source material contained in lignite, subject to the reporting and payment requirements of section 1 of this Act, and subject to the provisions of the Atomic Energy Act of 1954 (68 Stat. 919), and upon filing in the land office designated in section 1 hereof, an adequate description of his claim or claims containing such lignite.

(b) For description under this section, see § 185.89 (d).

(c) The act in section 3 also provides in part as follows:

That nothing in this section shall be construed to limit or restrict the rights acquired by virtue of a mining claim heretofore or hereafter located, under the 1872 mining act, as amended, or to impose any additional obligation with respect to mining and removal of source material which does not occur within any seam, bed, or deposit of lignite.

(d) Under these provisions, as to locations which were made under the act of August 13, 1954, at a time when the land was known to contain lignite and was not then in a coal permit or lease, or application for permit or lease, the locator would have a right to mine the lignite containing source material and to mine other lignite only after he had complied with the reporting and payment provisions of section 1 of the act with respect thereto. The owner of such a location, who chooses not to comply with these payment and reporting requirements, may mine and remove any mining law minerals in the location, except such minerals contained in lignite, under authority of the act of August 13, 1954. If such a locator damages or destroys any lignite in connection with his mining operations his liability therefor to the United States will be determined under applicable laws. A location made solely under the 1872 Mining Act would not be subject to the provisions of either the August 13, 1954 Act, or of this act, but unless made upon land not then known to contain lignite it would be invalid.

§ 185.95 *Entryman or owner or an assignee thereof of lands patented with coal reservation entitled to exclusive right to locate source material; exception.* (a) The act in section 4 provides as follows:

The entryman or owner of any land or the assignee of rights therein, including lands granted to States, with respect to which the coal deposits have been reserved to the United States pursuant to the provisions of the act of March 3, 1909 (35 Stat. 844), or the act of June 22, 1910 (36 Stat. 583), excepting lands embraced within a coal prospecting permit or lease, upon the discovery of valuable source material in lignite situated within such entered, granted, or patented lands, who, except for the reservation of coal to the United States would have the right to mine and remove such source material, shall have the exclusive right to mine, remove, and dispose of lignite containing such source material and lignite necessary to be stripped or mined in the recovery of such material, subject to the reporting and payment requirements of section 1 of this act, and subject to the provisions of the Atomic Energy Act of 1954, upon filing in the land office designated in section 1 hereof, an adequate description sufficient to identify the land containing such lignite.

(b) The description under this section should be by the legal subdivision of the public land survey which contains the deposits.

§ 185.96 *Holder of coal lease entitled to exclusive right to locate source material; exception.* (a) The act in section 5 provides as follows:

The holder of coal leases issued under the provisions of the mineral leasing laws, including the Act of August 7, 1947 (61 Stat. 913), prior to the date of this Act, or thereafter if based upon a prospecting permit issued prior to that date, upon the discovery during the term of such lease of valuable source material in any bed or deposit of lignite situated within the leased lands, shall have the exclusive right to locate such source material under the provisions of this Act but the mining and disposal of such source material shall be subect to the operating provisions of the lease and to the provisions of the Atomic Energy Act of 1954: *Provided*, That the provisions of this section shall not apply to coal prospecting permits or leases on lands embraced within entered, granted, or patented lands described in section 4 of this Act.[2]

[2] As of August 11, 1955, there were no outstanding coal permits or leases issued under the act of August 7, 1947, in areas containing lignite as defined in the act of August 11, 1955, subject to the mining laws. Consequently, reference to the act of August 7, 1947 will not result in any mining claims being made for source material on acquired lands.

(b) The coal lessee for lands not entered, granted, or patented, who desires to obtain the benefits of this section must make a mining location and comply with the Act and these regulations with respect thereto, and must also comply with the operating regulations (30 CFR Part 211).

§ 185.97 *Definitions.* (a) The act in section 6 provides in part as follows:

• • • "lignite" shall mean coal classified as ASTM designation: D 388–38, according to the standards established in the American Society for Testing Materials on Coal and Coke under standard specifications for Classification of coals by Rank, contained in public-land deposits considered as valuable under the coal-land classification standards established by the Secretary of the Interior and prescribed in section 30, Code of Federal Regulations, part 201; and "source material" shall mean uranium, thorium, or any other material which is determined by the Atomic Energy Commission pursuant to the provisions of section 61 of the Atomic Energy Act of 1954 to be source material.

(b) The act applies only to deposits of coal coming within the definition set out in the above quotation from the act, and other types of coal deposits are not subject to location under the act, even though found to contain source material.

§ 185.98 *Expiration of act; exception.* (a) The act in section 10 provides as follows:

Twenty years after the effective date of this act, all lands subject to the provisions of section 1 shall be withdrawn from all forms of entry under this act. All claims made pursuant to the provisions of this act shall expire at that time, except for (1) claims for which patent has already been issued, and (2) claims on which application for patent has already been made and on which patent is subsequently issued: *Provided*, That, if the President shall so provide by Executive Order, the provisions of this section shall not become effective until thirty years after the effective date of this act.

(b) Under this section, no location will be recognized on and after a date 20 years after the date of the act or the expiration of any extension of such period by the President, unless prior to that date an application for a patent has been filed and no patent will issue for any such claim in the absence of evidence of full compliance with the law made prior to that date.

§ 185.99 *Appeals.* A party aggrieved by any official action taken pursuant to this part may appeal from the decision of any subordinate official to the Director of the Bureau of Land Management, and from the Director's decision to the Secretary of the Interior pursuant to the rules of practice (Part 221 of this chapter).

APPENDIX A

Name of Claim
BLM Serial No.
Located in Sec. __, T. __, R.
County
State

REGIONAL MINING SUPERVISOR,
U. S. Geological Survey,
Billings, Montana.

Enclosed is check (draft or money order) payable to the United States Geological Survey for lignite mined or stripped under the above mining claim during the year ending

December 31, ____, in accordance with Public Law 357, 84th Congress.

Tons of lignite---------- ____
Payment at 10 cents per ton----- $____
Name----------
Address----------

NOTE: If section, township, and range are not known, claim should be described as shown in the certificate of location.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Part 729]

PEANUTS

NOTICE OF INTENTION TO AMEND MARKETING QUOTA REGULATIONS FOR 1956 CROP OF PEANUTS

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended, (7 U. S. C. and Sup. 1301, 1358–1359, 1372–1375; 70 Stat. 205), the Secretary of Agriculture is preparing to formulate and issue an amendment to the Marketing Quota Regulations previously issued for the 1956 crop of peanuts (21 F. R. 3867, 6057). The amendment, as proposed, will change § 729.758 by revising the method of determining when peanut marketing quota penalties become due and incorporating a lien provision and reads as follows:

§ 729.758 *Payment of penalty.* (a) A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to collection and payment at par. With respect to penalties which were due and unpaid on May 28, 1956, the person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of six percent per annum from such date until paid; with respect to other penalties the person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of six percent per annum from the date the penalty becomes due until the date of payment of such penalty. For purposes of this section such other penalties become due as follows:

(1) Within two calendar weeks following the week in which peanuts are marketed on an excess penalty card. If the buyer of such peanuts does not remit the penalty within this period interest shall begin to accrue on the Monday of the third calendar week following the week in which the peanuts were marketed;

(2) Two weeks from the date of written notice to the producer of the amount of any penalty owed by him including (i) penalties resulting from violation of a Form MQ-92 agreement, and (ii) penalties determined on the basis of normal yield (cases involving failure to account for disposition or false identification of peanuts).

(b) Until the amount of penalty due under this section is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crop of peanuts subject to marketing quotas in which the person liable for payment of the penalty has an interest shall be in effect in favor of the United States.

Prior to issuance of the proposed amendment, consideration will be given to any data, views and recommendations relating thereto which are submitted in writing to the Director, Oils and Peanut Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C. this 24th day of September 1956.

[SEAL] WALTER C. BERGER,
Acting Administrator.

[F. R. Doc. 56-7836; Filed, Sept. 27, 1956; 8:51 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 8]

[Docket No. 11824; FCC 56-900]

STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

RADIOTELEPHONE INSTALLATIONS ON BOARD CERTAIN VESSELS CARRYING MORE THAN SIX PASSENGERS FOR HIRE

In the matter of amendment of Part 8 of the Commission's rules for the purpose of implementing Title III, Part III of the Communications Act with regard to radiotelephone installations required to be installed on board certain United States vessels carrying more than six passengers for hire.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The rules proposed to be adopted are set forth below. This proposed amendment of Part 8 of the Commission's rules is for the purpose of implementing Public Law 985—84th Congress—which will become effective on March 1, 1957. For ready reference a copy of Public Law 985 is attached hereto as Appendix 1.[1]

3. Public Law 985 added a new Part III to Title III of the Communications Act, requiring essentially that United States vessels transporting more than six passengers for hire, when navigated in the open sea or on any tidewater within the jurisdiction of the United States adjacent or contiguous to the open sea, be equipped, on and after March 1, 1957, with radiotelephone installations meeting Commission requirements. The new law does not apply to vessels compulsorily equipped with radio installations for the purpose of complying with Title III, Part II of the Communications Act.

4. The proposed rules call for 2 Mc radiotelephone installations similar to those already prescribed in Part 8 of the Commission's rules for cargo vessels of between 500 and 1600 gross tons subject to Title III, Part II of the Communications Act. However, they differ in several respects principally because of the following considerations:

(a) The size and construction of the vessels subject to the new part of the act will vary within wide limits from ships of substantial size to relatively small vessels. The size of the vessel will to some degree affect the practicability of providing and the need for certain equipment associated with a ship radiotelephone installation.

(b) The navigation of some of the vessels will be within relatively confined areas. In such instances VHF may adequately serve the safety needs of the vessels when a suitable VHF coast station watch is provided in the vicinity.

5. The most significant requirements of the proposed rules are as follows:

(a) An AM radiotelephone installation capable of at least 25 watts antenna power would be required under the usual circumstances. The equipment would be capable of operating on 2182 kc, 2638 kc, and a ship-shore working frequency or frequencies in the 2 Mc band necessary to provide communication with public coast station(s) in the area. Under special circumstances an FM VHF radiotelephone installation of at least 25 watts antenna power capable of operating on 156.8 Mc, 156.3 Mc and a ship-shore VHF frequency or frequencies necessary to provide communication with public coast station(s) in the area would be acceptable. The VHF equipment would be accepted in lieu of the AM equipment in the above-mentioned special circumstances provided the vessel is at all times not more than 20 nautical miles from a VHF public coast station having adequate hours of service and is at all times capable of communicating with such station.

(b) In the case of new vessels of more than 100 gross tons an independent emergency power supply would be required to be located in the upper part of the ship unless the main power supply is so located. The emergency source of energy would be required to have sufficient reserve capacity for 3 hours operation of the radiotelephone installation.

(c) In the case of vessels of more than 100 gross tons the required transmitter, receiver, and controls would have to be located in the upper part of the ship. A communication system between the principal operating location and the wheel house would be required in cases where the principal operating location is not in the wheel house. In new installations the principal operating location would be required to be in the wheel house.

(d) The operator and listening watch requirements would be similar to those now applicable to ocean-going cargo ships between 500 and 1600 gross tons compulsorily equipped with radiotelephone installations. At least one qualified operator, holding a Radiotelephone Third Class Operator Permit or higher class of operator license will have to be available on board the vessel while navigated, and a listening watch, essentially continuous, on the frequency 2182 kc or 156.8 mc as applicable, would be required to be maintained while the vessel is being navigated.

[1] Filed as part of the original document.

(e) The law specifically provides that the Commission shall make such inspections as may be necessary to insure compliance with the requirements. Accordingly, the rules would require that the radiotelephone installation be inspected by the Commission at least once during each 24-month period upon application by the shipowner, the ship operating agency, the station licensee, or the master of the vessel for a detailed inspection of the vessel's radiotelephone installation. Upon passing such an inspection, the vessel would be issued an appropriate radiotelephone certificate indicating that the vessel was found in compliance. After March 1, 1958 a valid certificate to this effect would be required to be posted in the vessel.

6. Section 383 of the amended Communications Act requires that "the Commission shall exempt from the provisions of this part (Part III) any vessel, or class of vessels, in the case of which the route or conditions of the voyage, or other conditions or circumstances, are such as to render a radio installation unreasonable, unnecessary, or ineffective, for the purposes of this act". The proposed rules provide for filing of applications for exemption on an appropriate form. It is expected that such application forms will be used primarily for requesting exemption of individual vessels. Since the law provides for exemption of classes of vessels as well as individual vessels, interested parties are invited to comment with regard to the classes of vessels that should be included in any general exemption that may be granted by the Commission under the provisions of section 383 of this act, together with reasons therefor.

7. The proposed amendments are issued under authority contained in sections 303 (n) and (r) of Part I and in Part III of Title III of the Communications Act of 1934, as amended.

8. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before October 22, 1956, written data, views or briefs setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments in reply to the original comments may be filed within 10 days from the last day for filing said original data, views or arguments. The Commission will consider all such comments prior to taking final action in the matter.

9. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments shall be furnished to the Commission.

Adopted: September 19, 1956.

Released: September 24, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Section 8.46 is amended by designating the existing text thereof as paragraph (a) and adding a new paragraph (b) to read as follows:

(b) Pursuant to section 385 of the Communications Act [and in accordance with § 8.501 (b)], a ship of the United States which, by reason of the provisions of Part III of Title III of the Communications Act is required to be fitted with a radiotelephone installation for safety purposes shall, at least once in each 24-month period, be made available by the owner or operating agency of the ship for a detailed inspection of the ship's radiotelephone installation. A formal application, FCC Form 812, "Application for Periodical Inspection (Title III, Part III of the Communications Act)", for such inspection and issuance of a Communications Act Safety Radiotelephony certificate shall be filed with the Commission's Engineer in Charge of the radio district office nearest the desired port of inspection at least 3 days prior to the date on which such inspection is desired. The application shall be filed by the shipowner, the ship operating agency, the ship station licensee, or the shipmaster.

2. Section 8.49 (a), is amended to read as follows:

(a) In accordance with the provisions of section 352, subsection (b) or (c), or section 383 of the Communications Act and/or the appropriate provisions of the Safety Convention (Regulations 5 and 6 of Chapter IV of the Regulations annexed to the Safety Convention of 1948) application for exemption from the radio equipment and operator requirements of Part II or Part III of Title III of the said Communications Act and/or the said Safety Convention, or application for modification or renewal of exemption previously granted thereunder, may be made by submitting FCC Form 820, "Application for Exemption", to the Commission at Washington, D. C. In cases of emergency found by the Commission, the Commission may, at its discretion, consider an informal application which should include the full information normally furnished on FCC Form 820.

3. Section 8.152 is amended by the addition of a new paragraph (e) to read as follows:

(e) Each vessel of the United States transporting more than six passengers for hire, which is required by Part III of Title III of the Communications Act to be equipped with a radiotelephone installation and not exempted therefrom by the Commission, shall, for safety purposes, carry at least one qualified operator holding an operator's license issued by the Commission which is appropriate for the purpose under Part 13 of this chapter.

4. Section 8.202 is amended by adding a new paragraph (d) to read as follows:

(d) Each vessel of the United States transporting more than six passengers for hire which is required by Part III of Title III of the Communications Act to be equipped with a radiotelephone installation and not exempted therefrom by the Commission shall, while being navigated in waters specified by section 381 of Part III of Title III, keep a continuous and efficient listening watch on the frequency 2182 kc for the reception of class A3 emission if fitted with equipment for operation in the 2000–3500 kc band for the purpose of meeting radiotelephone requirements of law, or on the frequency 156.8 Mc for the reception of class F3 emission if fitted with equipment for operation in the 152–162 Mc band for this purpose, whenever the radiotelephone installation is not being used to transmit on the listening channel as herein designated or to transmit or receive on any other channel authorized for maritime mobile services. Such listening watch shall be performed by at least one officer or member of the crew of the vessel who, if not the master, has been designated by the master to perform this listening watch. The master or the person designated by the master may simultaneously perform other duties relating to the operation or navigation of the vessel, provided such other duties do not interfere with the effectiveness of this listening watch.

5. Section 8.501 is amended by redesignating paragraphs (b), (c), and (d) as (c), (d), and (e) and inserting a new paragraph (b) as follows:

(b) In accordance with § 8.101 (a) and pursuant to section 385 of the Communications Act, every vessel of the United States subject to Part III of Title III of said Act shall have a periodical inspection by the Commission of the equipment and apparatus prescribed therein not less than once every 24 months. If after such inspection the Commission determines that all relevant provisions of Part III of Title III of the Communications Act, the rules of the Commission made pursuant thereto, and the station license, are complied with in an efficient manner, a Communications Act Safety Radiotelephony certificate will be issued. The issuance date of Communications Act Safety Radiotelephony certificates shall be the date the installation is found by the Commission to be in compliance, or not later than one business day following such in-compliance date. Such certificates shall be issued for a period of not more than 24 months.

6. Immediately following § 8.541 insert the following subtitle and sections:

RADIOTELEPHONE INSTALLATIONS ON SHIPS SUBJECT TO PART III OF TITLE III OF THE COMMUNICATIONS ACT

§ 8.543 *Radiotelephone installations.* A radiotelephone installation required to be provided on a vessel of the United States by reason of the provisions of Part III of Title III of the Communications Act, shall comply in an efficient manner with §§ 8.544, 8.545, 8.546, 8.547 and 8.548 in addition to all other applicable requirements of this part.

§ 8.544 *Certificates.* Each vessel of the United States to which Part III of Title III of the Communications Act is applicable shall, not later than March 1, 1958, have on board and posted in a prominent and accessible place in the vessel a valid Communications Act Safety Radiotelephony certificate as prescribed by § 8.501 (b).

§ 8.545 *General technical requirements.* (a) The components and assembly of each radiotelephone instal-

lation required by Title III, Part III of the Communications Act, shall be such as to insure safe and effective operation of the equipment and shall be arranged to facilitate proper repair and replacement of parts. Adequate protection shall be provided against the action of saline moisture and the effects of vibration, humidity, and temperatures encountered on shipboard. In particular, the components named hereunder shall meet specific requirements as follows:

(1) *Medium frequency transmitter and receiver.* Except under special circumstances as set forth in subparagraph (2) of this paragraph, the radiotelephone installation shall meet the following requirements:

(i) It shall be capable of being used for the effective transmission and reception of class A3 emission on the international calling and distress frequency 2182 kc, the ship-to-ship working frequency 2638 kc, and at least one ship-shore working frequency within the band 1600–3500 kc enabling communication with a public coast station serving the region in which the ship is operated, during the entire time the vessel is navigated in waters specified by section 381 of Title III, Part III of the Communications Act.

(ii) The transmitter shall be capable of proper technical operation with peak modulation percentage between 75 and 100 per cent and shall be so adjusted that the transmission of speech normally produces peak modulation within these limits.

(iii) The radiotelephone transmitter shall have a power output of at least 25 watts, when no modulation is present. The transmitting apparatus shall be considered to be capable of meeting this power requirement when it is properly adjusted for use with a ship station transmitting antenna meeting requirements of this section and has been demonstrated or is of a type which has been demonstrated to the satisfaction of the Commission as capable, with normal operating voltages applied, of delivering not less than 25 watts of unmodulated radio frequency carrier power on each of the frequencies 2182 kc and 2638 kc into an artificial antenna consisting of a series network of 10 ohms effective resistance and 200 micromicrofarads capacitance; *Provided*, That if a type demonstration has been made, an individual demonstration of the power capability of the transmitting apparatus of any individual radiotelephone installation as normally installed on board ship may be required to determine whether it complies with these power requirements.

(2) *Very high frequency transmitting and receiving equipment.* If a vessel is within communication range of a public coast station operating in part or entirely on frequencies within the band 152–162 Mc which is in service and maintains an efficient watch for the reception of class F3 emission on the frequency 156.8 Mc at all times while the vessel is navigated in waters specified by section 381 of Part III of Title III, and the vessel while so navigated is never more than 20 nautical miles from a 156.8 Mc receiving location of such station, such vessel may alternatively employ very high frequency transmitting and receiving equipment in lieu of the medium frequency equipment specified in subparagraph (1) of this paragraph. Such alternative equipment shall meet the following requirements:

(i) The equipment shall be capable of being used for the effective transmission and reception of class F3 emission on the frequencies 156.3 Mc, 156.8 Mc, and on the frequency or frequencies in the 152–162 Mc band necessary for communication with one or more public coast stations serving the area in which the vessel is navigated.

(ii) The transmitter shall be capable of proper technical operation with peak modulation percentage between 75 and 100 percent and shall be so adjusted that the transmission of speech normally produces peak modulation within these limits. The frequency deviation with 100 percent modulation applied shall not exceed 15 kc.

(iii) The radiotelephone transmitter shall have a power output of at least 25 watts. The transmitter shall be considered to be capable of meeting this power requirement when it is properly adjusted for use with a ship station transmitting antenna meeting the requirements of these rules and has been demonstrated or is of a type that has been demonstrated to the satisfaction of the Commission as capable, with normal operating voltages applied, of delivering not less than 25 watts unmodulated radio frequency carrier power into 50 ohms effective resistance on each of the frequencies 156.8 Mc, 156.3 Mc, and either of the frequencies 157.3 Mc or 157.4 Mc. *Provided*, That if a type demonstration has been made, an individual demonstration of the power capability of the transmitting apparatus of any individual radiotelephone installation as normally installed on board ship may be required to determine whether it complies with these power requirements.

(3) *Power supply.* (i) There shall be readily available for use at all times under normal load conditions while the vessel is navigated in waters specified by section 381 of Part III of Title III and when required during inspection of the ship radiotelephone station by an authorized representative of the Commission, a main source of energy capable of supplying electrical power sufficient to energize simultaneously and efficiently the radiotelephone transmitter at its required power, and the required receiver. At all times hereinabove specified the potential of the main source of energy at the power input connections of the radiotelephone installation shall not deviate from its rated electrical potential by more than 10 percent on vessels the construction of which is completed on or after March 1, 1958, nor more than 15 percent on vessels completed before that date. In the case of a vessel of more than 100 gross tons, the keel of which was laid after March 1, 1957, an emergency source of energy independent of the vessel's normal electrical system shall be provided and shall be located in the upper part of the ship, unless the main source of energy is so located, in which case an emergency source of energy is not required. The emergency source of energy, when required, shall be located as near to the radiotelephone transmitter and receiver as is practicable. A source of energy shall be deemed to be located in the upper part of the ship when it is located on the same deck as the wheel house or at least one deck above the vessel's main deck.

(ii) Each emergency source of energy and each main source of energy which is provided in order to comply with the power supply requirements of this section and which consists of or includes batteries shall, with respect to such batteries, have sufficient reserve capacity available at all times while the ship is navigated in waters specified by section 381 of Part III of Title III and during Commission inspections to permit operation of the radiotelephone installation for at least 3 hours continuously under normal working conditions. If directed by the Commission or its authorized representative, the ship owner, operating company, or station licensee shall prove this capacity by means of a discharge test over the 3-hour period of time when supplying power at the voltage required for normal and effective operation, to an electrical load as prescribed by subdivision (iv) of this subparagraph, or by such other means as may be deemed necessary.

(iii) Each emergency source of energy which is provided in order to comply with the power supply requirements of this section and which consists of or includes an engine-driven generator shall, with respect to such engine-driven generator, have sufficient reserve fuel available at all times while the ship is navigated in waters specified by section 381 of Part III of Title III and during Commission inspections to permit operation of the radiotelephone installation for at least 3 hours continuously under normal working conditions. If directed by the Commission or its authorized representative, the ship owner, operating company, or station licensee shall prove the adequacy of the fuel supply by demonstration or by such other means as may be deemed necessary. Proof of the adequacy of the engine fuel supply to operate the unit continuously and effectively over the 3-hour period of time may be established by using as a basis the fuel consumption during a continuous period of 1 hour when supplying power at the voltage required for normal and effective operation, to an electrical load as prescribed by subdivision (iv) of this subparagraph.

(iv) The electrical load to be supplied by a main or an emergency source of energy under the provisions of subdivision (ii) or (iii) of this subparagraph shall be computed as the sum of all loads to which it may supply energy in times of emergency or distress. The radiotelephone transmitting apparatus shall be regarded as having an intermittent power demand amounting in the aggregate to 1½ hours.

(v) At the conclusion of the test specified in subdivisions (ii) and (iii) of this paragraph, no part of the main or emergency sources of energy shall have an excessive temperature rise, nor shall the specific gravity or voltage of any storage battery be below the 90 percent discharge point as determined from information (such as voltage curves or specific gravity tables) supplied by the manufacturer of the type of battery involved.

(vi) Means shall be provided on board the vessel for adequately charging any storage batteries used as a main or emergency source of energy or any part thereof, for the required radiotelephone installation. There shall be provided a device which, during charging of the batteries, will give a continuous indication of the rate and polarity of such charging.

(vii) The cooling system of each internal combustion engine used as a part of any required emergency source of energy for the radiotelephone installation shall be adequately protected or treated to prevent freezing or overheating consistent with the season and route to be traveled by the particular vessel involved.

(viii) All required power-supply circuits shall be appropriately protected by means of suitable devices such as fuses or circuit-breakers from overloads or short circuits which could damage any component thereof.

(ix) Use of the emergency source of energy, when such emergency source is required by subdivision (i) of this subparagraph, shall be available within one minute after any need arises for its use.

(4) *Radiating system.* In each radiotelephone installation an antenna shall be provided in accordance with the applicable requirements of § 8.107 which is as nondirectional and as efficient as is practicable for the transmission and reception of radio ground waves over seawater. The installation and construction of this antenna shall be such as to insure, insofar as is practicable, proper operation in time of an emergency.

(5) *Electric light.* Unless the vessel is navigated during daylight hours only, a reliable electric light shall be provided and permanently arranged so as to illuminate satisfactorily the operating controls at the principal operating location. When the principal operating location is in the room from which the vessel is steered, the light shall be so arranged that its illumination is confined substantially to the vicinity of the operating controls so that it may be used at night without interfering with navigation of the vessel. The light shall be energized from the main source of energy, and, if an emergency source of energy for the radiotelephone installation is required, means shall be provided for energizing the light from such source of energy also.

(6) *Loudspeaker.* One or more loudspeakers capable of effective operation at all speech frequencies from 300 to 2500 cycles per second shall be provided so as to permit telephone reception at the principal operating location and at any other location where listening required by § 8.202 (d) is performed.

(7) *Antenna radio frequency indicator.* Transmitters installed after June 1, 1958, and all transmitters after June 1, 1960 regardless of installation date, shall be equipped with a device which will provide continuous visual indication that the transmitter is supplying radio frequency power to the antenna, either directly or through the medium of a transmission line.

(8) *Protective devices.* The radiotelephone installation shall be adequately protected by suitable devices, such as fuses or circuit breakers, from excessive currents and voltages which could cause damage to the components thereof.

(9) *Nameplate.* A durable nameplate shall be mounted on the radiotelephone transmitting and receiving equipment or shall be made an integral part thereof. When the transmitter and receiver comprise a single unit, one nameplate shall be sufficient. The nameplate shall show at least the following:

(i) The name of the manufacturer;

(ii) The type or model number.

§ 8.546 *Sensitivity of receiving equipment.* Any receiving equipment provided as part of the required radiotelephone installation shall be capable of a sensitivity on any required reception frequency of at least 50 microvolts in the case of medium frequency equipment and 1 microvolt in the case of very-high-frequency equipment. Sensitivity of the receiver is expressed as the radio frequency signal in microvolts modulated 30 percent at 400 cycles per second which must be delivered to the antenna terminals of the receiving apparatus through a suitable artificial antenna in order to produce an audio output of 50 milliwatts of power to the loudspeaker with a signal-to-noise ratio of at least 6 decibels. Evidence of a manufacturer's rating or a demonstration of the sensitivity of a required receiver computed upon this basis (c) shall be furnished upon request of a Commission representative.

§ 8.547 *Location of radiotelephone installation.* (a) The requirements set out in this section apply only to vessels of more than 100 gross tons.

(b) The radiotelephone transmitter, receiver, and all controls necessary for their proper use and operation, shall be located in the upper part of the ship. For this purpose, the upper part of the ship shall be considered to include locations at wheel house level or those which are at least one deck above the vessel's main deck. If the principal operating location is not in the room from which the vessel is normally steered or not in a room adjacent to and opening directly into such room, an interior two-way voice communication system including an attention signalling system shall be provided between such room and the principal operating location. In the case of radiotelephone installations fitted on board a vessel after March 1, 1957, the principal operating location shall be in the room from which the vessel is normally steered.

§ 8.548 *Control of radiotelephone installations.* (a) The provisions of paragraph (b) of this section apply only to vessels of more than 100 gross tons. The provisions of paragraph (c) of this section apply to all vessels subject to Title III, Part III of the Communications Act, regardless of tonnage.

(b) If the radiotelephone installation is operated from any other position than the principal operating location, it shall always be possible to take control of the operation of the radiotelephone installation at the principal operating location as follows:

(1) Except as provided in subparagraph (2) of this paragraph, a method shall be provided for taking control at the principal operating location as herein prescribed which is direct, positive, and independent of action by any person who is not at the principal operating location.

(2) The use of an interior shipboard communication system between the principal operating location and all other locations at which there is a radiotelephone operating position shall be acceptable as a method for taking control at the principal operating location as herein prescribed on condition that the communication thereby is reliable, effective immediately, available at all times, and is usable independently of any other interior communication circuit; *Provided*, That in the case of radiotelephone installations first placed in service on or after March 1, 1957, the use of such a method for taking control at the principal operating location shall be acceptable only in the case of those radiotelephone operating positions located in the chart room or master's quarters.

(c) The radiotelephone installation shall be so designed that, when a qualified operator is present at the principal operating location, switching between required frequencies from such location may be performed within a period of five seconds and changeover from transmission to reception and vice versa may be accomplished within a total period of two seconds under circumstances which do not require a change in operating radio channel at the same time. The receiver shall be capable of accurate and convenient selection of the required frequencies without manual tuning, i. e., it shall be pre-set for reception on each of the required frequencies. This shall not preclude the use of a separate manually tunable receiver if provided for maintaining the required watch.

§ 8.549 *Test of the radio telephone installation.* Unless the normal use of the radiotelephone installation required by Title III, Part III of the Communications Act demonstrates that the equipment is in proper operating condition for an emergency, a test communication for the purpose shall be made by a qualified operator each day the vessel is navigated. When this test is performed by some person other than the master and the equipment is found not to be in proper operating condition for an emergency, the master shall be notified promptly thereof.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Bureau Order 566, Amdt. 4]

CHIEF, BRANCH OF PROPERTY AND SUPPLY

REDELEGATIONS OF AUTHORITY WITH RESPECT TO CONSTRUCTION, SUPPLY AND SERVICE CONTRACTS AND NEGOTIATING CONTRACTS FOR SERVICES OF ENGINEERING AND ARCHITECTURAL FIRMS.

Order 566 (19 F. R. 3971), as amended (20 F. R. 2092, 5703; 21 F. R. 2290) is further amended by designating the present text of sec. 1 as paragraph (a) and adding paragraph (b) to read as follows:

(b) The Chief, Branch of Property and Supply is authorized to enter into contracts for supplies, equipment and services, irrespective of the amount involved, and perform the duties of Contracting Officer in regard to such contracts.

W. BARTON GREENWOOD,
Acting Commissioner.

SEPTEMBER, 24, 1956.

Bureau of Land Management

[W-043373]

WYOMING

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Forest Service, Department of Agriculture, has filed an application, Serial No. Wyoming 043373, for the withdrawal of the lands described below, from all forms of appropriation under the United States mining laws, but not the mineral leasing laws.

The applicant desires the land for recreational areas and administrative sites.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, State Supervisor, Post Office Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

KELLY ADMINISTRATIVE SITE

T. 26 N., R. 117½ W.,
Sec. 1, lot 4;
Sec. 12, lot 1.
T. 26 N., R. 118 W.
Sec. 1, NW¼SE¼, SE¼NE¼.

ELK CREEK RANGER STATION ADMINISTRATIVE SITE

T. 26 N., R. 117 W.,
Sec. 16, E½SW¼NE¼, W½SE¼NE¼.

DEADLINE RIDGE ADMINISTRATIVE SITE

T. 28 N., R. 115 W.,
Sec. 4, SW¼SW¼SW¼;
Sec. 5, SE¼SE¼SE¼;
Sec. 8, NE¼NE¼NE¼.
Sec. 9, NW¼NW¼NW¼.

LABARGE SCALER CABIN ADMINISTRATIVE SITE

T. 28 N., R. 116 W.,
Sec. 10, SE¼SE¼NE¼, NE¼NE¼SE¼;
Sec. 11, SW¼SW¼NW¼,
NW¼NW¼SW¼.

SNIDER BASIN ADMINISTRATIVE SITE

T. 29 N., R. 115 W.,
Sec. 15, SW¼.

LABARGE MEADOWS ADMINISTRATIVE SITE

T. 29 N., R. 116 W.,
Sec. 7, lot 1, N½NE¼.

SMITH FORK ADMINISTRATIVE SITE

T. 29 N., R. 118 W. (unsurveyed),
Sec. 24, S½SE¼, S½SE¼SW¼.

SWEETWATER ADMINISTRATIVE SITE

T. 30 N., R. 102 W.,
Sec. 18, SW¼SE¼.

MIDDLE PINEY PASTURE ADMINISTRATIVE SITE

T. 30 N., R. 115 W.,
Sec. 3, E½SW¼NW¼, W½SE¼NW¼.

CORRAL CREEK, GREYS RIVER ADMINISTRATIVE SITE

T. 31 N., R. 116 W.,
Sec. 16, W½NW¼.

SOUTH FORK ADMINISTRATIVE SITE

T. 33 N., R. 105 W. (unsurveyed),
Sec. 15, NW¼.

BOULDER LAKE ADMINISTRATIVE SITE

T. 33 N., R. 107 W. (unsurveyed),
Sec. 3, SW¼SW¼, S½NW¼SW¼;
Sec. 10, N½NW¼NW¼.

FREMONT LAKE ADMINISTRATIVE SITE

T. 34 N., R. 109 W.,
Sec. 23, lot 2, NW¼SW¼, S½SW¼.

SHERMAN ADMINISTRATIVE SITE

T. 34 N., R. 113 W.,
Sec. 6, lot 5, SE¼NW¼.
T. 34 N., R. 114 W.,
Sec. 1, lot 1, SE¼NE¼.

PROSPECT LOOKOUT ADMINISTRATIVE SITE

T. 34 N., R. 114 W.,
Sec. 19, W½SW¼NE¼, E½SE¼NW¼.

MEADOWS ADMINISTRATIVE SITE

T. 34 N., R. 116 W.,
Sec. 20, lots 4, 5, W½W½SE¼, E½SW¼,
SE¼NW¼SW¼.

ELKHEART PARK ADMINISTRATIVE SITE

T. 35 N., R. 108 W.,
Sec. 16, E½NW¼, E½NW¼NW¼, E½
SW¼NW¼.

WILLOW CREEK ADMINSTRATIVE SITE

T. 36 N., R. 109 W.,
Sec. 19, SE¼SE¼, E½NE¼SE¼, SW¼
NE¼SE¼;
Sec. 30, N½NE¼NE¼.

DEER CREEK ADMINISTRATIVE SITE

T. 36 N., R. 117 W.,
Sec. 29, S½SW¼SW¼;
Sec. 32, W½NE¼NW¼, NW¼NW¼.

BOULDER CREEK ADMINISTRATIVE SITE

T. 37 N., R. 109 W.,
Sec. 19, SW¼NE¼, SW¼SE¼NE¼.

GREYS RIVER FORK ADMINISTRATIVE SITE

T. 37 N., R. 117 W.,
Sec. 27, NW¼SW¼.

ELK CREEK RECREATION AREA

T. 26 N., R. 117 W.,
Sec. 16, NE¼NW¼, E½NW¼NW¼.

LAKE ALICE RECREATION AREA

T. 28 N., R. 117 W.,
Sec. 20, lots 9, 10, 11, 12.

UPPER LAKE ALICE RECREATION AREA

T. 28 N., R. 117 W.,
Sec. 9, lots 8, 9, S½N½NW¼.

SPRING LAKE CREEK RECREATION AREA

T. 28 N., R. 117½ W.,
Sec. 24, SE¼SW¼NE¼, SW¼SE¼NE¼,
NE¼NW¼SE¼, NW¼NE¼SE¼.

ALLRED FLAT RECREATION AREA

T. 29 N., R. 119 W.,
Sec. 23, W½NE¼.

LARSON PARK RECREATION AREA

T. 30 N., R. 103 W.,
Sec. 12, NE¼NE¼NW¼.

MIDDLE PINEY LAKE RECREATION AREA

T. 30 N., R. 115 W.,
Sec. 8, lots 1, 2, 3.

SACAJAWEA RECREATION AREA

T. 30 N., R. 115 W.,
Sec. 4, SW¼SW¼;
Sec. 5, SE¼SE¼;
Sec. 8, N½NE¼NE¼.

MUD LAKE RECREATION AREA

T. 31 N., R. 104 W.,
Sec. 8, N½N½.

COTTONWOOD LAKE RECREATION AREA

T. 31 N., R. 117 W.,
Sec. 30, SW¼.

SWIFT CREEK RECREATION AREA

T. 32 N., R. 118 W. (unsurveyed),
Sec. 29, SE¼, NE¼SE¼SW¼.

BOUSMAN RECREATION AREA

T. 33 N., R. 107 W. (unsurveyed),
Sec. 3, SW¼SW¼NE¼, SE¼SE¼NW¼, the unpatented portions of NW¼SE¼, E½SW¼.

FOREST PARK RECREATION AREA

T. 33 N., R. 116 W.,
Sec. 16, W½SE¼;
Sec. 21, W½NE¼.

GROVER PARK RECREATION AREA

T. 33 N., R. 118 W.,
Sec. 26, SW¼SW¼;
Sec. 27, E½SE¼SE¼.

CAMP WILDERNESS RECREATION AREA

T. 35 N., R. 108 W. (unsurveyed),
Sec. 7, SE¼.

MOOSE FLAT RECREATION AREA

T. 35 N., R. 117 W.,
Sec. 35, E½NW¼SW¼, NE¼SW¼SW¼,
N½SE¼SW¼, NE¼SW¼.

SURVEYOR PARK RECREATION AREA

T. 35 N., R. 108 W.,
Sec. 20, N½SE¼, W½SW¼SE¼, S½S½
NE¼, unsurveyed NE¼NE¼SW¼;
Sec. 21, SW¼NW¼SW¼, S½SW¼;

Sec. 28, W½SW¼NW¼, NW¼NW¼SW¼, N½NW¼;
Sec. 29, N½NE¼SE¼, S½NE¼NE¼, SE¼NE¼, NE¼NW¼NE¼.

STUMP LAKE RECREATION AREA

T. 36 N., R. 117 W.,
Sec. 32, SW¼NE¼, SE¼NW¼.

MURPHY CREEK RECREATION AREA

T. 36 N., R. 117 W.,
Sec. 30, E½E½SE¼.

GREYS RIVER BRIDGE RECREATION AREA

T. 37 N., R. 118 W. (unsurveyed),
Sec. 34, SW¼SE¼.

FORKS OF GREYS RIVER RECREATION AREA

T. 37 N., R. 117 W. (unsurveyed),
Sec. 28, NE¼SE¼.

KENDALL WARM SPRINGS RECREATION AREA

T. 38 N., R. 110 W.,
Sec. 2, E½E½SW¼SW¼, SE¼SW¼, SW¼SE¼, W½SE¼SE¼, S½NE¼SW¼, S½NW¼SE¼, SW¼NE¼SE¼.

GREEN RIVER LAKES RECREATION AREA

T. 39 N., R. 108 W.,
Sec. 29, S½SW¼ (unsurveyed);
Sec. 30, lots 6, 7, 8, 9, SW¼SE¼;
Sec. 31, lots 1, 2, 3, 4, 5, NW¼SE¼, E½NW¼SE¼, E½SE¼SE¼.

LOWELL M. PUCKETT,
State Supervisor.

[F. R. Doc. 56-7775; Filed, Sept. 27, 1956; 8:45 a. m.]

[Classification Order 489]

CALIFORNIA

SMALL TRACT CLASSIFICATION

SEPTEMBER 17, 1956.

1. Pursuant to authority delegated to me by the California State Supervisor, Bureau of Land Management, under Part II, Document 4, California State Office, dated November 19, 1954 (19 F. R. 7697), I hereby classify, for lease and sale for residence purposes only, under the Small Tract Act of June 1, 1938, as amended (43 U. S. C. 682a), the tracts of public land in San Bernardino County described below:

SAN BERNARDINO BASE AND MERIDIAN

T. 1 S., R. 11 E., S. B. M.,
Sec. 2, N½NW¼;
Sec. 3, N½N½;
Sec. 4, N½N½;
Sec. 5, N½N½;
Sec. 6, N½N½.
T. 1 S., R. 12 E., S. B. M.,
Sec. 5, N½N½;
Sec. 6, SE¼NW¼, N½N½.
T. 1 N., R. 12 E., S. B. M.,
Sec. 3, SW¼;
Sec. 4, E½NE¼, E½W¼NE¼, SW¼SW¼ NE¼, SE¼;
Sec. 9, E½, E½SW¼, SW¼SW¼.
Sec. 10, W½NW¼, SE¼NW¼, SW¼NE¼, NW¼SE¼, N½SW¼;
Sec. 17, S½S½, NE¼SE¼;
Sec. 18, S½SW¼, SW¼SE¼;
Sec. 19, N½NW¼, NW¼NE¼;
Sec. 20, N½NE¼, NE¼NW¼;
Sec. 31, S½S½.

The lands comprise 594 small tracts and contain a total of 2,970 acres.

2. Classification of the above-described lands by this order segregates them from all appropriations, including location under the mining laws, except as to application under the mineral leasing laws.

3. The lands in T. 1 S., R's 11 and 12 E. are accessible from Twentynine Palms via asphalt-paved road to within 6 miles. The road then continues in an easterly direction as a graded unsurfaced road. The distance from Twentynine Palms is 9 miles to the near point and 17 miles to the eastern boundary.

The lands in T. 1 N., R. 12 E., are accessible from Twentynine Palms via the Amboy road, which passes along the south line of Sections 17 and 18. It then curves north through Section 16. This township is approximately 15 miles due east of Twentynine Palms, California. An unimproved road crosses the top of Sections 16, 17 and 18 and joins the Amboy Highway. An unimproved road crosses Sections 3 and 10 in a southeasterly direction to the Dale Chemical Company.

The lands involved are level to moderately sloping. The elevation ranges from 1,200 to 1,600 feet above sea level.

The vegetation consists of a creosote bush aspect with an understory of galleta grass, bur-sage, smoke trees, cacti, annual grasses and forbs.

No fresh water wells have been drilled in the vicinity of the area examined. The annual precipitation is 5'' or less per annum.

4. The lands will be leased and sold in rectangular tracts of 5 acres each, more or less, 330 x 660 feet in size, and described as aliquot parts of the section. The tracts will be subject to all existing rights-of-way and to rights-of-way for public roads and utilities as described below. Such rights-of-way may be utilized by the Federal Government or the State, County, or municipality in which the tract is located or by any agency thereof. The tracts having highway frontage are subject to a setback of 75 feet from the center line of said highway in accord with County Regulations.

T. 1 S., R. 11 E., S. B. M.,
Sec. 2, 33 feet along the interior boundary of the west line of the N½NW¼; 16½ feet along the south line of the N½NW¼.
Sec. 3, 33 feet along the interior boundary of the east line of the NE¼NE¼ and the west line of the NW¼NW¼; 16½ feet along the south line of the N½N½.
Sec. 4, 33 feet along the interior boundary of the east line of the NE¼NE¼ and the west line of the NW¼NW¼; 16½ feet along the south line of the N½N½.
Sec. 5, 33 feet along the interior boundary of the east line of the NE¼NE¼ and the west line of the NW¼NW¼; 16½ feet along the south line of the N½N½.
Sec. 6, 33 feet along the interior boundary of the east line of the NE¼NE¼ and the west line of the NW¼NW¼; 16½ feet along the south line of the N½N½.
T. 1 S., R. 12 E., S. B. M.,
Sec. 5, 33 feet along the interior boundary of the east line of the NE¼NE¼ and the west line of the NW¼NW¼; 16½ feet along the south line of the N½N½.
T. 1 N., R. 12 E., S. B. M.,
Sec. 3, 33 feet along the interior boundary of the west and south lines of the SW¼; 16½ feet along the east line of the W½SW¼, the west line of the E½SW¼, and the east and north lines of the SW¼.
Sec. 4, 33 feet along the interior boundary of the east line of the section, the north line of the NE¼NE¼, the north line of the NE¼NW¼NE¼, and the south line of the SE¼; 16½ feet along the west line of the E½E½, the east line of the W½E½, and the west line of the SE¼.
Sec. 9, 33 feet along the interior boundary of the east and south lines of the section and the north line of the NE¼; 16½ feet along the west line of the E½E½, the east line of the W½E½, the west line of the SE¼, the east line of the SW¼, the west line of the E½SW¼, the east line of the SW¼SW¼, and the west line of the NE¼.
Sec. 10, 33 feet along the interior boundary of the west line of the NW¼, the north line of the NW¼NW¼, and the west line of the NW¼SW¼; 16½ feet along the south line of the NW¼NW¼, the north line of the S½NW¼, the south line of the NW¼, the north line of the SW¼, the south line of the N½SW¼, the north and south lines of the SW¼NE¼, and the north and south lines of the NW¼SE¼.
Sec. 17, 33 feet along the interior boundary of the east and south lines of the SE¼ and the west line of the SW¼SW¼; 16½ feet along the north line of the S½SW¼, the north line of the S½SE¼, and the north line of NE¼SE¼.
Sec. 18, 33 feet along the interior boundary of the west line of SW¼SW¼; 16½ feet along the north lines of the S½SW¼ and SW¼SE¼, the east line of the SE¼SW¼, and the west line of the SW¼SE¼.
Sec. 19, 33 feet along the interior boundary of the west line of NW¼NW¼; 16½ feet along the south line of the N½NW¼, the south line of the NW¼NE¼, the east line of the NE¼NW¼, and the west line of the NW¼NE¼.
Sec. 20, 33 feet along the interior boundary of the east line of the NE¼NE¼; 16½ feet along the south line of the N½NE¼, the south line of the NE¼NW¼, the east line of the NE¼NW¼, and the west line of the NW¼NE¼.
Sec. 31, 33 feet along the interior boundary of the west line of the SW¼SW¼ and the east line of the SE¼SE¼; 16½ feet along the north lines of S½SW¼ and S½SE¼, the east line of the SE¼SW¼, and the west line of the SW¼SE¼.

5. Leases will be issued to qualified applicants for a term of three (3) years and will contain an option to purchase in accordance with 43 CFR 257.13. The appraised value of the tracts is $200. The advance rental is $30. Therefore, before leases can be issued, an additional payment for advance rental in the amount of $15 is due and payable to the Manager, Land Office, Los Angeles, from individuals having statutory preference. Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

6. To maintain their rights under their leases, lessees will be required either (a) to construct substantial improvements on their lands, or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sani-

tation, and construction requirements of local ordinances and must, in addition, meet the following standards:

The dwelling house must be suitable for year-round use, on a permanent foundation and with a minimum of 400 square feet of floor space. It must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed. Conventional concrete, cement slab, or masonry foundations are acceptable. Concrete piers are not acceptable as foundations.

7. Applicants must file with the Manager, Land Office, 5th floor, Bartlett Building, 215 West 7th Street, Los Angeles, California, application form 4–776 in duplicate, filled out in compliance with the instructions on the form and accompanied by any showings or documents required by those instructions. Copies of the application form can be secured from the above-named official.

The application must be accompanied by a filing fee of $10 plus the advance rental specified above. Failure to transmit these payments with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

8. The lands are now open to filing of drawing-entry cards (form 4–775) only by persons entitled to veterans' preference. In brief, persons entitled to such preference are (a) honorably discharged veterans who have served in the armed forces of the United States for a period of at least 90 days after September 15, 1940; (b) surviving spouse or minor orphan children of such veterans; and (c) with the consent of the veteran, the spouse of living veterans. The 90-day requirement does not apply to veterans who were discharged on account of wounds or disability incurred in the line of duty. Drawing-entry cards (form 4–775) are available, upon request, from the Manager, Land Office, 5th floor, Bartlett Building, 215 W. 7th Street, Los Angeles 14, California.

Drawing entry cards will be accepted if filled out in compliance with the instructions on the form and with the above-named official prior to 10:00 a. m., January 22, 1957. A drawing will be held on that date or shortly thereafter. Any person who submits more than one card will be declared ineligible to participate in the drawing. All entrants will be notified of the results of the drawing. Successful entrants will be sent copies of the application for lease forms (form 4–776) with instructions as to their execution and return and as to payment of fees and rentals.

9. All valid applications filed prior to 10:00 a. m., September 17, 1956, will be granted the preference right provided for by 43 CFR 257.5 (a) if the preference-right applicants conform to the provisions of this order.

R. G. SPORLEDER,
Officer in Charge,
Southern Field Group, Los Angeles.

Bureau of Reclamation

MILK RIVER PROJECT, MONTANA

ORDER OF REVOCATION

SEPTEMBER 6, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, (19 F. R. 5004), I hereby revoke Departmental Order of September 28, 1916, insofar as said order affects the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the lands hereinafter described:

PRINCIPAL MERIDIAN, MONTANA

T. 33 N., R. 21 E.,
Sec. 30, SW¼NE¼, SE¼NW¼, NE¼SW¼.

The above area aggregates 120 acres.

E. G. NIELSEN,
Assistant Commissioner.

[642871]

SEPTEMBER 24, 1956.

I concur. The lands will be disposed of by the Bureau of Reclamation under the provisions of the act of March 31, 1950 (64 Stat. 39; 43 U. S. C. 375b).

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

DEPARTMENT OF AGRICULTURE

Forest Service

IDAHO

DESIGNATION OF LANDS ACQUIRED BY THE UNITED STATES IN CERTAIN AREAS TO BE ADMINISTERED AS PARTS OF SPECIFIC NATIONAL FORESTS

Whereas, lands situate within the State of Idaho have been or may hereafter be acquired by the United States under authority of the act of March 1, 1911 (36 Stat. 961), as amended and supplemented by the acts of June 7, 1924 (43 Stat. 653), and March 3, 1925 (43 Stat. 1215), and

Whereas, pursuant to the provisions of section 11 of the act of March 1, 1911, the Secretary of Agriculture may, from time to time, divide the lands acquired under the aforementioned acts into such specific national forests and so designate the same as he may deem best for administrative purposes, and

Whereas, lands acquired under the aforesaid acts within the hereinafter described areas are so situated that the public interest and economy will be served best by having them administered as parts of the Coeur d'Alene, Clearwater, Kaniksu and St. Joe National Forests, respectively;

Now, therefore, I, E. L. Peterson, Assistant Secretary of Agriculture, by virtue of the authority vested in me by section 11 of the act of March 1, 1911, do hereby order that lands heretofore or hereafter acquired under the above-mentioned acts, which are situated within the areas described in the attachments hereto, be administered as parts of the indicated national forests.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 13th day of September 1956.

[SEAL] E. L. PETERSON,
Assistant Secretary of Agriculture.

DEPARTMENT OF COMMERCE

Business and Defense Services Administration

[BDSA Delegation 1 (formerly NPA Delegation 1), Supp. 1, as amended September 25, 1956]

SECRETARY OF DEFENSE

DELEGATION OF FURTHER AUTHORITY AS TO CERTAIN PROGRAMS

Supplement 1 (as amended October 23, 1952) to BDSA Delegation 1 (formerly NPA Delegation 1) is hereby further amended to authorize the Secretary of Defense to reschedule deliveries of materials required in support of the Guided Missiles Systems Program (A2) of the Department of Defense.

1. This amended supplement to BDSA Delegation 1 (formerly NPA Delegation 1) is issued pursuant to the Defense Production Act of 1950, as amended, Executive Order 10480 (18 F. R. 4939), as amended, Defense Mobilization Order I-7 (18 F. R. 5366), as amended, and Department of Commerce Order 152 (18 F. R. 6503), as amended. The Secretary of Defense has been delegated certain authority under BDSA Delegation 1 (formerly NPA Delegation 1). In addition to such authority, there is hereby delegated to the Secretary of Defense the following authority:

(*a*) To reschedule deliveries of materials which are required in support of the following Department of Defense programs: (1) Aircraft Program (A1), (2) Guided Missiles Systems Program (A2), (3) Ships Program (A3), and (4) Tank-Automotive Program (A4): *Provided, however,* (1) That such authority shall be applicable only to the rescheduling of deliveries among rated orders or authorized controlled material orders bearing the same program identification, except that such rescheduling of deliveries shall be permissible between the Aircraft Program (A1) and the Guided Missiles Systems Program (A2); and (2) That such authority shall be applicable only to the extent that such rescheduling of deliveries requires no change in production schedules of the person making the deliveries.

(*b*) To schedule or reschedule the production and delivery of any Class B product assigned to Aircraft Production Resources Agency (Department of Defense) under Product Class Code No. 9500 in the BDSA (formerly NPA) Official Class B Product List (said B products being hereinafter referred to as "APRA B products") and which are required to be delivered pursuant to any rated order heretofore or hereafter accepted by a manufacturer or producer: *Provided, however,* That such authority shall be exercised only upon the following conditions:

(1) The consent of the manufacturer or producer of any APRA B product proposed to be scheduled or rescheduled is first obtained; and

(2) In providing for such scheduling or rescheduling, the manufacturer or producer is not required or authorized to displace the production of, or delay the delivery of, any product other than an APRA B product; and

(3) In any case where such scheduling or rescheduling is effected pursuant to such authority, the Secretary of Defense shall require the manufacturer or producer whose production or delivery has been so rescheduled to notify immediately in writing all customers whose deliveries have been changed as a result of such rescheduling.

The authority in this subparagraph (*b*) does not extend to the rescheduling of the production or delivery of materials or products furnished by suppliers to manufacturers of APRA B products, and required in the manufacture of APRA B products.

(*c*) To require a copy of an order board or in lieu thereof the necessary scheduling data, covering APRA B products only, from a manufacturer of any such products which are in critically short supply and the lack of which products is seriously interfering with the fulfillment of other aircraft component or aircraft end-item schedules.

2. The Secretary of Defense may redelegate the authority hereby delegated to appropriate agencies of the Department of Defense or its authorized agents.

This supplement, as amended, shall take effect September 25, 1956.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

[Docket No. E-6707]

INTERSTATE POWER CO. ET AL.

NOTICE OF APPLICATION

SEPTEMBER 24, 1956.

In the matter of Interstate Power Company, Northwestern Illinois Gas & Electric Company, Fred D. Ellis and Edmund J. Haugh, Docket No. E–6707.

Take notice that on September 19, 1956, a joint application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Interstate Power Company ("Interstate"), Northwestern Illinois Gas & Electric Company ("Northwestern") and Fred D. Ellis and Edmund J. Haugh ("Ellis and Haugh"), seeking an order authorizing the issuance of not exceeding 136,500 shares of Common Stock by Interstate, the proposed assumption by Interstate of liabilities of Northwestern and of certain liabilities of Ellis and Haugh and for an order pursuant to section 203 authorizing the sale of the Sabula area electric facilities by Ellis and Haugh to Interstate and a statutory merger of Northwestern, into Interstate.

Interstate is a corporation organized under the laws of the State of Delaware and domesticated in the States of Illinois, Iowa, Minnesota and South Dakota, with its principal business office at Dubuque, Iowa. Northwestern is a corporation organized under the laws of the State of Illinois and doing business in said State with its principal business office at Savanna, Illinois. Ellis and Haugh are individuals with their principal business office at Chicago, Illinois. Interstate proposes to issue 132,150 shares of said Common Stock to the stockholders of Northwestern in exchange for 2,000 shares, without par value, constituting all of the capital stock of Northwestern. The acquisition of capital stock of Northwestern is for the purpose of acquiring public utility property and assets of Northwestern and merging same with the property of Interstate. Interstate proposes to issue 4,350 shares of said Common Stock to Ellis and Haugh in exchange for the conveyance by the latter to Interstate of the Sabula area electric utility properties owned by Ellis and Haugh. The Sabula area facilities proposed to be sold by Ellis and Haugh to Interstate serve electric energy at wholesale to the Village of Sabula, Iowa and at retail to approximately 300 electric customers in Andover, Iowa and its vicinity and in the vicinity of Sabula and Teeds Grove, Iowa. The electric energy for said Sabula area facilities is generated at the Savanna, Illinois power plant of Northwestern and delivered to the Sabula area facilities over an electric circuit owned by Ellis and Haugh extending from said power plant over the Savanna-Sabula Bridge across the Mississippi River into Iowa. Interstate proposes to acquire the facilities of Northwestern presently used to serve gas and electricity which consists of facilities serving electric service in and around Savanna, Galena, Mount Carroll, Elizabeth, Menominee, Woodbine, Chadwick, Thomson, and Schapville, all in Illinois. Combined gas and electric service is supplied to Savanna. One community (Hanover, Illinois) is supplied electricity at wholesale. The property includes a steam electric generating plant at Savanna, a steam and diesel generating plant at Galena, a transmission line between Savanna and Galena and sub-transmission lines connecting the former communities. The gas system is located at Savanna. After the acquisition by Interstate of the facilities hereinbefore described, said facilities will be merged with the facilities of Interstate and their operation will be continued by Interstate. The application is on file with the Commission and available for public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 12th day of October 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56–7823; Filed, Sept. 27, 1956; 8:49 a. m.]

[Docket No. G–10609]

TOWN OF OLIVE BRANCH, MISS.

NOTICE OF APPLICATION

SEPTEMBER 24, 1956.

Take notice that Town of Olive Branch, DeSoto County, Mississippi (Applicant), a Mississippi municipal corporation with address at Olive Branch, Mississippi, filed, on June 18, 1956, as amended July 23, 1956, August 13, 1956 and August 27, 1956, pursuant to section 7 (a) of the Natural Gas Act, an application for an order directing Texas Gas Transmission Corporation (Texas Gas) to establish physical connection of its natural gas transportation facilities with Applicant's proposed natural gas system and to sell natural gas to Applicant for resale and distribution in and adjacent to Olive Branch and the unincorporated community of Maywood as hereinafter described, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate approximately 5.36 miles of 3-inch high pressure lateral transmission line extending in a southeasterly direction from a point of interconnection with the 26-inch main transmission line of Texas Gas near its crossing at U. S. Highway No. 78 to Applicant's Maywood Regulator Station, thence reducing to approximately 1.25 miles of 4-inch low pressure lateral transmission line extending to the corporate limits of Olive Branch, together with distribution systems within Olive Branch and Maywood for the purpose of supplying the natural gas requirements of Applicant's proposed distribution systems in Olive Branch and Maywood and customers adjacent to the 3-inch portion of the lateral transmission line.

The estimated total cost of this project is $160,000 which will be financed by Applicant through the sale of bonds. The estimated annual gas requirements and peak day gas requirements in Mcf at 14.73 psia for the first 3 years of operation are as follows:

Year; Annual; and Peak Day

1 (1957)	22,933	276
2	30,640	377
3	36,634	457

Texas Gas timely filed on August 17, 1956, pursuant to § 1.9 (a) of the Commission's rules of practice and procedure, an Answer to the aforesaid application wherein it states that it has no objection to rendering the service requested by Applicant; *Provided:* (1) That Applicant satisfies the Commission as to the present and future economic feasibility of the proposed project on the basis of Applicant's estimated third year requirements for said project (pointing out that Texas Gas filed on June 15, 1956 in Docket No. G–10751 a revised tariff providing a rate exceeding that used by Applicant in its estimates); (2) that the maximum daily delivery obligation of Texas Gas to Applicant does not exceed the 3d year requirements of 448 Mcf at 15.025 psia (457 Mcf at 14.73 psia); (3) that Texas Gas be not obligated to render the proposed service until completion of its facilities authorized in Docket No. G–10062; (4) that the facilities of Applicant necessary to receive, transport, and distribute the gas as proposed are completed not later than July 1, 1957; and (5) that Applicant executes a service agreement acceptable to Texas Gas within 45 days after the issuance of any Commission order authorizing the requested service to be effective upon the commencement of deliveries.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 15, 1956.

[SEAL] LEON M. FUQUAY, *Secretary.*

FEDERAL TRADE COMMISSION

[File 21–472.]

TRADE PRACTICE CONFERENCE PROCEEDINGS FOR ENVIRONMENTAL EQUIPMENT INDUSTRY

NOTICE OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference for the Environmental Equipment Industry will be held by the Federal Trade Commission in the Park Sheraton Hotel, New York City, on October 19, 1956, commencing at 10 a. m. e. d. s. t. The conference will be under the general supervision of the Honorable Sigurd Anderson, Federal Trade Commissioner, and will constitute the first step in proceedings authorized by the Commission for establishment of trade practice rules for the industry.

Rules suggested and considered at the conference will be such as are designed to eliminate and prevent unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses which are violative of laws administered by the Commission.

Environmental testing equipment is used for testing the reaction of products to varying degrees of temperature, humidity, and air pressure, and to sand, dust vibration, combustion, breakage, and other conditions. All persons, firms, corporations, and organizations engaged in the manufacture, sale, or distribution in commerce of such equipment are cordially invited to attend or to be represented at the conference and to take part in the proceedings. Any such persons, firms, corporations, or organizations may submit suggested trade practice rules for consideration at the conference as well as take part in the consideration and discussion of proposals or suggestions for rules presented by others.

After the conference on October 19th, and before any rules are finally approved by the Commission, a draft of proposed rules in the form deemed appropriate will become available to all interested or affected parties, including consumers and consumer organizations, upon public notice affording them opportunity to present their views, criticisms, and suggestions respecting the proposed rules and to be heard at a public hearing to be announced by the Commission.

Issued: September 25, 1956.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 56–7828; Filed, Sept. 27, 1956; 8:50 a. m.]

FEDERAL HOUSING ADMINISTRATION

CERTAIN MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES AA

NOTICE OF CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY

SEPTEMBER 20, 1956.

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2½, 2⅝, 2¾, 2⅞ and 3 percent Mutual Mortgage Insurance Fund Debentures, Series AA, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1957, on which date interest on such debentures shall cease:

2½ 2⅝ 2¾ 2⅞ and 3 percent Mutual Mortgage Insurance Fund Debentures, Series AA

Denomination:	*Serial numbers (all numbers inclusive)*
$50	63 to 269
100	238 to 893
500	78 to 273
1,000	171 to 627
5,000	105 to 110
	112 to 345
10,000	70 to 117

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1956. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1956, and provision will be made for the payment of final interest due on January 1, 1957, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1956, to December 31, 1956, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1957, or for purchase prior to that date will be given by the Secretary of the Treasury.

NORMAN P. MASON, *Commissioner.*

Approved: September 24, 1956.

W. RANDOLPH BURGESS, *Acting Secretary of the Treasury.*

M. F. ELLINOR

ORDER CONTINUING HEARING

Correction

In F. R. Doc. 56–7722 appearing in the issue for Tuesday, September 25, 1956, make the following change in the third paragraph: In the second line, the year "1957" following the word "September", should read "1956".

THE RENEGOTIATION BOARD

STATEMENT OF ORGANIZATION

The Statement of Organization published in the issue of February 13, 1952 (F. R. Doc. 52–1774; 17 F. R. 1400), as heretofore amended, is hereby revised to read as follows:

ORGANIZATION AND FUNCTIONS OF THE RENEGOTIATION BOARD

Sec.
1. Creation and authority.
2. Purpose.
3. Organization.
4. Activities.
5 Official copies.
6. Copies of the Renegotiation Board regulations.

SECTION 1. *Creation and authority.* The Renegotiation Board was created by the Renegotiation Act of 1951 (65 Stat. 7, 50 U. S. C. App. 1211) as an independent establishment in the executive branch of the Government and was organized on October 3, 1951 to administer such act. The Renegotiation Act of 1951 transferred to The Renegotiation Board certain powers, functions and duties conferred upon the War Contracts Price Adjustment Board by the Renegotiation Act (58 Stat. 78, as amended; 50 U. S. C. App. 1191). In addition, the Secretary of Defense delegated to The Renegotiation Board, effective January 20, 1952 (17 F. R. 736), all powers, functions and duties conferred upon the Secretary of Defense by the Renegotiation Act of 1948 (62 Stat. 259, as amended and extended; 50 U. S. C. App. 1193).

SEC. 2. *Purpose.* The objective of the Renegotiation Act of 1951 and the previous renegotiation statutes is to eliminate excessive profits derived by contractors and subcontractors in connection with the national defense program.

SEC. 3. *Organization.* (a) The Renegotiation Board is composed of five members. Each is appointed by the President by and with the advice and consent of the Senate. The Secretaries of the Army, the Navy and the Air Force, subject to the approval of the Secretary of Defense, and the Administrator of General Services each recommend to the President for his consideration one person from civilian life to serve as a member of the Board. The President designates one member to serve as Chairman. The principal office of the Board is located in Temporary Building S, 6th Street and Jefferson Drive, SW., Washington, D. C.

(b) The Board maintains four regional boards with authority to conduct renegotiation proceedings in cases assigned to them. Each of the regional boards is composed of a chairman and additional board members as appointed by the Board. After the Board determines that a contractor should be assigned for renegotiation, the case is assigned to a regional board selected according to its proximity, its relative work load, and its experience and special skills. The locations of the regional boards are as follows:

Location

(1) Chicago Regional Renegotiation Board, 219 South Clark Street, Chicago 4, Ill.

(2) Detroit Regional Renegotiation Board, David Broderick Tower Building, 10 Witherell Street, Detroit 26, Mich.

(3) Los Angeles Regional Renegotiation Board, 5504 Hollywood Boulevard, Los Angeles 28, Calif.

(4) New York Regional Renegotiation Board, 110 East 45th Street, New York 17, N. Y.

SEC. 4. *Activities.* (a) The Renegotiation Act of 1951 is applicable to contracts with the military departments and certain other agencies of the Government named in the act, and to related subcontracts. As originally enacted, the act applied also to contracts with such other agencies of the Government exercising functions having a direct and immediate connection with the national defense as the President might designate. Various additional agencies were designated by the President in Executive Orders 10260, June 27, 1951 (16 F. R. 6271); 10294, September 28, 1951 (16 F. R. 9927); 10299, October 31, 1951 (16 F. R. 11135); 10369, June 30, 1952 (17 F. R. 5932); and 10567, September 29, 1954 (19 F. R. 6361).

(b) By amendment to the act effective December 31, 1956, all agencies so named or designated ceased to be "Departments" for the purposes of the act, except the Departments of Defense, Army, Navy, and Air Force, the Maritime Administration, the Federal Maritime Board, the General Services Administration, and the Atomic Energy Commission. The President was given the power, during a national emergency proclaimed by the President or declared by the Congress after the date of such amendment, to designate as a Department any other agency of the Government exercising functions having a direct and immediate connection with the national defense, any such designation ceasing in be in effect on the last day of the month during which such emergency is terminated.

(c) For fiscal years ending on or before June 30, 1956, every contractor is required to file an annual report with respect to its receipts or accruals from renegotiable prime contracts and subcontracts during its fiscal year. For fiscal years ending after June 30, 1956, this report is required to be filed only by those contractors whose renegotiable sales exceed the minimum amount prescribed in the act, but it may be filed by any other contractor. The mandatory filing includes detailed financial and other information. Additional pertinent information is accumulated by the Board in the course of meetings with contractors whose renegotiable sales exceed the statutory minimum. If the Board and the contractor are unable to agree upon the amount of excessive profits, if any, to be refunded by the contractor for such fiscal year, the Board issues and enters an order determining such amount. The order is reviewable in The Tax Court of the United States.

(d) Cases are normally assigned in the first instance to one of the regional boards, to which the Board has delegated authority to make determinations of excessive profits in cases involving a net profit on renegotiable business not in excess of $800,000 for a fiscal year and to make recommended determinations to the Board of excessive profits in cases exceeding that amount, for final determination by the Board.

(e) The administration of renegotiation agreements and orders under the Renegotiation Act of 1951 is carried out by the heads of the agencies whose contracts are subject to such act; the administration of renegotiation agreements and orders under the Renegotiation Act of 1948 has been delegated to the Secretary of Defense, who in turn has redelegated such function to the Secretaries of the Army, the Navy, and the Air Force; the administration of renegotiation agreements and orders under the Renegotiation Act has been delegated to the heads of the agencies whose contracts were subject to that act.

(f) The Board maintains liaison with the various agencies whose contracts are subject to the Renegotiation Act of 1951, and with the Department of Justice, the Internal Revenue Service, and other agencies whose jurisdiction or activities relate to the functions of the Board. The Board also disseminates renegotiation results and information to Government procurement personnel for use in reprocurement, forward pricing and price redetermination proceedings, as a means of avoiding excessive profits to contractors and excessive costs to the Government in the execution of the national defense program.

SEC. 5. *Official copies.* Official copies of the statutes referred to herein may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Official copies of Executive orders cited herein are set out in the FEDERAL REGISTER, which may also be procured from the Superintendent of Documents.

SEC. 6. *Copies of the Renegotiation Board regulations.* The Renegotiation Board regulations and current supplements thereto may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Dated: September 25, 1956.

THOMAS COGGESHALL,
Chairman, The Renegotiation Board.

Office of Alien Property

[Vesting Order 18360, Amdt.]

ESTATE OF EMIL RAPP

In re: Estate of Emil Rapp, deceased (File F-28-5782; E. T. Sec. 17154).

Vesting Order 18380 dated August 30, 1951, is hereby amended as follows:

By inserting in paragraph 2 thereof, immediately following the name "Emil Rapp, deceased", the following: "including, but not limited to, the real property located at 883 Cauldwell Avenue, Bronx, New York,"

All other provisions of said Vesting Order 18380 and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C. on September 25, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General, Director, Office of Alien Property.

[Vesting Order 18433, Amdt.]

OKURA & CO.

In re: Bonds and debentures owned by Okura & Company. F-39-995.

Vesting Order 18433, dated September 7, 1951, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law after investigation, it is hereby found:

1. That Okura & Company, the last known address of which is Tokyo, Japan, is a corporation organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows:

a. All those certain debts or other obligations matured or unmatured of the corporations whose names and addresses are listed in Exhibit A, attached hereto and by reference made a part hereof, evidenced by the bonds and debentures described opposite said names in Exhibit A, and evidenced by coupons attached to or detached from said bonds and debentures and due on or after the respective dates set forth in said Exhibit A, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and together with any and all rights in, to and under the aforesaid bonds and debentures, and coupons, and

b. Those certain debts or other obligations matured or unmatured evidenced by the United States Treasury bonds described in Exhibit B, attached hereto and by reference made a part hereof, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and together with any and all rights in, to and under the aforesaid bonds,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Okura & Company, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in Section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C. on September 25, 1956.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director, Office of Alien Property.

SERAFINA STEINIKE

In re: Bond owned by the personal representatives, heirs, next of kin, legatees and distributees of Serafina Steinike, deceased. F-28-31811.

Vesting Order 18759, dated February 7, 1952, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR, 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Serafina Steinike, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation matured or unmatured evidenced by One (1) 4% St. Louis Southwestern Railway Company First Mortgage Gold Bond, due 1989, numbered 8735 and of $1,000.00 face value, and evidenced by coupons attached to or detached from said bonds and due on or after November 1, 1940, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same, and any and all rights in and under said bond and coupons,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the personal representatives, heirs, next of kin, legatees and distributees of Serafina Steinike, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons referred to in subparagraph 1 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 25, 1956.

For the Attorney General.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases and Other Operations

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Soybeans]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1956-CROP SOYBEAN LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1956-crop of soybeans. The 1956 C. C. C. Grain Price Support Bulletin 1 (21 F. R. 3997) issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1956, is supplemented as follows:

Sec.
421.2026 Purpose.
421.2027 Availability of price support.
421.2028 Eligible soybeans.
421.2029 Warehouse receipts.
421.2030 Determination of quantity.
421.2031 Determination of quality.
421.2032 Maturity of loans.
421.2033 Support rates.
421.2034 Warehouse charges.
421.2035 Liquidation of loans and delivery under purchase agreements.
421.2036 Settlement.

AUTHORITY: §§ 421.2026 to 421.2036 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 421.2026 *Purpose.* Sections 421.2026 to 421.2036 state additional specific regulations which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (21 F. R. 3997; §§ 421.1601 to 421.1622), apply to loans and purchase agreements under the 1956-Crop Soybean Price Support Program.

§ 421.2027 *Availability of price support.*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever soybeans are grown in the continental United States, except that farm-storage loans will not be available in areas where the State Committee determines that soybeans cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1957, and the applicable documents must be signed by the producer and delivered to the county committee not later than such final date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof producing soybeans in 1956 as landowner, landlord, tenant, or sharecropper. Two or more eligible producers may obtain a joint loan on eligible soybeans harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.2028 *Eligible soybeans.* Soybeans, to be eligible for price support, must meet all of the applicable requirements set forth in this section:

Part 24	7491
Title 32A	
Chapter I (ODM):	
DMO I–23	7491

(a) The soybeans must have been produced in the continental United States in 1956 by an eligible producer.

(b) At the time the soybeans are placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the soybeans must be in the eligible producer tendering the soybeans for loan or for delivery under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the soybeans were harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the soybeans were produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Soybeans, at the time they are placed under loan, and soybeans under purchase agreement which are in approved warehouse storage prior to notification by a producer of his intention to sell to CCC, must meet the following requirements:

(1) The soybeans must be soybeans of any class, grading No. 4 or better and containing not in excess of 14 percent moisture.

(2) Soybeans grading Garlicky or Weevily, or containing mercurial compounds or other substances poisonous to man or animals will not be eligible.

(3) If offered as security for a farm-storage loan, the soybeans must have been stored in the granary at least 30 days prior to inspection, measurement, sampling, and sealing unless otherwise approved by the State committee.

(d) Soybeans under purchase agreement stored in other than approved warehouse storage must, in order to be eligible for sale to CCC, meet the requirements of paragraph (c) (1) and (2) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee. Soybeans which do not meet the requirements of paragraph (c) (1) and (2) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions specified in § 421.2035 (b) (2) (i) and the soybeans on the basis of the inspection made at the time of delivery meets the requirements set forth in paragraph (c) (1) and (2) of this section.

§ 421.2029 *Warehouse receipts.* Ware-house receipts representing soybeans in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the soybeans are insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, (5) moisture, and (6) any other grading factor(s) when such factor(s), and not test weight or moisture, determine the grade. For soybeans grading Nos. 3 or 4, the percentage of splits, total damage, heat damage and foreign material, if any, must also be shown. In the case of warehouse receipts issued for soybeans delivered by rail or barge, the grading factors on the warehouse receipt or the warehouseman's supplemental certificate must agree with the inbound inspection certificate for the car or barge, if such certificate is issued.

(c) A separate warehouse receipt must be submitted for each grade and class of soybeans.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.2034.

§ 421.2030 *Determination of quantity.* (a) The quantity of soybeans placed under farm-storage loan may be determined either by weight or by measurement. The quantity of soybeans placed under a warehouse-storage loan or delivered under a loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 60 pounds of soybeans free of foreign material in excess of 2 percent. If the total weight of foreign material is in excess of 2 percent, the excess shall be deducted from the total quantity of soybeans in the determination of the net number of bushels of soybeans. For the purposes of this determination, foreign material shall be computed in tenths of 1 percent. In determining the quantity of sacked soybeans by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of soybeans is determined by measurement, a bushel shall be 1.25 cubic feet of soybeans testing 60 pounds per bushel. The quantity determined shall be adjusted by the following percentages of the quantity determined for 60-pound soybeans.

For soybeans testing:	Percent
60 pounds or over	100
59 pounds or over, but less than 60	98
58 pounds or over, but less than 59	97
57 pounds or over, but less than 58	95
56 pounds or over, but less than 57	93
55 pounds or over, but less than 56	92
54 pounds or over, but less than 55	90
53 pounds or over, but less than 54	88
52 pounds or over, but less than 53	87
51 pounds or over, but less than 52	85
50 pounds or over, but less than 51	83
49 pounds or over, but less than 50	82

§ 421.2031 *Determination of quality.* The class, grade, grading factors, percentage of foreign material, and all other quality factors shall be determined in accordance with the method set forth in the Official Grain Standards of the United States for Soybeans, whether or not such determinations are made on the basis of an official inspection.

§ 421.2032 *Maturity of loans.* Loans mature on demand but not later than May 31, 1957.

§ 421.2033 *Support rates*—(a) *Basic county support rates.* (1) Basic county support rates for soybeans placed under loan and for soybeans delivered under purchase agreements are set forth in this paragraph. Farm-storage and warehouse-storage loans, and purchases under purchase agreements, will be made on the basis of the support rate established for the county in which the soybeans are produced.

(2) Basic county support rates per bushel for soybeans of the classes Green soybeans and Yellow soybeans grading No. 2 or better, and containing from 13.8 to 14.0 percent moisture, are set forth below:

(3) Where the State committee determines that State or district weed control laws affect the soybean crop, the support rate will be 10 cents below the applicable county support rate set forth in the schedule in this paragraph. If, upon delivery of the soybeans to CCC the producer supplies a certificate indicating that the soybeans comply with the weed control laws, the producer will be credited with the amount of the differential in determining the settlement value.

(b) *Discounts and premiums.*—(1) *Farm-storage.* In the case of eligible soybeans placed under farm-storage loan the applicable cumulative discounts contained in this paragraph shall be applied to the basic rate at the time the loan is completed. Premiums for low moisture content shall not be applied until time of settlement. In the case of eligible soybeans delivered from farm-storage under purchase agreement, the applicable discounts and premiums shall be applied to the basic rate at the time of settlement.

(2) *Warehouse storage.* In the case of warehouse-storage loans, the applicable discounts and premiums for eligible soybeans shall be applied to the basic rate at the time the loan is completed. In the case of eligible soybeans represented by warehouse receipts tendered to CCC under purchase agreements, the applicable discounts and premiums shall be applied to the basic rate at the time of settlement.

(3) *Classification discount.* The support rates for soybeans of the classes Black Soybeans, Brown Soybeans, and Mixed Soybeans shall be 25 cents per bushel less than the support rates for the classes Green Soybeans and Yellow Soybeans.

(4) *Discounts for test weight per bushel, splits, and damaged kernels.* The following discounts are applicable to all classes of soybeans:

Test weight per bushel	Discount	Splits	Discounts	Damaged kernels		Discount
				Heat	Total	
Pounds [1]	*Cents per bushel*	*Percent* [1]	*Cents per bushel*	*Percent* [1]	*Percent* [1]	*Cents per bushel*
53.0–53.9	½	20.1–25.0	½	0.6–0.7	3.1–4.0	½
52.0–52.9	1	25.1–30.0	1	0.8–1.0	4.1–5.0	1
51.0–51.9	1½	30.1–35.0	1½	1.1–1.5	5.1–6.0	1½
50.0–50.9	2	35.1–40.0	2	1.6–2.1	6.1–7.0	2
49.0–49.9	2½			2.2–3.0	7.1–8.0	2½

[1] The figures in these columns are inclusive.

(5) *Premiums for low moisture content.* The following premiums are applicable to all classes of soybeans.

Moisture (percent):	Premium (cents per bushel)
12.2 or less	4
12.3 to 12.7 inclusive	3
12.8 to 13.2 inclusive	2
13.3 to 13.7 inclusive	1
13.8 to 14.0 inclusive	0

§ 421.2034 *Warehouse charges.* (a) Warehouse receipts and the soybeans represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the soybeans are deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing soybeans stored in warehouses operating under the Uniform Grain Storage Agreement is on or before May 31, 1957, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table, unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through May 31, 1957:

Amount of deduction (cents per bushel)	Area I [1] Date of deposit (all dates inclusive)	Areas II and III [2 3] Date of deposit (all dates inclusive)	Area IV [4] Date of deposit (all dates inclusive)	Area V [5] Date of deposit (all dates inclusive)
18			Prior to May 29, 1956	Prior to June 15, 1956.
17		Prior to June 3, 1956	May 29-June 18, 1956	June 15-July 4, 1956.

6	Jan. 2-Jan. 24, 1957	Jan. 9-Jan. 30, 1957	Jan. 15-Feb. 4, 1957	Jan. 21-Feb. 9, 1957.
5	Jan. 25-Feb. 16, 1957	Jan. 31-Feb. 21, 1957	Feb. 5-Feb. 25, 1957	Feb. 10-Mar. 1, 1957.
4	Feb. 17-Mar. 11, 1957	Feb. 22-Mar. 15, 1957	Feb. 26-Mar. 18, 1957	Mar. 2-Mar. 21, 1957.
3	Mar. 12-Apr. 3, 1957	Mar. 16-Apr. 6, 1957	Mar. 19-Apr. 8, 1957	Mar. 22-Apr. 10, 1957.
2	Apr. 4-Apr. 26, 1957	Apr. 7-Apr. 28, 1957	Apr. 9-Apr. 29, 1957	Apr. 11-Apr. 30, 1957.
1	Apr. 27-May 31, 1957	Apr. 29-May 31, 1957	Apr. 30-May 31, 1957	May 1,-May 31, 1957.

[1] Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.
[2] Area II: Minnesota, Montana, North Dakota, South Dakota (also Superior, Wisconsin).
[3] Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin (except Superior).
[4] Area IV: Arkansas, Connecticut, Delaware, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia.
[5] Area V: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee.

(b) Warehouse receipts and the soybeans represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the amount of the loan or purchase price, the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through May 31, 1957, unless written evidence has been submitted with the warehouse receipt that the storage charges have been prepaid. The county office shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.2035 *Liquidation of loans and delivery under purchase agreements*—(a) *Loans.* The provisions of § 421.1618 of 1956 C. C. C. Grain Price Support Bulletin 1 shall apply to the liquidation of farm-storage and warehouse-storage soybean loans.

(b) *Purchase agreements.* The producer who files a purchase agreement (Commodity Purchase Form 1) will not be obligated to sell any quantity of soybeans to CCC. However, he may sell to CCC any quantity of eligible soybeans not in excess of the quantity stated in the purchase agreement. If the producer who files a purchase agreement wishes to sell soybeans to CCC, he will have a 30-day period during which he must notify the county committee in writing of his intentions to sell. Such period shall end on the loan maturity date or such earlier date as may be prescribed by the Executive Vice President, CCC.

(1) *Delivery from warehouse-storage.* In the case of eligible soybeans stored commingled in an approved warehouse, the producer must, not later than the day following the final date of such 30-day period, or during such period of time thereafter as may be specified by the county committee, submit to the office of the county committee warehouse receipts under which the warehouseman guarantees quality and quantity for the quantity of soybeans he elects to sell to CCC. Such soybeans will be purchased, on the basis of the weight, grade, and other quality factors shown on the warehouse receipts and/or accompanying documents at the applicable support rate for the county in which the soybeans were produced.

(2) *Delivery from other than approved warehouse storage*—(i) *Pre-delivery inspection.* Where the producer has given written notice within the 30-day period prior to the loan maturity date of his intent to sell his soybeans stored in other than an approved warehouse under purchase agreement to CCC, an inspection of the soybeans shall be made and a sample taken and submitted for grade analysis within the 30-day period, or in any event, prior to delivery of the soybeans. If the soybeans, on the basis of the pre-delivery inspection, are of a quality which meets the requirements for a farm-storage loan, the county committee will issue delivery instructions on or after the final date of the 30-day period or the date of inspection, whichever is later. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines that more time is needed for delivery. The producer, whose soybeans stored in other than an approved warehouse under purchase agreement are not of a quality eligible for a loan at the time of the pre-delivery inspection, shall be notified in writing by the county committee that his soybeans are not eligible for purchase by CCC. If, nevertheless, the producer informs the county office that he will condition the soybeans, or otherwise take action to make the soybeans eligible and insists upon delivery of the soybeans, the county committee will issue delivery instructions. The producer shall be further informed that if such soybeans, upon delivery and before purchase, do not meet the eligibility requirements of § 421.2028 (c) (1) and (2) as determined on the basis of a sample taken at the time of delivery, the soybeans shall not be accepted for purchase by CCC.

(ii) *Storage after maturity date.* The producer may be required to retain the soybeans stored in other than approved warehouse storage under purchase agreement for a period of 60 days after the loan maturity date without any cost to CCC. CCC will not assume any loss in quantity or quality of the soybeans covered by a purchase agreement occurring prior to delivery to CCC, except for quality deterioration under the following circumstances. If a producer has properly requested delivery instructions for soybeans which were determined to be of an eligible grade and quality at the time of the pre-delivery inspection, and CCC cannot accept delivery within the 60-day period following the loan maturity date, the producer may notify the county committee at any time after such 60-day period that the soybeans are going out of condition or are in danger of going out of condition. Such notice must be confirmed in writing. If the county committee determines that the soybeans are going out of condition or are in danger of going out of condition and that the soybeans cannot be satisfactorily conditioned by the producer, and delivery cannot be accepted within a reasonable length of time, the county committee shall obtain an inspection and grade and quality determination. When delivery is completed, settlement shall be made on the basis of such grade and quality determination or on the basis of the grade and quality determination made at the time of delivery, whichever is higher, and on the basis of the quantity actually delivered.

§ 421.2036 *Settlement*—(a) *Settlement value*—(1) *Farm-storage loans.* In the case of eligible soybeans delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with § 421.2033 and 421.1618 (e). The support rate shall be for the grade and quality of the total quantity of soybeans eligible for delivery. If, upon delivery, the soybeans under farm-storage loan are of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the soybeans placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and quality placed under the loan and the market price of the soybeans delivered, as determined by CCC: *Provided, however,* That if such soybeans are sold by CCC in order to determine their market price the settlement value shall not be less than such sales price: *And provided further,* That if, upon delivery, the soybeans contain mercurial compounds or other substances poisonous to man or animals, such soybeans shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such soybeans for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) *Warehouse-storage loans.* Settlement for eligible soybeans under warehouse-storage loans not redeemed on maturity and represented by warehouse receipts issued by an approved warehouse shall be made on the basis of the weight, grade, and other quality factors shown on the warehouse receipts or accompanying documents at the applicable support rate determined in accordance with § 421.2033 and 421.1618 (e).

(3) *Purchase agreements*—(i) *Delivery from other than approved warehouse storage.* Settlement for soybeans delivered to CCC from other than approved warehouse storage meeting the eligibility requirements of § 421.2028 (c) (1) and (2), as determined by a reinspection at the time of delivery, shall be made at the applicable support rate for the grade and quality of the quantity eligible for delivery on the basis of such inspection. Such support rate shall be determined in accordance with § 421.2033. If soybeans, which were determined to be eligible at the time of the pre-delivery inspection are, upon delivery, of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the eligible soybeans as determined at the time of the pre-delivery inspection, less the difference, if any, at the time of delivery between the market price for the grade and quality of the soybeans determined by the pre-delivery inspection and the market price of the soybeans delivered, as determined by CCC: *Provided, however,* That if such soybeans are sold by CCC in order to determine their market price the settlement value shall not be less than such sales price: *And provided further,* That if, upon delivery, the soybeans contain mercurial compounds or other substances poisonous to man or animals, such soybeans shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such soybeans for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(ii) *Delivery from approved warehouse storage.* Settlement for eligible soybeans delivered under purchase agreement to CCC by submission of warehouse receipts issued by an approved warehouse shall be made on the basis of the weight, grade, and other quality factors shown on the warehouse receipt or accompanying documents at the applicable support rate determined in accordance with § 421.2033.

(iii) *Soybeans ineligible for delivery inadvertently accepted by CCC.* If soybeans which were of an ineligible grade or quality *both* at the time of the pre-delivery inspection and at the time of delivery as determined by a reinspection, or if soybeans in excess of the maximum stated in the purchase agreement are delivered to CCC under a purchase agreement and are inadvertently accepted and CCC determines that it is not in a position to reject the soybeans to the producer, the settlement value for the quantity of ineligible soybeans delivered shall be the market price for the grade and quality of the soybeans delivered as determined by CCC: *Provided, however,* That if such soybeans are sold by CCC in order to determine their market price, the settlement value shall not be less than the sales price: *And provided further,* That if upon delivery the soybeans contain mercurial compounds or other substances poisonous to man or animals, such soybeans shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such soybeans for the uses specified above, the settlement value shall be the market value if any, as determined by CCC, as of the date of delivery.

(b) *Storage deduction for early delivery.* No deduction for storage shall be made for farm-stored soybeans under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer. The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.2034.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on soybeans under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the soybeans to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement provided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of soybeans stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain soybeans stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the maturity date without any cost to CCC. However, if CCC is unable to take delivery of such soybeans within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the soybeans to CCC: *Provided, however,* That a storage payment shall be paid a producer whose soybeans are stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the soybeans to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the maturity date and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the following rates per bushel per day for the soybeans accepted for delivery or sale to CCC:

Area I, $0.00043; Area II, $0.00045; Area III, $0.00046; Area IV, $0.00047; Area V, $0.00049.

(e) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on soybeans delivered to CCC on track at a country point.

(f) *Compensation for hauling.* The provisions of § 421.1618 (f) of 1956 CCC Grain Price Support Bulletin 1 applicable to farm-storage loans shall also apply in cases where a producer is ordered by the county committee to deliver his soybeans under purchase agreement to a shipping point of greater distance than his customary shipping point.

(g) *Method of payment under purchase agreement settlements.* When delivery of soybeans under purchase agreements is completed, payment will be made by sight draft drawn on CCC by the county office. The producer shall direct on Commodity Purchase Form 4 to whom payment of the proceeds shall be made.

Issued this 25th day of September, 1956.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 56-7844; Filed, Sept. 28, 1956; 8:46 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 88]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.388 *Valencia Orange Regulation 88*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922; 21 F. R. 4392), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on September 27, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., September 30, 1956, and ending at 12:01 a. m., P. s. t., October 7, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 785,400 cartons;

(iii) District 3: Unlimited movement.

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 28, 1956.

[SEAL] G. R. GRANGE,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Orange Reg. 300]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.800 *Orange Regulation 300*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 1, 1956. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 1, 1956; the recommendation and supporting information for continued regulation subsequent to September 30, 1956, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 25, 1956; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this regulation, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 1, 1956, and ending at 12:01 a. m., e. s. t., October 15, 1956, no handler shall ship:

(i) Any oranges, except Temple oranges and Valencia, Lue Gim Gong, or similar late-maturing oranges of the Valencia type, grown in the State of Florida, which (*a*) do not grade at least U. S. No. 1, or (*b*) are of a size smaller than a size that will pack 252 oranges, packed in accordance with the requirements of a standard pack, in a standard 1⅗ bushel nailed box; or

(ii) Any Valencia, Lue Gim Gong, or similar late-maturing oranges of the Valencia type, grown in the State of Florida, which (*a*) do not grade at least U. S. No. 2 Russet, or (*b*) are of a size smaller than a size that will pack 324 oranges, packed in accordance with the requirements of a standard pack, in a standard 1⅗ bushel nailed box.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order, and the terms "U. S. No. 1," "U. S. No. 2 Russet," "standard pack," and "standard 1⅗ bushel nailed box" shall have the same meaning as when used in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title; 20 F. R. 7205).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 26, 1956.

[Grapefruit Reg. 248]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.801 *Grapefruit Regulation 248*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 1, 1956. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 1, 1956; the recommendation and supporting information for continued regulation subsequent to September 30, 1956, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 25, 1956; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this regulation, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 1, 1956, and ending at 12:01 a. m., e. s. t., October 15, 1956, no handler shall ship:

(i) Any grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Bronze;

(ii) Any white seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 1 Bronze," "standard pack," and "standard nailed box" shall have the same meaning as when used in the United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended on June 2, 1955 (Chapter 29760).

[Lemon Reg. 661]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.768 *Lemon Regulation 661*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 26, 1956; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period hereinafter specified; and compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 30, 1956, and ending at 12:01 a. m., P. s. t., October 7, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 186,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 27, 1956.

[SEAL] ARTHUR E. BROWNE,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

§ 957.315 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; (ii) the current limitation of shipments regulation (§ 957.314; 21 F. R. 4910, 6859) will, unless sooner terminated or superseded, continue only through October 10, 1956; (iii) commencing on or about October 1, 1956, the rate of harvesting the fall crop of potatoes in the production area will increase in volume substantially and appropriate requirements should be in effect with respect to the handling of the largest portion of such fall crop; (iv) more orderly marketing conditions in the public interest than would otherwise prevail will be promoted by the issuance of this regulation to become effective at the time hereinafter set forth, and supersede the current regulation at that time, governing the shipment of potatoes from such effective time through June 30, 1957; (v) in the absence of the issuance of a regulation governing potato shipments made subsequent to October 10, 1956, such shipments of potatoes would be free from grade, size, quality, and maturity requirements; (vi) the issuance of this regulation, to become effective at the time hereinafter set forth and thereupon to supersede the current limitation of shipments regulation, will tend to continue beyond October 10, 1956, the benefits accruing from the current limitation of shipments regulation; (vii) information regarding the committee's recommendation has been made available to producers and handlers in the production area and all interested parties were afforded an opportunity to present their views thereon to the committee at its meeting of September 22, 1956, held with respect to such recommendation; (viii) this regulation should be made effective at the time hereinafter set forth, and notice of the regulation including its effective time should be published in the FEDERAL REGISTER as soon as practical to afford persons subject thereto the maximum time to prepare therefor; and (ix) compliance with this regulation will not require any special preparation on the part of handlers which cannot be completed by such effective time.

(b) *Order.* (1) During the period from October 8, 1956, through June 30, 1957, no handler shall ship potatoes of any variety unless such potatoes (i) are generally "fairly clean," which means that at least 90 percent of such potatoes are "fairly clean" and (ii) meet the requirements of the U. S. No. 2, or better, grade, Size A, 2 inches minimum diameter or 4 ounces minimum weight, as such terms, grades, and sizes are defined in the United States Standards for Potatoes (§§ 51.1540 through 51.1559 of this title), including the tolerances set forth therein.

(2) During the period from October 8, 1956, through June 30, 1957, and subject to the requirements set forth in subparagraph (1) of this paragraph, no handler shall ship any lot of potatoes of any variety if such potatoes are more than "slightly skinned" as such term is defined in the said United States Standards, which means that not more than 10 percent of such potatoes have more than one-fourth of the skin missing or "feathered": *Provided,* That during such period, not to exceed 100 hundredweight of each variety of such potatoes may be handled for any producer without regard to the aforesaid skinning requirement: *Provided further,* That, in addition to the above, any lot of potatoes may be handled for any producer without regard to the aforesaid skinning requirement if (i) such lot of potatoes previously failed, upon inspection by a Federal-State inspector, to meet grade and size requirements but met the aforesaid skinning requirement applicable to such lot of potatoes, (ii) such lot of potatoes has been regraded, and such lot of potatoes otherwise meets, as indicated by a Federal-State inspection certificate, the grade and size requirement applicable to such potatoes, and (iii) such potatoes failing to meet the aforesaid skinning requirement are not in excess of 100 hundredweight in any such lot. Prior to each shipment of potatoes except from the above skinning requirement, the handler thereof shall report the name and address of the producer of such potatoes, and each such shipment shall be handled as an identifiable entity.

(3) Each handler may make one shipment of not in excess of 5 hundredweight per week without regard to the regulatory, assessment, and inspection requirements of this part.

(4) For the purpose of determining who shall be entitled to the exemption set forth in the skinning requirement: (i) "Producer" means any individual, partnership, corporation, association, landlord-tenant crop sharing relationship, community property ownership, or any other business unit engaged in the production of potatoes for market; (ii) it is intended that each 100 hundredweight exemption to the aforesaid skinning requirement shall apply only to the potatoes grown on each farm of a producer.

(5) The grade, size, and skinning limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) As certified seed potatoes; (ii) export: *Provided,* That no handler shall ship potatoes for export which do not meet the requirements of the U. S. No. 2 or better grade, $1\frac{1}{2}$ inch minimum diameter; (iii) canning, freezing, dehydration or manufacture or conversion into starch, flour, meal, or alcohol, and (iv) charity.

(6) Each handler making shipments of potatoes pursuant to subparagraph (5) of this paragraph shall with respect to such shipments other than certified seed potatoes: (i) Obtain a Certificate of Privilege; (ii) have each of such shipments inspected; (iii) pay assessments on such shipments; (iv) with respect to each shipment furnish a copy of the bill of lading or appropriate record of movement in case of trucks, applicable thereto, to the committee; (v) with respect to each shipment for export, include in his application for the Certificate of Privilege therefor, the export license number and shall enter such number on the Federal-State inspection certificate and bill of lading applicable to such shipment, or in the event no export license is required on such shipment, the handler shall furnish the committee with a copy of the Department of Commerce Shippers Export Declaration Form No. 7525–V applicable to such shipment; and (vi) accompany each application for a Certificate of Privilege to ship potatoes (except for shipment for export) with the applicant handler's certification and buyer's certification that the potatoes to be shipped are to be used for the purpose stated in the application.

(7) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 98 and Order No. 57, as amended (§§ 957.1 to 957.92).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 28th day of September 1956, to become effective October 8, 1956, and thereupon supersede the provisions in § 957.314 (21 F. R. 4910, 6859).

[SEAL] G. R. GRANGE,
Acting Director, Fruit and Vegetable Division.

[F. R. Doc. 56-7942; Filed, Sept. 28, 1956; 11:29 a. m.]

PART 975—MILK IN CLEVELAND, OHIO, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION OF ORDER, AS AMENDED

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 975), regulating the handling of milk in the Cleveland, Ohio, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The following provisions of § 975.61 (a) (1) of the order will not tend to effectuate the declared policy of the act for the delivery period of October 1956:

(1) The phrase "and add or subtract a 'supply-demand adjustment' computed as follows:" appearing immediately following the table of delivery periods and amounts appearing therein; and

(2) Subdivisions (i), (ii) and (iii) thereof.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest in that:

(1) The information on which this action is based did not become available in time sufficient for such compliance;

(2) Producers of more than 50 percent of the milk produced for this market, and handlers of most of the milk have requested that these provisions be suspended;

(3) It is found necessary to issue and make effective this suspension order to reflect current marketing conditions and to facilitate, promote, and maintain orderly marketing conditions in this marketing area;

(4) The effect of this action will be to prevent the possibility of contra-seasonal price adjustment by assuring continuance for October 1956 of the zero supply-demand adjustment prevailing for August and September 1956 until a public hearing can be held on proposals to change supply-demand adjustment provisions of the order; and

(5) This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore good cause exists for making this order effective October 1, 1956.

It is therefore ordered, That the following provisions of § 975.61 (a) (1) of the order be and hereby are suspended for the delivery period of October 1956:

(1) The phrase "and add or subtract a 'supply-demand adjustment' computed as follows:" appearing immediately following the table of delivery periods and amounts appearing therein; and

(2) Subdivisions (i), (ii) and (iii) thereof.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 26th day of September 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 56-7903; Filed, Sept. 28, 1956; 8:53 a. m.]

PART 987—MILK IN CENTRAL MISSISSIPPI MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 987.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto, and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") (7 U. S. C. 601 et seq.), and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) a public hearing was held upon certain proposed amendments to the tentative agreement and to the order, as amended, regulating the handling of milk in the Central Mississippi marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity price of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce, or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, five cents per hundredweight, or such amount not exceeding five cents per hundredweight, as the Secretary may prescribe, with respect to (i) receipts of producer milk, including such handler's own production, (ii) other source milk received at a pool plant and which is classified as Class I milk, and (iii) Class I milk disposed of from nonpool plants during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except pool plants) located in the marketing area.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than October 1, 1956. Any delay beyond that date in the effective date of this order would tend to disrupt the orderly marketing of milk in the aforesaid marketing area and would defeat the purpose of the amendment. The amendment action of this order amending the order is known to handlers. The public hearing was held on December 15–21, 1955, and the recommended decision was issued August 8, 1956 (21 F. R. 6040). The final decision was issued by the Acting Secretary on September 18, 1956 (21 F. R. 7253). Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for not delaying the effective date of this order for 30 days after its publication in the FEDERAL REGISTER (section 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Central Mississippi marketing area) of more than 50 percent of the milk which is marketed within said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, as amended, is the only practical means pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, participated in a referendum thereon, and who during the determined representative period (July 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Central Mississippi marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Delete § 987.6 and substitute therefor the following:

§ 987.6 *Central Mississippi marketing area.* "Central Mississippi marketing area" hereinafter called the "marketing area" means all the territory within the

following counties: Adams, Claiborne, Clarke, Copiah, Covington, Forrest, Franklin, Hinds, Jasper, Jefferson, Jefferson Davis, Jones, Lamar (except Beat 2 thereof), Lauderdale, Lawrence, Lincoln, Madison, Marion, Neshoba, Newton, Perry, Rankin, Scott, Simpson, Smith, Walthall, Warren and Wayne, all in the State of Mississippi.

2. Delete § 987.51 (a) and substitute the following:

(a) *Class I milk price.* During the 18-month period following October 1, 1956, the minimum price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, plus $1.85 during the months of March, April, May and June, and plus $2.25 during all other months.

3. Delete § 987.51 (b) and substitute the following:

(b) *Class II milk price.* The price per hundredweight for Class II milk shall be the price determined pursuant to § 987.50 (c) plus 10 cents during each of the months of March, April, May and June plus 20 cents during all other months.

4. Amend § 987.81 by deleting all of the section following the colon and inserting in lieu thereof the following "multiply the daily base of such producer by the number of days production delivered by such producer to handlers during the month."

5. Amend § 987.82 (b) by deleting the entire paragraph and inserting in lieu thereof the following:

(b) An entire base shall be transferred from a person holding such base to any other person, effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder or his heirs, and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferable only upon the receipt of such application signed by all joint holders, or their heirs, and by the person to whom such base is to be transferred.

6. Amend § 987.53 to read as follows:

§ 987.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 50 miles or more from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Mississippi, whichever is closest by the shortest hard-surfaced highway distance as determined by the market administrator, and which is transferred in the form of fluid milk products to another pool plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 987.51 (a) shall be reduced at the rate set forth in the following schedule:

Distance from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Mississippi (miles):	*Rates per hundredweight (cents)*
50 but not more than 60	10.0
For each additional 10 miles or fraction thereof, an additional	1.5

Provided: That, for the purposes of calculating such location differential, products so designated as Class I milk which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 987.46 (a) (1), (2), and (3), and the comparable steps in § 987.46 (b) for such plant, and after deducting from such remainder an amount equal to 0.05 times the skim milk and butterfat contained in the producer milk received at the transferee-plant, such assignment to transferor-plants to be made first to plants which the location differential is applicable.

7. Amend § 987.92 to read as follows:

§ 987.92 *Location differential to producers.* In making payments to producers pursuant to § 987.90, the applicable uniform prices to be paid for producer milk received at a pool plant located 50 miles or more from the city limits of Hattiesburg, Jackson, Meadville, or Meridian, Mississippi, whichever is closest by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced at the rate set forth in the following schedule:

Distance from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Mississippi (miles):	*Rates per hundredweight (cents)*
50 but not more than 60	10.0
For each additional 10 miles or fraction thereof, an additional	1.5

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of September to be effective on and after October 1, 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 56-7902; Filed, Sept. 28, 1956; 8:53 a. m.]

PART 1012—MILK IN THE BLUEFIELD MARKETING AREA

SUBPART—ORDER REGULATING HANDLING

Sec.

1012.0 Findings and determinations.

DEFINITIONS

1012.1 Act.
1012.2 Secretary.
1012.3 Department of Agriculture.
1012.4 Person.
1012.5 Cooperative association.
1012.6 Bluefield marketing area.
1012.7 Fluid milk plant.
1012.8 Approved plant.
1012.9 Nonfluid milk plant.
1012.10 Handler.
1012.11 Producer.
1012.12 Producer milk.
1012.13 Approved milk.
1012.14 Other source milk.
1012.15 Producer-handler.
1012.16 Chicago butter price.
1012.17 Base milk.
1012.18 Excess milk.

MARKET ADMINISTRATOR

1012.20 Designation.
1012.21 Powers.
1012.22 Duties.

REPORTS, RECORDS AND FACILITIES

1012.30 Reports of receipts and utilization.
1012.31 Other reports.
1012.32 Records and facilities.
1012.33 Retention of records.

CLASSIFICATION

1012.40 Skim milk and butterfat to be classified.
1012.41 Classes of utilization.
1012.42 Shrinkage.
1012.43 Responsibility of handlers and reclassification of milk.
1012.44 Transfers.
1012.45 Computation of the skim milk and butterfat in each class.
1012.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1012.50 Basic formula price.
1012.51 Class prices.
1012.52 Butterfat differential to handlers.
1012.53 Location differentials to handlers.
1012.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

1012.60 Producer-handlers.
1012.61 Plants subject to other orders.

DETERMINATION OF UNIFORM PRICES

1012.70 Net obligation of handlers.
1012.71 Computation of uniform prices for handlers.
1012.72 Computation of the uniform prices for basemilk and for excess milk for handlers.

BASE RATING

1012.80 Determination of daily base.
1012.81 Computation of base.
1012.82 Base rules.
1012.83 Announcement of established bases.

PAYMENTS

1012.90 Payments to producers.
1012.91 Butterfat differential to producers.
1012.92 Location differential to producers.
1012.93 Adjustments of accounts.
1012.94 Marketing services.
1012.95 Expense of administration.
1012.96 Termination of obligations.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1012.100 Effective time.
1012.101 Suspension or termination.
1012.102 Continuing obligations.
1012.103 Liquidation.

MISCELLANEOUS PROVISIONS

1012.110 Agents.
1012.111 Separability of provisions.

AUTHORITY: §§ 1012.0 to 1012.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1012.0 *Findings and determinations—(a) Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a tentative marketing agreement and order regulating the handling of milk in the Bluefield marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend

to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to all butterfat and skim milk contained in (a) producer milk (including such handler's own production), (b) other source milk at a fluid milk plant which is classified as Class I milk, and (c) Class I disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except fluid milk plants) located in the marketing area from a nonfluid milk plant.

(b) *Additional findings.* In view of the fact that this order will constitute the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers, should be put into effect prior to the effective date of the entire order to afford handlers an opportunity to make any necessary changes in their accounting procedure or other adjustments as required to conform with all provisions of the order. Reasonable time will have been afforded interested parties to prepare to comply with the aforesaid provisions. The provisions of said order are well known to handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making §§ 1012.0 through 1012.22; §§ 1012.30 through 1012.46; § 1012.60; §§ 1012.80 through 1012.83; and §§ 1012.95 through 1012.111 effective on October 1, 1956 and the entire order (§§ 1012.0 through 1012.111) effective November 1, 1956. It would be contrary to the public interest to delay such effective dates of this order for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of more than 50 percent of the milk covered by this order which is marketed within the Bluefield marketing area refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the marketing area;

(3) The issuance of this order is approved or favored by at least three-fourths of the producers, who participated in a referendum thereon, and who, during the determined representative period June 1955, were engaged in the production of milk for sale in the said marketing area;

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Bluefield marketing area shall be in conformity to and compliance with the following terms and conditions:

DEFINITIONS

§ 1012.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1012.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 1012.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1012.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 1012.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 1012.6 *Bluefield marketing area.* "Bluefield marketing area," hereinafter called the "marketing area," means all the territory geographically located within the perimeters of the counties of Mercer and McDowell, in West Virginia, and Tazewell in Virginia.

§ 1012.7 *Fluid milk plant.* "Fluid milk plant" means (a) any plant from which a volume of Class I milk equal to an average of more than 1,000 pounds per day, or not less than 2.0 percent of the approved milk of such plant is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other fluid milk plants) located in the marketing area, (b) any plant which ships (1) any milk or skim milk during the months of February through July, or (2) an amount of milk, skim milk or cream in fluid form in excess of 70,000 pounds for the month during the months of August through January, to a plant qualified pursuant to paragraph (a) of this section, and (c) any plant which during the months of August through January receives milk from farmers holding dairy farm permits or ratings issued by a health authority having jurisdiction in the marketing area, and from which milk, skim milk or cream is moved during the month to a plant qualified pursuant to paragraph (a) of this section: *Provided,* That if a portion of a plant is operated separately and no approved milk is received in such portion of the plant, it shall not be considered as part of a fluid milk plant pursuant to this section: *And provided further,* That this definition shall not be deemed to include any building, premises or facilities the primary function of which is to hold or store bottled milk or milk products in finished form in transit for wholesale or retail route distribution.

§ 1012.8 *Approved plant.* "Approved plant" means a fluid milk plant or any plant from which Class I milk is delivered (including delivery by a vendor or sale from a plant store) during the month to retail or wholesale outlets (except fluid milk plants) located in the marketing area.

§ 1012.9 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing or bottling plant other than a fluid milk plant.

§ 1012.10 *Handler.* "Handler" means any person in his capacity as the operator of an approved plant.

§ 1012.11 *Producer.* "Producer" means any person except a producer-handler, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a fluid milk plant, or (b) diverted by the operator of a fluid milk plant for his account to a nonfluid milk plant (1) any day during the months of April through July, and (2) on not more than 15 days during any of the months of August through March: *Provided,* That milk so diverted shall be deemed to have been received by the diverting handler at the location of the plant from which it was diverted.

§ 1012.12 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the fluid milk plant directly from producers or (b) diverted from a fluid milk plant to a nonfluid milk plant in accordance with the conditions set forth in § 1012.11.

§ 1012.13 *Approved milk.* "Approved milk" means any skim milk or butterfat contained in producer milk, or in milk, skim milk or cream which is received from a fluid milk plant, except the plant of a producer-handler, and which is approved for distribution as Class I milk by the agency issuing the health permit to such plant.

§ 1012.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of products designated as Class I milk pursuant to § 1012.41 (a), except (1) such products approved by the appropriate health authority for distribution as Class I milk in the marketing area which are received from fluid milk plants, or (2) producer milk; and

(b) Products designated as Class II milk pursuant to § 1012.41 (b) (1) from any source (including those from a plant's own production), which are reprocessed or converted to another product in the plant during the month.

§ 1012.15 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and an approved plant from which Class I milk is disposed of in the marketing area but who receives no milk from other dairy farmers.

§ 1012.16 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

§ 1012.17 *Base milk.* "Base milk" means milk received at a fluid milk plant from a producer during any of the months of April through July which is not in excess of such producer's base for such month computed pursuant to § 1012.81.

§ 1012.18 *Excess milk.* "Excess milk" means either (a) milk received at a fluid milk plant from a producer during any of the months of April through July, which is in excess of base milk received from such producer during such month, or (b) milk received during such month from a producer for whom no base can be computed pursuant to § 1012.80.

MARKET ADMINISTRATOR

§ 1012.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1012.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1012.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1012.95 (1) of the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 1012.94, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1012.30 and 1012.31, or payments pursuant to §§ 1012.90 through 1012.95;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) On or before the date specified, publicly announce and notify each handler in writing of the following: (1) The 6th day of each month, the Class I price, and the Class I butterfat differential, both for the current month; (2) the 6th day of each month, the Class II price and the Class II butterfat differential, both for the preceding month; and (3) the 10th day after the end of each month, the uniform price(s), and the producer butterfat differential.

REPORTS, RECORDS, AND FACILITIES

§ 1012.30 *Reports of receipts and utilization.* On or before the 6th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants for such month as follows:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 1012.41 (a) (1) received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of products designated as Class I milk pursuant to § 1012.41 (a) (1) on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 1012.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his fluid milk plants his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including, for the months of April through July, the total pounds of base and excess milk, (iii) the days on which milk was received from such producer if less than a full month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of milk, fluid skim milk or cream at his fluid milk plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product; and

(3) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1012.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and other milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 1012.33 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1012.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat at fluid milk plants, which is required to be reported pursuant to § 1012.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 1012.41 through 1012.46.

§ 1012.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1012.43 and 1012.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (except frozen cream) and any mixture in fluid form of skim milk and cream (except sterilized products in hermetically sealed containers, ice cream mix, and eggnog); and (2) not accounted for as Class II milk;

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section; (2) contained in (skim milk only) any product disposed of for livestock feed; (3) dumped (skim milk only) during the months of April, May, June or July: *Provided,* That the market administrator is given not less than 6 hours' notice of the handler's intention to make such disposition; (4) contained in inventory of products designated as Class I milk pursuant to paragraph (a) of this section on hand at the end of the month; and (5) in shrinkage assigned to Class II pursuant to § 1012.42.

§ 1012.42 *Shrinkage.* The market administrator shall determine the assignment of shrinkage to Class II milk as follows:

(a) Determine the total shrinkage of butterfat and skim milk in the fluid milk plant(s) of the handler;

(b) Multiply the pounds of skim milk and butterfat in producer milk (except milk diverted pursuant to § 1012.11) and other source milk by 0.02;

(c) Multiply the pounds of butterfat and skim milk, respectively, determined pursuant to paragraph (a) or (b) of this section, whichever is less, by the percentage of butterfat and skim milk classified pursuant to § 1012.41 (a) and (b) (1) (except shrinkage determined pursuant to paragraph (a) of this section) which is in Class II milk. The resulting amounts of skim milk and butterfat shall be classified as Class II milk; and

(d) Assign the shrinkage of skim milk and butterfat classified as Class II milk pro rata to producer milk and other source milk.

§ 1012.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 1012.44 *Transfers.* Skim milk or butterfat disposed of from a fluid milk plant shall be classified:

(a) As Class I milk if transferred in the form of products designated as Class I milk in § 1012.41 (a) (1) to a fluid milk plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in the reports submitted by them to the market administrator pursuant to § 1012.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 1012.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to the producer milk of both handlers.

(b) As Class I milk if transferred to a producer-handler in the form of products designated as Class I milk in § 1012.41 (a) (1);

(c) As Class I milk if transferred or diverted in bulk form as milk or skim milk to a nonfluid plant located in the marketing area or not more than 200 miles by the shortest highway distance, as determined by the market administrator, from the City Hall, Bluefield, West Virginia, unless:

(1) The handler claims Class II on the basis of utilization mutually indicated in writing to the market administrator by both buyer and seller on or before the 6th day after the end of the month within which such transaction occurred;

(2) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available, if requested by the market administrator for the purpose of verification; and

(3) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant.

(d) As Class I milk if transferred in bulk form as cream to a nonfluid plant unless:

(1) Such cream is transferred without Grade A certification of any health authority;

(2) The handler claims Class II in his report submitted to the market administrator pursuant to § 1012.30 on or before the 6th day after the end of the month within which such transaction occurred;

(3) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available, if requested by the market administrator for the purpose of verification; and

(4) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant.

§ 1012.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors, the reports of receipts and utilization for the fluid milk plants of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk used or disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1012.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 1012.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 1012.42 (d);

(2) Subtract from the remaining pounds of skim milk in Class II milk, the pounds of skim milk in other source milk (that derived from milk priced under another Federal order to be subtracted last): *Provided,* That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the remaining pounds of skim milk in Class II milk

the pounds of skim milk contained in inventory of products designated as Class I milk pursuant to § 1012.41 (a) (1) on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk received from the fluid milk plants of other handlers in the form of products designated as Class I milk in § 1012.41 (a) (1), according to its classification as determined pursuant to § 1012.42 (a);

(5) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section;

(c) Determine the weighted average butterfat content of the Class I and Class II milk allocated to producer milk.

MINIMUM PRICES

§ 1012.50 *Basic formula price.* The highest of the prices computed pursuant to paragraph (a) or (b) of this section and § 1012.51 (b), rounded to the nearest whole cent, shall be known as the basic formula price.

(a) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Bellesville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the Chicago butter price for the month by 0.6.

(b) The price per hundredweight computed as follows: Multiply the Chicago butter price by 4.0, add 20 percent thereof, and add to such sum 3¾ cents for each full ½ cent that the average of carlot prices per pound of nonfat dry milk solids, spray and roller process, for human consumption, f. o. b. Chicago area manufacturing plants, as reported by the Department of Agriculture for the period from the 26th day of the immediately preceding month through the 25th day of the current month, is above 5 cents.

§ 1012.51 *Class prices.* Subject to the provisions of §§ 1012.52 and 1012.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* For each month during the eighteen-month period following the effective date of this order the Class I milk price shall be the basic formula price for the preceding month, plus $1.45 during the months of April, May and June; $1.70 during the months of March and July; and plus $2.10 during all other months.

(b) *Class II milk price.* For the months of March through August, the Class II milk price shall be the price computed pursuant to subparagraph (1) of this paragraph, and for all other months the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the month:

Company and Location

Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Bowling Green, Ky.
Pet Milk Co., Greenville, Tenn.
Pet Milk Co., Abingdon, Va.
Carnation Co., Murfreesboro, Tenn.
Carnation Co., Statesville, N. C.
Borden Co., Lewisburg, Tenn.
Borden Co., Chester, S. C.
Carnation Co., Galax, Va.

(2) Add the amounts obtained pursuant to subdivisions (i) and (ii) of this subparagraph, and subtract 75 cents therefrom.

(i) Multiply the Chicago butter price by 4.8;

(ii) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month, by the Department of Agriculture.

§ 1012.52 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices for the month calculated pursuant to § 1012.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows:

(a) *Class I price.* Multiply the Chicago butter price by 0.12, and round to the nearest one-tenth cent.

(b) *Class II price.* Multiply the Chicago butter price by 0.11, and round to the nearest one-tenth cent.

§ 1012.53 *Location differentials to handlers.* For that milk which is received from producers at a fluid milk plant located 50 miles or more from the nearest of the following listed places, by shortest hard surfaced highway distance, as determined by the market administrator, and which is transferred in the form of products designated as Class I milk in § 1012.41 (a) (1) and assigned to Class I milk pursuant to the proviso of this section, or otherwise classified Class I milk, the price specified in § 1012.51 (a) shall be reduced at the rate of 10 cents per hundredweight for a distance of not less than 50 miles but less than 60 miles, plus 1.5 cents per hundredweight additional for each 10 miles, or fraction thereof, beyond 60 miles, according to the location of the fluid milk plant where such milk is received from producers:

County Courthouse, Princeton, W. Va.
City Hall, Bluefield, W. Va.
City Hall, Welch, W. Va.

Provided, That for the purpose of calculating such location differential, products so designated as Class I milk which are transferred between fluid milk plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 1012.46 (a) (1) and (2), and the comparable steps in § 1012.46 (b) for such plant, and after deducting from such remainder an amount equal to 0.05 times the skim milk and butterfat contained in the producer milk received at the transferee-plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1012.54 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1012.60 *Producer-handlers.* Sections 1012.40 through 1012.46, 1012.50 through 1012.53, 1012.70 through 1012.72, 1012.80 through 1012.83, and 1012.90 through 1012.96 shall not apply to a producer-handler.

§ 1012.61 *Plants subject to other Federal orders.* A plant specified in paragraph (a) or (b) of this section shall be considered as a nonfluid milk plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1012.30), and allow verification of such reports by the market administrator.

(a) Any plant qualified pursuant to § 1012.7 (a) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the Secretary determines that a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except fluid milk plants) in the Bluefield marketing area than in the marketing area regulated pursuant to such other order.

(b) Any plant qualified pursuant to § 1012.7 (b) or (c) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant has qualified as a fluid milk plant pursuant to § 1012.7 (c) for each month during the preceding August through January period.

DETERMINATION OF UNIFORM PRICE

§ 1012.70 *Net obligation of handlers.* The net obligation of each handler for producer milk received at his fluid milk plant(s) during each month shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price; (b) add together the resulting amounts; (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price; (d) add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months; and (e) add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified in Class II during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 1012.46 (a) (3) and (b), whichever is less.

§ 1012.71 *Computation of uniform prices for handlers.* For each of the months of August through March the market administrator shall compute a uniform price for the producer milk received by each handler as follows:

(a) Add to the amount computed pursuant to § 1012.70 the total of the location differential deductions to be made pursuant to § 1012.92;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for such handler for the preceding month;

(d) Divide the resulting amount by the total hundredweight of producer milk received by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. market.

§ 1012.72 *Computation of the uniform prices for base milk and for excess milk for handlers.* For each of the months of April through July, the market administrator shall compute uniform prices for base milk and for excess milk received by each handler as follows:

(a) Add to the amount computed pursuant to § 1012.70 the total of the location differential deductions made pursuant to § 1012.92;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for such handler for the preceding month;

(d) Subject to the conditions set forth in paragraph (e) of this section, compute the value of excess milk received by such handler from producers by multiplying the quantity of such milk by the Class II price;

(e) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (d) of this section from the value obtained pursuant to paragraph (c) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price, such value in excess thereof shall be added to the value computed pursuant to paragraph (d) of this section to the extent that the excess price shall not exceed the base price as calculated herein. Any additional value remaining shall be prorated to the respective volumes of base milk and excess milk.

(f) Divide the value obtained pursuant to paragraph (e) of this section by the hundredweight of base milk. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for base milk of 4.0 percent butterfat content, f. o. b. market; and

(g) Divide the sum of the values obtained pursuant to paragraph (d) and the proviso of paragraph (e) of this section by the hundredweight of excess milk in producer milk. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for excess milk of 4.0 percent butterfat content.

BASE RATING

§ 1012.80 *Determination of daily base.* The daily base of each producer shall be calculated by the market administrator as follows: Divide the total pounds of milk received by all handlers from such producer during the months of September through February by the number of days from the first day milk is received from such producer during said months to the last day of February, inclusive, but not less than 120 days: *Provided*, That the daily base of each producer for April, May, June and July 1957 shall be calculated by the market administrator as follows: Divide the total pounds of milk received by all handlers from such producer during the five-month period October 1956 through February 1957 by the number of days from the first day milk is received from such producer during said period to the last day of the period, inclusive, but not less than 90 days.

§ 1012.81 *Computation of base.* The base of each producer to be applied during the months of April through July shall be a quantity of milk calculated by the market administrator in the following manner: Multiply the daily base of such producer by the number of days such producer's milk was received by such handler during the month: *Provided*, That if the producer's milk was not received on a daily basis, the daily base shall be multiplied by the number of days during the month for which the milk production of such producer was received by such handler.

§ 1012.82 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall be assigned to the producer for whose account milk is received at a fluid milk plant during the months of September through February: *Provided*, That a base computed for April, May, June and July, 1957 shall be assigned to the producer for whose account milk is received at a fluid milk plant during the months of October 1956 through February 1957.

(b) Bases may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer, the entire base may be transferred to a member of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(3) The entire daily base of a producer may be removed from one handler to another handler regulated under this order.

§ 1012.83 *Announcement of established bases.* On or before April 1 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

PAYMENTS

§ 1012.90 *Payments to producers.* Each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the 15th day after the end of each month, each handler shall make payment to each producer for milk which was received from him during the month at not less than the uniform price computed pursuant to § 1012.71 for the months of August through March, and at not less than the uniform price for base milk computed pursuant to § 1012.72 with respect to base milk received from such producer and at not less than the uniform price for excess milk computed pursuant to § 1012.72 with respect to excess milk received from such producer for the months of April through July, subject to the following adjustments: (1) The butterfat differential pursuant to § 1012.91, (2) the location differential

pursuant to § 1012.92, (3) marketing service deductions pursuant to § 1012.94, (4) proper deductions authorized in writing by the producer, and (5) adjustments for errors in calculating payment to such individual producer for past months: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall, if requested by the cooperative association, pay such cooperative association on or before the 13th day after the end of each month, an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph;

(b) In making the payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer from whom he had received milk with a supporting statement in such form that it may be retained by the producer, which shall show for each month:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

§ 1012.91 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer pursuant to § 1012.90 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in the producer milk of such handler allocated to Class I and Class II milk pursuant to § 1012.46 (b) by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 1012.92 *Location differential to producers.* In making payment to producers pursuant to § 1012.90, the applicable uniform prices to be paid for producer milk received at a fluid milk plant located 50 miles or more from the nearest of the following listed places, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the fluid milk plant where such milk was received at the following rate: County Courthouse, Princeton, West Virginia; City Hall, Bluefield, West Virginia; or City Hall, Welch, West Virginia.

Distance in miles	*Rate per hundredweight (cents)*
50 but not less than 60	10
For each additional 10 miles (or fraction thereof) an additional	1.5

§ 1012.93 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, accounts, or verification of weights and butterfat tests of milk or milk products disclose errors, resulting in money due a producer or the market administrator from such handler, or due such handler from the market administrator, the market administrator shall notify such handler of any amount so due, and payment thereof shall be made on or before the next date for making payments, as set forth in the provisions under which such error occurred.

§ 1012.94 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 1012.90, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association.

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments, to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month, and pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount and average butterfat test of milk for which such deduction was computed for each producer. In lieu of this statement, a handler may authorize the market administrator to furnish such cooperative association the information reported for such producers pursuant to § 1012.90 (b).

§ 1012.95 *Expense of administration.* As his prorata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of the month for such month 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe with respect to all (a) receipts of producer milk including such handler's own production, (b) other source milk at a fluid milk plant which is classified as Class I milk and, (c) Class I disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except fluid milk plants) located in the marketing area from a nonfluid milk plant.

§ 1012.96 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1012.100 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1012.101.

§ 1012.101 *Suspension or termination.* The Secretary may suspend or terminate this part or any provisions of this part whenever he finds this part or any provisions of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 1012.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1012.103 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate, shall, if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1012.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his Agent or Representative in connection with any of the provisions of this part.

§ 1012.111 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 26th day of September 1956, to be effective as follows: §§ 1012.0 through 1012.22; §§ 1012.30 through 1012.46; § 1012.60; §§ 1012.80 through 1012.83; and §§ 1012.95 through 1012.111 shall be effective on and after the 1st day of October 1956, and the entire order (§§ 1012.0 through 1012.111) shall be effective on and after the 1st day of November 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. No. SR-386D]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

SPECIAL CIVIL AIR REGULATION; FLIGHT TIME LIMITATIONS FOR PILOTS NOT REGULARLY ASSIGNED TO ONE TYPE OF CREW

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 26th day of September 1956.

Special Civil Air Regulation No. SR-386C which expires September 30, 1956, provides authority whereby a pilot may serve in more than one type of flight crew without incurring any penalty in terms of maximum permissive flight duty. This authority has heretofore been provided for an experimental period with a view to the establishment of permanent rules for such crew assignments.

This regulation will not allow evasion of the stricter limitations applicable to smaller crew combinations, but will allow assignment of a pilot in any given month to another type of crew combination without additional flight time limitation if he flies not more than 20 hours in the type of crew to which the more restrictive flight time limitations apply and if such assignment is not interrupted more than once during such month.

The Civil Aeronautics Administration has advised the Board that the regulation has not been abused and favors its continuation. The proposed revision of Part 41 of the Civil Air Regulations, recently released for discussion purposes, does not contain any provisions concerning flight time limitations because of the necessity for seeking the resolution of certain outstanding questions in a separate rule making action. It is expected that this separate rule making will be completed in the near future and thereafter amendments to existing regulations will be made where appropriate. Pending the resolution of outstanding questions relating to flight time limitations, the Board considers that it is advisable to extend the authority granted by SR-386C for another year rather than to incorporate this authority in currently effective Part 41.

Interested persons have been afforded an opportunity to participate in the making of this regulation (21 F. R. 5805), and due consideration has been given to all relevant matter presented. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board makes and promulgates the following Special Civil Air Regulation effective October 1, 1956:

1. Contrary provisions of § 41.57 of the Civil Air Regulations notwithstanding, the following rules shall apply to the monthly and quarterly flight time limitations of pilots assigned in combinations of two-pilot crews, two-pilot and additional flight crew member crews, or three-pilot and additional flight crew member crews.

2. A pilot who is assigned to duty aloft for more than 20 hours in two-pilot crews in a given month, or whose assignment in such crews is interrupted more than once in the month by assignment to a crew consisting of two or more pilots and an additional flight crew member, shall be governed by the provisions of § 41.54.

3. Except for a pilot coming within the provisions of paragraph 2, a pilot who is assigned to duty aloft for more than 20 hours in two-pilot and additional flight crew member crews in a given month, or whose assignment in such crews is interrupted more than once in the month by assignment to a crew consisting of three pilots and an additional flight crew member, shall be governed by the provisions of § 41.55.

4. A pilot to whom the provisions of paragraphs 2 and 3 are not applicable, assigned to duty aloft for a total of 20 hours or less within a given month in two-pilot crews with or without additional flight crew members, shall be governed by the provisions of § 41.56.

5. A pilot assigned to each of two-pilot, two-pilot and additional flight crew member, and three-pilot and additional flight crew member crews in a given month, who is not governed by the provisions of paragraphs 2, 3, or 4, shall be governed by the provisions of § 41.55.

This regulation supersedes Special Civil Air Regulation No. SR-386C and shall terminate September 30, 1957, unless sooner superseded or rescinded by the Board.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, as amended, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

PART 576—WATER, ELECTRIC POWER, SEWERAGE AND COMMUNICATIONS SERVICES AT CANTON AND WAKE ISLANDS

Under section 10 (a) of the International Aviation Facilities Act, the Administrator of Civil Aeronautics is empowered and directed to do and perform all acts and things necessary or incident to the operation, protection, maintenance, improvement, and administration of airport property in territory outside the continental limits of the United States which he has acquired pursuant to the act or any other provision of law. Among other things, section 10 (a) specifically authorizes the furnishing on a reimbursable basis facilities and services necessary or desirable for the operation and administration of such airport property.

Acting pursuant to the foregoing authority, and in accordance with section 3 (a) (3) of the Administrative Procedure Act, Part 576 is hereby adopted. A proprietary function of the Government is involved. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Subpart A—Introduction

Sec.
576.1 Basis and purpose.
576.2 Definitions.

Subpart B—Provision of Service

Sec.
576.3 Services available.

Subpart D—General

576.10 Government liability.
576.11 Billing.

AUTHORITY: §§ 576.1 to 576.11 issued under sec. 10, 62 Stat. 453; 49 U. S. C. 1159.

SUBPART A—INTRODUCTION

§ 576.1 *Basis and purpose*—(a) *Basis.* The basis of this part is section 10 of the International Aviation Facilities Act (62 Stat. 453, 49 U. S. C. Sup. 1159) as amended by sections 1 and 2 of Reorganization Plan No. 5 (15 F. R. 1374).

(b) *Purpose.* The purpose of this part is to establish the policy of the Civil Aeronautics Administration on providing water, electric power, sewerage and communications services at Wake and Canton Islands to agencies of the United States Government and to organizations or individuals engaged directly or indirectly in an aeronautical activity.

§ 576.2 *Definitions.* As used in this part:

(a) "CAA" shall mean the Civil Aeronautics Administration.

(b) "Regional Administrator" shall mean the Regional Administrator, Civil Aeronautics Administration, P. O. Box 4009, Honolulu, Hawaii.

(c) "Facilities Chief" shall mean the Chief, Facilities Division, Civil Aeronautics Administration, P. O. Box 4009, Honolulu, Hawaii.

SUBPART B—PROVISIONS OF SERVICE

§ 576.3 *Services available.* The services provided is limited to that in excess of the needs of the Civil Aeronautics Administration and within the capacities of the installed services. Where additional service is desired, permission may be given to construct additional complementary facilities or extensions to the system involved.

§ 576.4 *Applications.* Applications for service shall be made in writing to the Regional Administrator, Civil Aeronautics Administration, P. O. Box 4009, Honolulu, Hawaii, and shall set forth in detail the type, location and amount of service desired, maximum demand, and other pertinent data, including, for electric power applications, data on all motor loads in excess of two horsepower.

§ 576.5 *Connections to systems*—(a) *Water and sewerage.* Connections to the existing power and water systems shall be made by the user, upon obtaining written approval from the Facilities Chief. Method of making connection and workmanship shall be subject to inspection and approval of the Island Structural Maintenance Engineer. Extensions to the existing sewer and water systems include additional lateral or trunk sewers, manholes or sewage disposal facilities and water mains, water collection, production, storage, or pumping facilities as distinguished from connections to the systems to provide service to an individual user. Meters where required will be furnished, installed and serviced by the CAA. The CAA will also maintain the fresh water connection between the main and the building, but maintenance of the sewer connection between the building and the lateral sewer shall be the responsibility of the user, all work thereon being subject to inspection and approval of the Island Structural Maintenance Engineer.

(b) *Electric power.* Connections to the existing power system will be made by and at the expense of the CAA. Connection is limited to the provision of a meter, installation and connection of the meter to the service drop, and connection of service drop to power supply lines. The user shall provide, install and maintain a safety switch, a meter socket, a one-span service drop and such work and materials as are required to distribute the power from the service drop. Any other work or materials over and beyond those mentioned above that are required to provide the user with power shall be considered as extensions to the existing system. All workmanship, materials and equipment employed by the user shall be in accordance with CAA Technical Standard Order N–17A.

(c) *Communications.* Connections to the existing system will be made only by the CAA. Connection is limited to the provision and installation of all telephones and lines from the service drop, the addition or removal of any telephone extensions on either private or party lines, and the changing of location of any authorized telephone. Any other work or materials over and beyond those mentioned above that are required to provide the user with communications service shall be considered as extensions to the existing system. Title to the system in its entirety shall be vested in the Government. The responsibility for its maintenance will rest with authorized CAA personnel.

§ 576.6 *Extensions to systems.* Extensions to the existing electric power, water, sewerage and communications systems shall be made only with the written approval of the Facilities Chief. Dependent upon the circumstances and as determined by the Facilities Chief, all extensions shall be made by the user at his expense or by the CAA. Extensions made by the user shall become the property of the Government upon incorporation into the system.

SUBPART C—RATES OF PAYMENT

§ 576.7 *Rates*—(a) *Electric power.* Electric power is provided at Wake Island at the rate of $0.060 per kilowatt-hour and at Canton Island at $0.085 per kilowatt-hour.

(b) *Water and sewerage*—(1) *Wake Island.* Fresh water is provided at the rate of $0.02 per gallon and brackish water at the rate of $150 per annum per building connection except that the Facilities Chief may impose a higher brackish water charge, based on the number of exterior hose bibbs, water closets and usage, for buildings with more than two exterior hose bibbs or one water closet. Sewerage service is provided at the rate of $60 per annum per family residence and $210 per annum for structures other than family residences except that the Facilities Chief may impose a higher rate, based on the number of connections, for sewerage service to structures having more than ten sewerage fixture connections.

(2) *Canton Island.* Fresh water is provided at the rate of $0.04 per gallon. No additional or separate charge to users of fresh water will be made for brackish water, salt water or for sewerage disposal, where such facilities are available.

(c) *Communications.* Individual line service is provided at the rate of $8.75 per month and two-party line service at the rate of $7.75 per month. Extensions to the existing telephone system or relocation of existing telephone connections shall be provided at the rate of $10 per extension or relocation. If another instrument connection is made to an existing line connection, there shall also be a monthly charge of $5 per each additional connection.

§ 576.8 *Rate adjustment.* Rates are subject to equitable adjustment as circumstances warrant. Users of services will be advised 30 days in advance of any adjustment in the rate.

§ 576.9 *Measurement.* Fresh water and electric power usage will be measured by meters, but may in exceptional cases be based upon estimates mutually agreed upon between the user and Facilities Chief.

SUBPART D—GENERAL

§ 576.10 *Government liability.* The Government shall not be liable nor responsible in any way for any loss, damage, or injury sustained by any user of the utility or third person by reason of any partial or complete failure or shutdown of the utility except where such loss, damage or injury is caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant for such loss, damage, or injury in accordance with the law of the place where the act or omission occurred.

§ 576.11 *Billing.* A monthly statement is submitted to each user based upon the applicable rates. These bills are payable in accordance with previous arrangements between the user and the Regional Administrator.

This part shall become effective October 1, 1956.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54201]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

STAINED OR PAINTED GLASS WINDOWS FOR HOUSES OF WORSHIP

To indicate more clearly that stained or painted glass windows and window glass valued $15 or more per square foot imported for use in houses of worship are not entitled to free entry under paragraph 1810, Tariff Act of 1930, unless they are works of art, § 10.52, Customs Regulations, is amended to read as follows:

§ 10.52 *Stained or painted glass windows for houses of worship.* When stained or painted glass windows or window glass which are works of art valued at $15 or more per square foot are claimed to be free of duty under paragraph 1810, Tariff Act of 1930, the importer shall file in connection with the entry a declaration on customs Form 3321, declaring that the importation is a work of art made for use in a house of worship, and a certificate of delivery on customs Form 3337.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies par. 1810, sec. 201, 46 Stat. 685; 19 U. S. C. 1201, par. 1810)

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: September 21, 1956.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[T. D. 54197]

PART 19—CUSTOMS WAREHOUSES AND CONTROL OF MERCHANDISE THEREIN

CUSTOMS CIGAR STAMPS

As the cost of printing the customs stamps required to be affixed to boxes containing cigars manufactured in bonded warehouses has increased considerably, it is necessary to increase the sales prices of such stamps. Accordingly, the second sentence of § 19.16 (e) of the Customs Regulations is hereby amended to read as follows: "These stamps shall be sold to manufacturers by collectors of customs at the following prices: $1.60 per thousand for the small stamp, 4" x 1½" in size, and $2.00 per thousand for the large stamp, 8" x 1½" in size."

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 311, 46 Stat. 691, as amended, 19 U. S. C. 1311)

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: September 21, 1956.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[T. D. 54198]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

OVERPRINTING OF VARIOUS SALABLE CUSTOMS FORMS

As the practice of overprinting various salable customs forms of entries, etc., for importers, brokers, carriers, and others, to include their names and addresses, numbers and names of the customs districts in which they transact business, etc., has been discontinued, § 24.14 of the Customs Regulations is amended by deleting the designation "(a)" from the first paragraph and by deleting paragraph (b).

(R. S. 161, 251; 5 U. S. C. 22, 19 U. S. C. 66)

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: September 20, 1956.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order I–23, Amdt. 1]

DMO I–23—CREATING AN INTERAGENCY HEALTH ADVISORY BOARD

PROVIDING FOR A REPRESENTATIVE OF THE SELECTIVE SERVICE SYSTEM TO BE INCLUDED IN MEMBERSHIP

1. Paragraph 1 of Defense Mobilization Order I–23, effective May 31, 1956, which established the Interagency Health Advisory Board, is hereby amended by adding to the list of agencies represented on the Board the following:

Selective Service System.

2. This amendment shall take effect immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 964]

DRIED FIGS PRODUCED IN CALIFORNIA

ADMINISTRATIVE RULES AND PROCEDURES

Notice is hereby given that the Secretary of Agriculture is considering the approval of a proposed further amendment, as set forth hereinafter, of the administrative rules and procedures (20 F. R. 7186, 10095), issued pursuant to the applicable provisions of Marketing Agreement No. 123 and Marketing Order No. 64 (20 F. R. 1685), regulating the handling of dried figs produced in California, effective under the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining to the amendment hereinafter set forth which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., and received not later than the eighth day after the date of publication of this notice in the FEDERAL REGESTER, except that, if said eighth day after publication should fall on a legal holiday or Saturday or Sunday, such submission will be received by the Director not later than the close of business on the next following business day.

The provisions of the proposed amendment are those submitted by the Dried Fig Administrative Committee for approval, with modifications believed to be necessary or desirable for conformance with and practical administration of the volume control provisions of the marketing agreement and order.

The proposed amendment is as follows:

1. Add, immediately following § 964.151 of the administrative rules and procedures, as amended, a new heading and new §§ 964.157 and 964.158 reading as follows:

VOLUME REGULATION

§ 964.157 *Surplus tonnage of dried figs generally*—(a) *General requirement.* Surplus tonnage acquired by each handler shall be held by him for the account of the committee and subject to the applicable restrictions of the order and this subpart. Total net acquisitions of a handler shall be determined on the basis of secondary certificates issued by the inspection agency pursuant to § 964.50 (d). The surplus obligation of a handler will be determined by applying the surplus percentage to the total net weight of dried figs acquired as evidenced by secondary certificates.

(b) *Holding and delivery.* (1) Each handler shall store separate and apart from other dried figs and from each other each varietal type of surplus tonnage dried figs held by him for the account of the committee. Dried figs shall be considered as stored separate and apart from other dried figs when they are identifiable from them. Handlers shall store surplus tonnage dried figs in sweat boxes, picking boxes, sacks or other suitable containers under conditions which will maintain the dried figs in the same condition as they were acquired except for normal and natural deterioration and shrinkage. Whenever the effective date of a surplus percentage regulation is the date on which it is published in the FEDERAL REGISTER, a handler

shall be allowed five business days thereafter in which to meet his obligations with respect to the holding and identification of surplus tonnage dried figs.

(2) The committee may, after giving reasonable notice, require a handler to deliver to it or anyone designated by it, at such handler's warehouse or at such other place as surplus tonnage dried figs may be stored, part or all of the surplus dried figs held by him. The committee may require that such delivery consist of natural condition dried figs or it may arrange for such delivery to consist of processed dried figs.

(3) For each crop year each handler shall be entitled to a shrinkage allowance for normal and natural shrinkage in weight of one and one-half percent of the original natural condition weight on those surplus tonnage dried figs acquired by him during the crop year and held by him for the account of the committee on March 1 of the same crop year. The handler shall be entitled to no other allowance for normal or natural shrinkage in weight for any of such dried figs acquired during the crop year: *Provided,* That the committee shall grant an additional allowance for any normal and natural shrinkage in weight of any such dried figs held for the account of the committee beyond the end of the crop year of acquisition upon submission by the handler of satisfactory proof of such shrinkage during the period the dried figs were so held.

(c) *Surplus obligation and deferment thereof.* (1) Subject to the provisions of paragraph (b) of this section, each handler shall have in his possession or under his control at all times a quantity of dried figs, by variety, equal to the quantity of surplus tonnage referable to his acquisitions of dried figs less any quantity of surplus tonnage dried figs delivered by him pursuant to instructions of the committee, any quantity of such tonnage acquired by him but subsequently sold to him by the committee and, during the period of any deferment granted pursuant to provisions of this paragraph, the quantity of dried figs covered by such deferment.

(2) Any handler who desires to defer the meeting of his surplus tonnage obligations pursuant to § 964.57 (c) shall file with the committee on a form furnished by it a certified application for deferment of his surplus tonnage obligations containing: (i) The date of the application and the name and address of the handler; (ii) the period for which deferment is requested; (iii) with respect to each varietal type, the total surplus tonnage on which deferment is requested segregated as to his current holdings and his expected acquisitions during the deferment period; (iv) a full description of the surety bond offered; and (v) the reasons why deferment is desired.

(3) The committee may grant such an application upon a showing by the handler that he has a need for the deferment and meets the requirements as to the written undertaking and bond which are prescribed in § 964.57 (c). The committee shall notify the applicant promptly of its decision with regard to his application, including the amount of the bond required by the terms of § 964.57 (c). The amount of said bond for a varietal type of dried figs shall be the product obtained by multiplying the quantity for which deferment is granted by the average field price for the season, to date, of salable tonnage dried figs of the same varietal type. At any time during the period for which a deferment has been granted, the handler may request the committee to increase or decrease the quantity of dried figs covered by the deferment and the committee shall grant the revision after the necessary increase or decrease, as the case may be, is made in the amount of the bond. Also at the request of the handler, the committee may extend the deferment beyond the original period (not beyond December 15 of the crop year) for such a quantity as is specified in the request provided the bond is extended in the necessary amount.

(4) No handler shall use any of such surplus tonnage dried figs as salable tonnage dried figs until he shall have received written approval of his application from the committee and shall have filed the required bond with the committee.

(5) Except as provided otherwise in connection with a deferment granted pursuant to § 964.57 (c) and this paragraph, a handler who fails to deliver to the committee, upon request, any surplus tonnage dried figs in the quantity or of a quality for which he has become obligated (after any shrinkage allowances which may then be in effect are applied and allowances for any deterioration due to conditions beyond his control are made), shall compensate the committee for the amount of the loss that is occasioned by his failure to so deliver. The amount of compensation for any shortage of tonnage shall be determined by multiplying the quantity of surplus tonnage dried figs not delivered by the latest weighted average price per ton received by producers during the particular crop year for salable tonnage dried figs of the particular varietal type or types, plus any charges already paid or credited to the handler and any costs to the committee which are caused by the handler's failure to deliver. Sales by producers, on which such weighted average price is computed, shall include those during the particular crop year up to the time such compensation is requested by the committee or up to the end of the particular crop year, whichever date may be earlier. The amount which a handler shall compensate the committee for any surplus tonnage dried figs which have deteriorated in quality during storage for reasons within his control, shall be the weighted average price to date received by the committee for the particular varietal type of surplus pool dried figs, less the amount received by the committee in the disposition of the dried figs delivered by the handler (or the reasonable value of such dried figs, as determined by the committee, if not sold). Any amounts paid to the committee in satisfaction of such deficiencies shall be considered as being part of the proceeds of the surplus tonnage pool. The remedies provided in this paragraph shall be in addition to and not exclusive of, any of the remedies or penalties prescribed in the act with respect to the failure on the part of the handler to comply with the applicable provisions of the act or this part.

(d) *Payment for services.* (1) Each handler shall, beginning with the crop year which began August 1, 1956, be compensated at the rate of $16.00 per ton (natural condition weight at the time of acquisition) for receiving, storing and handling surplus tonnage dried figs acquired during a particular crop year and held by him for the account of the committee during all or any part of the same crop year.

(2) Each handler shall, beginning with August 1, 1956, be reimbursed by the committee for inspection costs applicable to the surplus pool dried figs received and held by him for the account of the committee. Such payment shall made on a monthly basis, when pool funds are available, at the applicable rate per ton paid by such handler to the inspection agency, and on the quantity for the particular month reported by the handler. The committee shall pay the cost of any inspection required by it of any surplus pool dried figs while they are being held for its account or are delivered in accordance with its request: *Provided,* That the cost of inspection of any dried figs which a handler exchanges for dried figs of the same crop year in the surplus pool, or surplus tonnage dried figs which he receives by transfer from another handler and on which he requests inspection shall be borne by the handler.

(3) Each handler shall, beginning with August 1, 1956, be paid an allowance for fumigation of 75 cents per ton for surplus tonnage dried figs received during the crop year between August 1 and March 1, and each handler shall be paid an additional allowance of 15 cents per month or any portion of a month for the fumigation of dried figs held for the account of the committee after March 1.

(4) In addition to the foregoing payments, handlers shall also be compensated for the following services when required: (i) The committee may arrange with any handlers for transporting surplus tonnage dried figs. Payment for such transportation shall be in an amount based on prevailing haulage rates for the type of transportation required; and (ii) a handler who accepts an offer by the committee to pack surplus tonnage dried figs for its account shall be compensated for such packing in an amount determined by or acceptable to the committee. In considering the amount of compensation to be paid, the committee shall take into account, among other factors, the particular varietal type of dried figs to be packed, the particular pack or package required, and the quantity and quality of the dried figs to be packed.

§ 964.158 *Disposition of surplus tonnage—*(a) *Offers of surplus tonnage dried figs to handlers for purchase or for contract processing or packing.* (1) Whenever the committee offers surplus tonnage dried figs to handlers for purchase, pursuant to § 964.58 (a), it shall specify, among other terms of the offer: (i) The period within which each handler shall be given the opportunity to purchase his share of the offer; and (ii) the additional period during which, if any of the offer then remains unpurchased, each handler who purchased all of his share of the offer may purchase his share of a reoffer of such unpurchased quantity. The committee shall fix the length of each of the two periods so as to facilitate disposition of surplus tonnage dried figs. Should any quantity of surplus tonnage dried figs remain unsold after a reoffer, any sales of such dried figs to any handler or handlers after the withdrawal of such quantity from the offer shall be made in the order in which any handler or handlers notify the committee of his or their desire to purchase all or part of such unsold quantity.

(b) *Sales for animal feed, certain manufacturing uses and export.* The committee may sell direct to any person, whether or not he is a handler under the order and without regard to the provisions of § 964.58 (a), if the committee determines that the use of such provisions would be impracticable in liquidating the surplus pool, or sell to handlers for resale pursuant to the provisions of § 964.58 (a), any surplus tonnage dried figs for animal feed, botanicals, distillation, or for any manufacturing uses or for export at negotiated prices pursuant to § 964.58 (c).

Dated: September 26, 1956.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

Commodity Stabilization Service

[7 CFR Parts 723, 725, 727]

CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO, BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO, AND MARYLAND TOBACCO

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO TOBACCO MARKETING QUOTAS FOR 1957-58 MARKETING YEAR

Pursuant to the Agricultural Adjustment Act of 1938, as amended, the Secretary of Agriculture is preparing to (a) proclaim a national marketing quota for cigar-filler and binder tobacco, for each of the three marketing years beginning October 1, 1957; (b) determine and announce the amount of the national marketing quota for such kind of tobacco, and for burley tobacco, flue-cured tobacco, fire-cured tobacco, dark air-cured tobacco, Virginia sun-cured tobacco, and Maryland tobacco for the 1957-58 marketing year; (c) apportion the national marketing quotas for such kinds of tobacco for the 1957-58 marketing year among the several States; and (d) convert the State marketing quotas into State acreage allotments.

The Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1312 (a)), provides that the Secretary shall, not later than December 1 of any marketing year with respect to flue-cured tobacco, and February 1 of any marketing year with respect to other kinds of tobacco, proclaim a national marketing quota for any kind of tobacco for each of the next three succeeding marketing years whenever he determines with respect to such kind of tobacco that such marketing year is the last year of three consecutive years for which marketing quotas previously proclaimed will be in effect. Certain other conditions and provisions are included in the act stating the circumstances under which the Secretary is required to proclaim a national marketing quota, but such conditions and provisions do not affect the circumstances under which the Secretary is required to proclaim national marketing quotas as outlined above for the 1957-58 marketing year.

The act (7 U. S. C. 1301 (b) (15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the Department:

Flue-cured tobacco, comprising types 11, 12, 13 and 14;
Fire-cured tobacco, comprising types 21, 22, 23 and 24;
Dark air-cured tobacco, comprising types 35 and 36;
Virginia sun-cured tobacco, comprising type 37;
Burley tobacco, comprising type 31;
Maryland tobacco, comprising type 32;
Cigar-filler and cigar-binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, and 55;
Cigar-filler tobacco, comprising type 41.

The act provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purposes of this act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand. Pursuant to this authority the Secretary has determined (15 F. R. 8214) that type 46 tobacco shall be treated as a separate kind of tobacco for purposes of marketing quotas and price supports on the 1951 and subsequent crops of such tobacco.

The act (7 U. S. C. 1313 (i)) provides that notwithstanding any other provision of the act, whenever after investigation the Secretary determines with respect to any kind of tobacco that a substantial difference exists in the usage or market outlets for any one or more of the types comprising such kind of tobacco and that the quantity of tobacco of such type or types to be produced under the marketing quotas and acreage allotments established pursuant to this section would not be sufficient to provide an adequate supply for estimated market demands and carry-over requirements for such type or types of tobacco, the Secretary shall increase the marketing quotas and acreage allotments for farms producing such type or types of tobacco in the preceding year to the extent necessary to make available a supply of such type or types of tobacco adequate to meet such demands and carry-over requirements. The increases in farm marketing quotas and acreage allotments shall be made on the basis of the production of such type or types of tobacco during the period of years considered in establishing farm marketing quotas and acreage allotments for such kind of tobacco. The additional production authorized by this subsection shall be in addition to the national marketing quota established for such kind of tobacco pursuant to section 312 of this act. The increase in acreage under this subsection shall not be considered in establishing future State or farm acreage allotments.

The act (7 U. S. C. 1312 (b)) provides that the Secretary shall also determine and announce not later than the first day of December with respect to flue-cured tobacco and not later than the first day of February with respect to other kinds of tobacco the amount of the national marketing quota which is in effect for the 1957-58 marketing year in terms of the total quantity of tobacco which may be marketed which will make available during such marketing year a supply of tobacco equal to the reserve supply level. The act provides further that the amount of the 1957-58 national marketing quota may, not later than March 1, 1957, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands or to avoid undue restrictions of marketings in adjusting the total supply to the reserve supply level.

The act (7 U. S. C. 1301 (b)) defines the "total supply" of tobacco for any marketing year as the carry-over at the beginning of the marketing year (or on January 1 of such marketing year in the case of Maryland tobacco), plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The act (7 U. S. C. 1312 (c)) requires that within 30 days after a national marketing quota is proclaimed for the 1957-58, 1958-59 and 1959-60 marketing years for cigar-filler and binder tobacco,

the Secretary shall conduct a referendum of farmers who are engaged in the production of the 1956 crop of such kind of tobacco to determine whether such farmers are in favor of or opposed to such quota for the next three succeeding marketing years. If more than one-third of the farmers voting in the referendum oppose such quota, such results shall be proclaimed by the Secretary and the national marketing quota so proclaimed shall not be in effect but such results shall in no wise affect or limit the subsequent proclamation and subsequent submission to a referendum, as otherwise provided in section 312 of the act, of a national marketing quota.

Burley, flue-cured, fire-cured, dark air-cured, Virginia sun-cured, and Maryland tobacco growers favored marketing quotas for the 1957–58 marketing year in referenda held pursuant to the act as follows: Burley tobacco, 21 F. R. 668; flue-cured tobacco, 20 F. R. 6543; fire-cured tobacco, 20 F. R. 809; dark air-cured tobacco, 20 F. R. 809; Virginia sun-cured tobacco, 21 F. R. 668; and Maryland tobacco, 21 F. R. 668.

The act (7 U. S. C. 1313 (a)) requires the Secretary to apportion the national marketing quota, less the amount to be allotted under subsection (c) of section 1313 (small farms and "new" farms), among the several States on the basis of the total production in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed, with such adjustments as are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trends in production, giving due consideration to seed bed and other plant diseases during such five-year period.

The act (7 U. S. C. A. 1313 (g)) provides that any acreage of tobacco harvested in excess of the farm acreage allotment for the year 1955 or any subsequent year shall not be taken into account in establishing State and farm acreage allotments. The act (sec. 307, Public Law 540, 84th Congress, 2d Session) provides further that in any case in which, during any year within the period 1956 to 1959, inclusive, for which acreage planted to tobacco on any farm is less than the acreage allotment for such farm, the entire acreage allotment for such farm shall be considered for purposes of future State, county, and farm acreage allotments to have been planted to such commodity in such year, if the owner or operator of such farm notifies the county committee prior to the sixtieth day preceding the beginning of the marketing year for such commodity of his desire to preserve such allotment; the act further provides that the allotment may not be so preserved if the amount of the commodity required to be stored to postpone or avoid payment of penalty has been reduced because the allotment was not fully planted. Public Law 540, 84th Congress, 2d Session, also provides that the acreage withdrawn or diverted from the production of tobacco under the Acreage Reserve Program and Conservation Reserve Program shall for allotment purposes be considered devoted to the production of tobacco.

The act (7 U. S. C. 1313 (g)) authorizes the Secretary to convert State marketing quotas into State acreage allotments on the basis of average yield per acre for the State during the five years last preceding the year in which the national marketing quota is proclaimed, adjusted for abnormal conditions of production.

In making the determinations of the amounts of the national marketing quotas, the apportionment of the quotas among the several States, and the conversion of State marketing quotas into State acreage allotments, consideration will be given to any data, views and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 25th day of September 1956.

[SEAL] WALTER C. BERGER,
Acting Administrator.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

BARBER-WILHELMSEN LINE AND BULL INSULAR LINE, INC.

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8146, between the carriers comprising the Barber-Wilhelmsen Line joint service and Bull Insular Line, Inc., covers the transportation of general cargo under through bills of lading from Japan and the Philippine Islands to Puerto Rico, with transhipment at New York, Baltimore or Philadelphia. Agreement No. 8146, upon approval, will supersede and cancel approved transhipment Agreement No. 7762.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: September 26, 1956.

By order of the Federal Maritime Board.

PACIFIC WESTBOUND CONFERENCE AND PHILIPPINE NATIONAL LINES

NOTICE OF AGREEMENT FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 57–62 between the member lines of the Pacific Westbound Conference and Philippine National Lines, provides for the admission of that company as an associate member of that conference (No. 57). As an associate member Philippine National Lines will be obligated to abide by all the rates, rules, regulations and decisions of the conference; will have no vote in conference affairs; will be permitted to participate in conference contracts; and will be exempt from posting the usual surety bond.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: September 26, 1956.

By order of the Federal Maritime Board.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

OHIO

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in the following counties in the State of Ohio a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

OHIO

Ashtabula	Mahoning
Geauga	Portage
Lake	Trumbull

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after June 30, 1957, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 26th day of September 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[Docket No. 8157; Order No. E–10639]

TRANS-PACIFIC AIRLINES, LTD.

STATEMENT OF TENTATIVE FINDINGS AND CONCLUSIONS AND ORDER TO SHOW CAUSE[1]

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 26th day of September 1956.

In the matter of the application of Trans-Pacific Airlines, Ltd., under section 401 (e) (4) of the Civil Aeronautics Act of 1938, as amended, for a certificate of public convenience and necessity of unlimited duration.

Trans-Pacific Airlines, Ltd. (Trans-Pacific) on August 8, 1956, filed an application pursuant to section 401 (e) (4) of the Civil Aeronautics Act of 1938, as amended, (the act), requesting the Board to issue Trans-Pacific a certificate of public convenience and necessity of indefinite duration for route No. 99 authorizing air transportation of persons, property and mail.

Section 401 (e) (4) of the Act (effective July 20, 1956) provides:

(4) If any applicant who makes application for a certificate within one hundred and twenty days after the date of enactment of this paragraph shall show that on such date it or its predecessor in interest was an air carrier, furnishing service within either the Territory of Hawaii or the Territory of Alaska (including service between Alaska and adjacent Canadian territory) authorized by certificate or certificates of public convenience and necessity issued by the Civil Aeronautics Board to render such service within such Territory, and that any portion of such service between any points or for any class of traffic was performed pursuant to a temporary certificate or certificates of public convenience and necessity issued by the Civil Aeronautics Board, the Board shall, upon proof of such facts alone, issue a certificate or certificates of indefinite duration authorizing such applicant to engage in air transportation within such Territory, between the same points and in the same manner and for each such class of traffic as temporarily authorized by such certificate or certificates as of the date of enactment of this paragraph.

Trans-Pacific alleges in its application that it is a citizen of the United States of America as defined by section 1 (13) of the act. Proof of this fact has been submitted by Trans-Pacific in other certification proceedings and no information to the contrary has since come to the knowledge of the Board.

Trans-Pacific further alleges that on the date of enactment of section 401 (e) (4) (July 20, 1956), it was an air carrier, furnishing service within the Territory of Hawaii authorized by certificate of public convenience and necessity issued by the Civil Aeronautics Board to render such service within the Territory of Hawaii, and that all such service between all points and, for all classes of traffic, i. e., persons, property and mail, was performed pursuant to a temporary certificate of public convenience and necessity issued by the Civil Aeronautics Board. The various schedules and reports required to be filed with the Board by air carriers indicate that Trans-Pacific so operated on July 20, 1956.

It is our intention to strictly limit this proceeding to a consideration of issues directly pertaining to the grant, pursuant to section 401 (e) (4) of the act, of a certificate of unlimited duration authorizing the services rendered by Trans-Pacific on July 20, 1956. We believe the public interest requires expeditious disposition of the proceeding and are therefore adopting a procedure intended to shorten the proceeding while at the same time fully protecting the interests of all interested persons. We are requiring Trans-Pacific to show cause why the Board should not issue an order making final the tentative findings and conclusions set forth in this order and issue a certificate of public convenience and necessity in the form set forth below as Appendix A. After allowing interested persons a reasonable period within which to submit objections to the Board's order, Trans-Pacific's application and the order to show cause will be set for immediate hearing in Washington before a hearing examiner of the Board. Trans-Pacific and all interested persons who desire to be heard in connection with this matter are hereby notified that they may file written objection to the Board's tentative findings and conclusions within 15 days from the date of this order. The hearing will be limited to consideration of the issues raised by such objections. Objections should be in the nature of exceptions, should be brief and concise, and should not contain argument or factual data which the objecting party intends to rely on at the hearing in support of its objections.

On the basis of the foregoing, the Board finds that:

[1] This statement does not necessarily represent the views of all Members of the Board with respect to all issues.

1. Trans-Pacific is a citizen of the United States of America as defined by section 1 (13) of the act.

2. On July 20, 1956, Trans-Pacific was an air carrier, furnishing service within the Territory of Hawaii authorized by certificate of public convenience and necessity issued by the Civil Aeronautics Board to render such service within the Territory of Hawaii, and that all such service between all points and for all classes of traffic, i. e., persons, property and mail, was performed pursuant to a temporary certificate of public convenience and necessity issued by the Civil Aeronautics Board.

Therefore, it is ordered, That:

1. Trans-Pacific is directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and issue the proposed certificate of public convenience and necessity in the form set forth below as Appendix A;

2. Trans-Pacific and any other interested person having objection to the issuance of an order making final the tentative findings and conclusions stated herein, or to the issuance of the aforesaid proposed certificate, shall, within 15 days from the date of this order, file written notice of objection with the Board;

3. On the expiration of the 15-day period allowed for the filing of objections, this proceeding shall be set for immediate hearing before an examiner of this Board. The hearing shall be limited to consideration of issues raised by the objections filed;

4. Copies of this order shall be served on Trans-Pacific, the Mayor of each city served by Trans-Pacific on route No. 99 on July 20, 1956 and on every certificated air carrier serving a point served by Trans-Pacific on route No. 99 on that date;

5. This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

Trans-Pacific Airlines, Ltd. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Civil Aeronautics Act of 1938, as amended, and the orders, rules and regulations issued thereunder, to engage in air transportation with respect to persons, property and mail, as follows:

1. Between the terminal point Honolulu, Oahu; the intermediate points Hoolehua, Molokai; Lanai City, Lanai; Maalaea, Maui; Upolu Point, Hawaii; Kailua, Hawaii; and the terminal point Hilo, Hawaii;

2. Between the terminal point Honolulu, Oahu; and the terminal point Island of Kauai,

to be known as Route No. 99.

The service herein authorized is subject to the following terms, conditions and limitations:

(1) The holder shall render service to and from each of the points named herein, except as temporary suspensions of service may be authorized by the Board; and may begin or terminate, or begin and terminate, trips at points short of terminal points.

(2) The holder may continue to serve regularly any point named herein through the airport last regularly used by the holder to serve such point prior to the effective date of this certificate, and may continue to maintain regularly scheduled nonstop service between any two points not consecutively named herein if nonstop service was regularly scheduled by the holder between such points prior to the effective date of this certificate. Upon compliance with such procedure relating thereto as may be prescribed by the Board, the holder may, in addition to the service herein expressly prescribed, regularly serve a point named herein through any airport convenient thereto, and may render scheduled nonstop service between any two points not consecutively named herein between which service is authorized hereby.

The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions and limitations required by the public interest as may from time to time be prescribed by the Board.

This certificate shall be effective on ------ ----------, 1956: *Provided, however,* That prior to the date on which this certificate would otherwise become effective the Board, either on its own initiative or upon the timely filing of a petition or petitions seeking reconsideration of the Board's order of ---------- 1956 (Order No. E-------), insofar as such order authorizes the issuance of this certificate may by order or orders extend such effective date from time to time.

In witness whereof, the Civil Aeronautics Board has caused this certificate to be executed by its Chairman and the seal of the Board to be affixed hereto, attested by the Secretary of the Board, on the ------ day of ---------- ----------,

[SEAL] ---------- ----------,
Chairman.

Attest:

---------- ----------,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11711, 11712; FCC 56M-887]

SOUTH GEORGIA BROADCASTING CO. AND BEN HILL BROADCASTING CORP. (WBHB)

ORDER CONTINUING HEARING

In re applications of Al H. Evans and Joseph Bilodeau, a partnership d/b as South Georgia Broadcasting Company, Fitzgerald, Georgia, Docket No. 11711, File No. BP-9969; Ben Hill Broadcasting Corporation (WBHB), Fitzgerald, Georgia, Docket No. 11712, File No. BP-10195; for construction permits.

The Hearing Examiner having under consideration an informal request for a continuance of the prehearing conference from October 4 to October 15, 1956;

It appearing that representations from the parties indicate a possibility of reaching a solution of conflicts without the necessity of going to hearing; and

It further appearing that a prehearing conference was scheduled for October 4 but the parties require additional time for conferences among themselves and that no objection has been interposed to the requested continuance;

It is ordered, This 25th day of September 1956, that the prehearing conference is continued from October 4 to October 15, 1956, and the hearing date is continued indefinitely.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 56-7870; Filed, Sept. 28, 1956; 8:50 a. m.]

[Docket No. 11827; FCC 56-905]

PRAIRIE BROADCASTING CO. (WPRE)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Prairie Broadcasting Company (WPRE), Prairie du Chien, Wisconsin, Docket No. 11827, File No. BP-10155; for construction permit.

1. The Commission has before it for consideration a "Protest And Petition For Reconsideration," filed on August 20, 1956, pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, by the State of Wisconsin, University of Wisconsin, licensee of Station WHA, Madison, Wisconsin (hereinafter referred to as WHA), and directed against the Commission's action of July 18, 1956, in granting without hearing the above-captioned application of the Prairie Broadcasting Company (hereinafter referred to as WPRE) for a construction permit to change the frequency of Station WPRE, Prairie du Chien, Wisconsin, from 1280 kilocycles to 980 kilocycles and to increase the height of the antenna (500 watts, daytime only), File No. BP-10,155; and an opposition thereto filed by Prairie Broadcasting Company on August 29, 1956.

2. In a letter dated January 6, 1956, and a petition filed on February 10, 1956, WHA requested that the above-captioned application of WPRE be set for hearing on the ground that the proposed operation of WPRE would cause interference to Station WHA in an area (though beyond its normally protected contour) with regard to which WHA claimed special protection pursuant to the provision of § 3.182 (c) of the Commission's rules. On July 18, 1956, the Commission granted the subject WPRE application and, in a letter of the same date, dismissed WHA's petition to designate the WPRE application for hearing because it had failed to make the requisite showing under § 3.182 (c) of the rules that primary service to approximately 90 percent of the population in the alleged WHA interference area is not supplied by any other station or stations carrying the same general program service. It is against this Commission action in granting the WPRE application that the subject protest is directed. WHA requests the Commission to reconsider its action in granting the WPRE application, to designate said application for hearing, to name WHA as a party to the proceeding, and to postpone the effective date of the WPRE grant to the effective date of the Commission's final decision following the hearing on the application.

3. Station WHA, a Class III daytime station operating on the frequency 970 kilocycles with power of 5 kilowatts, is operated on a noncommercial, educational basis. WHA claims that it is a "party in interest" and "person aggrieved or whose interests are adversely affected" within the meaning of sections 309 (c) and 405 of the act, respectively, to have standing to file its "Protest And Petition For Reconsideration" on the grounds that the proposed operation of WPRE would cause objectionable interference to the service of Station WHA in an extensive area in southwestern Wisconsin, which, although outside of WHA's 0.5 mv/m or normally protected contour, presently receives a primary, interference-free service from WHA, a service area which "should be protected from interference under the so-called 'individual merit standard' of (§ 3.182 (c) of the Commission's rules)." This section provides:

> When it is shown that primary service is rendered by any station, beyond the normally protected contour, and when primary service to approximately 90 percent of the population (population served with adequate signal) of the area between the normally protected contour and the contour to which such station actually serves, is not supplied by any other station or stations carrying the same general program service, the contour to which protection may be afforded in such cases will be determined from the individual merits of the case under consideration.

4. In its supporting engineering affidavit, WHA claims that it provides primary, interference-free service to its 0.10 mv/m ground wave contour and that interference within this area from the authorized operation of WPRE would affect a rural population of 35,346 in southwestern Wisconsin.[1] WHA alleges that this primary service "is heard, used, and relied upon" by people in the intereference area; that 18 other standard broadcast stations render primary service to some portion of the interference area in question but that none of these stations provides the same general program service as WHA's to 90 per cent of the population of the area in question; that WHA is operated as a noncommercial, educational station; and that in its last application for renewal of license, filed on August 25, 1955, it proposed to devote the following percentages of time to these categories of programs:

	Percent
Entertainment	36
Religious	1
Agriculture	7
Educational	42
News	10
Discussion	2
Talks	3

5. In another Exhibit, to support its claim of unique programming, WHA submitted the following type analysis for programs broadcast by WHA in a "typical week" in 1955:

Program type	Amount of time	Percent of total
Wisconsin School of the Air	2 hours 5 minutes	2.8
Children's (out of school)	2 hours	2.7
College of the Air, and Adult Education	14 hours 28 minutes	19.5
Farm	3 hours 57 minutes	5.3
Homemakers	3 hours	4.1
News, Current Affairs, and Special Features	9 hours 47 minutes	13.2
Music	34 hours 13 minutes	46.3
Drama and Literature	4 hours 30 minutes	6.1
	74 hours	100.0

6. WHA cites the following programs as characteristic of its "extraordinary program service":

> Wisconsin School of the Air: In-school listening programs for use in elementary and secondary schools as part of regular classroom work.
>
> Wisconsin College of the Air: Lecture courses for youth and adult education.
>
> Homemaker Programs; Informational and inspirational material for housewives and business women.
>
> Farm Service: Agricultural information. Live coverage of major farm events in the State.
>
> Political Education Forum: Forum for qualified parties and candidates for statewide elective offices.
>
> Wisconsin Legislative Forum: Daily quarter hour program featuring State legislators.

7. WHA places great emphasis on its program, "Wisconsin School of the Air," contending that "one-room rural schools, city elementary and secondary schools in Grant, Crawford, and Vernon counties" rely upon the availability of this program. In support of this contention, WHA submitted a letter from the Assistant Superintendent of the State of Wisconsin Department of Public Instruction and "sample comments from teachers in the area." WHA also claims that it renders "exceptional and outstanding" service in regard to news, special events, discussion of timely controversial subjects, news interpretation and analysis; that it has an extensive schedule of serious music; and that "the program sources of the University of Wisconsin, which operates WHA, offer additional assurance of a program service, of an educational and informational nature, different from that to be provided by a commercial station."

8. In a further Exhibit, WHA tabulates information taken from the respective applications for renewal of licenses of the 18 stations serving all or part of the alleged interference area (three of these stations, WMAQ and WGN, Chicago, Illinois, and WHO, Des Moines, Iowa, provide primary service to 100 percent; one station, WLS, Chicago, Illinois, provides primary service to 95 percent), setting forth, in terms of percentages, the types and sources of programs these stations proposed to broadcast. On the basis of this tabulation, WHA contends that "none of the other stations serving the [interference] area [in question] carries the same general program service as WHA • • • because WHA is the only non-commercial, educational station rendering a primary, interference-free service to the potential area of interference"; and that "the WHA service consists entirely of sustaining, public service programming, essentially of an educational and informational nature, whereas the service of the other stations consists, in large majority, in entertainment programming, of a commercial nature, and with relatively small portions of time devoted to other categories of programs, particularly programming of an educational nature."

9. On the basis of the matters set forth in paragraphs 4 to 8 supra, WHA contends that it has made a prima facie showing that it is entitled to protection beyond its normally protected contour pursuant to the "individual merit standard" of § 3.182 (c) of the rules; and that if the Commission has any question as to whether WHA should be afforded protection beyond its normally protected contour, such a question must be resolved in a formal, evidentiary hearing on issues specified by WHA in its subject pleading.

10. Under the circumstances of this case, WHA's status as a party in interest rests on its showing of providing a unique program service in the interference area outside its normally protected contour. WHA has attempted to show its unique program service by a description of some of its programs and a quantitative analysis of the programs of other stations serving the crucial area. Since the WHA programs cited are similar to those that we have previously found did not justify a conclusion of uniqueness, See Mid-State Broadcasting Co., 5 Pike & Fischer, R. R. 250, and since we cannot determine the nature of the other program service to the area by the quantitative analysis provided by WHA, we cannot find, as a matter of fact, that protestant is a party in interest. However, we think the allegations contained in the protest are sufficient to warrant the matter being set for hearing on the issues specified by the protestant—the second of which, in effect, will place in issue, at this hearing, the basic question upon which protestant's standing or lack of standing must rest. But the Commission is not adopting the issues; and, therefore, the burden of proceeding with the introduction of evidence and the burden of proof on each issue shall be on WHA. Furthermore, we are adding an issue to determine whether or not WHA is a party in interest within the meaning of sections 309 (c) and 405 of the Communications Act of 1934, as amended.

11. Station WPRE is an existing station, and the grant in question authorizes a change of frequency. We find no reasons why the public interest requires that the grant remain in effect pending the Commission's decision in the hearing hereinafter ordered on the WPRE application.

12. *Accordingly, it is ordered,* That the subject Protest And Petition For Reconsideration is granted to the extent provided for below and is denied in all other

[1] The distribution of this rural population among the Wisconsin counties involved is as follows:

County:	Population
Crawford	8,550
Grant	11,300
LaCrosse	4,335
Richland	1,298
Vernon	9,863
	35,346

respects; and that, pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-captioned application is designated for hearing at the offices of the Commission in Washington, D. C., on the following issues:

1. To determine whether the operation of Station WPRE as proposed would involve objectionable interference with Station WHA, Madison, Wisconsin, or with any other existing station, and, if so, the nature and extent of such interference.

2. To determine whether Standard Broadcast Station WHA, Madison, Wisconsin, renders primary service beyond its normally protected contour in any area or areas within the State of Wisconsin within which the operation of Station WPRE as proposed may involve interference and if so, whether 90 percent of the population (population served with adequate signal) in those areas is supplied with primary service by any other standard broadcast station or stations carrying the same general program service as Station WHA.

3. To determine whether, in light of the evidence adduced pursuant to Issue 2, Station WHA has standing as a party in interest to protest or seek reconsideration within the meaning of sections 309 (c) and 405 of the Communications Act of 1934, as amended.

4. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WPRE as proposed and the availability of other primary services to such areas and populations.

5. To determine the type and character of program service proposed by WPRE.

6. To determine what program service is being rendered by Station WHA to the area to be affected by the proposed operation of Station WPRE.

7. If Issue 3 is determined in the affirmative, to determine whether the operation of Station WPRE as proposed would serve the public interest, convenience and necessity.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof as to each of the issues shall be on the protestant;

It is further ordered, That the protestant and the Chief of the Broadcast Bureau are hereby made parties to the proceeding herein and that:

(a) The hearing on the above issues is to commence at 10 a. m. on November 13, 1956, before an Examiner to be specified by the Commission; and

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions; and

(c) The appearances by the parties intending to participate in the above hearing shall be filed not later than October 1, 1956.

It is further ordered, That the effective date of the Commission's grant of the above-captioned application is postponed pending a decision in the above hearing.

Adopted: September 19, 1956.

Released: September 25, 1956.

FEDERAL COMMUNICATIONS COMMISSION,

Secretary.

[F. R. Doc. 56-7871; Filed, Sept. 28, 1956; 8:51 a. m.]

[Docket No. 11823; FCC 56-888]

WILLIAM E. WALKER ET AL.

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING

In re application of William E. Walker, et al. (transferor), and Guild Films Company, Inc., (transferee), Docket No. 11823, File No. BTC-2255; for transfer of control of M & M Broadcasting Company, licensee of Station WMAM, Marinette, Wisconsin, and permittee of Station WMBV-TV, Marinette, Wisconsin.

1. The Commission has before it for consideration (a) a "Protest and Petition for Reconsideration" filed on August 20, 1956, pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, by Valley Telecasting Company, directed against the Commission's action of July 18, 1956, granting without hearing the above-entitled application; (b) an opposition thereto filed on August 30, 1956, by the applicants; and (c) a reply to said opposition filed on September 7, 1956, by Valley Telecasting Company.

2. The petitioner, Valley Telecasting Company, is the licensee of Station WFRV-TV, Green Bay, Wisconsin. Green Bay (population 52,735) is located approximately 45 miles from Marinette, Wisconsin (population 35,748), and Station WMBV-TV, Marinette, serves the Green Bay city limits with a principal city signal. The above-captioned application requests Commission consent to the proposed sale of all of the outstanding stock of the permittee of Station WMBV-TV to Guild Films Company, Inc., a Colorado corporation. The agreement of sale submitted with the application indicates that the purchase consideration for this stock will amount to $287,500, of which $5,000 was paid at the time of execution of said agreement, $145,000 is payable at the closing date, and the balance is represented by three secured 4 percent promissory notes, two of which, in the amount of $45,000 each, are payable six and 12 months, respectively, after closing date, and the third of which, for $47,500, is payable 18 months after closing date. The sale price may be reduced from $287,500 to $247,500 if the total consideration is paid within 90 days after grant. With respect to the citizenship of its stockholders, the transferee showed in an amendment to the application that the corporation chose at random 100 names from its ownership lists; that these 100 stockholders, who held varying amounts of stock, were mailed letters on June 19, 1956 with a self-addressed postcard enclosed; and that as of July 3, 1956, replies had been received from 58 of these persons of which 57 stated they were United States citizens and one stated that he was no longer a stockholder. All of the transferee's officers and directors, owning 15.2 percent of the stock, are United States citizens.

3. In its protest Valley Telecasting Company alleges, in substance, that Station WMBV-TV has not been a financial success; that the licensee thereof, M & M Broadcasting Company, is not in good financial condition; that the transferee, Guild Films Company, Inc., is the fourth largest of the companies specializing in the production and distribution of film for television; that WMBV-TV has persistently and continuously sought to establish itself as a Green Bay station relying upon Green Bay business; that WMBV-TV is represented to be a Green Bay station in its efforts to secure national and regional business destined for the Green Bay market; that WMBV-TV has constructed studios in Green Bay, purporting to be auxiliary studios, but which are in fact new and complete and which WMBV-TV has advertised as being so good that they are "second to none"; that WMBV-TV has employed a larger staff in Green Bay than in Marinette, and the station's motor vehicles identify it as a Green Bay station; that WMBV-TV has, in its newspaper advertising, advertising in trade publications and in its own station identification practices, emphasized its operation as a Green Bay facility, and minimized or disregarded the Marinette aspect of its operation; that in its advertising, selling and station identification practices, WMBV-TV uses the phrase "Green Bay Packerland" in an effort to associate itself with Green Bay; that the transfer requested herein will result in an improved financial condition for the station, and will place in control of the station Guild Films Company, Inc., an organization purporting to have assets in excess of $5,000,000; that the transfer will make it possible for WMBV-TV to more advantageously secure films, because of the nature of its parent company, and to thereby strengthen its competitive position; that in its competition for Green Bay business, WMBV-TV is already predicating its argument upon the representation that the added capital available through the transfer herein assures its entry into Green Bay with "full force"; that, as a result, protestant has already suffered increased difficulty in securing Green Bay business; that the permittee of WMBV-TV has taken definite steps looking toward the relocation of the station closer to Green Bay; that the transfer will result in financial injury to the protestant; and that protestant is therefore a "person aggrieved or whose interests would be adversely affected" by the grant with standing to petition for reconsideration under Section 405 of the Communications Act, and is a "party in interest" with standing to protest under section 309 (c) of the Communications Act.

4. The protestant further alleges, in substance, that a public interest question exists as to whether Guild proposes to operate WMBV-TV as a Marinette station, or whether the application herein is intended as a device for establishing a Green Bay operation; that the program plans of the transferee, as set forth in the application, show virtually a complete lack of attention to Marinette and its area; that the transferee has not made a sufficient showing that it will serve the needs of Marinette; that the past operation of Station WMBV-TV has not conformed to the representations made in the original application for the station's construction permit, and the station has failed to serve, or endeavor to serve, the Marinette area; that there is doubt from available data whether the Green Bay studio of WMBV-TV is in fact an auxiliary studio rather than a main studio; that the showing submitted by the transferee with respect to the citizenship of its stockholders fails to meet the burden of establishing its qualifications with respect to the requirements of section 310 of the Communications Act; and that Guild has not made a sufficient showing in the application with respect to its financial qualifications for meeting the payments required under the agreement of sale.

Finally, protestant requests that the grant of the above-entitled application be reconsidered and set aside by the Commission and that the application be designated for hearing upon the issues requested by protestant, or that the effectiveness of the grant be postponed and the application be designated for hearing upon such issues in accordance with section 309 (c) of the Communications Act.

5. In their opposition to the protest and petition, the applicants concede that the protestant has standing to protest under section 309 (c) of the Communications Act. However, the applicants allege, in substance, that the protest is legally deficient for failure to "specify with particularity the facts relied upon by the protestant as showing that the grant was improperly made or would otherwise not be in the public interest"; that even if certain matters warrant some sort of "hearing," such matters should be set for oral argument only; that the protestant's charges regarding Guild's future plans are too speculative and conjectural, are lacking in substance, or are entirely incompetent; that WMBV-TV advertises the truth in an effort to obtain advertising—namely, it advertises that it serves Green Bay; that Green Bay is the largest concentration of population in the general area and provides an important source of revenue and a source of program fare; that because Green Bay falls within its service area, WMBV-TV has an affirmative obligation to serve Green Bay's needs; that it is in the public interest for WMBV-TV to provide a reception service to as many persons as is practical and efficient and to provide conveniently located studio facilities; that while WMBV-TV has no specific plans to increase coverage, it has attempted, in the past, and will in the future if the circumstances warrant, attempt to improve its coverage; that WMBV-TV now provides a program service to Marinette, as illustrated by several programs involving Marinette news, activities or guests; that there is a full-time newsman in Marinette and none in Green Bay; that even assuming it could be established that the present owners of WMBV-TV had not complied with the requirements of having the station properly fulfill Marinette's needs, this would not be a basis for denying the transfer since it would not raise a sufficiently serious question concerning the transferor's qualifications; that a substantially larger staff is maintained by WMBV-TV in Marinette than in Green Bay, and it originates a substantially larger number of programs from Marinette than from Green Bay; that the protestant has not alleged sufficient facts and matters to warrant a hearing on the issue of whether the Green Bay studio is really the main studio; that Valley has alleged no facts showing the lack of United States citizenship by the stockholders of Guild, or showing that the data submitted by Guild was false or erroneous, and Valley has, therefore, made no allegations justifying an inquiry into the citizenship of Guild Films; and that the protest fails to state any grounds justifying a hearing on the issue of financial qualifications.

6. The applicants also argue that in the event the protest is granted, the effective date of the transfer should not be postponed so as to prevent Guild Films from taking over the control and operation of the station in the interim period. In support of this position, it is alleged, in substance, that there are 11 present stockholders of M & M Broadcasting Company; that at the time television construction commenced there were 400 shares of stock outstanding with a par value of $100 each; that stockholders subscribed proportionately to 400 additional shares at a price of $275 each, making a total of $110,000 of new capital, $40,000 of which was credited to the capital stock account and $70,000 to donated surplus; that stockholders also loaned the company an additional $98,866.67; that later, William E. Walker loaned the company $10,000; that therefore, the existing stockholders put up a total of $218,866.67 in new capital and loans; that equipment was purchased from RCA on the deferred payment plan in the amount of $188,754.46, of which $170,292.50 is still due and payable; that the Green Bay studio building was mortgaged in the amount of $36,000, of which $33,981.90 is still owing; that almost all of the loans are still outstanding and total more than $300,000; that there are no other substantial assets which could be pledged or mortgaged; that current liabilities exceed current assets by a ratio of approximately two to one; that the station has incurred a total net operating deficit of $69,025.75 since it commenced operation in September 1954, and the net operating loss during July 1956 was $7,980.50; that the payments due on the RCA contract will increase in the future due to a stepped-up repayment rate provided for in the contract; that M & M cannot borrow further from institutional lenders; that the station's President and 50 percent stockholder and the station's Secretary-Treasurer and 23.33 percent stockholder are unable to advance further funds to the company; that none of the minor stockholders are willing to advance further funds; that without new capital, the company will be forced to drastically reduce operation or cease operation altogether; that the agreement with Guild provides that, pending Commission approval of the subject application, the company will not incur "unusual indebtedness," will not authorize issuance or increase in stock, declare any dividends or do anything adversely affecting the operation of the station; and that by reason of the foregoing, the grant of the instant application is "necessary to the maintenance or conduct of an existing service." Moreover, applicants argue, the Commission can and should affirmatively find that the public interest requires that the grant remain in effect. They allege, in substance, that the likelihood of success on the merits of the instant protest is extremely remote; that, in such circumstances, the Congress, in amending section 309 (c) of the Communications Act, intended that the Commission should not be precluded from permitting the protested grant to remain in effect; and that the transferee will improve the service rendered to the public.

7. In its reply to the opposition, the protestant alleges, in substance, that definite steps have been taken looking towards the relocation of WMBV-TV much closer to Green Bay, in order to operate as a Green Bay station; that the applicants have not satisfactorily answered the charge that the transferee will operate Station WMBV-TV as a Green Bay station and move the station closer to Green Bay; that the applicants have not satisfactorily answered the charges made by Valley with respect to the past and proposed future programming of WMBV-TV, and the question of whether WMBV-TV's main studio is actually located in Marinette; that the applicants have failed to demonstrate fundamental legal qualifications, and there may have been a failure to provide full financial data; that the allegations made by Valley require an evidentiary hearing, and an oral argument will not suffice; that the applicants have not alleged inability to advance funds for the continued operation of Station WMBV-TV, but have alleged, at most, an unwillingness of current stockholders to advance funds; that the grant in question is not necessary to the maintenance or conduct of an existing service; and that the Commission should, therefore, postpone the effective date of its grant of the subject application, pending resolution of the matters raised by the protest.

8. In light of the facts alleged in the protest, we find that the protestant is a "party in interest" and a "person aggrieved or whose interests are adversely affected" by the Commission's grant of the above-entitled application, within the meaning of sections 309 (c) and 405 of the Communications Act, respectively. Granik, et al., v. FCC, Docket No. 12909, U. S. App. D. C., decided May 31, 1956; FCC v. Sanders, 309 U. S. 470; In re General-Times Television Corporation, 13 Pike & Fischer R. R. 1049; Camden

Radio, Inc., v. FCC, 94 U. S. App. D. C., 312, 220 F. 2d 191. We find further that the protestant has specified with particularity the facts upon which it concludes that the Commission's grant was not in the public interest. Accordingly, it is necessary to designate the above-entitled application for further proceedings.

9. A question is presented as to whether we should stay the effective date of our grant of the application. In this connection, section 309 (c) of the Communications Act provides as follows:

> * * * pending hearing and decision the effective date of the Commission's action to which protest is made shall be postponed to the effective date of the Commission's decision after hearing, unless the authorization involved is necessary to the maintenance or conduct of an existing service, or unless the Commission affirmatively finds for reasons set forth in the decision that the public interest requires that the grant remain in effect, in which event the Commission shall authorize the applicant to utilize the facilities or authorization in question pending the Commission's decision after hearing.

We are of the opinion that the applicants herein have not demonstrated that a denial of a stay "is necessary to the maintenance or conduct of an existing service." The transferor's inability to continue operation of the stations has not been established, nor has cessation of broadcast service been shown to be inevitable under the circumstances. We also conclude that a finding cannot be made "that the public interest requires that a grant remain in effect." While we appreciate the extent to which the private interests of the parties may be affected by a stay of our grant, we are of the view that such circumstance was not within the contemplation of Congress when it provided for a "public interest" finding by the Commission to support an avoidance of a stay. In re transfer of control of KTSA, 14 Pike & Fischer R. R. 85.

10. In view of the foregoing, *It is ordered*, That, the petition for reconsideration filed under section 405 of the Communications Act is granted to the extent provided for herein and is denied in all other respects; that, pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-entitled application is designated for further proceedings at a time and place to be specified in a subsequent order of the Commission; and that the effective date of the grant of the above-entitled application is postponed pending a final determination by the Commission in the proceedings to be ordered herein.

11. *It is further ordered*, That, in the event the transfer herein has been consummated, the parties to the above-entitled application shall have until October 19, 1956 to return control of M & M Broadcasting Company to the transferor.

Adopted: September 19, 1956.

Released: September 25, 1956.

[Docket Nos. 11826, 11825; FCC 56-881]

ALKEK TELEVISION CO. AND VICTORIA TELEVISION CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Albert B. Alkek d/b as Alkek Television Company, Victoria, Texas, Docket No. 11826, File No. BPCT-2109; O. L. Nelms d/b as Victoria Television Company, Victoria, Texas, Docket No. 11825, File No. BPCT-2084; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of September 1956;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 19 at Victoria, Texas; and

It appearing that the above-captioned applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised of the fact that their applications were mutually exclusive, of the necessity for a hearing thereon, of all objections to their applications, and were given an opportunity to reply; and

It further appearing that upon due consideration of the above applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Albert B. Alkek d/b as Alkek Television Company is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station; and that O. L. Nelms d/b as Victoria Television Company is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order upon the following issue:

(1) To determine on a comparative basis which of the proposed operations would better serve the public interest, convenience and necessity in the light of the record made with respect to significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed by each of the above applicants.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicants will give reasonable assurance that the proposals set forth in the respective applications will be effectuated.

Released: September 25, 1956.

[Docket No. 11519; FCC 56M-885]

GREENVILLE BROADCASTING CORP.

ORDER CONTINUING HEARING

In re application of The Greenville Broadcasting Corporation, Greenville, Ohio, Docket No. 11519; File No. BP-9522; for construction permit.

The Hearing Examiner having under consideration the petition filed on September 21, 1956, by the applicant, Greenville Broadcasting Corporation, requesting a ten-day continuance of the hearing presently scheduled for September 24, 1956; and

It appearing that the applicant plans to seek dismissal without prejudice of its application, but the executed affidavit with respect to no consideration required under the provisions of § 1.366 of the rules has not yet been received and that a continuance of the above-styled hearing for a ten-day period will afford time for the receipt of such affidavit and the filing of a petition for dismissal of the application; and

It further appearing that counsel for the other parties, including the Broadcast Bureau, waive the proyisions of § 1.745 (so-called four-day rule) of the rules and interpose no objection to a grant of this petition;

It is therefore ordered, This September 21, 1956, that the hearing in the above-styled proceeding be and it is hereby continued to October 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

9582; Texas Panhandle Field, Hutchinson County, Texas; Shamrock Oil and Gas Corporation.

9625; Riverton Dome Field, Fremont County, Wyoming; Northern Utilities Company.

9708; West Panhandle Field, Moore and Hutchinson Counties, Texas; Shamrock Oil and Gas Corporation.

9782; Hugoton Field, Kearny County, Kansas; Kansas Colorado Utilities, Inc.

Pursuant to due notice, a public hearing was held in Washington, D. C., on September 13, 1956, respecting the matters involved in and the issues presented by the application. No petition to intervene or protest in opposition to the granting of the application has been received. Staff counsel moved orally at the hearing that the intermediate decision procedure be omitted and the Commission render a decision herein pursuant to § 1.30 (c) (1) of the Commission's rules of practice and procedure.

The Commission finds:

(1) Applicant, an independent producer of natural gas, upon commencement of the sale authorized herein will

[1] Sultex Oil and Gas Corporation was changed from Sotex Oil and Gas Corporation by charter amendment dated April 18, 1955.

[2] Effective May 16, 1955, Mid-Continent Petroleum Corporation merged into Sunray Oil Corporation and Sunray Oil Corporation changed its name to Sunray Mid-Continent Oil Company.

be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act.

(2) Sunray Mid-Continent Oil Company in Docket Nos. G–4268, G–4416, G–8663, G–8791, G–8825, G–9530, and G–9782, and Phillips Chemical Company in Docket No. G–6809 have requested that their respective applications in the dockets herein named be severed from this proceeding and continued at a date to be set by further notice for various reasons as outlined in said requests.

(3) The sale of natural gas hereinbefore described, as more fully described in the application, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sale by Applicant, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(4) Applicant is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act, and the requirements, rules and regulations of the Commission thereunder.

(5) The sale of natural gas by Applicant, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is required by the public convenience and necessity, and a certificate therefor should be issued as hereinafter ordered and conditioned.

(6) A request during the public hearing by Staff Counsel for omission of the intermediate decision procedure under § 1.30 (c) of the Commission's rules of practice and procedure was unopposed by any party of record and, not having been denied by the Commission, is granted pursuant to § 1.30 (c) (1) of said rules.

The Commission orders:

(A) A certificate of public convenience and necessity be and is hereby issued, upon the terms and conditions of this order, authorizing the sale by Applicant of natural gas in interstate commerce for resale, together with the construction and operation of any facilities, subject to the jurisdiction of the Commission, used for the sale of natural gas in interstate commerce, as hereinbefore described and as more fully described in the application and exhibits in this proceeding.

(B) The applications filed by Sunray Mid-Continent Oil Company in Docket Nos. G–4268, G–4416, G–8663, G–8791, G–8825, G–9530, and G–9782, and Phillips Chemical Company in Docket No. G–6809 are hereby severed from this proceeding and continued at a date to be set by further notice.

(C) The certificate issued herein shall be deemed and accepted and of full force and effect, unless refused in writing and under oath by Applicant within 30 days from issuance of this order.

(D) The certificate is not transferable and shall be effective only so long as Applicant continues the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act, and the applicable rules, regulations and orders of the Commission.

(E) The grant of the certificate herein shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act, or of section 154 of the Commission's rules and regulations thereunder requiring the filing of rate schedules for the service herein authorized, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the Applicant. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objection relating to the operation of any price or related provision in the gas purchase contracts herein involved.

Issued: September 24, 1956.

By the Commission.

HASSIE HUNT TRUST

ORDER SUSPENDING PROPOSED CHANGES IN RATES

On August 22, 1956, Hassie Hunt Trust (Applicant) submitted for filing proposed changes in its rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes are contained in the following designated filings which are proposed to become effective on the date shown.

Description; Purchaser; Rate Schedule Designation; and Proposed Effective Date[1]

Notice of change dated August 20, 1956; Texas Eastern Transmission Corporation; Supplement No. 8 to Applicant's FPC Gas Rate Schedule No. 4; November 1, 1956.

The increased rates and charges so proposed have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the increased rates and charges proposed in Supplement No. 8 to Applicant's FPC Gas Rate Schedule No. 4, and that said supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4, 5, 15 and 16 of the Natural Gas Act, and the Commission's general rules and regulations (18 CFR, Chapter I) a public hearing be held upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 8 to Applicant's FPC Gas Rate Schedule No. 4, pending such hearing and decision thereon, such supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: September 25, 1956.

By the Commission.

[Docket No. G–11124]

HUNT OIL CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Hunt Oil Company (Applicant) on August 27, 1956, tendered for filing proposed changes in its presently effective rate schedule for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates are contained in the following designated filings which are proposed to become effective on the date shown.

Description; Purchaser; Rate Schedule Designation; and Effective Date[1]

Notice of change, dated August 23, 1956; United Gas Pipe Line Company; Supplement No. 6 to Applicant's FPC Gas Rate Schedule No. 5; November 1, 1956.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR 1, Chapter 1) a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: September 25, 1956.

PHILLIPS PETROLEUM CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Phillips Petroleum Company (Applicant) on August 27, 1956, tendered for filing proposed changes in its presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date[1]

Notice of change, dated 8–24–56; Arkansas Louisiana Gas Company; Supplement No. 19 to Applicant's FPC Gas Rate Schedule No. 31; September 27, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure.

Issued: September 25, 1956.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1–1493]

HUNT FOODS, INC.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

SEPTEMBER 24, 1956.

In the matter of Hunt Foods, Inc., common stock, File No. 1–1493.

Los Angeles Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2–1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

As the result of an exchange offer by Ohio Match Company which expires on August 15, 1956, there remain outstanding only 6,523½ shares in the names of 175 holders of record according to advices from the issuer. The stock has been suspended from trading on the Exchange since September 4, 1956.

Upon receipt of a request, on or before October 10, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

INTERSTATE COMMERCE COMMISSION

[Drouth Order 55, Amdt. 1]

TEXAS

TRANSPORTATION OF LIVESTOCK AND LIVESTOCK FEED AT REDUCED RATES; EXTENSION OF EXPIRATION DATE

In the matter of relief under section 22 of the Interstate Commerce Act.

Upon a consideration of a request by the Governor of the State of Texas, dated September 24, 1956, to extend the expiration date of this order:

It is ordered, That the order of April 2, 1956, be, and it is hereby, amended (a) to extend the expiration date from September 30, 1956, to and including March 31, 1957, and (b) to provide that agents or agencies of said State shall designate the class of persons entitled to the reduced rates.

It is further ordered, That notice to the affected railroads and the general public shall be given by depositing copies of this order in the office of the Secretary of the Commission and by filing copies with the Director, Division of the Federal Register; and that copies be mailed to the Chairman of the Traffic Executive Association — Eastern Railroads, New York, N. Y., the Chairman of the Southern Freight Association, Atlanta, Georgia, the Chairman of the Executive Committee, Western Traffic Association, Chicago, Illinois, the Traffic Vice-President of the Association of American Railroads, Washington, D. C., and to the President of the American Short Line Railroad Association, Washington, D. C.

Dated at Washington, D. C., this 26th day of September 1956.

By the Commission.

[Vesting Order 18502, Amdt.]

OKURA & Co.

In re: Bond owned by Okura & Company. F-39-995.

Vesting Order 18502, dated September 20, 1951 is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to

law after investigation, it is hereby found:

1. That Okura & Company, the last known address of which is Tokyo, Japan, is a corporation organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows: That certain debt or other obligation of The Pennsylvania Railroad Company, 1846 Broad Street Station Building, 1617 Pennsylvania Boulevard, Philadelphia 4, Pennsylvania, arising out of one (1) Pennsylvania Railroad Company General Mortgage, 5 percent, Series "B" Bond, No. 43271, of $1,000 face value, and arising out of coupons attached to or detached from said bond and due on or after June 1, 1941, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same and together with any and all rights in, to and under the aforesaid bond and coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Okura & Company, the aforesaid national of a designated enemy country (Japan); and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 26, 1956.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.
